COUNTY EXECUTIVE'S REPORT

Executive Harris reported to the Board that there has been another explosion at a nuclear power plant in Japan and that radiation levels at that plant are dangerously high. Because of these dangerous levels of radiation, all employees have been removed from the plant except for 50 "brave souls" who have agreed to stay behind to continue to battle the situation.

Executive Harris discussed some of the issues that were brought up at the Board's Special Orders Session on March 1. One issue that came up was Chamco and what they do. Executive Harris explained that they are an "industrial development independent party" that works primarily for the City of Oshkosh, but also for other areas in Winnebago County. Chamco is partially funded by the per capita economic development funds that the county

provides to other areas in the county. Executive Harris stated that some of these areas actually designate that these funds go to Chamco. Executive Harris stated that it use to be Chamco's responsibility to sell lots in Oshkosh's industrial parks to businesses.

Executive Harris stated that at the Board's March 1 meeting the question was raised whether an industrial park near Wittman Regional Airport would work. Executive Harris stated that there already is an airport industrial park, which is where the technical school with the flight training program, Basler Turbo Conversion and other businesses are located. He stated that the success of the existing industrial park is a good indicator that another industrial park could be successful. Executive Harris stated that he feels acquiring the property near the airport that could be used for another industrial park and putting in the needed infrastructure would be in the best interest of the county.

Executive Harris explained that if the county pays the appraised value for the property, there is a chance that the county will be reimbursed by the federal government for most of the purchase price.
