Safety concerns for intersection of STH 21/Westhaven Dr.

- 2011-2015 crash data did not show types of crashes that were related to the complaint.
- Traffic count reviewed. Westhaven Dr. marked properly (right turn only, straight/left turn combination) based on data, including traffic volumes. Data doesn't support a change.

Speed limit on STH 21 from Washburn St. to Oshkosh Ave.

- General discussion on DOT signage guidelines, speed limit determinations, etc. and how it applies in this area. Discussed 85th percentile. Traffic statistics would not support a change.

Pending and potential legislation affecting highway safety:

- None

Round Table Discussion:

- Morrison – would like to see if Oshkosh Police Department would be interested in having a representative present.
- Doemel – CTH CB/Oakridge Rd. intersection will have a public involvement meeting on 07/20/16 from 5-7 P.M. at the Town of Neenah Town Hall. More information is available on the Highway Department's website. Several construction projects are scheduled: CTH FF railway bridge replacement, CTH G bridge replacement, CTH E chip seal, CTH G mill and overlay, CTH GG mill and overlay, CTH II chip seal and mill and overlay, and CTH M mill and overlay.
- McGinley – Interested in STH 21/Leonard Point Rd. intersection and potential for crashes. WI DOT will bring crash data to next meeting.
