COMMITTEE REPORTS

Supervisor Egan stated that he gave everyone a copy of the Winnebago County Fair financial report dated through November 30, 2010. He explained that they had a good fair this year, although their expenses exceeded their revenues.

Supervisor Kline explained that there will not be a Legislative Committee meeting in December. Their next meeting will be in January 2011.

Supervisor Widener discussed his attendance at the Human Services Fall Conference and Mark O'Connell's, Executive Director of Wisconsin Counties Association (WCA), presentation. Supervisor Widener stated Mr. O'Connell was asked questions about the size of county boards. He stated that the WCA does not make recommendations on county board size, but the WCA does feel it's up to the county boards to make that decision. Supervisor Widener stated that Mr. O'Connell also discussed the role of county boards to set policy.

Supervisor Barker thanked the County Clerk's Office for last night's Christmas party. Everyone had a good time.

Motion by Supervisor Finch and seconded to approve the proceedings from the November 9, 2010 County Board meeting. CARRIED BY VOICE VOTE.

COUNTY EXECUTIVE'S REPORT

Executive Harris reported 2010 third quarter figures from the Federal Housing Finance Agency are the best they've been in two years and show an increase of .17%. He explained that once fourth quarter figures are in, they will be able to make a better assessment as to the affect this is having on the property tax base. Although he is somewhat skeptical of the numbers because they can be impacted by a small number of transactions, he stated that he does feel that lower interest rates have helped the real estate market in Winnebago County and the decline in equalized value has lessened.

Executive Harris asked for the Board's support of two resolutions on tonight's agenda: Resolution No. 148-122010, "Amend the Table of Organization for Winnebago County Human Services Department"; and Resolution No. 149-122010, "Adopt Revisions to the Winnebago County Administrative Salary Schedule."

COUNTY EXECUTIVE APPOINTMENTS

Local Emergency Planning Commission (LEPC)

Executive Harris asked for approval of his appointments of the following people to the LEPC: Frank Bell, Barti Omarou, Rick Krumenauer, Paula Biewer, John Zimmerman, Bill Anthes. John Zimmerman replaces Kathy Biggar whose term has expired. These are three-year terms that will expire on December 31, 2013.

Motion by Supervisor Ellis and seconded to approve. CARRIED BY VOICE VOTE.

Solid Waste Management Board

Executive Harris asked for approval of his appointment of Doug Nelson, 214 North 6th Avenue, Winneconne, to the Solid Waste Management Board. Mr. Nelson will complete the unexpired term of Roger Jaeger that will expire on April 16, 2013. Motion by Supervisor Finch and seconded to approve. CARRIED BY VOICE VOTE.

Oshkosh Public Library Board of Trustees

Executive Harris asked for approval of his appointment of Supervisor Bill Wingren to the Oshkosh Public Library Board of Trustees. Supervisor Wingren will complete the term of Arlene Schmuhl that will expire on December 31, 2012. Motion by Supervisor Robl and seconded to approve. CARRIED BY VOICE VOTE.

COUNTY BOARD CHAIRMAN'S REPORT

Chairman Albrecht reported that Supervisors Wingren, Neubauer, Diakoff and Reynolds are excused from tonight's meeting.

COUNTY BOARD CHAIRMAN'S APPOINTMENTS

Land Conservation Committee/UW Education, Extension and Agriculture Committee

Chairman Albrecht asked for the Board's approval of his appointment of Supervisor James Englebert to the Land Conservation Committee and the UW Education, Extension and Agriculture Committee. Mr. Englebert will fill the vacancy on these committees that resulted from the death of Supervisor John Reinert. Motion by Supervisor Finch and seconded to approve. CARRIED BY VOICE VOTE

SECOND CHANCE PROGRAM PRESENTATION – CHERYL PAGEL AND JENNY FAHRNEY

Jenny Fahrney and Cheryl Pagel gave a presentation to the Board about the Second Chance Program and the students they help. Ms. Fahrney is a school social worker and Ms. Pagel is a special education teacher at Second Chance.

Ms. Fahrney explained that Second Chance is a "collaborative effort" of the Oshkosh Area School District, the county's Human Services Department, juvenile intake and juvenile court, the Sheriff's Department and Oshkosh Police Department. Second Chance, which started in 1988, was located at Park View Health Center until they recently moved to their new location at 215 Waugoo Avenue in Oshkosh.

Ms. Fahrney stated that Second Chance serves middle and high school students who are, "eligible for emotional and behavioral disability special education services." These students have also been adjudicated delinquent by the county's courts and have not been successful in a traditional school setting.

Ms. Fahrney explained that they concentrate on three main areas:

- the student's home – they work very closely with the student's family.
- school – provide a general curriculum for middle and high school students following Oshkosh Area School District guidelines; Second Chance's goal is to help the students get their high school diploma or to transition back to their regular high school setting.
- community – they work with students so they can be successful adults in their community; students also do community service projects that include working with staff and residents at Park View Health Center. They also participate in the adopt-a-highway program and the Oshkosh Area School District's environmental program called Sullivan Woods. With the Sullivan Woods program they provide clean up and trail maintenance during the spring and fall months of the year.

Cheryl Pagel explained the need for and the benefits of alternative education. Ms. Pagel stated that

alternative education provides special education services and support for students that are not successful in a traditional school setting. Because Winnebago County provided a Second Chance Program, the county's taxpayers have saved a large amount of money, particularly in incarceration costs. Ms. Pagel presented the following data:

- The high school graduation rate in Wisconsin is approximately 80%--20% will drop out of high school. Half of the students who drop out, will be incarcerated. Wisconsin has spent over \$600 Million in incarceration costs.

Ms. Pagel explained that our communities suffer when we have a high drop out rate—there is more poverty and illiteracy when children don't graduate from high school. The students enrolled in Second Chance are challenging, but they have many success stories. Ms. Pagel thanked the county for providing the Second Chance Program for the students and explained that:

- Wisconsin saves \$395 Million annually by increasing the number of students who graduate from high school
- High school drop outs earn less money than graduates, thereby contributing less in income taxes of approximately \$120 Million annually
- 40% of drop outs receive Medicaid benefits, where only 15% of people who graduate are on Medicaid
- If Wisconsin had a 100% graduation rate, there would be 5,000 less inmates across the state saving Wisconsin taxpayers \$154 Billion per year in incarceration costs.
- If we don't invest in students now, we'll pay for them later.

Ms. Pagel explained that because Second Chance students are "credit deficient", they work on core subjects such as English, math and science. Students also learn "employability skills" and are given the opportunity to work. Some are hired by the Oshkosh Area School District and others are hired by local businesses.

On behalf of the students, Ms. Pagel thanked the Board and the Oshkosh Area School District for their support of the Second Chance Program.

Ms. Pagel and Ms. Fahrney took questions from the Board.

COMPUTER AIDED DISPATCH (CAD) UPGRADE PRESENTATION CAPT. CHERILYN EISCHEN, WINNEBAGO COUNTY SHERIFF'S OFFICE

Capt. Cherilyn Eischen, who is in charge of the county's 911 Center and the technology project for the department, presented information on the proposed FoxComm CAD/MDC (mobile data computer) Upgrade. In her PowerPoint presentation, Capt. Eischen explained the history of the CAD system, its current status and what the plans are for the future. She stated that her presentation is on Winnebago County's portion of FoxComm's CAD/MDC upgrade project, which is the system that is shared by the counties of Calumet, Outagamie and Winnebago.

- The upgrade is made up of three components
 - CAD – computer aided dispatch
 - MDC – mobile data computer (laptop computer in each squad car)
 - Blade Server – hardware that connects the CAD to the MDC
- Total cost of the upgrade for all three counties is \$1.6 million.
 - Winnebago County's portion is 43.75% or \$712,150.00. \$525,000 would come from the Information Systems Department's technology budget. The remaining amount (\$187,150) would be included as a capital improvement project.

Capt. Eischen explained how technology has changed the way emergency calls are handled. When she began in the department 30 years ago, handwritten notes were used to relay information over the radio to the officers. In the 1980's, the dispatchers began entering emergency call information into a computer, but the officers still had to use hand written notes. In 1993, the officers began receiving their calls via a mobile data terminal (MDT). Starting in 2003, the MDCs were installed in the squad cars and dispatching became completely computerized.

Capt. Eischen explained how 911 calls are processed:

- Location of the incident is entered into CAD. (All of the county's addresses, locations and intersections are pre-loaded into the CAD system.)
- CAD automatically designates the appropriate responders based on programmed information.
- CAD dispatches the call to all necessary responders simultaneously. Before CAD, the dispatcher had to dispatch police, fire and emergency responders separately.
- Calls are processed as fast as the dispatcher can enter the information.

Other functions of CAD/MDC:

- Dispatcher and responder can communicate without going over the radio.
- Confidential information can be shared without relaying the information over the radio.
- Officers can communicate car-to-car via MDC—this frees up the radio for other emergency communications.
- Officers can check license plates, drivers' licenses and wanted files without assistance from the dispatcher. This allows the dispatcher to perform other duties.
- Information entered into CAD and MDC is transferred by the Blade Server to the Records Management System (RMS).

- Incident data is automatically entered into the department's record files, eliminating the need for clerical staff to enter it.
- CAD acts as an accurate time keeper and documents the actual emergency call. Time stamps for incidents is vital.

Benefits of CAD:

- Simultaneous dispatch of calls to multiple responders reduces response times.
- Dispatchers are more efficient.
- Premise warnings can be sent. (Officers receive important information about the situation/location.)
- Human errors are reduced.
- Maintains confidentiality of certain calls.
- Automatically enters the information into the records management system.

Status of the current system:

- There have been five upgrades to the current system.
- Current version is being discontinued and will reach its end of life in December 2011. The vendor will no longer support this version after December 2011.
- If the system goes down after December 2011, there will be no way to repair it. System security will be compromised and it will be susceptible to hackers and viruses.

Future of CAD:

- Premier One Mobile is the new version of CAD/MDC/Blade Server
 - Must faster system.
 - Officers will have full access to jail and police, fire and EMS records.
 - Responders will receive data faster.
 - Officers will be able to identify suspects directly from jail records.

Capt. Eischen explained that this upgrade of the equipment is only the first portion of the upgrade. Future increases of bandwidth will be needed to utilize the full potential of this upgrade.

Following her presentation, Capt. Eischen took questions from the Board.

REMODEL AND RENOVATE UW FOX VALLEY 1655 UNIVERSITY DRIVE PROPERTY – DEAN JAMES PERRY

Dean James Perry updated the Board on the remodel and renovation of the 1655 University Drive property that was purchased by Outagamie and Winnebago Counties in 2008. Dean Perry stated that the elevator has been installed as required by building codes. The parking lot has also been constructed.

Dean Perry explained that this property was purchased so that additional space could be provided for the engineering program. The building is approximately 19,500 square feet in size and almost 14,000 square feet is being renovated/remodeled. Once the building is completed, the entire engineering program will be moved from the main part of the campus to this building. The area that the engineering department vacates will then be utilized by other departments. Dean Perry explained that this project takes into consideration the costs associated with converting the space vacated by the engineering program for other uses.

Dean Perry explained that this project is necessary because of the success of this collaborated engineering program. He stated that there has been tremendous growth in enrollment in this program because it offers its graduates the opportunity to find high paying jobs in the engineering field. This collaborated program allows the students to receive their freshman and sophomore education from UW Fox Valley and the junior and senior education from UW-Platteville without every leaving the UW Fox Valley campus.

Dean Perry stated that they have 190 students currently enrolled in the program. The majority of the students come from this area. Of the 48 students who have graduated from the program, all of them have found jobs in Wisconsin.

Dean Perry then presented diagrams of the building and the renovation project. Dean Perry explained that this project has been approved by the UW Fox Valley Trustees, Outagamie County and the Winnebago County Personnel & Finance Committee. Total cost for the project has been estimated at approximately \$3 Million. Winnebago County will be responsible for half of the project's costs.

Following his presentation, Dean Perry took questions from the Board.

RESOLUTION NO. 141-122010: Authorize the General Services Department to Upgrade the Mail Machine Lease and Replace the Neopost IJ90 with a Neopost IS5000, and Extend the Lease for One Additional Year at the Same Cost as the IJ90 Machine

WHEREAS, the Winnebago County Board of Supervisors authorized the General Services Department to enter a new lease for an IJ90 Mail Machine for a 5-year period at an annual cost of \$6,510; and

WHEREAS, the software for the machine does not provide enough information for accumulating mail costs by General Services Department which is needed to charge departments for their share of the monthly mail costs; and

WHEREAS, as a result of this shortcoming, the General Services Department is forced to spend a considerable amount of extra time allocating mail charges; and

WHEREAS, a higher end machine, the IS5000 has the software necessary to accumulate department charges for monthly charge backs; and

WHEREAS, because of the shortcoming of the IJ90 machine, the manufacturer has agreed to lease us the higher end machine for the same price if we extend the lease one year.

NOW, THEREFORE, BE IT RESOLVED by the Winnebago County Board of Supervisors that it hereby authorizes the General Services Department to replace the IJ90 machine with the IS5000 machine, and extend the lease one additional year at a cost of \$6,510 for the additional year.

RESOLUTION NO. 145-122010: Transfer \$4,900 from the General Contingency Fund to the Small Equipment Account of the Clerk of Courts 2010 Budget for the Purchase of a Replacement Recording Device for the Lanier Machine Which has Failed

WHEREAS, the court system has a Lanier audio recording device that was being used in the court commissioners hearing room in lieu of a court reporter, and

WHEREAS, the machine has recently failed, is no longer manufactured and the cost to repair it is over \$1,100 plus labor; and

WHEREAS, a For the Record (FTR) Gold digital audio recording unit is the current technology for taking the record without a court reporter. It is compatible to the CCAP hardware and software and is supported by CCAP; and

WHEREAS, until the unit is replaced we must use a court reporter to take the record for these commissioner hearings; and

WHEREAS, when none are available, we need to bring in a free-lance court reporter which can cost between \$180 and \$197 per day; and

WHEREAS, it would be in the best interest of Winnebago County to purchase the FTR Gold unit to prevent having to pay free-lance court reporter costs in the future; and

WHEREAS, there are not sufficient funds within the Clerk of Courts 2010 budget to cover this unplanned expenditure.

NOW, THEREFORE, BE IT RESOLVED by the Winnebago County Board of Supervisors that it hereby authorizes the transfer of \$4,900 from the general contingency fund to small equipment of the Clerk of Courts 2010 budget for the purpose of purchasing the FTR Gold digital audio recorder.
