5. Discussion/Action – Consider Authorization of Change Order No. 2 for Phase III Transfer Station Modification Project: J. Rabe informed the Solid Waste Management Board (SWMB) that construction is progressing well and Miron Construction (Miron) is doing a good job to date. However, it appears that significant modifications to the fire suppression system are needed which will impact the project budget. J. Rabe stated that SWMB staff are working through the options with Foth Infrastructure & Environment (Foth) and Miron and cost options will be presented to the SWMB at a future meeting.

6. Discussion/Action – 2011 Budget Workshop: J. Rabe reviewed the changes to the draft 2011 Budget documents with the SWMB (mailed to SWMB members prior to the meeting).

K. Robl asked if there was an account in the 2011 Budget for the beautification of the landfill after it closes. J. Rabe explained that some of the beautification (tree plantings on final cover) will take place in 2011 with the 15 acre final cover project (funds would come from the Sunnyview Closure account).

Discussion ensued amongst the SWMB about the beautification/end use plans for the Sunnyview Landfill.

General consensus of the SWMB was to review the Sunnyview Landfill beautification/end use plans at a future meeting and consider adding a line item for this in the retained earnings reservation.

7. Closed Session – Pursuant to 19.85(1)(e), Wisconsin Statutes for the purpose of deliberating or negotiating the purchase of public property, the investing of public funds, or conducting other specified public business, whenever competitive or bargaining reasons require a closed session.
