Hello Sue,

I will have my husband find the cheapest dock to replace, which I believe is on Craigslist. I'm regards to repairing the dock with the safe and shelter imposed by the state I doubt any dock sales or repair places are deemed essential, so what would be your suggestion be, as it was one of YOUR employees wrecked OUR dock.

I was home and was looking out the window when I watched him hit our dock and kept driving east on Cty Rd H. I called in and talked to Jeremy and he asked me to email him pictures, which I did. He told me he would come out and look at himself and get back to me. After a few weeks I never heard anything from him and finally, after calling him many times, he got back to me last week. I was told to call Doug, which I have done. He told me I needed to reach out to you. I had my husband get an estimate of similar 64 foot dock and the cheapest he can find is \$8000. Please feel free to come out and look at the dock as we will not being doing anything with it until this has been resolved. Please let me know once you have received my email. You can reach me at 715-281-8293.
