

Governor Evers' Budget

Better, more affordable care, covering more Wisconsinites

Supporting Winnebago County

Medicaid expansion is the lever that Wisconsin pulls to infuse new federal dollars into the rest of our health care system, with the aim of improving the health and well-being of every citizen. Medicaid is a critical part of our health care system. In Wisconsin, 1.1 million residents rely on Medicaid for high-quality health care. The budget expands Medicaid to cover childless adults, parents, and caretakers with incomes up to 138% of the federal poverty level, which is about \$17,000 per year for a single person. This expansion will enable an estimated 82,000 additional individuals to access affordable health care.

Medicaid expansion will also allow the state to draw down new federal funds and save Wisconsin taxpayers \$324.5 million. The budget proposes to reinvest these savings into new initiatives to improve health care access and quality for all Winnebago County residents, not just those enrolled in Medicaid. The expansion plus the new initiatives will enable us to draw down a total of \$1.6 billion in new federal funding. When we combine these new initiatives with all other investments for Department of Health Services programs—from both the state and federal government—the budget provides a total of \$2.6 billion in new funding. Of this, \$2.4 billion will be invested in Wisconsin communities, including \$104 million in Winnebago County.
