## **Parks & Recreation Committee Meeting Minutes**

Date & Time of Meeting: Tuesday, January 16, 2024 at 10 a.m.

Location: Sunnyview Expo Center

Present: Steve Binder, Jim Ponzer, Karen Powers, Josh Belville, Rachael Dowling

Also Present: Adam Breest, Justin DeJager, Rick Helms, Kyle Vergin, Community Members

1. Call to order:

Karen Powers called the meeting to order at 10:02 a.m.

2. Approval of Agenda:

Steve Binder moved to approve the agenda and Josh Belville seconded.  
Motion carried 4-0.

3. Approval of December 10, 2023 Minutes:

Steve Binder moved to approve the minutes and Josh Belville seconded.  
Motion carried 4-0.

4. Public Comment – Pertaining to Items Listed on Today's Agenda:

Greg Madouse, Oshkosh – Opposed to raising boat landing fees. Make it a launch fee, not a boat trailer parking fee. Wants more transparency on where funds are being allocated.

Paul Williams, Town of Black Wolf – Opposed to raising boat landing fees. ATVs/trailers are not being charged.

Doug Nelson, Winneconne, District 35 Supervisor – When Winneconne installed pay stations at boat landing, revenue and violations went up. Parking fee is still the way to go. Simplify parking fees, eliminate three-year and senior discount. One permit for the whole county.

Dan Ruben, Oshkosh – Opposed to raising boat landing fees. Let's see how the pay stations work before raising fees.

Sid Opperman, Oshkosh – Wants the committee to look into a Wiouwash Trail permit for ATV usage for disabled citizens.

Kathy Williams, Oshkosh – Wants the boat launch fee applied to more people, not just the boaters.

5. **Discussion/Action** – Ordinance Modification Chapter 19.24-11 – Boat Landing Fees

Discussed tabling the boat landing fees until the fall. There will be no change in fees this year.

Citizens are welcomed to contact the parks department anytime to discuss these fees with the Director.

As a county, we can charge a fee to access the lake. Looking to change it from a parking fee to a launch fee.

Committee would like to investigate a county boat launch permit that includes all boat landings in Winnebago County. Maybe put the sticker on the trailer, not the vehicles. Important to keep community updated on discussions about the boat landings. Have a few public meetings and get organized for a decision in fall.

Karen Powers made motion to table the amendment for the fee increases until the fall. Seconded by Steve Binder. Motion carried 5-0.

6. **Discussion** – Comprehensive Outdoor Recreation Plan Draft Plan

Reviewed the CORP draft plan. Will have final draft completed for parks committee in February and then on the County Board agenda in March. Committee appreciates soccer and rugby clubs willingness to fundraise for future improvements at the park. Would like to see other groups get involved too.

7. **Discussion** – 2024-2028 Capital Improvement Plan – Parks Department

Discusses upcoming projects including: West campus improvements at expo, shelters 1, 2, & 4 repairs at Community Park, park paving, expo room dividers, and expo floor sealing. Ready to move forward with these projects once they are approved.

8. Park Director Updates:

- Grundman Boat Landing Construction Update – Going through final punch list, camera request waiting for approval, lighting is on, new picnic tables.
- Sunnyview Expo Sign Lease Update – Lease with sign company approved. Waiting on sign company. Need to go to Town of Oshkosh for variance request. Have not discussed the final design yet.
- CivicRec – Updating our rec software from RecDesk to CivicRec.
- Shelter Reservations and Boat Launch Passes – Reservation and boat launch trailer parking passes are available. Discontinuing winter reservations at the pavilion due to utility costs.

9. Committee Comments:

Josh Belville – No comment.

Steve Binder – No comment.

Rachael Dowling – Add an additional public comment to the end of agenda. Would like time limit mentioned as well.

Jim Ponzer – No comment.

Karen Powers – Need something on agenda that let's public know to contact the parks department to put something on the agenda.

10. Next Meeting Date:

Tuesday, February 13, 2023 at 10 a.m.

11. Future Agenda Items:

No comment.

12. Adjournment

Rachael Dowling made the motion to adjourn and it was seconded by Josh Belville. Motion carried 4-0. Meeting adjourned at 11:16 a.m.

Respectfully Submitted,  
Justin DeJager

RE: Winnebago County Parks Department 2024-2028 Comprehensive Outdoor Recreation Plan

## **General Description:**

The Winnebago County Parks Department has been working with a consultant, engaging the public, and drafting the 2024-2028 Comprehensive Outdoor Recreation Plan since June of 2023. The Comprehensive Outdoor Recreation Plan is a plan that allows the department to plan for the next 5 years of improvements in the park system.

## **Background:**

Every 5 years the Parks Department drafts an update to our 5-year comprehensive outdoor recreation Plan. The plan is utilized as a guide for capital improvement projects, long term maintenance needs, property acquisition, and future park amenities needs. The Parks Department worked with MSA Professional Services to host several public meetings, host 2 public surveys, setup a workshop with the Parks Committee, and engage the public. The process began in June of 2023 and concluded in December of 2023.

The comprehensive outdoor recreation plan is included within the board packet. As a part of the comprehensive outdoor recreation plan, the Parks Department also worked with MSA Professional Services to create a comprehensive master plan for the Winnebago County Community Park.

## **Justification:**

To qualify for many Wisconsin Department of Natural Resources grants we need to have an updated 5-year comprehensive outdoor recreation plan on file and adopted by the County Board. In just the last 3 years we have received funding in the amount of \$1,595,212 for the Grundman Boat Landing and Waukau Dam projects. This plan is important to ensure that projects like these can happen in the future. The Butte des Morts Boat Landing Improvement Project scheduled for 2025-2026 is an example of another project that is eligible for substantial state funding. The comprehensive outdoor Recreation plan is also meant to engage the public to see what their interests are within the park system.

**RESOLUTION: Authorize Adoption of the Winnebago County Comprehensive Outdoor Recreation Plan (2024-2028)**

**TO THE WINNEBAGO COUNTY BOARD OF SUPERVISORS:**

**WHEREAS**, Winnebago County is interested in protecting its unique natural and cultural resources, while providing quality park and recreational opportunities for residents of and visitors to Winnebago County; and

**WHEREAS**, Winnebago County has hired MSA Professional Services to work with the Parks Department to update its outdoor recreation plan; and

**WHEREAS**, the plan and its recommendations were compiled to address Winnebago County’s recreational development and resource protection needs over the next five years and beyond; and

**WHEREAS**, your undersigned Committee, along with interested private citizens and a professional consultant, helped provide the necessary input and critical review of the information and subsequent conclusions brought forth in the plan; and

**WHEREAS**, adoption of the plan is required for Winnebago County to become eligible for several cost sharing aid programs administered by the State of Wisconsin; and

**WHEREAS**, the complete Winnebago County Comprehensive Outdoor Recreation Plan (2024-2028) is available for review on the Winnebago County Parks Department’s website ([www.winnebago.wi.us/parks](http://www.winnebago.wi.us/parks)).

**NOW, THEREFORE, BE IT RESOLVED** by the Winnebago County Board of Supervisors that it hereby approves and adopts the Winnebago County Comprehensive Outdoor Recreation Plan (2024-2028).

RE: Parks Department – Comprehensive Spirit Fund Request

## **General Description:**

The Winnebago County Parks Department has worked with the County Executive to put together a Comprehensive Spirit Fund Request that will increase resiliency and provide more opportunities for the users of the Winnebago County Parks System.

## **Requested Action:**

The Parks Department recommends that the Spirit Fund Commission recommends to the County Board to authorize the Comprehensive Spirit Fund Request for the Winnebago County Parks Department.

## **Background:**

Every five years the Winnebago County Parks Department updates our five-year Comprehensive Outdoor Recreation Plan. This plan looks at all the capital needs for the next five years and beyond throughout the entire park system. The plan asks for public involvement in many ways including surveys, in-person public meetings, user group meetings, committee meetings, and staff input.

In 2023, we hired a consultant to help lead us through this process and update our Comprehensive Outdoor Recreation Plan. Unique to this update, we also included an updated Master Plan for the Winnebago County Community Park. Public feedback was an important part of these plan updates. I have included the public input milestones and tasks below.

- August 1 – Public Informational Meeting #1
- August through September – Comprehensive Outdoor Recreation Plan Public Survey Available to the Public – 548 Responses

- August 29 – Consultants, Park Staff, and the Parks Committee had a full-day planning meeting and walkthrough of the Community Park
- September 18 – User Group Meeting for Community Park – Soccer Clubs, Rugby Clubs, Pickleball Users, Disc Golf Users, Dog Park Friends Group, Trail Groups, and the Oshkosh Recreation Department were all invited.
- September 28 – User Group Meeting for Winnebago County Recreational Trails
- September 28 – User Group Meeting for Winnebago County Boat Landings
- October – Community Park Master Plan Survey Available to the Public – 290 Responses
- December 5 – Final Public Input Meeting Scheduled

The plan is to present the final Community Park Master Plan and Comprehensive Outdoor Recreation Plan to the Parks Committee in January and to the Winnebago County Board in February for final approval.

The projects included in our spirit fund request are priority projects from previous Capital Improvement Plans or user/public-identified projects.

**Justification:**

When staff put together the requests for the Comprehensive Spirit Fund request, we focused on two goals and three measurable objectives for each goal.

- **GOAL #1 – Long Term Maintenance**
  - *Create resiliency* by addressing the cost of future maintenance.
  - *Address current maintenance* issues throughout our park system that require one-time costs.
  - *Reduce long-term maintenance* to save staff time and personnel time with future maintenance tasks.
- **GOAL #2 – Provide More Opportunities for Residents and Users of the Park System**
  - Provide *open space* for the residents of Winnebago County to enjoy the natural environment, take part in physical activity, and access the water system.
  - Provide *water access* to as many residents in Winnebago County as possible.
  - Provide *more capacity* for the user groups utilizing the Winnebago County Park System.

The Comprehensive Spirit Fund Request includes capital investments and improvements for six park properties, four towns/cities, and multiple user groups. The list of projects is included below. Engineering costs have already been funded for the Waukau Dam and engineering costs will not be needed for the self-service kayak rental stations.

**PROJECT GOAL – ACCOMPLISHMENTS**

	Waukau	WIOUWASH	Kayak	Shelter/Playground	Rugby	Soccer	Additional Soccer	Pickleball
Create Resiliency	X	X	X	X	X	X	X	X
Address Maint	X	X		X	X	X	X	
Reduce Long Term Maint	X	X	X	X	X	X	X	
Open Space	X	X	X	X	X	X	X	
Water Access	X	X	X					
More Capacity	X	X	X	X	X	X	X	X

<b>Comprehensive Spirit Fund Request</b>		
Waukau Dam Nature Preserve	Park improvements and enhancements	\$751,815
WIOUWASH Trail Paving	Pave the trail from UW-O to Lake Butte des Morts Drive	\$500,000
Boat Landing Self-Service Kayak Rental Stations	Install three self-service kayak rental stations at Eureka, Asylum and Grundman	\$40,000
Winnebago County Community Park	Replace playground #3 and construct new shelter/concession stand	\$1,000,000
Winnebago County Community Park	Build third and fourth rugby fields and remove south softball field	\$250,000
Winnebago County Community Park	Repair, till, grade, and seed four existing soccer fields	\$360,000
Winnebago County Community Park	Add additional soccer field with irrigation in soccer complex	\$250,000
Winnebago County Community Park	Add eight pickleball courts north of the existing basketball and tennis courts.	\$400,000
Engineering Costs	WIOUWASH TRAIL and Community Park	\$276,000
<b>TOTAL REQUEST</b>		<b>\$3,827,815</b>

The Spirit Fund Requirements match our goals and objectives. I have provided justification below for the Spirit Fund requirements within the grant application.

- Legacy** – Many of the projects we included are larger capital projects that will last for multiple generations. Most of our projects are within land that Winnebago County has owned since the 1960s or earlier. The projects affect many users throughout the County and the County will continue to maintain our properties for many more generations.

- **One-time-funds** – Most of our projects are large capital, one-time investments. When we add additional soccer and rugby fields, they will be there for generations to come. The WIOUWASH Trail system will be used by all in the County and even by tourism.
- **Geographic Assortment of Funds** – We are requesting projects in the Town of Rushford, Town of Vinland, Town of Oshkosh, and City of Oshkosh. Our goal was to spread out our funding as much as possible while still addressing the needs of the community.
- **Enhancing Funding Opportunities** – The Waukau Dam has received a grant from the WI DNR. The Spirit Funds will allow this project to move forward. The Grundman Boat Landing has a new ADA Kayak Launch due to a large grant. The kayak rental station will enhance the use of this new launch that was provided by two large grants. Multiple clubs have expressed interest in funding for more improvements if the Spirit Funds are approved. As an example, the Rugby Club would like to fundraise for bleachers, lights, and more amenities to enhance the brand-new fields that we would be constructing.

The Winnebago County Parks System is an important asset that the residents of Winnebago County value. They show this through the use of the facilities. The WIOUWASH Trail averages 10,000-20,000 users on the trail every year. The Winnebago County Boat Landings that have car counters average 15,000 to 25,000 cars per year. We are turning away users at the soccer complex within the Winnebago County Community Park because the fields are full, or the fields need additional maintenance and need to be closed. The surveys indicated that many residents want to see the playgrounds at Community Park improved. Residents say they do not come to our playgrounds because they are not safe or do not have as many amenities. We only have two pickleball courts that are shared by both tennis and pickleball users. The rugby club has a waitlist for its tournaments that bring in teams from all over Wisconsin and even surrounding states.

The Winnebago County Parks Department is also going to include Capital Improvement Plan requests for the parking lots at Community Park and to remodel the three other park shelters. This is truly a comprehensive plan that is going to change the outlook of the parks for the Winnebago County community for years to come.

## **Requested Action:**

No Official Action is Being Requested

## **Procedural Steps:**

Discussion Only

## **Background:**

The Winnebago County Parks Department will be partnering with Lifest Promotions and Wisconsin Entertainment Group LLC to host a 4<sup>th</sup> of July event that is free to the public. The plan is to host the event on July 3<sup>rd</sup>, 2024. The event will be free to the public and will be marketed to all Winnebago County residents. Wisconsin Entertainment Group LLC and Lifest Promotions will be paying for the event and supplying the labor. The event will feature live music, bounce houses, food and drink vendors, and fireworks. The event will most likely be from 4pm – 11pm. All parking will be on Sunnyview Exposition grounds.

## **Justification:**

This is a free event to the public. Lifest Promotions already has bounce houses, portable toilets, stage components, food vendors, and other vendors onsite. This would typically be a setup day for Lifest. We are maximizing the use of the grounds by also offering a free event to the public.

# CHAPTER 1

## INTRODUCTION

# INTRODUCTION

## 1.1 PLAN PURPOSE

Planning for parks is an integral part of ensuring that Winnebago County continues to provide quality parks and recreational facilities and services. This plan is intended to support other county long-range plans and local ordinances that guide healthy land use and development throughout the community. Additionally, a comprehensive outdoor recreation plan (CORP) is a required component of many state and federal grant applications used to fund parks and recreation projects.

This plan follows the Guidelines for the Development of Local Comprehensive Outdoor Recreation Plans from the Wisconsin Department of Natural Resources (WDNR) and describes:

- Information regarding demographic trends
- An inventory of existing park and recreational facilities,
- An analysis of parkland and recreational needs and demands,
- General policy direction regarding park and open space and bicycle and pedestrian facility planning and maintenance,
- Recommendations for improving existing park facilities and bicycle and pedestrian facilities,
- Recommendations for new park, bicycle and pedestrian facilities, and
- Implementation strategies.

This plan identifies conceptual locations and recommendations that in most cases require more detailed and specific planning, engineering, budgeting, and discussions to acquire land and/or construct facilities.

Winnebago County appreciates the local support for its parks and the benefit that they have on the community's character and quality of life. It is committed to continuing to provide active and passive recreational opportunities that meet the needs of current and future residents and visitors of all ages and abilities.

## 1.2 PLANNING PROCESS

In April 2023, Winnebago County contracted with MSA Professional Services to update the previous CORP, adopted in 2018. The County has a long history of adopting a CORP, including in 1975, 1988, 1993, 2013, 2018, and again in 2024.

Like its predecessors, this version of the plan reaffirms longstanding goals and objectives, inventories existing park and recreational facilities, identifies county-wide park and recreation needs and opportunities, and presents recommendations and an action plan for addressing the system's growth and development.

Key milestones for this project include:

1. Project Kick-Off with Parks & Recreation Department Staff:
  - April 2023
2. Parkland Inventory & Site Visits:
  - May 2023
3. Online Survey – Parks System:
  - June – August 2023
4. Parks & Recreation Committee Meeting #1:
  - July 2023
5. Public Input Meeting #1:
  - August 2023
6. Community Park Design Charrette:

12. County Board of Supervisors Adoption:
  - March 19 2024

## 1.3 WHY PLAN FOR PARKS?

Parks are some of the only free, accessible, multi-functional public spaces. They contribute to the physical and mental health of individuals and communities, and provide public safety, environmental, and social equity and resilience benefits. The COVID-19 pandemic put parks in the spotlight as more people sought opportunities for safe recreation and engagement opportunities outdoors. Now, as more communities focus on sustainability and resilience, parks offer a range of fiscal, health, and environmental benefits including:

## Healthy Lifestyles

Before the COVID-19 pandemic, children and adults were spending less and less time outside. Research from the Henry J. Kaiser Family Foundation showed that young children were engaging in less active play and unstructured outdoor exploration, which are critical activities for developing social and academic skills, as well as personal resilience. The NRPA reports that physical activity at any age can reduce the risk of depression, heart disease, obesity, osteoporosis, stroke, and Type 2 diabetes.

Active, healthy communities have a range of active and passive options for people of all ages and abilities to spend time outdoors. While many people initially think of parks and recreation facilities as places for playgrounds, trails, and ball courts and fields, they are also places where people can enjoy more passive activities like picnicking, wildlife watching, and leisurely enjoying the fresh air. According to a 2022 report from the Urban Institute, the conversation about racial equity in park access is critical because research has suggested a link between measures of park access (proximity to parks and park quality) and higher rates of park use and physical activity. The City Parks Alliance reports that maintaining a healthy lifestyle can annually save more than \$1,800 in healthcare costs per person.

## Economic Vitality

Leisure time is an important component of everyone's lifestyle, and increasingly people are choosing locations to live based on quality-of-life factors that include recreational amenities. According to the NRPA's Engagement with Parks Report, four out of five adults in the US sought high-quality parks and recreation when choosing a place to live.

The ability to retain and attract new residents has direct economic benefits to the local community. For this reason, a great park, recreation, and trail system can contribute directly to a community's economic development.

According to a study completed by NRPA and George Mason University, 72% of 70 studied communities use parks and recreation images in their economic development materials. The study notes that parks and recreation contribute to economic development through business and talent attraction, retention, and expansion. If a park system is designed with connections to regional destinations, additional visitors can also be brought into a community. This additional tourism can be a significant benefit to local businesses. This plan aligns with other regional and state plans to promote outdoor recreation across the greater area.

## KNOWLES-NELSON STEWARDSHIP PROGRAM

The Wisconsin Legislature created the Knowles-Nelson Stewardship Program (Stewardship) in 1989. Named for two of Wisconsin's most revered conservation leaders, Warren Knowles (Governor 1965-1971) and Gaylord Nelson (Governor 1959-1963, U.S. Senator 1964-1981), the purpose of the program is to preserve valuable natural areas and wildlife habitat, protect water quality and fisheries, and expand opportunities for outdoor recreation. The conservation and recreation goals of the Stewardship Program are achieved through the acquisition of land and easements, development of recreational facilities, and restoration of wildlife habitat.

The Stewardship grant program is the most widely used recreational grant program in the state. Eligibility for the program requires that a community maintain a local comprehensive outdoor recreation plan (CORP), updated every five years, and that the project for which grant funding is sought is described in the CORP. Many other similar state and federal recreational grant programs have similar requirements or have shown a tendency to favor those grant applications which are supported through previous community planning efforts.

### **Social Resilience**

Parks are an excellent source of place-based planning and identity for communities. Park and recreation facility designs are responsive to local wants and needs. The most recent example is the transition of tennis and basketball courts into multi-functional ‘sport courts’ to respond to the explosion in popularity of pickleball. Public parks are also a place for community interaction and neighborhood activity. They can be places where residents gather for social events, recreational activities, and meetings about local issues, increasing social interaction and creating an overall sense of community. Social resilience is a key component of responding to and recovering from natural disasters.

Information from the City Parks Alliance shows that community involvement in the greening of vacant land has been shown to decrease crime and generate additional support for nearby park projects. Research from bicycle and trails advocacy organizations like the League of American Bicyclists and People4Bikes indicates that the increase in trail traffic also has a depressing effect on crime.

### **Environmental Resilience**

While parks, forests, and trails create opportunities to improve the health of individuals, they also contribute to the greater ecological health of a community. Parks are often tied together with environmentally sensitive areas such as wetlands, floodplains, surface waters, or significant woodlands. Additionally, parks are an easier place to build stormwater retention and infiltration areas into the built environment, helping to manage stormwater runoff and mitigate localized flooding. These areas provide food and shelter for local wildlife and naturally retain stormwater. Individual parks can provide important “rooms” of natural resource activity; however, they become even more functional when they can be linked together through environmental corridors. Wildlife, plants, and water all depend on the ability to move freely within the environment, or from “room to room.” The City Parks Alliance reports that urban trees remove up to 711,000 tons of toxins from the air and reduce urban “heat island” effects, equating to \$3.8 billion in national savings.

### **Equity**

In addition to being public, open spaces, parks and recreational facilities are excellent places for local engagement. Many communities utilize park funding and infrastructure to revitalize blighted areas and rectify historic disinvestments in lower-income neighborhoods. This comes through reinvigoration of existing parks and new parks in underutilized areas. As cities and villages across the United States see shifts in the ethnic makeup of their communities, more and more are investing in multilingual signs and rental forms to improve cultural inclusion.

Two key parts of any parks and recreation plan includes physical accessibility through ADA-compliant design and walkability to the park. The Americans with Disabilities Act and statewide design guidelines ensure that people of any physical ability are able to access many activities throughout a park, from well-maintained paths and curb ramps to inclusive playgrounds. The walkability factor is defined by the NRPA as ensuring that no one lives farther than a 10-minute walk from a park.

# CHAPTER 2

## ABOUT WINNEBAGO COUNTY

# ABOUT WINNEBAGO COUNTY

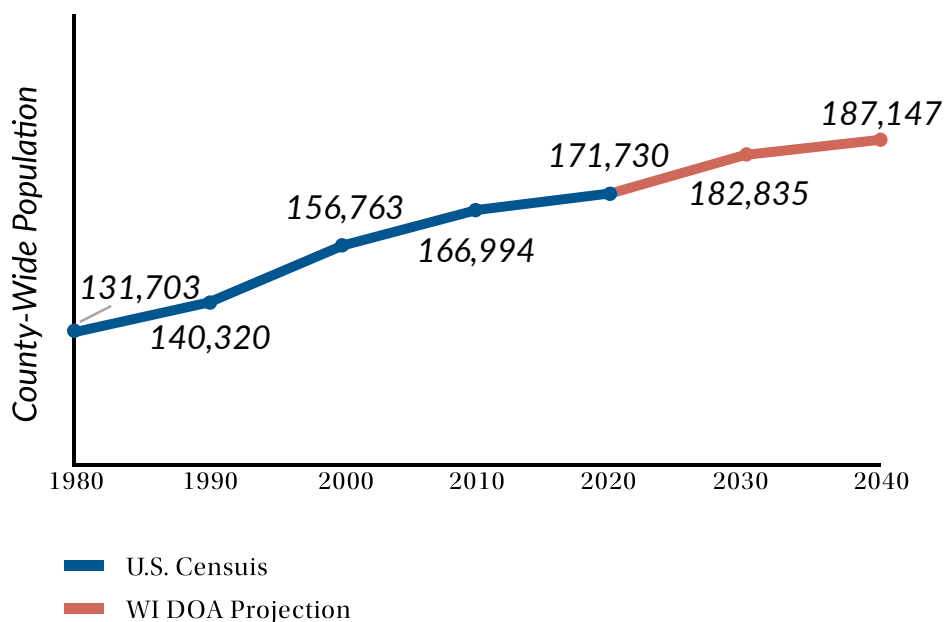

## 2.1 LOCAL & REGIONAL CONTEXT

Winnebago County is located in east-central Wisconsin along the western shore of Lake Winnebago—the state’s largest inland lake. The county is rich in natural resources, making it a popular destination for active and passive recreation activities ranging from picnicking and camping to boating, hunting, and fishing.

There are 22 towns, villages, and cities located within Winnebago County, the largest of which being the Cities of Oshkosh (county seat), Neenah, and Menasha. In 2016, the Town of Menasha incorporated into the Village of Fox Crossing; as of 2023, this is the third largest municipality in Winnebago County. Winnebago County is an increasingly attractive place to live, visit, and recreate, resulting in some development pressure along the lakeshore and west of the USH 41 corridor. While land prices remain relatively low in comparison to other areas of the state, prices have been increasing in recent years. These higher land prices have made the sale of farmland to developers an attractive option for many farmers, leading to the continued loss of productive farmland within the county.

## 2.2 DEMOGRAPHICS

The Wisconsin Department of Administration (WDOA) estimates that Winnebago County’s population in 2023 was 172,369. Between 1980 and 2020 Winnebago County grew approximately 30% and is projected to increase another 9% through 2040. This is a slightly faster projected growth rate than the state overall, as seen in Table 2.1.

Figure 2.2 is a breakdown of the County’s population by age using data American Community Survey (ACS). Nearly a quarter of the County’s population is under 20 years old; however, the share of this age cohort fell 4% since 2010. Conversely, the 65 and above age cohort increase by roughly 27% between 2010 and 2021 and the median age in the County inched up from 27.4 to 38.2. This is on par with demographic changes seen across the state and nationally as more members of the Baby Boomer generation enter retirement and Millennials delay childbearing into their thirties or forego it altogether.

As seen in Table 2.2, the share of households with children under the age of 18 peaked in 2010 at 29.8%, falling to 26.5% in 2021, according to ACS 5-year estimates. Similarly, the average household size fell from 2.33 to 2.29 between 2010 and 2021 despite the total number of households in the County increasing by over 4,000. This suggests an increase in the number of single-person households—a trend consistent with other communities across Wisconsin and the country.

## 2.3 NATURAL FEATURES

### Surface Water

Winnebago County is entirely within the Fox-Wolf Basin and contains approximately 84,000 acres of surface water—lakes, rivers, and streams known as the “Winnebago System.” This system includes the pool lakes of Lake Winnebago, Poygan, Winneconne, and Butte des Morts along with the main tributary waters of the Upper Fox and Lower Wolf Rivers; two lakes that are not located in the pool are Rush Lake and Little Lake Butte des Morts. The “Winnebago System” is one of Wisconsin’s most significant water resources, comprising 17% of the state’s surface water acreage. The system receives heavy recreational use by boaters, anglers, swimmers, hunters, and trappers. There is also an active commercial setline fishery for catfish. There are a total of 58 public and private boat launch sites located around the shoreline of Lake Winnebago. Winnebago County maintains 7 of these sites, some of which are adjacent to park facilities.

### Wetland and Wildlife Resources

There are approximately 51,400 acres of wetlands in the county. Most are located in the western and northern areas, including Lake Poygan, Rush Lake, Rush/Waukau Creek, and the Fox, Rat, and Wolf Rivers. These wetland areas provide habitat for fish, waterfowl, and other wildlife species and are important for the recharge of aquifers and groundwater protection. The State Wildlife Areas of Deppe Marsh, Poygan Marsh, Wolf River, and Rat River are owned by the Wisconsin Department of Natural Resources (WDNR), as well as waterfowl areas Ecktein and Uihlein. Wetlands are valuable resources that filter and purify water, maintain and stabilize the quantity of water, and provide important fish and wildlife habitat. Unfortunately, infringing land use changes can quickly and permanently destroy these fragile natural areas. Too often in the past, the benefits of protecting the state’s wetlands were unrecognized and many were drained or filled. Although wetlands have come under the protection of increasingly stringent regulations, the loss of additional wetland acreage remains a threat, particularly in areas where development infringes.

Because Winnebago County is located in what was formerly one of the best regions of the state for duck and pheasant production, the Department of Natural Resources initiated the Glacial Habitat Restoration Area (GHRA) project in the southwestern part of the county. This project is designed to restore wetlands and grasslands on private and public lands to benefit waterfowl, pheasants, and grassland songbirds. Winnebago County also has the State Acres For Wildlife Enhancement (SAFE) program in designated townships within the GHRA that allows landowners to enroll blocks of cropland in an USDA, CRP contract to provide grassland habitat.

### Woodlands

According to a 2015 forest land use inventory analysis by East Central WI RPC, Winnebago County has a total of approximately 154,940 acres of forested land, which is about 9.7 percent of all of the land in Winnebago County. Nearly all of this land is held by private landowners and is widely distributed across the county.

Future trends in forest lands continue to show problems with increasing amounts of parcellation, large deer populations, and invasive species problems. Parcellation makes forest management difficult because of the small size of each unit. Overpopulation of deer and invasive species has made regeneration of many forest types very difficult, with oak/hickory types hit particularly hard because of the slower growth rates of the seedlings. As this cover type ages the understory is being replaced by faster growing and less palatable tree species and/or invasive plants such as buckthorn.

### Fishery Resources

The Winnebago System continues to be known throughout the Midwest as a great fishing area for walleye, white bass, and sturgeon. The county accounts for 513 acres of State Fishery Areas within its boundaries.

The lower 125 miles of the Wolf River and 37 miles of the upper Fox River contain the spawning and nursery grounds for the Winnebago Pool sturgeon and walleye populations. In addition to lake sturgeon, walleye, northern pike and white bass, the major species of the Winnebago Pool fisheries community include freshwater drum, sauger, yellow perch, largemouth and smallmouth bass, panfish, trout, perch, and emerald shiner.

**Natural & Cultural Sites**

Appreciation of the unique ecological, geological, historical, and archaeological heritage of Winnebago County is a significant educational aspect of public outdoor recreation. Many of the historic sites provide evidence of past Native American cultures. Among the most important sites of these sites is Lasley Point Archeological Site near Winneconne. The specific locations of many sites are kept from the general public to prevent destruction of artifacts, while others remain unknown.

**Public Owned Lands**

Land owned by DNR in Winnebago County totals approximately 10,000 plus acres. Nearly 2,379 acres are designated as Federal Fish and Wildlife Areas with waterfowl production areas. The largest contiguous block is the Rat River State Wildlife Area at just over 4,600 acres.

Among the county’s municipalities, DNR holdings are most extensive in the Towns of Wolf River and Winchester where the Rat River flows. The DNR’s holdings generally are considered to provide passive recreational opportunities.

**2.4 EXISTING PARKS & OPEN SPACE**

The following is an overview of Winnebago County’s existing park and recreation facilities. A summary of these facilities and their corresponding acreage is available in Table 2.3, and their locations are indicated on Map 1 in Appendix B.

**Winnebago County Community Park**

Located on CTH Y, Winnebago County Community Park offers an extensive variety of active and passive recreational activities including baseball, soccer, rugby, disc golf, archery, a tennis/basketball court, volleyball nets, a dog park, and extensive walking trails. It is one of the County’s most used parks and its facilities are rented throughout the summer season.

A paved shared-use path system allows access in and around the park’s activity zones. Wayfinding signage provides direction to areas within the park. A detailed park master plan was conducted as part of this CORP update; please see Appendix C for more information.

**Sunnyview Exposition Center**

Located just north of Winnebago County Community Park, the Sunnyview Exposition Center is comprised of the Exposition Building, Covered Arena, and Sunnyview Stadium. These facilities include exhibition halls, a concession building, a covered show arena, and outdoor arena. The Sunnyview Stadium was upgraded with a state-of-the-art production ready stage with seating for up to 31,000, including the grandstands. There is also a clay pull track for truck and tractor pulls, demolition derbies, and other motor vehicle events. Attractions at the Sunnyview Exposition Center provide an array of entertainment offerings throughout the year as well as camping during events.

### **Asylum Point Park and Boat Landing**

Located about a quarter mile west of CTH A in the southeast corner of the Town of Oshkosh, this park includes a portable toilet (seasonal), public boat launch, picnic facilities, a historic lighthouse, parking, and opportunities for wildlife viewing. Swimming is not recommended due to possible E Coli contamination in Lake Winnebago; the County's Health Department monitors water quality throughout the area.

### **Black Wolf Boat Landing at Nagy Park**

This park and boat landing is located in the Town of Black Wolf off the southwest shore of Lake Winnebago. It has boat trailer parking, a public boat launch, restrooms, and a picnic area.

### **Boom Bay Boat Landing**

This landing derives its name from the rafts of logs or "booms" that logging companies once secured in a section of the bay north of the current launch area. The current landing opens onto the east side of Lake Poygan. The site hosts a portable toilet (seasonal), parking, and a public boat launch.

### **Eureka Boat Landing**

A huge fishing site, this landing is especially popular in the spring, during the walleye and bass runs on the Fox River. Anglers also pursue catfish from a wharf along the shoreline and from boats, which can be launched from three ramps at the landing. Amenities include picnic tables, a picnic shelter, portable toilet (seasonal), playground, and public boat launch.

### **Jerry Finch Dog Park**

Jerry Finch Dog Park is a fenced, woodsy, off-leash dog park that provides a safe and secure environment for owners to exercise their dogs. The park includes ample parking, a small dog/puppy area, a large dog area, and trails.

### **Osh-O-Nee Boat Landing at Grundman Park**

Anglers and boaters can access Lake Winnebago via public launch ramps and two docks. The landing is known for its walleye and perch fishing access and scenic picnic spot. The park and landing are located on the east side of Grundman Lane. The landing hosts picnic tables, an event kiosk, and a portable toilet (seasonal).

The Winnebago County Board of Supervisors approved \$1.8 million to improve and renovate this landing. Supporting grants from the Fox River/Green Bay Natural Resource Trustee Council and the WI DNR Recreational Boating Fund are funding approximately 63% the project. The improvements will address several issues at the boat landing, including expanded parking, larger staging area, additional launches, safer layout, improved lighting, bathroom facilities, small shelter, floating dock, kayak launch, and enhanced walking trail. Construction began in spring 2023 and is expected to be complete before spring 2024.

### **Lake Butte des Morts Boat Landing**

Popular for its fishing and boating access to Lake Butte Des Morts, this landing provides an ADA fishing pier, harbor and public boat launch. The landing hosts picnic tables, a picnic shelter, and a portable toilet (seasonal).

### **Lake Poygan Boat Landing**

This landing provides access to the south shore of Lake Poygan, offering excellent fishing year-round. A picnic table, a portable toilet (seasonal), and public boat launch are on site.

### **Waukau Creek Nature Preserve and Waukau Dam**

This 65-acre preserve features Waukau Creek (formerly known as Rush Creek), the only flowing stream in the county, and is located north of the Village of Waukau on Delhi Road off of CTH K. Self-guided nature trails with interpretive signs teach hikers of all ages about the site. The trails are rustic and spur self-guided x-country skiing or snow-shoeing opportunities in the winter. Picnic tables, portable toilet (seasonal), and a rough fish holding pond with many fish species are among the other amenities. The WDNR holds regulation devices on the pond that control water levels and diverts the flow into the creek. Wildlife viewing of many birds can also be seen including kingfishers, green herons, and mallards. The Town of Rushford also utilizes a dry hydrant to fill their tanker trucks from the pond in emergencies.

*WIOUWASH State Trail*

### **Coughlin Nature Area**

Located off of CTH Y next to the J.P. Coughlin Center and a short walk from Winnebago County Park, the Coughlin Nature Area offers one mile of walking paths with educational signage about the site's wildlife. During the winter months, the paths become snowshoe trails. Dedicated in October 1998, the area also includes a Memorial Tree Grove.

### **Lasley Point Archeological Site**

The wilds of the Lasley Point Archeological Site mark the spot where a Native American village once thrived. Between 1200 and 1500 AD, this 47.7-acre area supported an Oneota Indian village. In the early 1940's, and as late as 2017, archaeological digs took place in the area uncovering broken bone tools, shells, human bones, copper flakes, charcoal, and pottery; early garden beds and cache pits were also discovered. The area was added to the National Register of Historic Places in 1979 and was purchased two years later by the Winnebago County Historical Society. The site currently supports beautiful oak, hickory, basswood, and ash woodlands with dense shrubbery underneath.

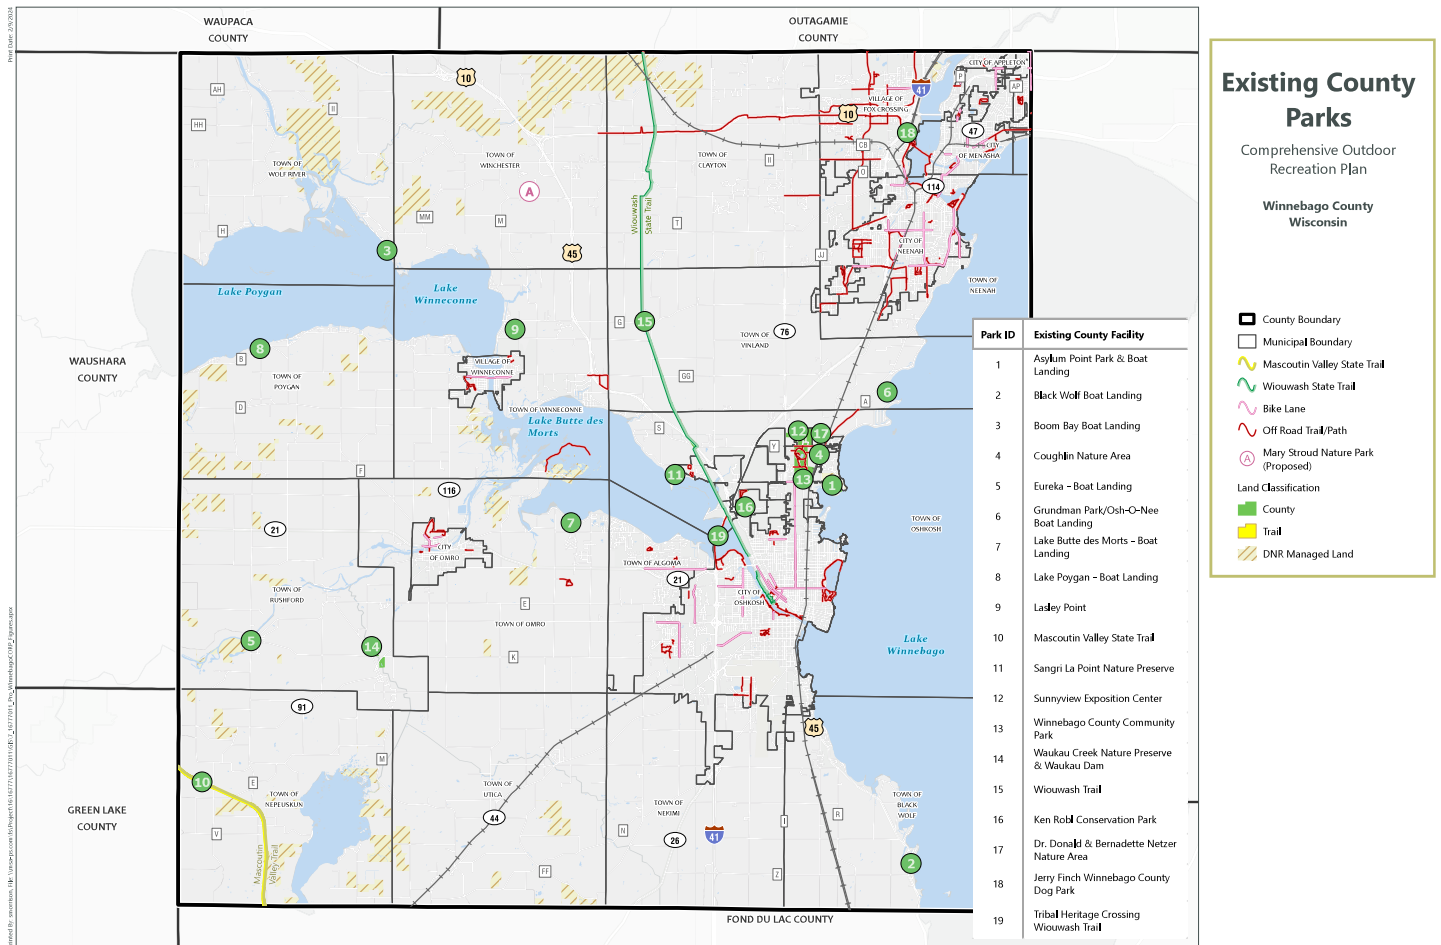

Trails weave throughout the woods, offering glimpses of the numerous varieties of wildflowers during the warm season. In the winter months, the site hosts self-guided cross-country ski and snowshoe trails. The archeological site also supports sizable populations of small mammals and songbirds. A small parking area is located off Lasley Point Road. Camping is prohibited and no dogs are allowed on the site.

### **Ken Robl Conservation Park**

Located at 3396 Walter Street in Oshkosh, this conservation park was dedicated on July 18, 2018. The site includes hiking and biking trails, and two ponds. People can view wildlife or fish from an accessible pier made of recycled plastic. This site was formerly a landfill and was converted into a park as part of a remediation program funded by Winnebago County Solid Waste Department's trust. A fence separates the remaining landfill operations and mound.

Landfilling was complete in 1989, with a final cover was installed in 1991. The site sat idle until the park was established in 2018. It is named after Ken Robl in honor of his 39 years as a Winnebago County Board member and Solid Waste Committee participant.

Figure 2.1 Existing Parks & Trails Map

### Netzer Nature Area

The Netzer Nature Area is the most recent parkland to be acquired by Winnebago County, with 20 acres purchases in 2019 and another 20 acres purchased in 2023. This area is located just north of the Sunnyview Exposition Center and is named in honor of Dr. Donald (Doc) and Bernadette Netzer. The area is not currently open to the public.

### Mascoutin Valley State Recreational Trail

The Winnebago County portion of the Mascoutin Valley State Trail is 5.3 miles long. The trail provides a beautiful backdrop for walking, hiking, bicycling, and horseback riding during the summer and cross-country skiing and snowmobiling during the winter.

With a crushed limestone base, the trail runs through the southwest corner of Winnebago County and continues on into both Green Lake and Fond du Lac Counties. The trail also passes through the Eldorado Marsh and ends in the City of Berlin. While is a state trail, the portion of the trail that cuts through Winnebago is maintained by the County.

### WIOUWASH State Recreational Trail

The WIOUWASH trail runs on an abandoned 21.8-mile railroad corridor and is named for the 4 counties it crosses through: Winnebago, Outagamie, Waupaca, and Shawano. A part of the Rails to Trails Program of the WDNR, its flat base is good for walkers, hikers, bikers, horseback riders, and snowmobilers. The Winnebago County portion of the trail runs from Oshkosh north through Winnebago and Outagamie counties and ends in the Village of Hortonville. The trail will ultimately extend from Oshkosh northward through Langlade County. It enters Shawano County near Split Rock and passes through the Villages of Tigerton, Wittenberg, Eland, and Birnamwood near the county’s western border. Several gaps must be developed before a continuous trail is in place (including the segment from Birnamwood north through Aniwa to the Langlade County line). Ongoing efforts are underway to acquire right-of-way or obtain the necessary easements to complete the trail. Once completed, the Shawano County portion of the WIOUWASH Trail will be approximately 30 miles in length.

### **Tribal Heritage Crossing Trail**

The Tribal Heritage Crossing is a unique bicycle and pedestrian crossing over Lake Butte des Morts along US 41 and connects to the WIOUWASH trail at its north edge. The Lake Butte Des Morts causeway originally opened in 1955 and underwent rehabilitation in 2013, which included the creation of the protected bicycle and pedestrian path. The Tribal Heritage Crossing provides access to fishing and recounts the history of Wisconsin's eleven original Native American Tribes via an information kiosk overlooking the lake. There are 13 overlooks along the crossing, each featuring educational signage.

## **2.5 REGIONAL RECREATION DESTINATIONS**

Within an hour drive of Winnebago County's Community Park and Sunnyview Expo Center are 4 state park facilities: Hartman Creek State Park, Lost Dauphin State Park, Heritage Hill State Park, and High Cliff State Park. Even more state parks are located along the shores of Lake Michigan, about a 90-minute drive away, making Winnebago County a central destination for recreational opportunities. The City of Madison and Wisconsin Dells are just under 2 hours away and also offer exceptional camping, hiking, boating, fishing, and tourism prospects.

# CHAPTER 3

## GOALS & STRATEGIES

# GOALS & STRATEGIES

## 3.1 GOALS, OBJECTIVES, & POLICIES

### Parks Mission & Vision Statement

“Winnebago County is committed to providing equitable and high-quality open spaces to its residents by emphasizing the distribution of recreation within the urban areas as well as giving consideration to the rural places.”

### Outdoor Recreation

**Goal 1:** Provide, throughout Winnebago County, a planned system of parks and recreation areas that will enable county residents and visitors to participate in and enjoy a diversity of recreational activities.

#### Objectives:

- Use sound planning principles in the design and development of all parks and park facilities by ensuring cost-effective measures in initial design and future maintenance.
- Acquire and develop recreation lands needed to meet the demand for high quality recreational facilities for the residents of Winnebago County.
- Cooperate with other public and private entities in identifying jurisdictional responsibility for providing needed recreational areas.
- Encourage maximum and appropriate use of all public recreation lands within the county. As part of this objective, encourage a policy of intergovernmental cooperation, particularly between communities and adjacent towns, in providing and utilizing recreational facilities, as a way of avoiding unnecessary duplication of facilities and associated costs.
- Preserve, obtain, and develop an appropriate level of public access to rivers, lakes, and streams to maximize their potential as recreational resources.
- Link major county and community recreation areas by utilizing natural watercourses, geologic features, and transportation or utility rights-of-way.

- Encourage a high standard of maintenance in the county park system as a way of promoting the county’s park and recreation facilities.

- Promote linkages to trails on-street and off where appropriate, to provide a county network.

- Create ADA compliant trails and boat landings (where possible) to accommodate individuals who are physically challenged by providing a safe recreational activity, making it accessible to all.

- Encourage partnership with re:Th!nk Winnebago on health issues related to recreational resources and planning.

### Natural & Cultural Resources

**Goal 2:** Preserve scarce and valuable resources important to the ecological, sociological, and economic life of the county.

#### Objectives:

- Encourage the preservation and enhancement of the county’s natural features and protect them from encroachment by all man-made intensive development.
- Protect and preserve the intrinsic value of the county’s wildlife and fishery resources.
- Work with the Winnebago County Land & Water Conservation Department to conserve trees and other vegetation needed to prevent erosion, siltation and floods, and to protect air and water quality.
- Maintain the quality of the county’s lakes, by leveraging the means to prevent or minimize the introduction of invasive species. Work with the WDNR Aquatic Invasive Species Coordinator for the Region.
- Conserve lands with soils and terrain highly suitable for agricultural activity. Preserve wetlands necessary for continued fisheries and wildlife habitats and groundwater recharge purposes.
- Use Winnebago County’s Geographic Information System (WINGS) to identify all recreational and cultural sites in the county, including cemeteries.

## Public Participation

**Goal 3:** To encourage continued involvement of all county residents when planning for parks and recreational development.

### Objectives:

- Encourage ongoing participation by all residents at County Parks Committee meetings.
- Continue to keep good relationships with surrounding property owners adjacent to county owned parks and facilities.
- Keep in contact with local municipalities within the county and use the resources they offer as a support network.
- Explore the support of community groups, service organizations, clubs, and volunteers to secure potential funding and/or for make improvements to the county parks system through increased recreational opportunities, i.e. re:Th!nk Winnebago, WPRA, NEWPRO, Rotary, Fox Cities Greenways, BAGO Tracks and Trails, Oshkosh Cycling Club and the like.
- Continue to solicit comments from residents on all aspects of park and recreational programming and management via emails, online polls, surveys, etc.
- Encourage residents to support the Sesquicentennial “Memorial Tree Grove” and benches along trails and in parks through donations.
- Continue partner relationship with Convention & Visitor’s Bureau to collaborate on marketing efforts.

## COMPLYING WITH THE AMERICANS WITH DISABILITIES ACT

The ADA, enacted in 1990, clearly states the right of equal access for persons to local government services, including parks. On September 15, 2010 the Department of Justice published revised final regulations implementing the Americans with Disabilities Act. The 2010 Standards included new provisions for accessible design for recreational facilities such as playgrounds, swimming pools, fishing and golf facilities. Similar to when the original 1991 ADA Standards were adopted for public buildings, a community is required to complete a self-evaluation of their recreational facilities for ADA compliance by March 15, 2012. Those communities with 50 or more full or part-time employees are also required to develop a Transition Plan, which identifies what corrective work will be completed, when it will be completed, and the individual responsible for the corrective work. Any new recreational facilities designed, constructed, or shaped after March 15, 2012 are subject to the 2010 Standards. Any alteration (not simple maintenance, but something that changes the way the site is used) must make the element altered accessible and must create an accessible path of travel through the site or facility to that element.

There are some fundamental differences in how accessibility in the outdoors is accommodated compared to indoors or the built environment. While restrooms, shelters, interpretive centers, and parking lots, for example, need to follow detailed ADA guidelines, other improvements such as trails or swimming beach areas, for example, do not necessarily need to follow indoor or built environment ramp grades or surfacing requirements. A good rule of thumb for the City to follow is that anything constructed must not make the outdoor experience anymore difficult than what occurs naturally. Mother Nature does not have to comply with ADA, but the City does.

The New England ADA Center is a good resource to use and offers checklists to evaluate accessibility at existing park facilities. The fillable checklist forms can be found here: <http://www.adachecklist.org/checklist.html#rec>

## ANALYSIS OF NEEDS AND DEMANDS

# ANALYSIS OF NEEDS & DEMANDS

This chapter presents an analysis of how well the County's existing park and recreation facilities satisfy current needs. The adequacy of the County's existing park and recreation systems are evaluated using the following methods:

- **Quantitative Analysis** – an analysis of existing county parkland acreage against projected population growth and national and county service standards
- **Geographic Analysis** - an analysis of geographic access to the county's park and recreational facilities
- **Qualitative Analysis** - a summary of the public input gathered through community surveys, public input meetings, and focus groups.
- **Regional & State Insights** - a summary of the demand trends in recreational amenities at the regional and state level.

- This acreage primarily includes state and/or federal forests, wildlife areas, hunting preserves, and other lands which have development limited to that needed to accommodate extensive recreational activities such as hiking, nature study, cross-country skiing, hunting and fishing.

- 30 acres of active recreational open space. This acreage includes portions of state and other regional/county parks designed to accommodate intensive recreational activities such as picnic areas, campgrounds, swimming beaches, ball fields, and play areas. Also included are privately operated facilities such as campgrounds and golf courses that are open to the general public, and parkland owned by local municipalities. This standard is broken by entity as follows:

- Active parkland provided by the County: 15 acres/1,000
- Active parkland provided by local municipalities: 10 acres/1,000
- Active parkland provided by the private sector: 5 acres/1,000

## 4.1 QUANTITATIVE ANALYSIS

To determine the overall demand for park and recreational land in Winnebago County, the county utilizes a standard of a minimum of 100 acres of available open space/outdoor recreational land per 1,000 people. According to the Wisconsin Department of Administration (WDOA), the County's population in 2023 was 172,369 people. Applying the 100 acres per 1,000 people standard, the County (inclusive of parks owned by municipalities located within the county) should be providing approximately 17,237 acres, comprised of a 70/30 split of passive and active recreational space as noted below:

The 10 acres of parkland per 1,000 provided by local municipalities (Neenah, Oshkosh, Menasha, etc.) standard comes from the National Recreation and Parks Association (NRPA) and it intended to serve residents local, day-to-day recreational needs. In 2023, the County has an overall surplus of 1,194 acres of parkland. However, it is not meeting the standards for County-owned facilities or municipally owned facilities. Looking forward to 2040, a deficit of 284 acres of total parkland is projected as the population is expected to grow by over 15,000 people.

Table 4.1 Winnebago County Parkland Acreage Demand Analysis

Standard	Existing Acres	Recommended Acres Needed per 1,000 People by Year					Surplus or Deficiency (+/-)

## 4.2 GEOGRAPHIC ANALYSIS

Appendix B, Map 2 in the appendix depicts the park service area for Winnebago County. To evaluate how well the county's park facilities are distributed geographically throughout the county, a 15-minute driving radius was drawn around each county-owned facility. These radii are combined together to represent the total area within the county (in green) where a county-owned park, nature area, or boat landing can be reached within a roughly 15-minute drive. Overall, Map 2 shows that the majority of the county is covered by the 15-minute drive park service area standard and extends into all adjacent counties bordering Winnebago. County residential zoning districts are represented on Map 2 in the areas not covered by the park service area to reflect where residents are most likely to live; this includes small areas along the southern shore of Lake Butte des Morts, northern shore of Lake Poygan, and in the Town of Wolf River. The northwest corner of the County (Town of Wolf River) is the primary area of the county not within a roughly 15-minute drive of a county-owned recreational facility.

Esri ArcGIS Business Analyst was utilized to gain specific insight into the demographic makeup of individuals within a 15-minute drive of each facility (Appendix A, Supplemental Tables). Table 4.1 summarizes key demographic data for 2022 and projected changes through 2027. Key takeaways from this analysis include:

- Many areas around the county are projected to lose population by 2027, with the 15-minute driving radius around the Lake Butte Des Morts boat landing seeing the largest decrease (-300 people).
- All areas of the county are projected to see increase in their non-white populations through 2027, with increases ranging from 0.3% to 1.3%.
- With the exception of the driving service area around the Lake Poygan boat landing, all county-owned facilities are expected to see a slight decrease in the youth population (under 20 years old). The youth population around the Lake Poygan boat landing is projected to increase from 11% to 20% between 2022 and 2027.
- All areas of the county are projected to see increase in their senior populations through 2027, with the 15-minute driving radius around the Sunnyview Expo Center seeing the largest increase at 7.7%.
- The county facility with residents with lowest 2022 median income within a 15-minute drive was Asylum Point Park and Boat Landing at \$37,711; the Boom Bay Boat Landing had the highest median income residents within a 15-minute drive at \$93,578.

## 4.3 QUALITATIVE ANALYSIS

### County Park System-Wide Survey

Community members participating in this survey overall noted a desire to see dedicated bike routes that connect to the Wiouwash State Trail and the cities and park systems of Oshkosh, Neenah, Algoma, and Winneconne to each other, especially through natural, scenic areas and along the lakes. Additionally, these community members would like to see safety improvements through protected bike lanes along busier streets, or paved trail sections separate from the roads. Other than walking or biking, survey takers enjoy participating in many other active recreation opportunities in the parks throughout Winnebago County, especially pickleball, soccer, disc golf, boating, and fishing.

Total Responses: ~548<sup>1</sup>

### Respondent Demographics:

- 87% between 35 and 65+ years old
- 50% had children under the age of 18 living at home
- 54% lived in the City of Oshkosh and 12% in the Town of Algoma
- 61% have lived in Winnebago County for more than 20 years.

Please select your satisfaction level with the condition of the parks/facilities you visit.

What trail(s) do you use in Winnebago County?

Which of the following amenities would you like to be added, improved, or expanded either by public or private entities?

<sup>1</sup> Survey questions were not required; therefore, the response rate varies question by question. 548 people answered the first survey question while 208 people answered the last. There was a total of 20 questions.

What Facilities do members of your household enjoy or use most frequently at Winnebago County Community Park?

Winnebago County Community Park

Are there new facilities you'd like to see added to the park in the coming years?

### Winnebago Community Park Survey

Survey respondents indicated that many facilities in need of attention at Winnebago Community Park, especially the disc golf courses, the dog park, the playground equipment, the rugby fields, and the sports courts. Survey takers would like to see various improvements around the park, including more pickleball courts, updated playground equipment, and improved disc golf course amenities. Overall, community members enjoy the serenity and natural beauty of Winnebago Community Park and the many amenities available there.

Total Responses: ~291<sup>2</sup>

#### Respondent Demographics:

- 60% between 19 and 44 years old
- 53% did not have children under the age of 18 living at home
- 56% lived in the City of Oshkosh
- 50% have lived in Winnebago County for more than 20 years.

<sup>2</sup> Survey questions were not required; therefore, the response rate varies question by question. 291 people answered the first survey question while 114 people answered the last. There was a total of 11 questions.

## Public Input Meetings

Two public input meetings (PIM) were held during this planning process. The first PIM was held on August 1, 2023, and the second was held on December 5, 2023; both meetings were open to the public and held at the James P. Coughlin Center.

PIM 1 was attended by approximately seven members of the public and was dedicated to:

- Promoting the county-wide parks survey (via QR code)
- Reviewing the purpose of a CORP and its connection to state grant programs
- Providing an overview of the planning process
- Soliciting feedback on desired improvements to existing county park and recreation facilities

PIM 2 was also attended by approximately seven members of the public and was dedicated to:

- Soliciting feedback on the draft recommended improvements for new and existing park facilities (See Chapter 6 CIP Tables)
- Soliciting feedback on the final design concept for the Winnebago County Park Master Plan

## Winnebago County Park Design Charrette

On August 29, 2023, a focused design charrette was facilitated by MSA Landscape Architects to develop a preliminary design concept for updating the facilities at Winnebago County Community Park. This intensive design workshop was a key part of developing the master plan for the park. The workshop included members of the Winnebago County Parks and Recreation Committee and Parks and Recreation Department staff. The rough agenda for the charrette is noted below:

- On site tour with County Parks and Recreation Department staff and SWOT (Strengths, Weaknesses, Opportunities, Treats) discussion.
- Meeting with Parks and Recreation Committee Members to discuss program development, community needs, and goals.
- Preliminary design and concept development by MSA Landscape Architects.
- Preliminary concept presentation to County Staff and wrap-up discussion.

Results from Winnebago County Park Design Charrette

## Focus Groups

Three focus groups were held to gather input from specific park users and stakeholder groups regarding the County's boat launch and trail facilities, as well as a dedicated focus group for improving Winnebago County Community Park. The focus groups related to boat launches and trails were held virtually while the Winnebago County Community Park focus group was held in person at the James P. Coughlin Center. The Parks and Recreation Department compiled a list of relevant stakeholders (ex. Fox Cities Greenways, Winnebago Snowmobile Alliance, Oshkosh Youth Rugby, Oshkosh Youth Soccer, etc.) to invite to each focus group. A summary of the feedback gathered from each meeting is provided below; this feedback helped develop the recommended improvements included in Chapter 5.

## 4.4 REGIONAL & STATE INSIGHTS

Winnebago County is located within the Lake Winnebago Waters region, as designated in the State Comprehensive Outdoor Recreation Plan (SCORP) for 2019-2023. The plan notes the following future recreation needs for this region as the highest priority:

- Bicycling – bicycling touring/road riding
- Bicycling – mountain biking/off-road biking
- Bird or wildlife watching
- Camping – developed
- Camping – primitive
- Canoeing or kayaking
- Cross country skiing
- Dog walking
- Fishing – lake fishing from a boat, canoe or kayak
- Fishing – lake fishing from shore or a pier
- Fishing – river fishing from a boat, canoe or kayak
- Fishing – stream or river fishing from shore or wading
- Hiking, walking, trail running, backpacking
- Hunting – big game
- Motorboating (waterski/tubing, personal watercraft)
- Nature photography
- Participating in nature-based education programs
- Picnicking
- Swimming in lakes and rivers
- Visiting a beach, beach walking

### Focus Groups

#### Boat Launch Focus Group (10/3/2023)

- The county should explore purchasing land near the Black Wolf Boat Launch to expand its parking facilities since the parking lot is often full during the boating season.
- The county should ensure all launches have life preservers.
- Long-term, the County should prioritize restrooms (permanent or outhouses) at each launch.

#### Trail Users Focus Group (9/28/2023)

- The County’s top priority should be developing safe bicycle and pedestrian connections to the Mascoutin and WIOUWASH state trails from each municipality within the County.
- A safe east-west bicycle/pedestrian connection is needed in the Town of Winneconne, as well as a connection to Lake Butte Des Morts and the WIOUWASH state trail.
- Breezewood Ln is good corridor to connect the City of Neenah to the WIOUWASH state trail, and there is land potentially available to build a parking lot/information kiosk near the intersection of the state trail and Breezewood.
- The County should explore opportunities to continue the off-road trail along Hwy A to connect Neenah and Oshkosh.

#### Winnebago County Community Park (9/18/2023)

- For rugby users, field 3 is the highest priority for maintenance, but their top priority long-term is adding another field.
- The top priority for disc golf users is replacing the existing baskets.
- Pickleball users would like to see up to eight additional courts added, with lights long-term.
- The top priorities for soccer organizations were to reseed or replace the turf for existing fields, create safe pedestrian paths to the fields away from roads and parking lots, and add additional fields over the long-term.
- The top priority for organizers with the Hmong Community Festivals (held at the park on Memorial and Labor Day) were to expand parking opportunities and protect the open areas near east of the soccer fields for their softball tournaments held during the festivals. Stabilizing the field/open area along the northwest edge of the park from flooding to allow for flexible parking during the festivals was also identified.

# CHAPTER 5

## RECOMMENDATIONS

# RECOMMENDATIONS

The quantitative, qualitative, and geographic analysis discussed in Chapter 4 reveals the need for improvements to existing facilities, as well as the potential acquisition and development of new sites for future recreational use. It should be noted that some of the recommendations may require considerable cooperation with others, including local civic and business associations, Winnebago County municipalities, and State agencies. In nearly every case, more detailed planning, engineering, study, budgeting, and/or discussion will be necessary before decisions are made to actually acquire land or construct recreational facilities.

The recommendations of this plan are divided into five major sections:

1. General Park System Recommendations
2. Recommendations for existing park facilities
3. Recommendations for new park facilities
4. Recommendations for recreational trails

The timeline for completion of the recommendations is within the next five years, or the life of this plan. Due to budgetary constraints, it is unlikely that all of the recommendations within this chapter will be implemented in the next five years. Maintenance and improvement projects will be prioritized on an annual basis by the Parks & Expo Director in conjunction with the County Board of Supervisors as part of the annual budget process. Any of the recommendations regarding new park locations will require extensive coordination; therefore, the timing is more variable.

## 5.1 GENERAL PARK SYSTEM RECOMMENDATIONS

### **Natural & Cultural Resources**

Winnebago County's numerous natural and cultural resources make it a popular recreation area for residents and visitors while providing an enhanced quality of life. The county's natural resources offer a wide variety of passive recreational opportunities that require a minimum amount of development, while its cultural resources provide insight into the county's past which, if lost, are irreplaceable. The County, therefore, should take an active role in preserving and enhancing these unique resources. To do this, it is recommended that the County:

- Continue to work with local municipalities to encourage changes/updates to adopted local land use plans, which are used to provide insight into the county-wide outdoor recreation plan. Such plans have enabled the County and local units of government to make more informed and effective decisions on future land use proposals.
- Encourage innovative development proposals that protect important resources, such as wetlands, lakeshores, river corridors, prime agricultural lands, and other areas of natural or cultural significance. Strategies that stimulate this type of development should be encouraged in all local land use plans and, if necessary, appropriate language added to County-administered zoning and subdivision ordinances. The County's Solid Waste Management Plan, Farmland Preservation Plan, and the Land and Water Resources Management Plan are existing documents that provide a sound basis for wise use of these resources.

- Continue to encourage farmers to implement sound agricultural practices, particularly those that control erosion and protect groundwater as well as run-off of phosphorus and nitrates via the County's Conservation Management Plan.
- Continue to support efforts by the WDNR and other public and private entities to ensure the long-term protection of high-quality wildlife and fishery resources within the county. These resources, not only have intrinsic value, but support the quality of life enjoyed by county residents, provide recreational opportunities, and contribute to local economies.
- Continue to work with the WDNR, other state agencies, and the private sector to provide multiple-use facilities for activities such as; hiking, nature study, cross-country skiing, hunting, and fishing where appropriate on county and state-owned lands.
- Make use of the County's Geographic Information System (GIS) (WINGS) to identify archeological and historical sites within the county, including cemeteries whenever possible. As a component of this activity, encourage local historical societies to work closely with the County to collectively undertake an up-to-date inventory of these sites. Steps should be taken to have significant sites listed on the National Register of Historic Places were pertinent. Additional promotion of historic sites should be considered.
- Maintain efforts to identify prioritize, survey, and clearly mark existing county park boundaries. Marked boundary lines are important not only for park users and maintenance personnel, but also for adjacent property owners.
- Continue to work with groups such as re:Th!nk Winnebago to promote healthy lifestyles and active recreation opportunities throughout the county, while supporting Safe Routes to School (SRTS) and Safe Routes to Parks (SRTP) programs and leaders.

*Ken Robl Conservation Park*

**Parks & Recreation Maintenance**

The recommendations proposed are to be used as a guide for implementing the County's 5-year action program. Among the highlights are; placing emphasis on ADA compliance for all existing and new facilities, upgrading restrooms and other ancillary facilities, and maintaining existing recreational opportunities through an adequate maintenance program. These improvements will make the county's parks more user-friendly and more attractive for group outings. The committee has also made recommendations to address those recreational opportunities that are not necessarily dependent on publicly owned land such as clubs and groups. These opportunities are an important ingredient of the county's overall recreational system and attract visitor dollars for the economy. With the new Sunnyview Stadium stage, more events can be added as well as a tourism base for concerts.

## 5.2 RECOMMENDATIONS FOR EXISTING PARKS & TRAIL FACILITIES

The following section details specific recommendations for each existing county-owned facility. Table 6.1 in Chapter 6 summarizes these recommendations, and includes timeframes for implementation.

### **County-Wide Boat Recommendations**

- Ensure all county boat launches have life preservers.

### **County-Wide Trail Recommendations**

- Pave from UW-O to Lake Butte Des Morts Drive.

- Explore opportunities to extend existing trail along Hwy A to connect the Cities of Neenah and Oshkosh, as identified in the 2021 Appleton and Oshkosh MPO Bicycle and Pedestrian Plan.
- Prioritize safe pedestrian/bicycle access to both state trails from all the municipalities in the county.
- Explore opportunities for connecting the Village of Winneconne and Town of Winneconne to the WIOUWASH Trail.

## 5.3 PROPOSED NEW PARKLAND

### **Mary Stroud Nature Center**

30 acres of land owned by the Stroud Family, located in the northern part of the county off of Grandview Rd, are proposed to become the Mary Stroud Nature Center. Acquisition of this land by the County is proposed at the time of this plan's writing with a timeline has yet to be determined.

## 5.4 PROPOSED NEW TRAILS

### **Future Trail from the City of Menasha to High Cliff State Park**

The City of Menasha, Fox Cities Community Foundation, East Central Wisconsin Regional Planning Commission, and several other communities and community partners are working together to complete a vision of connecting the Fox Cities trail system to High Cliff State Park. Guided by a master plan that was completed in 2022, this connection would allow bicyclists and pedestrians the opportunity to safely access High Cliff State Park. Once completed, this connection would provide a seamless route from Loop the Little Lake and traverse through Menasha, Harrison, and Sherwood, eventually leading to the state park. This connection will fill in critical gaps in the current trail network by improving existing trails and adding bike lanes and additional trails. In addition to connecting to the state park, residents would have improved access to local parks and community service facilities.

## IMPLEMENTATION

# IMPLEMENTATION

## 6.1 FUNDING OPPORTUNITIES

Maintenance and operational expenses for Parks & Recreation Departments are generally funded through property taxes and user fees. As the park system grows, the funding needed to meet the basic maintenance and operational costs also grows. Often there are insufficient funds to undertake major capital improvement projects. There are a wide variety of potential funding sources to assist with up-front capital costs, including acquisition of land and the development of new recreational facilities.

### **Grant Programs**

An important source of funding are grant programs offered by state and federal agencies, especially the Wisconsin Department of Natural Resources. Table 6.1 provides a summary of common state and federal park and recreation grant programs. The table is not an exhaustive list of grant programs, rather those that are typically used by municipalities. Other grant programs may exist and information regarding funding details shown in Table 6.1 should be verified with grant providers prior to seeking grant funding.

### **Community Fundraising & Volunteer Groups**

Community groups and civic organizations are sometimes willing to organize fundraising efforts to assist with costs, and they may also be able to marshal volunteer labor to assist with small development projects such as trail creation or playground installations. Local business and corporate support should also be sought. Funders can be acknowledged with plaques, signs, or walkway bricks, including the option of park or feature naming rights for major donors.

### **501(c)3 Foundation**

The County can set up an endowment fund as an additional means of providing continual financial support for park acquisition and development. An endowment fund works like a permanent savings account. The amount individuals give, which is the principal, is never spent. Only the interest income is spent, thereby providing a continual source of monies. A park endowment fund can provide a means for residents to make gifts of any size (including estate bequests), with the certainty that the money donated will only be used for the advancement of recreation in the community. Gifts to an endowment fund are typically tax deductible under federal and state law.

### **Tax Increment Financing (TIF)**

As part of a broader plan to redevelop an area, the County can use tax increment financing to assist with parkland or trail acquisition and development. There are some limitations to what revenues from a TIF district can be used to pay for, generally the costs of constructing public buildings cannot be funded with TIF. TID are typically created for the purpose stimulating redevelopment and new public and private investments.

### **Parkland Dedication**

Per the County's Subdivision and Platting Ordinance (Chapter 18):

- Whenever a proposed park, playground, public access, open space site or other public land, other than streets or drainageways, designated in the adopted regional and County comprehensive plan components is embraced, all or in part, in a tract of land to be divided, such proposed public lands shall be made a part of the plat and shall either be dedicated to the public or reserved for acquisition at undeveloped land costs for a period not to exceed three years between the applicant and the public agency having jurisdiction. If the reserved land is not acquired by such public agency within the above time limit, the land shall be released to the owner.

## 6.2 PLAN ADOPTION & AMENDMENT PROCEDURES

### **Parks and Recreation Committee Recommendation**

The Committee should meet to review the plan and pass a motion to recommend approval of the plan or plan amendment by the County Board of Supervisors.

### **Public Hearing**

Prior to adopting this plan, or plan amendment, the county can hold at least one public hearing to discuss the proposed plan or plan amendment; however, a public hearing is not required by the DNR to adopt this plan. If a public hearing is held, at least 30 days prior to the hearing a Class 1 notice must be published that contains, at minimum, the following:

- The date, time, and location of the hearing.
- A summary of the proposed plan or plan amendment.
- The local government staff who may be contacted for additional information.
- Where to inspect and how to obtain a copy of the proposed plan or amendment before the hearing.

The notice should also provide a method for submitting written comments, and those comments should be read or summarized at the public hearing.

### **Plan Adoption**

The plan and any future amendments become official County policy when the Board of Supervisors passes, by a majority vote of all elected members, an adoption resolution. The Board may choose to revise the plan after it has been recommended by the Parks and Recreation Committee, and after a public hearing (optional).

### **Plan Amendment vs. Plan Update**

Amendments can be made at any time, but it is best practice that the County should not amend the plan more than once per year. A common recommended approach is to establish a consistent annual schedule for consideration of minor plan amendments as needed. This plan should be updated every five years in order to maintain eligibility the WDNR Knowles-Nelson Stewardship grant funding program. Unlike an amendment, a plan update should revisit the entirety of the plan content and include more robust opportunities for public participation.

***Knowles-Nelson Stewardship Program***

The Stewardship Program was established in 1989 to preserve Wisconsin’s most significant land and water resources for future generations and to provide the land base and recreational facilities needed for quality outdoor experiences. These goals are achieved by acquiring land and easements for conservation and recreation purposes, developing and improving recreational facilities, and restoring wildlife habitat. This is an umbrella program that funds the following grants:

- |   |                          |       |
|---|--------------------------|-------|
| <p><b>Aids for the Acquisition and Development of Local Parks (ADLP)</b></p> <ul style="list-style-type: none"> <li>Helps to buy land or easements and develop or renovate local park and recreation area facilities for nature-based outdoor recreation purposes (e.g., fishing access, and park support facilities).</li> </ul> | 50% local match required | 1-May |
| <p><b>Urban Green Space (UGS)</b></p> <ul style="list-style-type: none"> <li>Helps to buy land or easements in urban or urbanizing area to preserve the scenic and ecological values of natural open spaces for nature-based outdoor recreation, including non-commercial gardening.</li> </ul>                                   |                          |       |
| <p><b>Urban Rivers (UR)</b></p> <ul style="list-style-type: none"> <li>Helps to buy land on or adjacent to river flowing through urban or urbanizing areas to preserve or restore the scenic and environmental values of rivers for nature-based outdoor recreation.</li> </ul>   |                          |       |
| <p><b>Acquisition of Development Rights Grants (ADR)</b></p> <ul style="list-style-type: none"> <li>Helps to buy development rights (easements) for the protection of natural, agricultural, or forestry values, that would enhance nature-based outdoor recreation.</li> </ul>   |                          |       |

***Land and Water Conservation Fund (LAWCON)***

- |  |                          |       |
|--|--------------------------|-------|
| <ul style="list-style-type: none"> <li>This fund is used to implement projects that are identified by both the local and the state Comprehensive Outdoor Recreation Plan.</li> <li>In general, land acquisition, development, and renovation projects for public outdoor recreation purposes are eligible LWCF projects. ***Recreational Trails Program Grant***

- |  |  |       |
|--|--|-------|
| <ul style="list-style-type: none"> <li>Eligible projects include: maintenance and restoration of existing trails, development and rehabilitation of trailside and trailhead facilities and trail linkages, construction of new trails, and acquisition of easement or property for trails.</li> <li>May only be used on trails which have been identified in or which further a specific goal of a local, county or state trail plan included or reference in a statewide comprehensive outdoor recreation plan required by the federal LAWCON.</li> </ul> | Up to 80% of the total project costs of a recreational trail project (20% match required). Payments are reimbursements on costs incurred after project approval. | 1-May |
|--|--|-------|

**Urban Forestry**

Provides technical service and financial assistance to communities for developing urban forestry programs. Priorities include:

- 1) Communities needing to develop an urban forestry plan;
- 2) Communities needing worker training; and
- 3) Communities needing to conduct a street tree inventory.

Eligible projects include 1) Undertaking street tree inventories; 2) Training for Village tree workers; 3) Developing urban open space programs; 4) Developing urban forestry plans; 5) Developing a tree ordinance; 6) Developing a public awareness program; and, 7) Tree planting and maintenance

50% local match required.  
Grants range from \$1,000 to \$25,000.

1-Oct

**Lake Protection and Classification Grants**

• Designed to assist lake users, lake communities and local governments as they undertake projects to protect and restore lakes and their ecosystems. Eligible projects include:

- Purchase of property or a conservation easement
- Restoration of wetlands
- Development of local regulations or ordinances
- Lake classification projects that allow counties to design and implement local land and water management programs that are tailored to specific classes of lakes in response to various development and recreational use pressures (these grants are limited to \$50,000).
- Lake protection projects recommended in a DNR-approved plan including watershed management, lake restoration, diagnostic feasibility studies, or any other projects that will protect or improve lakes.

25% local match required.  
\$200,000 maximum per project.

1-May

**Recreational Boating Facilities Grant**

• Construction of capital improvements to provide safe recreational boating facilities and for feasibility studies related to the development of safe recreational facilities.

• Also includes purchase of navigation aids, dredging of channels of waterways, and chemically treating Eurasian water milfoil.

50% local match required

Established quarterly

**Sport Fish Restoration Funding**

• Sport Fish Restoration - Fishing Pier (SFR-FP) grants may be used to construct fishing piers that are primarily designed to provide public access for shore fishing.

• Sport Fish Restoration - Boat Access (SFR-BA) grants may be used to construct motorboat access projects. Eligible components include boat ramp construction and renovation, along with related amenities such as parking lots, accessible paths, lighting, and restroom facilities.

2	It would be nice to have a bike trail along Hwy A or somewhere near there, if someone was wanting to bike to/from Oshkosh to Neenah. That would be amazing actually. Riding a bike on Hwy A is a bit dangerous and it would be great to have a designated trail. Or just more bike trails on the South East side on the Town of Neenah. I used to live on Bowen Street in Oshkosh and my son and I like to ride our bikes often and had wanted to ride to the county fair but again, there wasn't really a great way to get there on bike that is safe.	8/21/2023 9:41 AM

247	Cities like Madison have much more friendly bike lane streets although I see Oshkosh has come a long way since I moved here in 1994. The road diets are helpful on slowing down traffic and I appreciate them making room for cyclists. My family enjoys the Larson trail are now called wiowash, and trails around the new Oshkosh truck headquarters.	7/13/2023 1:40 PM

275	I would love to see bike paths or bike routes as opposed to bike lanes on city streets. Bike lanes in the city in my opinion are not safe. I don't like to bike on city streets or county roads due to safety concerns and prefer only unpaved or gravel pathways. The location is not necessarily that important as I generally need to put my bike on a bike rack and drive to a starting location anyway, because I live outside the city. It would be nice to have bike paths that lead to restaurants or parks in the area or to a destination. I would love to see a bike path from Oshkosh to Neenah for example!!	7/12/2023 7:03 PM

2	As mentioned above, if would be great if there was a bike trail that went out to the Sunny View location. People could ride their bikes to LifeFest and the Fair, or other events going on out there. There's not a great way to do that right now. As an adult, I am comfortable riding that way but I don't feel comfortable taking my son on bike to that location.	8/21/2023 9:41 AM

163	The Wiowash crossing by Fox River Brewery is very dangerous. Sure there are flashing lights, but the drivers are very careless and get very mad at bicyclists and runners. I've seen a lot of bicyclists get swore at, swerved at, honked at - even when they are crossing with lights flashing. The road rage in that spot towards cyclists (and runners) is dangerous. Many bikers like to go the distance to Waukau from the 20th Y to Waukau Dam. However, that roadway is narrow and dangerous. Improvements could be made there.	7/24/2023 7:13 AM

237	Pedestrian safety big concern West 20th Ave ... motorcycle, trucks/commercial and private vehicles drive too fast for the neighborhood with school age children walking/crossing. Vehicles excel and "sound" pollution is a nuisance for those who live in this area. 12	County Park has wonderful biking and walking trails that our family utilizes on a regular basis. In addition, our family has been involved in the Oshkosh United Soccer Club in some way or another for over 20 years. Although we are grateful for the ability to use a few of the soccer fields at County Park, there is so much potential for the county and community to develop safer fields at a low investment for community soccer club use.	8/16/2023 5:28 PM

3	The soccer fields at Winnebago County Park are uneven and often unsafe for play. Improving these fields is a low cost investment in the community. According to Statista.com, more children and teenagers are playing soccer in the U.S. than ever before! Let's ensure that the children in Winnebago County have a safe place to play their favorite sport.	8/16/2023 5:41 PM

14	The soccer fields at Winnebago County Park are in poor condition and put our kids at risk for sprained ankles or injuries.	8/14/2023 6:14 PM
15	County Park could be amazing, but it is disconnected from the county. The county allows a third party unfair access, care, and control of the facilities. That party should not be allowed to earn revenue from the care and control of that facility. The state of the facility is a result of a group of individuals who do not know what they are doing as far as facility management and field upkeep. Visit out communities with similar facilities; ours is some of the saddest looking fields and no turf.	8/14/2023 6:10 PM

210	I go to O Hauser, Town of Clayton, and Plamann Park frequently to disc golf. Honestly Winnebago County park has a large amount of potential to be a great course, but it could use more trees and better baskets. The Mach 3s are really beat up. Also Looking at the other courses I play, they all have trash/recycling containers. For whatever reason Winnebago County park never does, nor does it seem to have bathrooms.	7/2/2023 7:24 PM

#	RESPONSES	DATE
1	I'm not sure. I would say just more bike routes to get to the Sunnyview area.	8/21/2023 10:13 AM
2	Indoor sports complex with soccer field	8/21/2023 9:55 AM
3	Update the fields for soccer at County Park. They are in rough shape.	8/21/2023 7:59 AM
4	Higher quality soccer fields	8/20/2023 5:52 PM
5	Improve soccer fields at County Park. Could be a great resource. Make one field a Championship field with seating and lights. Maybe turf, or take great care of the grass	8/19/2023 10:19 AM
6	Not sure we need anything new until we repair and update our current facilities. However, the multi-sport indoor facility would be a boost for many programs.	8/18/2023 5:34 PM
7	?	8/17/2023 10:54 AM

10	Improving soccer fields at winnebago county park	8/16/2023 1:25 PM
11	Ice rink, better soccer fields	8/15/2023 5:52 PM
12	Pickle Ball Leagues, sand volleyball leagues at parks.	8/15/2023 3:38 PM
13	An indoor sports complex...desperate need for more indoor basketball, volleyball and tennis courts.	8/15/2023 1:54 PM
14	Consider adding permanent soccer fields at Winnebago County Park	8/15/2023 11:34 AM
15	pickle ball courts	8/15/2023 10:08 AM
16	It would be great if winnebago county park had lights for night soccer, and allow all Oshkosh soccer clubs to use the facilities. It is county owned, we should be able to utilize it for our soccer programs	8/15/2023 9:50 AM
17	Updating the soccer fields at Winnebago County Park!! They are in terrible condition compared to surrounding community fields!!	8/15/2023 9:45 AM
18	Not sure	8/15/2023 9:12 AM
19	Better soccer fields for the kids	8/15/2023 8:39 AM
20	Indoor soccer center	8/15/2023 7:52 AM
21	More pickle ball courts and do not let specific organizations control county areas. As an outsider coming in, it is unbelievable to me that OYSC had priority over space at a county park.	8/14/2023 11:09 PM
22	Can't think of any	8/14/2023 10:42 PM
23	I would love to see the soccer fields at County Park better maintained.	8/14/2023 10:19 PM
24	Improve soccer fields at Winnebago county park and build indoor fields for winter use	8/14/2023 10:07 PM
25	na	8/14/2023 9:59 PM
26	Creating more trails in the town of algoma	8/14/2023 9:57 PM

29	Better quality soccer fields, please.	8/14/2023 8:33 PM
30	NA	8/14/2023 8:13 PM
31	Please open up the use of the Winnebago County Park soccer fields to groups outside of OYSC or at least allow equal use. Better maintenance of the soccer fields. We could also use expanded baseball diamonds and better fields for this sport. Many communities smaller than ours have nicer baseball facilities than what is available in our area.	8/14/2023 7:54 PM
32	Wish there was more sports areas in the community to bring more people to Oshkosh, nice areas for families to enjoy outside of there home	8/14/2023 7:52 PM

37	Better soccer fields	8/14/2023 6:42 PM
38	Soccer fields should be drastically improved. Much smaller communities have far superior soccer complexes and can pull visitors from all around for tournaments, which bring revenue to the communities.	8/14/2023 6:39 PM
39	Would like to see some money put into making the soccer fields better	8/14/2023 6:24 PM
40	Facility for indoor soccer during winter months, similar to the old Soccer Heaven	8/14/2023 6:16 PM
41	Soccer fields need improvements. These fields are heavily used and not well maintained	8/14/2023 5:49 PM
42	Fishing piers and kayak launches	8/14/2023 5:37 PM
43	Indoor soccer facilities or lighted soccer facilities. Other than the Y, there are not many indoor soccer facilities in the Fox Valley for soccer families. The facility could offer numerous different indoor sports which would be useful for everyone who wants to keep practicing sports during the summer but can't afford the high cost of a Y membership to do so.	8/14/2023 5:34 PM

61	The county should invest in the soccer fields at Winnebago County Park. Having high quality soccer fields out at County Park would allow the many kids who play soccer in this community to have quality facilities, but it would also allow for Oshkosh to be a destination for tournaments that could bring in revenue to the local economy. Local restaurants, hotels, shops and other businesses would directly benefit from people streaming into Oshkosh for a weekend tournament. If Oshkosh had better facilities (like the facility in Wausau), we could not only better serve the soccer playing kids of Oshkosh, but the entire Oshkosh community.	8/14/2023 4:36 PM

72	I think they should consider re-vamping the soccer fields at county park. There are not enough fields that are the correct size requirements for league soccer, many fields don't have goals, or the netting is missing/torn and the fields flood anytime there is rainfall because the fields are not level.	8/14/2023 3:58 PM

138	I think an ice skating facility that is open to public use would be amazing! The YMCA has a facility, but open skate is impossible to access due to all of the hockey team use. Oshkosh used to have many random skating spots (way back in the day) and now it has none. Winnebago lake ice is very unpredictable - especially these last few years. Neenah's skate rink is tiny and overpopulated. An ice facility in the Oshkosh area would be so wonderful. My family would use it a lot.	7/24/2023 7:24 AM

211	Increased bike/walk trail access, connect all bike/walk trails together, increase pickle ball court numbers	7/12/2023 7:55 PM
212	Winnebago County is way behind neighboring counties with high quality pickleball courts. The city courts are always busy with many people waiting for an open court to play. A short term solution would be to paint pickleball court lines on existing tennis courts. Winnebago County Park would be a great location for a nice pickleball facility in close proximity to I-41.	7/12/2023 7:52 PM

218	Pickleball is the fastest growing sport in the nation. Other counties and cities are ahead of Winnebago in providing facilities... There are often wait times to get on the Pickleball courts in the Oshkosh area. Younger people are joining the sport in many middle age and older populations already currently enjoy the sport. We need more courts! There is very little maintenance to the courts... The initial expenditure is obviously the major cost. We have plenty of space at Winnebago County Park to replace tennis courts that are not used and are unsafe with the current surface. It would be amazing to have a pickleball Complex there.	7/12/2023 7:14 PM

231	Good pickleball courts. I support the proposal of the Oshkosh Pickleball Club.	7/12/2023 6:14 PM
232	Lighted pickleball courts at county park located north of the tennis/basketball sport court. It's close to a water fountain & bathroom. Courts needs to be north/south facing. Great space for them. We play pickleball 5 days per week and often there is a wait or no availability on existing courts. Fasted growing sport! We have just become new empty nesters and pickleball has brought us so many new friends. Some come to Oshkosh to use the tennis center in the winter. They would play more in the warmer months if Oshkosh had more courts.	7/12/2023 6:00 PM

1	These is a small manmade lake/beach area out at the Sunnyview location. I never knew that was there. I'm not sure how long it's been closed and out of commission but it would be amazing if it were reopened. It's a shame that it just sits there empty. If not for children, for dogs. That would be amazing actually. To have a dog beach.	8/21/2023 10:13 AM

43	The soccer fields at Winnebago County Park could be better maintained by the county and the local soccer clubs. All of the soccer clubs have expressed an interest in helping to maintain the fields out there. It would be wise to bring together the local stakeholders so a conversation could be had about how to make the soccer fields out there better for everyone. As stated previously, any improvements in the soccer facilities would not only help the soccer playing population of the community, but would also bring in thousands of dollars of economic stimulus as Oshkosh could be the site of multiple soccer tournaments throughout the year.	8/14/2023 4:36 PM

located between the largest of the cities in WI and offers the opportunity to bring many teams to compete at the fields. Expanding the rugby area would enable more use of it for larger events.

81	As stated before, I would like an emphasis put on new construction for neighborhoods that do not currently have safe routes for walking and biking to local recreational services and further.	7/31/2023 2:05 PM
82	Need bike trail or sidewalk along county Y or snell for bikers pedestrians to walk/bike.	7/31/2023 1:30 PM

110	We apparently don't have a lot of wilderness left in the county...seems like we're still stuck after years of suburban sprawl. We drive hours to get somewhere forested, and that's a shame. The lakes are our big draw, but the lakes need a buffer of ecologically diverse wetland and forest to continue to thrive (or start to thrive again... depending on who you ask, we're not great at keeping Bago healthy, either)	7/24/2023 7:49 AM

71	Need lights with timers at the tennis courts like Menomonee park tennis courts	10/7/2023 10:06 AM
72	Parking lot - could use more spots	10/7/2023 8:04 AM
73	The disc golf course could use some more TLC, especially gold / yellow course. We have a Tuesday Night Toss league where we've been saving up money to help support the course but need an outlet to reach out to	10/7/2023 8:02 AM
74	Playground	10/7/2023 7:38 AM
75	Piers for the ponds/lakes would be nice	10/7/2023 6:53 AM
76	There is so much land at that park and I spent so much time playing disc golf there. I would love to see a more modern level disc golf course. Get some par 4s and 5s.	10/7/2023 6:12 AM
77	More picnic tables or benches in the dog park, adding a swim area for the dogs	10/7/2023 5:12 AM
78	Beach at county Park	10/7/2023 1:02 AM
79	The disc golf course could definitely use some new baskets. And maybe a bit of a course revamp. Its a bit boring and repetitive	10/7/2023 12:24 AM

88	Make baseball fields youth baseball/softball ready. Youth baseball dimensions of 46' pitching distance and 60' base paths.	10/6/2023 9:09 PM
89	Not really. They're ok.	10/6/2023 9:05 PM
90	Needs new disc golf baskets. Course layout itself is phenomenal	10/6/2023 8:57 PM
91	Disc golf	10/6/2023 8:47 PM
92	The park is in great shape. Much improved over the last 20 yrs. Disc golf has really improved, but the walking path is great too. It would be nice if the swimming lake came back, but I understand why that's unlikely.	10/6/2023 8:39 PM
93	The rentable units are trash. Needs upgrades. They look terrible.	10/6/2023 8:20 PM
94	Playgrounds	10/6/2023 8:10 PM
95	Playgrounds are 20 years old	10/6/2023 8:00 PM
96	The baskets are pretty worn out for disc golf at county park and some of the pads are cracked. The signage improvement out there is awesome along with the wider grass area on the yellow course. The pavilions seem to be older condition along with the tables.	10/6/2023 7:23 PM

98	No	10/6/2023 7:15 PM
99	New disc golf baskets!	10/6/2023 6:40 PM
100	The disc golf course baskets are in need of repair/replacement. Some are out of shape, uneven, and even starting to come out of the ground. Some holes have super super over grown grass and weeds (and I don't mean the yellow course-I mean the green par 54 course.)	10/6/2023 6:40 PM
101	The discgolf course is great. It would be even better if there was more regular brush cleaning on some of the holes and an investment in new baskets.	10/6/2023 6:40 PM
102	Fishing ponds of courae get very weedy, but not much to so there. We love the disc golf courses and know many locals who would live to lend a hand to see the improved.	10/6/2023 6:32 PM
103	Disc golf courses need better signage and mapping. Otherwise it's a great course, both of them.	10/6/2023 6:28 PM
104	New baskets for disc golf courses	10/6/2023 6:10 PM
105	Disc golf needs some help please. Bigger lanes mowed every time the crew is mowing. Trees trimmed for better flight paths. If in budget new baskets would be a great upgrade. Thanks much.	10/6/2023 6:06 PM

114	Please consider ice/snow removal on multi use walking trail in winter for safe walking in colder months	10/6/2023 10:30 AM
115	My biggest issue with most of these facilities is the lighting. The dog park is horribly lit and as it gets darker earlier and earlier it becomes hard to go after work with my dog.	10/6/2023 10:06 AM

117	I know labor is an issue, however I would like to see some of the ground care in better shape. There are more weeds around the areas and less trimming done.	10/6/2023 7:40 AM
118	Playground. They are outdated and in need of maintenance. They're also too small. I rarely see kids play on them or when they do, it very short lived as they get bored really fast. Unlike Menominee Park where you can't take the kids off.	10/6/2023 7:35 AM

## Winnebago County - Community Park Master Plan Survey

148	Sure	10/5/2023 3:36 PM
149	More walking trails for families with pets. I hate having to walk along Y or snell to get 3+ miles in. Why not allow pet owners to use all of the trails? Do you realize how much goose poop there is already on the trails? Updated playgrounds would be amazing. They are very unsafe and should be torn down. I do like that the park is quiet and not over crowded. However that also makes me feel a little uneasy at times too.	10/5/2023 3:34 PM
150	I think having more trails to run/walk would be wonderful	10/5/2023 3:21 PM

164	The primary field for rugby could use resurfacing/new dirt/grass. The bathroom nearby the field also has a broken stall door for the men's room	10/5/2023 10:39 AM
165	The rugby fields could use renovation. The turf isn't up to the standards required to play safely or effectively	10/5/2023 9:39 AM

167	Playgrounds and restrooms	10/5/2023 8:54 AM
168	No	10/5/2023 8:39 AM
169	Better shared use of soccer fields. I know it's home to one club but the other club doesn't have home fields either. It's making it difficult to get multiple kids to multiple locations because the city of Oshkosh doesn't have enough fields for both groups.	10/5/2023 8:18 AM

177	I didn't know here was snow shoe trails.	10/5/2023 12:32 AM
178	The rugby fields NEED maintenance. The ground is too tough from the lack of rain so a sprinkler system would be tremendous. The Oshkosh Pigs play here and they are always having nasty field scrapes and wounds because of the hard ground and rocks in the field.	10/5/2023 12:28 AM

## Winnebago County - Community Park Master Plan Survey

179	I feel the rugby fields need improvement. As someone who plays rugby on them I can attest to the fact that the soil and grass quality on a couple of the fields is not very safe for the players. We manage with what we have, but top soil, grading and rolling would help us prevent injury greatly.	10/5/2023 12:19 AM

187	There could be more done to help the soccer fields drain better in the Spring	10/4/2023 8:46 PM
188	I feel pickle ball basketball an tennis should be separate... and definitely have a wall for the tennis courts. Hard to play with one person otherwise	10/4/2023 8:40 PM

196	Playgrounds	10/4/2023 7:20 PM
197	Bleachers for rugby field and lights	10/4/2023 7:17 PM
198	Playground could use an upgrade and more trails would be nice	10/4/2023 7:08 PM
199	Dog park terrain is rough and uneven and easily becomes a mud pit. For years I stuck it out and took my young dog there almost daily for an hour at a time. At some point I decided it wasn't worth having to bathe her every single time, so only go there sparingly now. Even a brief rain shower or gentle snowfall creates areas similar to a pigsty. Very disappointing. It is a very well used part of the park and should be better cared for.	10/4/2023 7:00 PM
200	No	10/4/2023 6:56 PM
201	Better playgrounds at county park	10/4/2023 6:25 PM

5	An increased law enforcement presence throught the park.	10/6/2023 1:29 PM
6	One incident of a young man with skateboard (appeared to be age 12-14) showing in palm of his hand a switchblade as he walked past my husband and remarked in a strange tone "do you carry protection?" And mumbled some additional verbiage inaudible as he passed by... was concerned by this and reported to police. This was on walking path in winnebago county park.	10/6/2023 10:30 AM
7	my only concerns for safety is the lighting of the paths. The roads are lit, but the paths don't always follow the roads. Bathroom accessibility should be addressed in any renovations.	10/6/2023 10:06 AM
8	Dog park patrons continue to bring uncontrolled dogs and then do not watch them. There is dog on dog aggression so I don't visit very often.	10/5/2023 11:05 PM

11	The city had made tremendous progress in the upgrades of County Park. Keep up the great work! Thank you.	10/11/2023 6:46 AM
12	Please lean on the local disc golf community to care for and grow this beautiful property.	10/10/2023 10:46 PM
13	Overall a great park.	10/10/2023 3:52 PM
14	New pickleball courts with lights would be a great addition to the park and well used.	10/10/2023 2:24 PM
15	Improved shelters and playgrounds are needed. More trails would also be nice.	10/10/2023 11:54 AM
16	Is a beautiful park with lots of potential. An 8 court pickleball court would certainly bring people together from all sounding communities. I've seen people from Fon Dulac, DePere, Hortonville, and others at our Appleton courts. A tournament at the new facility would bring monies into the Oshkosh community spent on food, drink, lodging, and shopping.	10/10/2023 6:33 AM
17	There are only 4 lighted pickleball courts in the Oshkosh area. Lights would expand the utilization of the courts in the spring and fall.	10/9/2023 10:42 PM
18	Pickleball is growing so fast! It is getting huge in Oshkosh!	10/9/2023 7:20 PM

20	Could be a very desirable place to play pickleball for all county residents if designed with 8 courts and accompanying restroom, water fountain and shade area	10/9/2023 5:41 PM
21	Well maintained park	10/9/2023 5:26 PM
22	Great place to have an 8 court pickleball center.	10/9/2023 5:19 PM
23	The number of pickleball players has grown so there is usually a waiting line at optimum times to play. Also, if possible it would be nice to have indoor court options. Would it be possible to use some of the indoor space at the county fair grounds for this purpose?	10/9/2023 4:00 PM
24	It is a very beautiful park that certainly gets usage, but certainly could be used more...specifically, for pickleball with at least 8 courts. These would be used by Winnebago	10/9/2023 3:52 PM

County residents and bring in people from other locals that would spend money at local businesses.

26	No bike pump tracks are in the area, the active BMX and mountain bike users of Winnebago County would frequent this unique amenity. Madison and Green Bay have pump tracks. We should be the first in the Fox Valley before our neighbors.	10/8/2023 8:37 PM

28	I love the park in its entirety and dont think it really needs improvements. A nice swimming beach would be great but isn't necessary. The disk golf courses are some of my favorite courses in the entire state.	10/8/2023 5:06 PM
29	Love the public parks!	10/8/2023 2:39 PM
30	I think the park is fairly full of athletic fields. More trails please!	10/8/2023 2:00 PM
31	It's a great asset. Need to do something to upgrade the old swimming area. It's great to have a master plan for continuous improvement	10/8/2023 1:06 PM
32	For over 20 years I have visited this park multiple times per year for the rugby fields. Additional fields have brought in more out of state visiting teams and permitted Wisconsin to host regional events. The Rugby fields are a tremendous resource!	10/8/2023 12:37 PM
33	The celebration of lights should move there. It's bigger and has more room.	10/8/2023 12:37 PM

41	NA	10/7/2023 8:04 AM
42	It is such a nice park. Thank you for having disc golf in the park at all. It made my college experience and my time in Oshkosh so much more enjoyable. I have many close friends that wouldn't be my friends if that park didn't exist.	10/7/2023 6:12 AM
43	I think the community is lucky to have such a park. Upkeep on it is pretty well maintained. It could be better at times on the disc golf course, I know there is a local club that does stuff from time to time on the course. It may be good to reach out to them and see if they could help with maintenance	10/7/2023 12:24 AM
44	Mow the disc golf courses	10/6/2023 10:55 PM
45	We love going to this park regularly. Our main two suggestions would be to replace more of the grass with wild plants and trees. There really is more open area grass than necessary. Our other suggestion would be to separate the basketball and tennis courts, so that all three tennis courts may be used for their intended purpose. Thank you!	10/6/2023 10:28 PM
46	I would love to see beer baskets at the county park discgolf course as they are poor quality compared to neighboring city's course baskets	10/6/2023 9:57 PM
47	Maybe a few camping spots. The swimming area needs to be addressed and brought back to life. Disc golf is ok.	10/6/2023 9:37 PM
48	More garbages. Lawn mowers can empty them (the workers, not the actual lawn mower)	10/6/2023 9:35 PM
49	I love this park for many reasons. Mostly the large, open spaces and the disc golf course.	10/6/2023 9:05 PM

51	Love the disc golf plz better baskets and maintain tall grass during the summer yellow course is unplayable sometimes	10/6/2023 8:47 PM
52	See prior. Also, I really appreciate the effort to maintain the prairie restoration. It needs to be burned/mowed occasionally, and that's happening. Thanks!!	10/6/2023 8:39 PM
53	Advertise more about it... not alot of outsiders know of the park	10/6/2023 8:20 PM
54	This park is such a blessing to the community! I use the disc golf course regularly and my kids have enjoyed the playgrounds immensely over the years.	10/6/2023 7:55 PM
55	It seems like the park has had a ton of improvements the last year or two. My main use of the park is disc golf so I really appreciate the signage improvements along with the additional mowing and trimming done to the fairways to make it easier to find discs.	10/6/2023 7:23 PM

85	I miss the lake for swimming. It made such great memories for me as a child. Having sand to dig and play. It was reasonably priced to get in.	10/5/2023 3:21 PM
86	Summer camping for the public would be greatly appreciated.	10/5/2023 3:13 PM
87	Make the archery range better more towers or different features	10/5/2023 2:56 PM
88	Having a lighted field and bleachers would greatly help as it gets dark fast in fall. It would also be helpful to have level and better playing surfaces so we have less injuries. Player safety is always a topic of discussion that should be taken seriously!	10/5/2023 1:17 PM
89	We love riding our bikes to the park, but would visit more if the playgrounds were nicer	10/5/2023 1:04 PM
90	All I can say is that other counties have way better parks, and being that this is located in Oshkosh I feel that it represents us as a community and this county park is lacking and has been for years. I have 6 children and we might come there once a year. Reason we don't go more often is that there is nothing really there	10/5/2023 1:03 PM

94	Rubbermatted playgrounds please	10/5/2023 8:54 AM
95	I think Winnebago County needs a large indoor/outdoor Pavilion for events or weddings. In looking for places to hold events, outegamie, brown, and fond du lac counties all have beautiful pavilions and Winnebago is really lacking in that.	10/5/2023 8:39 AM
96	Use the border areas to create more tree lined bike trails. We can have both soccer fields and trails using space efficiently. Standing Rocks in Portage Co has phenomenal biking and disc golf, taking advantage of the terrain. It's a destination. I like County parks disc golf, but I don't use it regularly. Perhaps building a unique archery area to create a destination. Year round shelters are expensive. Use the money to create something to draw people here	10/5/2023 7:02 AM
97	As a Rugby club mber, we are trying to build the park up as a rugby destination for tournaments from middle school all the way up to Senior clubs. Maybe another field or at least lighting on the main field with the permanent uprights. And ground work as far as new sod/grass the fields are hard as rock. Poor drainage on the field.	10/5/2023 6:18 AM
98	A premier rugby field with bleachers and lights would be great for our area. As well as additional rugby fields. No other park in Wisconsin has more than 2 full size fields. This would allow us to host large events consistently.	10/5/2023 6:07 AM
99	A beautiful park, but again, consider new parks.	10/5/2023 5:09 AM
100	Bleachers at all fields would help spectators especially the elderly/disabled	10/5/2023 1:01 AM
101	Overall, the park is pretty nice. Just a lot of little things that could be improved like some of the fishing lakes that are overgrown with invasive or seem to be invasive weeds.	10/5/2023 12:28 AM
102	Love the park!	10/5/2023 12:19 AM
103	There should be more trails in the park, like cross country trails and more trees. A nice small forest would be nice with running/hiking trails in it.	10/4/2023 9:56 PM
104	We went to the park all the time in the 80's-90's. The beach was a pinnacle of my childhood. I wish we still had it. We geocache and love the caches in the park. It would be awesome to partner with geocaching and add more points in the park.	10/4/2023 8:50 PM
105	Would be nice if certain areas weren't so run down	10/4/2023 8:40 PM

107	We live nearby and are so thankful to have the park as a place to be outside and enjoy nature.	10/4/2023 8:14 PM
108	Just make a really good hybrid of the green and yellow disc golf courses. Get new baskets. Stop parking cars on the green course during events. Is there any other county land where a course can be built? Somewhere where it's not affected by other events at the park?	10/4/2023 7:26 PM
109	Love to have the swimming area back. Loved going there when i was younger.	10/4/2023 7:20 PM
110	It's such a beautiful park, but not to much to do. Beach would be great to have back, a splash pad or two, more trails, more to do then to just ride through.	10/4/2023 7:15 PM
111	There is so little info out there compared to City of Oshkosh parks. No events	10/4/2023 7:11 PM
112	It is a nice, basic park, but could be better.	10/4/2023 7:00 PM
113	It is nice to just drive threw and look at the scenery	10/4/2023 6:56 PM
114	Love the park other than the playground equipment	10/4/2023 6:25 PM

Increasing Resiliency for Outdoor Recreation  
Comprehensive Spirit Fund Request

# Overview of Winnebago County Parks

## GOALS

- ▶ **Long Term Maintenance**
  - ▶ *Create resiliency* by addressing the cost for future maintenance.
  - ▶ *Address current maintenance* issues throughout our park system that require one-time costs.
  - ▶ *Reduce long term maintenance* to save staff time and personnel time with future maintenance tasks.
- ▶ **Provide More Opportunities for Residents and Users of the Park System**
  - ▶ Provide *open space* for the residents of Winnebago County to enjoy the natural environment, take part in physical activity, and access the water system.
  - ▶ Provide *water access* to as many residents in Winnebago County as possible.
  - ▶ Provide *more capacity* for the user groups utilizing the Winnebago County Park System.

# Project Data

- ▶ Winnebago County received a \$751,815 grant from the WI DNR for the *Address maintenance* issues throughout our park system that require one-time costs.
- ▶ The WIOUWASH Trail averaged thousands of users on the trails in 2022 and 2023.
  - ▶ West Wind Trailhead - ADT 42,144 (2023 Trail Data)
  - ▶ Allenville Trailhead - ADT 22,778 (2022 Trail Data)
  - ▶ Medina Trailhead - ADT 25,657 (4 Months of 2023 Trail Data)
- ▶ **Boat Landings**
  - ▶ Boat Landings currently only serve those who own boats.
  - ▶ Grundman Boat Landing - ADT 54,312 (2022 Car Counter Data)
  - ▶ Butte des Morts Landing - ADT 32,472 (2022 Car Counter Data)
- ▶ **Community Park**
  - ▶ Soccer Fields - Turn Users Away due to lack of available fields and shut down fields in Spring/Fall.
  - ▶ Rugby Fields - Rugby Club has a wait list for their tournaments. Need concession area.
  - ▶ Playgrounds - Over 25 years old. Typical life span of a playground is 25 years. Not accessible to all and becoming unsafe.
  - ▶ Add a Pickleball Court Complex to accommodate the growing sport that is accessible to all ages.

# Project List

## **Waukau Dam Nature Preserve**

- Park improvements and enhancements

## **WIOUWASH Trail Paving**

- Pave from UW-O to Lake Butte des Morts Drive

## **Boat Landings**

- Add three self-service kayak rental stations - Eureka, Asylum, and Grundman

## **Winnebago County Community Park**

- Replace playground #3 and construct a new shelter/concession stand
- Build the third and fourth rugby fields and remove the south softball field
- Properly till, grade, and seed four soccer fields
- Add an additional soccer field with irrigation
- Add eight pickleball courts

# Waukau Dam Improvement Project

## GOALS MET

- Create Resiliency
- Address Maintenance Issues
- Reduce Long Term Maintenance
- Open Space
- Water Access
- Increase Capacity

▶ Both upper dam embankments are continually washed out. Since 2017, the embankments are washed out yearly. Rain events as small as a two-year rain event are causing erosion damage.

▶ If the embankments are washed out completely, the dams will begin to wear out and fail. This will cause a loss of the pond and a complete replacement of the dams.

▶ The dam crossings are no longer ADA compliant and are unsafe to cross. Part of this is due to the erosion at the river dam; however, the age of the catwalks and railings has also made them unsafe.

▶ The amount of trail users has significantly increased. There is inadequate parking which is causing washout along HWY 116.

▶ With the increased usage, parking lot lighting would add to the site security.

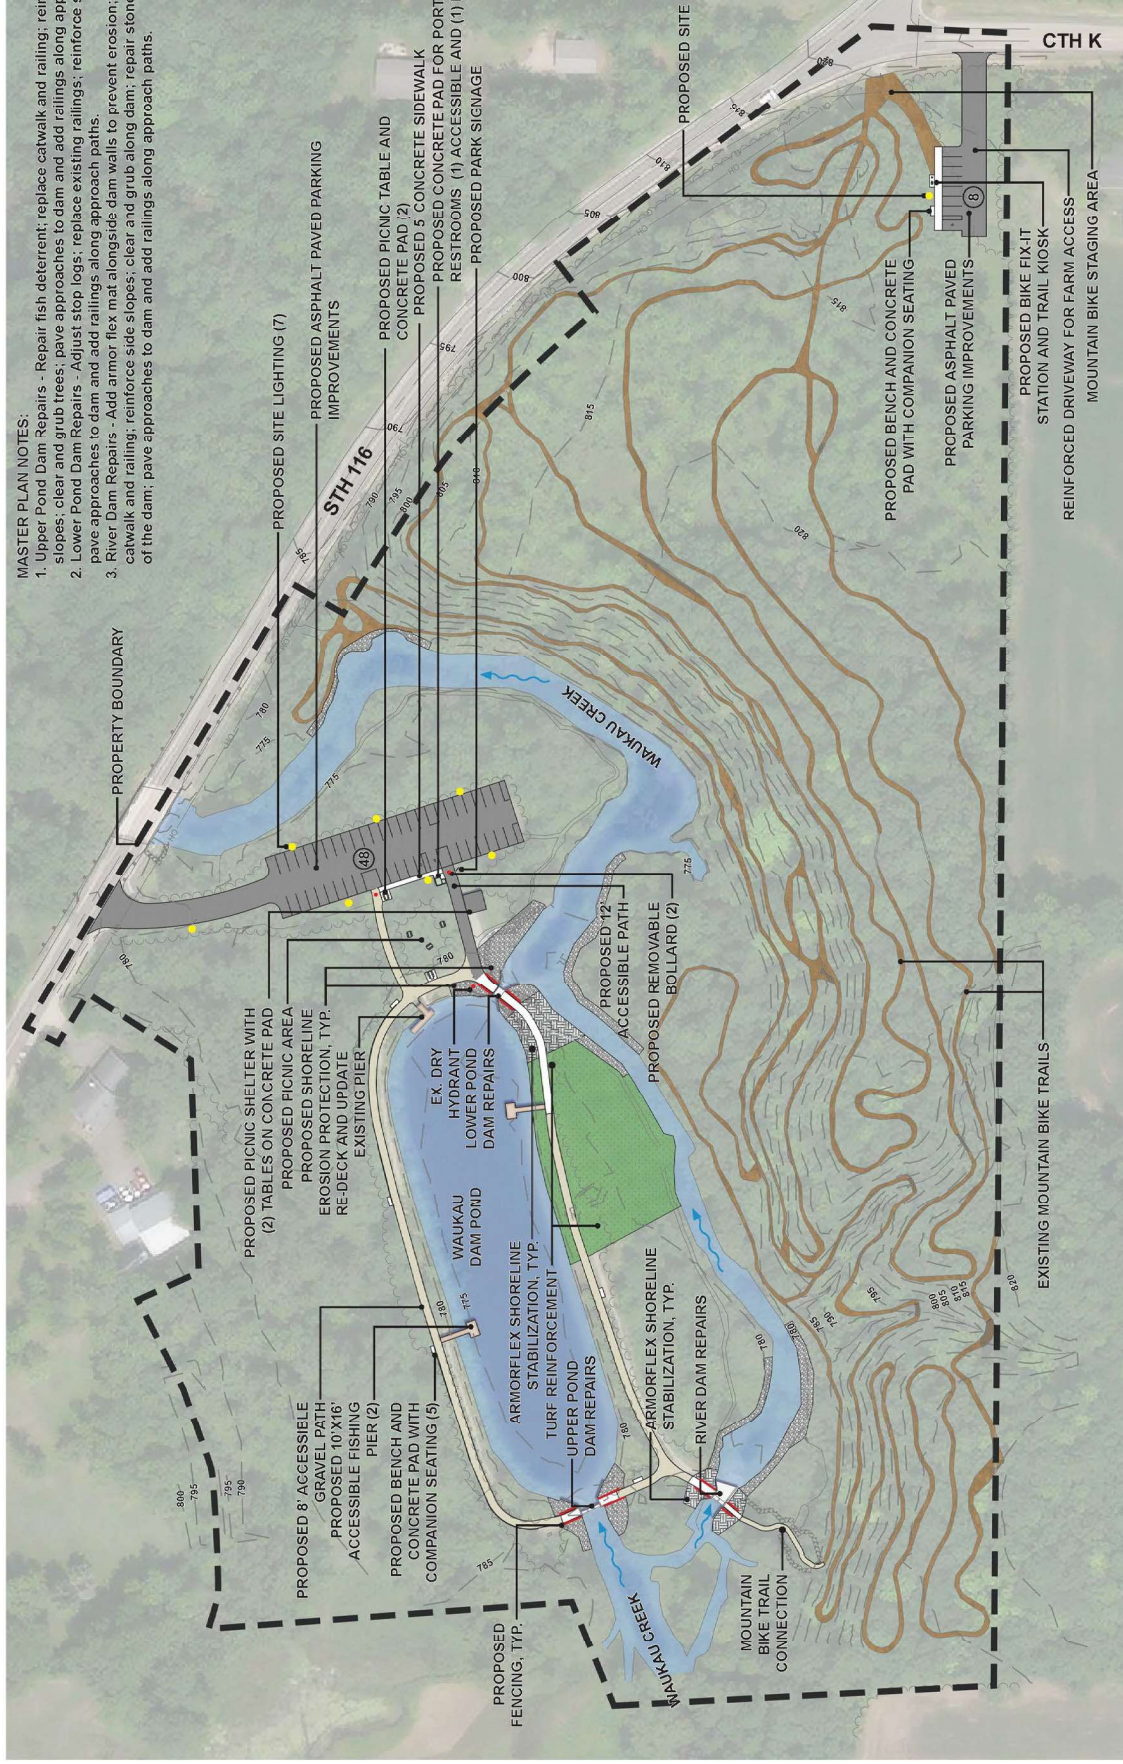

# Waukau Dam Improvement Project

- ▶ Fortify the east embankment so we can create a natural overflow area that will not require long term maintenance.
- ▶ Install rip rap in areas that are hit hardest but do not necessarily require the flex armor
- ▶ Continue to prevent carp from swimming up stream
- ▶ Replace the approaches, railings and catwalks at all three dams to comply with ADA standards and provide a safer experience for our residents and visitors.
- ▶ Provide better parking on HWY K for the single-track bike trail users. The parking lot condition is very poor for the number of users visiting the site.
- ▶ Install lightning to provide better site security.
- ▶ Enhance the property by providing more fishing docks, repaved trail, and a shade shelter.
- ▶ Winnebago County received a matching grant in the amount of \$751,815 for this project from the State of Wisconsin.

# Waukau Dam Improvement Project

**MASTER PLAN NOTES:**

1. Upper Pond Dam Repairs - Repair fish deterrent; replace catwalk and railing; reinforce slopes; clear and grub trees; pave approaches to dam and add railings along approach paths.
2. Lower Pond Dam Repairs - Adjust stop logs; replace existing railings; reinforce pave approaches to dam and add railings along approach paths.
3. River Dam Repairs - Add armor flex mat alongside dam walls to prevent erosion; catwalk and railing; reinforce side slopes; clear and grub along dam; repair stone of the dam; pave approaches to dam and add railings along approach paths.

# WIOUWASH Trail Paving Project

## GOALS MET

- Create Resiliency
- Address Maintenance Issues
- Reduce Long Term Maintenance
- Open Space
- Water Access
- Increase Capacity

- ▶ When the Tribal Heritage Bridge was built in 2013, Winnebago County made a verbal agreement with the City of Oshkosh that it would maintain the new pedestrian trail on the bridge. In exchange the City of Oshkosh would take over maintenance of the WIOUWASH Trail from UW-Oshkosh to Lake Butte des Morts Drive.
- ▶ The asphalt trail by UW-Oshkosh needs to be repaved.
- ▶ The trail through Meritor's Property by Spellman's needs to be moved towards the Fox River.
- ▶ The remaining trail through the cemetery needs to be paved.
- ▶ The County would pave this three-mile stretch of trail and then turn it over to the City of Oshkosh.
- ▶ This will create an off-road trail loop for the Oshkosh community.

# Boat Landings - Kayak Rental Project

## GOALS MET

- Create Resiliency
- Reduce Long Term Maintenance
- Open Space
- Water Access
- Increase Capacity

The lakes and rivers in Winnebago County are some of our greatest assets. We would like to add three kayak rental locations to the Grundman, Asylum, and Eureka Boat Landings. This will provide access to the lakes and rivers for residents who do not own a boat. It will also provide a revenue source for the boat landings. The boat landings are located throughout Winnebago County so it will provide access to the greater Winnebago County area. The kayaks, storage rack, paddles, lifejackets, and online reservation portal is managed by a third party. The Parks Department will not need to pay for upkeep.

# Winnebago County Community Park Legacy Projects

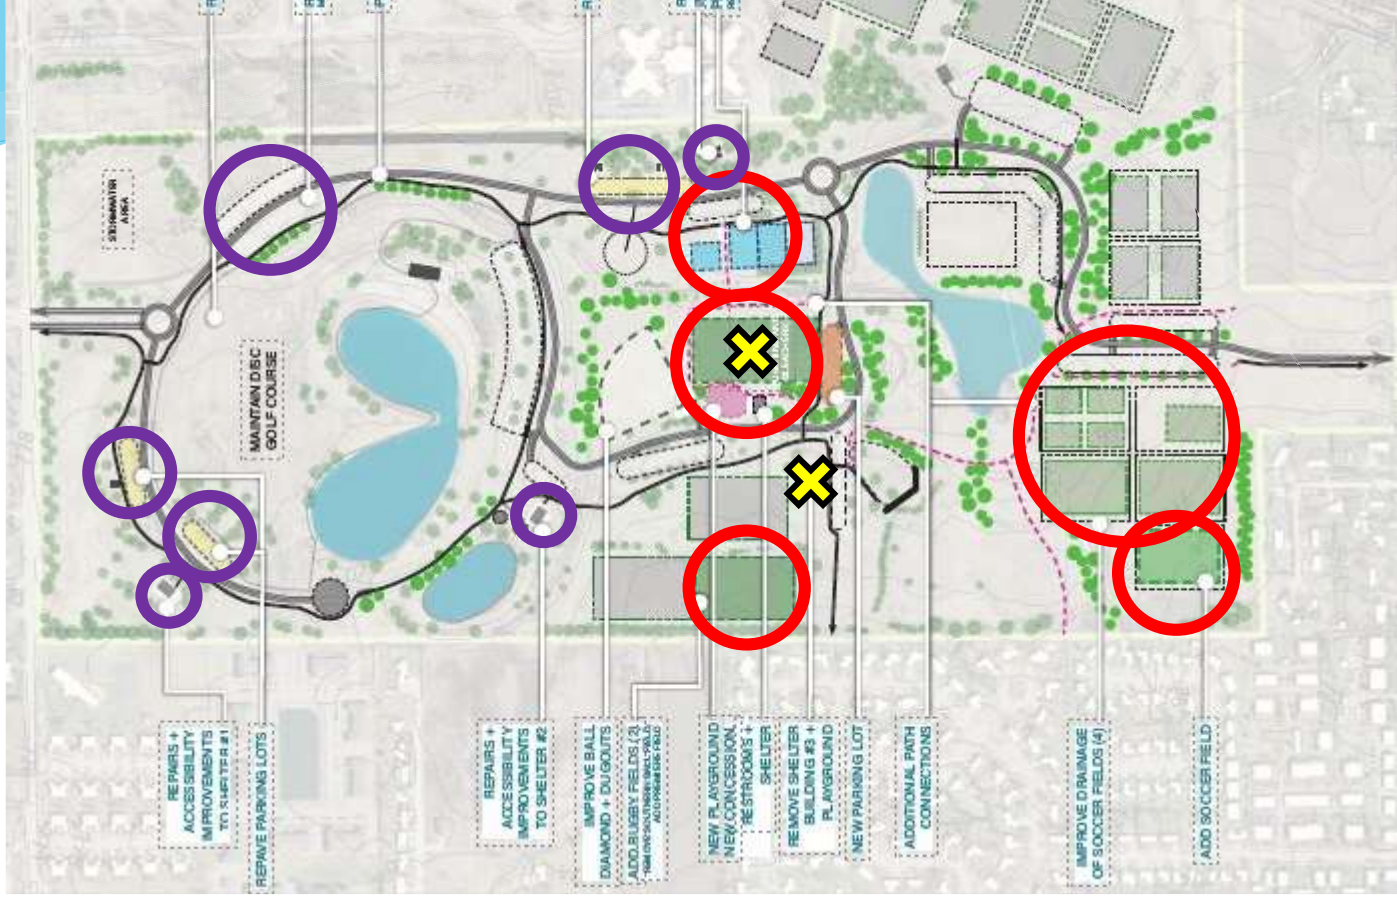

## Master Plan

# Winnebago County Community Park Legacy Projects

## Master Plan - Phase 1 Selected Projects - Big Impact

-  Spirit Fund Request
-  Capital Improvement Plan Request
-  Being Removed in Phase 1

# Shelter 3 and Playground Replacement

## GOALS MET

- Create Resiliency
- Address Maintenance Issues
- Reduce Long Term Maintenance
- Open Space
- Increase Capacity

Tear down the existing shelter and playground. Replace with a new shelter/concession stand and playground with pour-in-place surfacing.

- Current shelter needs to be replaced. This area of the park needs a shelter/concession stand that has more capabilities for rugby tournaments, softball, and future events.
- The playground is over 25 years old and needs replacement. The new playground will have pour-in-place surfacing and accessible equipment.

# Remove Softball Field #2 (South Field)

## GOALS MET

- Create Resiliency
- Address Maintenance Issues
- Reduce Long Term Maintenance
- Open Space
- Increase Capacity

Tear down softball field #2. The fence needs replacement. The score booth is getting washed out. The lighting is dated and there is a lot of repair needed. Softball numbers are down, and rugby numbers have been increasing for years.

# Replace Softball Field #2 with Rugby Field

## GOALS MET

- Create Resiliency
- Address Maintenance Issues
- Reduce Long Term Maintenance
- Open Space
- Increase Capacity

After softball field #2 is torn down, we would then install a full-size rugby field going north and south in this area. Rugby has been increasing in popularity. We are one of the only complexes in Wisconsin with three rugby fields. This attracts a large number of teams for their tournaments. Rugby fields require much less weekly maintenance than a softball field.

Softball is run by the Oshkosh Recreation Department. They still have games one/two nights per week at the park. They are moving most of their games to the City of Oshkosh parks.

# Regrade Soccer Complex (Quad - 4 Fields)

## GOALS MET

- Create Resiliency
- Address Maintenance Issues
- Reduce Long Term Maintenance
- Open Space
- Increase Capacity

The quad fields were created in the 90s. They have heavy clay content and not enough topsoil. Typically, we need to close multiple fields in fall. This fall three out of the four fields have been closed in the quad area to allow them to rest. This limits the amount of community organizations that can utilize the fields.

These fields need to be tilled, graded and crowned, more topsoil added, and irrigation adjusted.

# Add Additional Soccer Field

## GOALS MET

- Create Resiliency
- Address Maintenance Issues
- Reduce Long Term Maintenance
- Open Space
- Increase Capacity

The soccer complex has just over 15 fields. This may seem like a lot, but the fields are at capacity most days in spring and fall. Additional capacity is needed to accommodate the needs of the soccer complex. We can add a field and extend irrigation to the west of the quad.

# Pickleball Courts

## GOALS MET

- Create Resiliency
- Increase Capacity

Pickleball is a growing sport. It has been rapidly growing over the last five-plus years. A large, eight court complex would support the need for pickleball county wide. A complex of this size would support tournaments and large events just like the soccer complex, rugby complex, and disc golf course.

There is expansion space available just north of the existing tennis and basketball courts. Parking adjacent to the tennis courts and by shelter #4 would provide plenty of parking for this new facility.
