5.8.1 Generally.

The Plan Commission shall make recommendations to the Town Board for decision consistent with this part. In this sub-section, the following terms apply:

Conditional Use means a use allowed under a conditional use permit, special exception, or other special zoning permission issued by the town, but does not include a variance.

Substantial evidence means facts and information, other than merely personal preferences or speculation, directly pertaining to the requirements and conditions an applicant must meet to obtain a conditional use permit and that reasonable persons would accept in support of a conclusion.

5.8.2 Application and Review Procedure.

The following procedure shall be followed:

- a. **Submittal of application.** The applicant shall submit a completed application and site plan to the Zoning Administrator at least 30 days prior to the established monthly meeting date of the Plan Commission along with the appropriate fee as listed in the Town of Nepeuskun Annual Fee Schedule.
- b. **Determination of completeness.** Within ten (10) business days of submittal, the zoning administrator shall determine if the application is complete. If the application is deemed incomplete it shall be returned to the applicant and the applicant has six (6) months to resubmit the application or forfeit the application fee. Until the application is deemed complete, no other actions are required.
- c. **Placement of public notice.** Following a determination of completeness, the Plan Commission Secretary shall publish public notice.
- d. **Public hearing.** Allowing for proper notice, the Plan Commission shall hold a public hearing to review the application and make a recommendation to the Town Board.
- e. **Decision.** Within forty (40) days of the public hearing, the Town Board shall approve the application, approve it with conditions, or deny it. Such decision shall be in writing and shall include findings in support of its decision and, if approved, conditions as may be imposed.
- f. **Applicant notification.** Within five (5) days following the decision, the Board shall mail the applicant the original (signed) copy of the decision and retain a (signed) copy for the public record.

5.8.3 Imposition of Conditions.

In approving the conditional use, the Town Board may impose such conditions as may be necessary to grant approval. The requirements and conditions described, must be reasonable and, to the extent practicable, measurable and may include conditions such as the permit's duration or renewal. The applicant and all requirements and conditions established by the Town relating to the conditional use are or shall be satisfied, and must be supported by substantial evidence. The Town's decision to approve or deny the permit must be supported by substantial evidence. The applicant must provide information to allow for the review of such conditions, ~~for~~ **example, may** which relate to the following:

- a. reduction of intensity or scale of the project,
- b. require landscaping, buffers, and/or fencing to minimize effects to surrounding properties and/or the general area,
- c. require the developer to provide appropriate on-site and off-site infrastructure,
- d. modify the architectural design and/or type of construction,
- e. post bonds and sureties,
- f. water supply and waste disposal systems,
- g. limit hours, modes of operation & operational procedures,
- h. attractive signage,
- i. acceptable outdoor lighting to contain "light splash",
- j. adequate, safe parking,
- k. loading and unloading location and hours
- l. other actions supported by substantial evidence intended to mitigate, minimize, or avoid negative effects of the project.

5.8.4 Expiration of Approval.

A conditional use permit shall expire one (1) year after the date of issuance unless substantial work has commenced under the permit and continues in good faith to completion.

5.8.5 Revocation. The Town may revoke a conditional use permit when it determines that the property owner is in violation of the conditional use permit. The basis for permit termination or revocation must be supported by substantial evidence.

5.8.6 Limitations.

The Town Board shall not have the power to approve or disapprove conditional uses in areas such as shorelands, where applicable statutes of the State of Wisconsin withholds such power from town boards.

5.8.7 Review Criteria.

In reviewing an application for a conditional use permit, the Town Board shall review the following information required by the applicant and at a minimum consider the following:

- a. suitability of the proposed site for the proposed use
- b. compatibility with surrounding parcels
- c. effects on local services
- d. effects on utilities
- e. effects on public health, safety, and welfare
- f. presence of anticipated hazards
- g. existing and proposed structures
- h. architectural plans
- i. on-site and off-site traffic circulation

5.8.8 Special Requirements for Aggregate and Soil Extraction Operation. (See Section 5.4.5, for definition)

In addition to receiving a conditional use permit from the Town, the applicant shall also obtain a non-metallic reclamation permit as required by County Ordinance, Chapter 20.

5.8.9 Special Requirements for Intensive Animal Production.

1. **Conditional Use Permit for New and Expanded Intensive Animal Production Facilities.** A conditional use permit is required for all new intensive animal production facilities, as defined in this chapter. In addition, a conditional use permit is required for the expansion of a pre-existing or previously approved livestock facility if the number of animal units kept at the expanded livestock facility will exceed all of the following:
 - a. The applicable size threshold set forth in the definition of intensive animal production
 - b. The maximum number previously approved or, if no maximum number was previously approved, a number that is 20 percent higher than the number kept on (May 1, 2006 or on the effective date of the license requirement, whichever date is later)
2. **Standards for Issuing a Permit.** The state livestock facility siting standards adopted under ATCP 51, Wis. Adm. Code, inclusive of all appendixes and worksheets and any future amendments to this chapter, except as may be noted in this chapter, are incorporated by reference in this chapter, without reproducing them in full. Specific setback requirements for intensive animal production facilities, in accordance with ATCP 51, are as follows:
 - a. Except as provided for waste storage structures, livestock structures must be located a minimum of 100 feet from the property line if the livestock facility will have fewer than 1,000 animal units, and 200 feet from the property line if the livestock facility will have 1,000 or more animal units.
 - b. Except as provided for waste storage structures, livestock structures must be located a minimum of 100 feet from public road right-of-way if the livestock facility will have fewer than 1,000 animal units, and 150 feet from a public road right-of-way if the livestock facility will have 1,000 or more animal units.
 - c. A new waste storage structure may not be located within 350 feet of a property line, or within 350 feet of the nearest point of any public road right-of-way.
3. **Application Process.**
 - a. A livestock operator must complete the application form and worksheets prescribed by ATCP 51, including any authorized local modifications. The application form and worksheets demonstrate compliance with standards in ATCP 51 and this ordinance.
 - b. The operator must file four (4) duplicate copies of the application form, including worksheets, maps and documents (other than engineering design specifications) included in the application.
 - c. A non-refundable application fee of \$1000 payable to the Town of Nepeuskun shall accompany an application for the purpose of offsetting the Town's costs to review and process the application.
 - d. Pursuant to ATCP 51.30 (5), within forty-five (45) days after a political subdivision receives an application, it shall notify the applicant whether the application is complete. If the application is not complete, the notice shall describe the additional information needed. Within fourteen (14) days after the applicant provides all of the required information, the political subdivision shall notify the applicant

that the application is complete. This notice does not constitute an approval of the proposed livestock facility.

- e. Pursuant to ATCP 51.30 (6), within fourteen (14) days after a political subdivision notifies an applicant that the application is complete, the political subdivision shall notify adjacent landowners of the application. The political subdivision shall use the approved notice form in ATCP 51, and mail by first class mail a written notice to each adjacent landowner.
 - f. Upon determination of completeness the town clerk shall give notice of a public hearing to receive information from the applicant and receive public input on the application. Public notice shall be a class 2 notice the last of which is at least one (1) week before the date of the public hearing. The public hearing may be continued, but final decision shall be made within the time limits described in the next paragraph.
 - g. Pursuant to ATCP 51.32, a political subdivision shall grant or deny an application within ninety (90) days after the political subdivision gives notice that the application is complete under paragraph 2 above. The Town may extend this time limit for good cause, including any of the following:
 - (1) The Town needs additional information to act on the application.
 - (2) The applicant materially modifies the application or agrees to an extension.
 - h. A political subdivision shall give written notice of any extension. The notice shall specify the reason for the extension, and the extended deadline date by which the political subdivision will act on the application.
 - i. A political subdivision must issue its decision in writing. The decision must be based on written findings of fact supported by evidence in the record. Findings may be based in part on the presumptions created by ATCP 51.
 - j. If the political subdivision approves the application, it must give the applicant a duplicate copy of the approved application, marked "approved." The duplicate copy must include worksheets, maps and other documents (other than engineering specifications) included in the application.
 - k. The Town Clerk as required by ATCP 51.36 shall do all of the following within thirty (30) days of the Town's decision on the application:
 - (1) Give the Department of Agriculture, Trade and Consumer Protection written notice of the Town's decision.
 - (2) File with the Department a copy of the final application granted or denied, if the Town has granted or denied an application under this ordinance. (The copy shall include all of the worksheets, maps and other attachments included in the application, except that it is not required to include the engineering design specifications.)
 - l. If the town has withdrawn a local approval under this ordinance, a copy of the Town's final notice or order withdrawing the local approval will be filed with the Department of Agriculture, Trade and Consumer Protection
4. **Transferability of Permit.** A permit and the privileges granted by the permit run with the land approved under the permit and remain in effect, despite a change in ownership of the livestock facility, as long as the new operator does not violate the terms of the local approval. An applicant may record with the register of deeds, at the applicant's expense, the duplicate copy of the approved application. The Town requests that upon change of ownership of the livestock facility, the new owner of the facility shall file information with the Town Clerk providing pertinent information, including but not limited to such information as the name and address of the new owner and date of transfer of ownership.
5. **Expiration of Permit.** A permit remains in effect regardless of the amount of time that elapses before the livestock operator exercises the authority granted under permit, and regardless of whether the livestock operator exercises the full authority granted by the approval. However, the political subdivision may treat a permit as lapsed and withdraw the permit if the permit holder fails to do all of the following within two (2) years after issuance of permit:
- a. Begin populating the new or expanded livestock facility.
 - b. Begin constructing all of the new or expanded livestock housing or waste storage structures proposed in the application for local approval.
6. **Permit Terms and Modifications.** A permit and the privileges granted by a permit issued under this ordinance is conditioned on the livestock operator's compliance with the standards in this ordinance, and with commitments made in the application for a permit. The operator may make reasonable changes that maintain compliance with the standards in this ordinance, and the political subdivision shall not withhold authorization for those changes. A violation of the permit or a failure to comply with the commitments made in the application may result in suspension and/or termination of the permit.
7. **Town Approval.** If an applicant for a conditional use permit meets or agrees to meet all of the requirements and conditions specified in the ordinance and those imposed by the Town Board, The Town Board shall grant the conditional use permit. Any condition imposed must be related to the purpose of this ordinance
-

and be based on substantial evidence. The requirements and conditions described, must be reasonable and, to the extent practicable, measurable and may include conditions such as the permit's duration or renewal. All requirements and conditions established by the Town relating to the conditional use are or shall be satisfied, both of which must be supported by substantial evidence. The Town's decision to approve or deny the permit must be supported by substantial evidence.

Article 10.
Development and Use Standards

5.10.1 Building Grade.

The finished grade for the principal structure shall be at least twelve (12) inches above the crown of any adjacent public road at the center of said structure. Where an alternate elevation would better suit the existing or proposed use surrounding the site, the zoning administrator can set an alternative finished grade which shall be noted on the zoning permit.

5.10.2 Roads (Public). Roadways (Private).

1. Roads and roadways shall comply with the following standards:
 - a. Roadways should follow existing contours to minimize the extent of cuts and fills.
 - b. Roadways should not be located in open fields.
 - c. Roads serving residential developments, subdivisions, or clusters of certified survey lots should be designed to provide continuity with the existing road system and with potential future roads serving adjoining parcels.
 - d. Where certified survey lots are created, sufficient right-of-way access to "interior" portions of large land holdings should be reserved.
 - e. All roads shall be built to Town standards.

5.10.3 Driveways.

Driveways must comply with Chapter 13: Driveway and Culvert Ordinance.

5.10.4 Common Driveways.

- a. **Generally.** Wherever possible, common driveways shall be used to limit the number of access points onto town, county, and state roads.
- b. **Maximum number of units served.** A common driveway may serve up to four (4) residential units.
- c. **Maintenance agreement required.** All lots using a common driveway shall be covered by a driveway maintenance agreement as approved by the Town.

5.10.5 The Residential Building Site in any District.

The building site shall comply with the following:

- a. Maximum total lot disturbance: 50 percent of lot area or 25,000 square feet, whichever is less. Site disturbance shall include all areas disturbed for the purpose of constructing buildings and structures as well as all graded areas and lawns. The total shall include disturbed areas both inside and outside the building envelope.
- b. Building envelopes should be selected that do not permit rooflines to protrude above the crest of hilltops.
- c. Building envelopes shall be located on the edges of fields or parcels.
- d. Building envelopes shall not encompass wetlands, heavily treed areas, floodplains, and other environmentally sensitive areas.
- e. Building envelopes shall not include areas with slopes in excess of 15 percent.
- f. Existing vegetation shall be preserved in areas where disturbance is not necessary outside the building envelope.
- g. Where landscaping is proposed, native species shall be incorporated in the design.
- h. Where building envelopes are located in woodlands, a treed area of at least thirty (30) feet between the building envelope and the common drive or roadway should be retained.
- i. On property bordering streams and creeks, not more than twenty-five (25) linear feet of shoreline per lot shall be disturbed. This includes docks, piers, and beach areas.

5.10.6 Residential Design Principles in any District.

In designing new residential projects the following design principles shall be followed:

- a. Minimize clearing and disruption of the landscape and take advantage of the attractive way that town roads are often lined with trees.
 - b. Preserve man-made and natural features. Traditional landscape features, (fences, tree lines, meandering creeks, streams), define outdoor areas in a natural way and create corridors for wildlife movement. Using these features as property lines is often appropriate, as long as setback requirements do not result in constructing buildings in the middle of a field.
 - c. Place buildings and structures either at the edges of fields or parcels or in cleared areas next to fields. Septic systems and drainage fields, however, may be placed in fields.
 - d. Use existing vegetation and topography to buffer and screen new development.
-

- e. Minimize clearing vegetation at the edge of the road, clearing only as much as necessary to create driveway access with adequate sight distance. Use curves in the driveway design to add to the screening of the building.
- f. Locate buildings so that they do not protrude above treetops and crest lines of hills seen from public places and roads. Use vegetation as a backdrop to reduce the prominence of the structure. Wherever possible, open up views by selectively cutting small trees and lower branches of larger trees, rather than clearing large areas or removing mature trees.
- g. Minimize crossing of steep slopes with roads and driveways. When building on slopes, take advantage of the topography by building multi-level structures with entrances on more than one level (e.g. walkout basements, garages under buildings), rather than grading the entire site flat. Use the flattest portions of the site for subsurface sewage disposal systems and parking areas.
- h. Use best management practices for erosion and sediment control.

5.10.7 Residential.

No more than one (1) residential building shall occupy any single parcel or lot. When an old residence is being replaced by a new residence on the parcel, the old residence must be removed within a six (6) month period of receiving the occupancy permit for the new residence.

5.10.8 Fences.

Fences are permitted on or near property lines. All fences must comply with the minimum requirements for fences set forth in Chapter 90, Wisconsin Statutes.

5.10.9 Farm Animals.

1. **Agricultural Districts (A2).** Farm animals in the A-2 district shall be allowed consistent with the tables in this section and in accordance with the Winnebago County Livestock Waste Management Ordinance. The number of permitted animals per acre shall be based on the acreage of all adjacent parcels in common ownership (referred to in Exhibit 4 as "Parcel or Tract") or leased through an agreement with adjacent parcel owners. The lease agreement must specify a period of time the agreement will be in effect and be filed with Winnebago County and the applicant is issued a Waste Management permit for livestock waste disposal. For this purpose, adjacent parcels are parcels that share a lot line or are directly across the road from each other. In addition, parcels can only be subject to one lease agreement that allows livestock waste disposal.

Exhibit 4.

Parcel or Tract size	Requirement
Less than 2 acres	Not permitted (except hen chickens)
2 acres to 34.99 acres	one animal unit per acre
35 acres and larger	no restriction for general farming purposes

2. **Farm animals in the R-1 and C-2 districts** Farm animals may be allowed in the R-1 or C-2 district on parcels over 2 acres as a conditional use, consistent with the density regulations set forth in Exhibit 5.
3. **Animal Unit Calculation.** For the purpose of these regulations, an "animal unit" is defined in the table below. For animal types not listed in the following table, the Town shall determine equivalency to animal units as the DNR would in NR 243.

Exhibit 5. Number of Animal Types Equivalent to 1,000 Animal Units and Animal Equivalency Factors
DNR regulation NR 243

Number Equivalent to 1,000 Animal Units	Subcategory of Animal Types	Animal Equivalency Factor
DAIRY CATTLE		
700	Milking and dry cows	1.4
910	Heifers (800 to 1,200 lbs)	1.1
1,670	Heifers (400 to 800 lbs)	0.6
5,000	Calves (under 400 lbs)	0.2
BEEF CATTLE		
1,000	Steers or cows (1,000 lbs to Mkt)	1.0
1,250	Steers or cows (600 to 1,000 lbs)	0.8
2,000	Calves (under 600 lbs)	0.5
700	Bulls	1.4
SWINE		
2,500	Pigs (55 lbs to mkt)	0.4
10,000	Pigs (up to 55 lbs)	0.1
2,500	Sows	0.4

5.10.10 Outdoor Lighting – Non-commercial.

Outdoor lighting installations shall be permitted provided they are no closer than three (3) feet to an abutting property line and they are shielded or positioned so that no excessive glare or illumination is cast upon the adjoining property.

5.10.11 Outdoor Lighting – Commercial.

Outdoor lighting on commercial lots, whether conforming or nonconforming, shall comply with the following:

- a. **Height of fixtures.** No light fixture shall exceed twenty-five (25) feet in height.
- b. **Design.** All fixtures shall be of a cut-off design (i.e., shall not emit light at an angle greater than 90 degrees from vertical).
- c. **Shielding.** All light fixtures shall be adequately shielded or directed so as to confine the area of light dispersion to the property and/or building area on which the fixture is located.

5.10.12 Private Ponds and Impoundments.

All man-made private ponds and impoundments shall comply with the following:

- a. **General design.** ~~They shall be designed so as to minimize the threat of accidental drowning.~~ The side slope of a manmade pond must provide no greater than a 1-foot vertical change for every 3-feet of horizontal change and this ratio must be maintained until the slope extends 6 vertical feet below the high-water mark.
- b. **Proximity to specified objects.** Private ponds shall be located no closer than forty (40) feet to an adjoining property boundary, no closer than fifty (50) feet to any septic system drainfield, ~~or~~ and no closer than twenty-five (25) feet from a septic tank or holding tank.
- c. **Outlets.** Outlets shall be designed so as not to concentrate runoff onto another person's property or to cause erosion.

- d. **Distance from Public roadways** The manmade pond setback from a public roadway increases two (2) times for every foot of pond depth plus the normal roadway set back distance for the zoning district. (Example: a 20-foot-deep pond would need to be 140 feet from the public road centerline - 2 times 20 plus 100 centerline setback).
- e. **An approved reclamation plan for non-metallic mining are exempt from these provisions.**

5.10.13 Campgrounds.

Please refer to DHS 178. Also, Wis. Stats 254.47.

5.10.14 Manufactured Homes Anchoring.

Manufactured homes that are not on a permanent foundation shall be placed and anchored to prevent flotation, collapse, or lateral movement due to flooding or winds. Manufactured homes shall be anchored according to the following specifications:

- a. Over-the-top ties shall be provided at each of the four (4) corners of the manufactured home, with two (2) additional ties per side at intermediate locations and manufactured homes less than fifty (50) feet long shall require one (1) additional tie per side.
- b. Frame ties shall be provided at each corner of the manufactured home, with two (2) additional ties per side at intermediate locations and manufactured homes less than fifty (50) feet long shall require one (1) additional tie per side.
- c. All components of the anchoring system shall be capable of carrying 4,800 pounds.

Manufactured Home Parks are addressed in Section 5.10.18.

5.10.15 Home Occupation, Type I

A Type I home occupation shall comply with the following:

- a. **Validity of use.** The individual primarily responsible for the home occupation must reside in a dwelling unit on the parcel.
- b. **Location.** The home occupation shall occur entirely within the dwelling unit.
- c. **Employees.** No more than one (1) nonresident employee may work on the property. (Note: There is no restriction on the number of people that may be employed and that work off-site.)
- d. **Exterior character of the dwelling unit.** The exterior character of the dwelling unit shall not be substantially altered to accommodate the home occupation.
- e. **Storage of materials.** Exterior storage of materials or equipment is prohibited.
- f. **Signs.** A sign not exceeding eight (8) square feet may be placed on the parcel to identify the business.
- g. **Retail sales.** The indoor display or retail sales of those products manufactured or otherwise made on the premises are permitted. All other on-site sales are prohibited.
- h. **Lot size.** The minimum lot size is two (2) acres.
- i. **Parking.** No parking facilities shall be allowed within any side or rear yard setback areas or within twenty-five (25) feet of any road or highway right-of-way.

5.10.16 Home Occupation, Type II.

A Type II home occupation shall comply with the following:

- a. **Validity of use.** The individual primarily responsible for the home occupation must reside in a dwelling unit on the parcel.
- b. **Location.** The home occupation shall occur entirely within the dwelling unit and/or an accessory building not exceeding 750 square feet.
- c. **Employees.** No more than three (3) nonresident employees may work on the property. (Note: There is no restriction on the number of people that may be employed and that work off-site.)
- d. **Exterior character of the dwelling unit.** The exterior character of the dwelling unit shall not be substantially altered to accommodate the home occupation.
- e. **Storage of materials.** Exterior storage of materials or equipment is prohibited.
- f. **Signs.** A sign not exceeding eight (8) square feet may be placed on the parcel to identify the business.
- g. **Retail sales.** The indoor display or retail sales of those products manufactured or otherwise made on the premises are permitted. All other on-site sales are prohibited.
- h. **Lot size.** The minimum lot size is two (2) acres.
- i. **Parking.** No parking facilities shall be allowed within any side or rear yard setback areas. Or within twenty-five (25) feet of any road or highway right-of-way.

5.10.17 Home Occupation, Type III – Cottage Industry

- a. **Validity of use.** The individual primarily responsible for the home occupation must reside in a dwelling unit on the parcel.
-

- b. **Location.** The home occupation shall occur entirely within the dwelling unit and/or an accessory building. No buildings except residences shall be within fifty (50) feet of a side or rear property line, and no building except a roadside stand shall be located within the front yard of the property.
- c. **Employees.** No more than five (5) nonresident employees may work on the property. (Note: There is no restriction on the number of people that may be employed and that work off-site.)
- d. **Storage of materials.** Exterior storage of materials or equipment is prohibited.
- e. **Signs.** A sign not exceeding eight (8) square feet may be placed on the parcel to identify the business.
- f. **Retail sales.** On-site retail sales are prohibited.
- g. **Lot size.** The minimum lot size is two (2) acres.
- h. **Parking.** No parking facilities shall be allowed within any side or rear yard setback areas. Or within twenty-five (25) feet of any road or highway right-of-way.
- i. **Noise.** No part of any building used as an agricultural commerce enterprise where repairs to equipment and machinery are performed for hire, or where the fabrication of parts, equipment, or other products for sale occurs, or involves in any other way hammering or other work causing loud or unusual noise, fumes or odors, shall be located within two hundred (200) feet of any R1–Residential District.

5.10.18 Home Occupation, Type IV. A Type IV home occupation shall comply with the following:

- a. **Validity of use.** The individual primarily responsible for the home occupation must reside in a dwelling unit on the parcel.
- b. **Location.** The home occupation shall occur entirely within the dwelling unit and/or an accessory building.
- c. **Employees.** No more than one (1) nonresident employee may work on the property. (Note: There is no restriction on the number of people that may be employed and that work off-site.)
- d. **Exterior character of the dwelling unit.** The exterior character of the dwelling unit shall not be substantially altered to accommodate the home occupation.
- e. **Storage of materials.** Exterior storage of materials or equipment is prohibited.
- f. **Signs.** A sign may not be placed on the parcel to identify the business. There shall be no exterior evidence that a building is being used for any purpose other than a dwelling or an accessory structure.
- g. **Retail sales.** The indoor display or retail sales of those products manufactured or otherwise made on the premises are permitted. All other on-site sales are prohibited.
- h. **Lot size.** There is no minimum lot size.
- i. **Parking.** No parking facilities shall be allowed within any side or rear yard setback areas or within twenty-five (25) feet of any road or highway right-of-way.
- j. The home occupation shall not cause any odor, dust, smoke, vibration, noise, runoff, heat, glare, or electromagnetic interference, which can be detected at, or beyond, the property line.

5.10.19 Manufactured Home Park. Manufactured Home Parks shall comply with the following:

- a. **Site size.** Each site to accommodate a manufactured home shall contain not less than 5,000 square feet with a minimum width of fifty (50) feet.
 - b. **Parking.** Each site to accommodate a manufactured home shall contain one (1) parking space upon which the manufactured home shall be situated and one (1) automobile parking space which shall be paved with concrete or bituminous material.
 - c. **Internal access.** There shall be a system of private roadways which are at least twenty-four (24) feet wide and paved with concrete or bituminous material. Such road system shall provide access from each and every manufactured home and automobile parking space within such manufactured home park to the public road.
 - d. **Limitation on accesses.** A manufactured home park shall not have more than two (2) points of ingress/egress onto any public road.
 - e. **Setbacks and separation.**
 - (1) Each manufactured home site shall be separated from all other manufactured home sites, automobile parking spaces, or service buildings or structures within such park by open spaces, permanently planted to grass, flowers, shrubs, or trees, which shall not be less than fifteen (15) feet wide, except that there need not be more than a 5-foot setback from an access driveway; provided, however, that such 5-foot setback shall apply to the longest manufactured home to be accommodated within such park.
 - (2) All manufactured home park maintenance, storage areas or facilities, and sewage treatment facilities shall be screened from all dwelling lots, internal streets, and public roads by manmade screens or natural plant materials.
-

- (3) A minimum of ten (10) percent of the gross manufactured home park area or 1,000 square feet per dwelling unit, whichever is larger, shall be provided for outdoor recreation. This recreation space shall be suitable for outdoor recreational activity and shall be easily accessible to all units. The Town reserves the right to accept a fee in place of the land area should the town deem appropriate based on the recommendation of prior planning efforts.
 - (4) No manufactured home shall be located less than fifty (50) feet from any front, side, or rear yard line of the lot or parcel.
 - (5) No manufactured home shall be located less than fifty (50) feet from any maintenance, storage areas or facilities, and sewage treatment facilities if present.
 - (6) There shall be a maintained vegetated buffer, not less than twenty (20) feet in width, within any yard area not fronting on a public road.
 - (7) Where the property fronts on a public road or highway, within the required yard area at least 50 percent of the length of the frontage on said public road shall be planted and maintained with a vegetated buffer.
 - (8) No manufactured home or other structures, or parking areas, shall be located within one hundred (100) feet of a stream edge or any wetland as defined by state or federal law. With the exception of stream crossings, no roadways shall be located within one hundred (100) feet horizontal distance from a stream edge or any wetland as defined by state or federal law.
- f. **Maintenance.** The manufactured home park owner shall be responsible for the maintenance of all park facilities, including areas designated as open space, recreation areas, landscaping, streets, privately owned sewage disposal and water supply systems, and solid-waste collection and storage facilities. Maintenance provisions shall be addressed through the conditional use permit process.
- g. **Installation.**
- (1) All manufactured home tow bars and hitches which are designed to be removable at the time of installation shall be removed in accordance with the manufacturer's instructions when the dwelling is sited.
 - (2) Each dwelling within the manufactured home park shall have the space underneath the dwelling enclosed by skirting constructed of fire-resistant material.
 - (3) Where an individual manufactured home lot abuts a front yard of the manufactured home park or a side or rear yard that borders a public road or highway, said manufactured home shall be sited in a manner so that the longer side of the manufactured home is parallel to or nearly parallel to the public road or highway right-of-way line.
- h. **Office.** Each manufactured home park shall maintain an office where a register shall be kept for the registration of all occupants, which register shall be open to County or Town officials for inspection.
- i. **Compliance with other laws.** All lots must be developed and duly recorded pursuant to state and Chapter 18 of the Winnebago County Subdivision Ordinance. Unsewered lots must comply with Chapter ILHR 85 of the Wisconsin Administrative Code. All other aspects of the manufactured housing community shall comply with applicable state regulations.

5.10.20 Cemeteries.

All cemeteries established after the adoption date of this code shall comply with the following standards:

- a. A cemetery shall have at least fifty (50) double burial plots measuring at least 10' by 10' to accommodate two (2) adult burials measuring 37" x 93" x 6".
- b. Burial plots shall not be located in the floodplain or in wetland areas.
- c. The cemetery shall have a public access road to its outside boundary.
- d. The cemetery shall be protected from the grazing of farm animals.
- e. Burial plots shall not be located within fifty (50) feet of a public road right-of-way.
- f. A permanent marker stating the name of the deceased and the birth and death dates, if known, shall identify the location of each occupied burial plot.
- g. The cemetery shall have a formal name, which shall be placed on a permanent sign located by the main entrance to the cemetery.
- h. Each burial plot shall have access to a private drive at no greater distance than five (5) lots apart.

5.10.21 Accessory Uses.

1. **Generally.** Unless otherwise specified in other sections, accessory uses and structures are permitted in any district, but not until their principal structure is present or under construction. Residential accessory uses shall not involve the conduct of any business, trade or industry. Accessory uses include incidental repairs; storage; parking facilities; employees and owner's itinerant agricultural laborer's quarters not for rent; private swimming pools; and private emergency shelters.

2. **Accessory use location.** Unless otherwise specified in other sections or granted by variance, accessory uses and detached accessory structures are permitted within the buildable area or in the side or rear yard only. They shall be ten (10) or more feet from the principal structure and any lot line. For non-agricultural uses, structures ~~shall not exceed eighteen (18) feet in height and~~ shall not occupy more than 20 percent of the rear or yard area of the site.

5.10.22 Farm Buildings. Farm buildings and other out-buildings exceeding 120 square feet (cumulative area) shall only be allowed as an accessory use to a residence. For parcels exceeding thirty-five (35) acres, farm buildings and other out-buildings are allowed as a conditional use when a residence is not located on the premises.
