Simplifying life.

Personalized solutions that work for your unique **at home** needs

About Us

Summit Home Care is a locally owned and operated organization with strong roots in healthcare. We look to provide non-medical at home care for all ages, who need an extra hand accomplishing their activities of daily living.

We are empowering independence without compromising quality of life.

Specialties Available

- Home Aides
- Certified Nursing Assistants
- Respite Care

Our team provides non-medical care and routine home support to keep life simple.

Our primary purpose is to provide you or your loved ones the necessary assistance and care they may need when family is away. Our non-medical services focus on enabling the recipient to have choices in their level of care, protecting their dignity, and maintaining as much independence as possible.

Flexible solutions for your personal needs

Our at home caregivers are a diverse group of individuals who have various levels of experience and skills. We realize it is not an easy decision to invite a stranger into your or your loved one's home to provide care and support. For this reason, we perform thorough background checks and personality reviews to ensure the care meets their standards.

At Home, Companion Care

Taking care of a loved one at home can be challenging.

Let us make it easy.
