Steve Obenauer, FAA's Manager of Airports District Office, Minneapolis, Minnesota, explained that his office oversees the State of Minnesota's and the State of Wisconsin's federally operated airports. He also stated that because of the size of the project proposed in Resolution No. 22-52012 and because it involves discretionary funding, the FAA is involved in the entire project.

**COMMUNICATIONS, PETITIONS, ETC.**

Petition for Zoning Amendment from Charles Nelson, for a zoning change for tax parcel no. 012-0086-02 from A-2 to M-1 for outside storage and maintenance of military, commercial and other vehicles was referred to the Planning & Zoning Committee.

Supervisor Finch commenting on the April 24, 2012 Resolution No. 7-42012, stated that he feels that Supervisor Brennand had a conflict of interest with that resolution and should have abstained from voting on it.

**COUNTY EXECUTIVE'S REPORT**

Executive Harris reported on the Tri-County Ice Arena. He stated that it's actually a partnership between Outagamie and Winnebago Counties and another ice arena. Over the last few years, Outagamie County has not had any real involvement with the ice arena. Executive Harris stated that there are two things that may come up in regards to the ice arena:

1. Another group would like to be involved in the management of the ice arena.
2. Have Winnebago County take over Outagamie County's obligations for the ice arena.

Executive Harris explained that the current setup makes it difficult to operate and make improvements to the facility, so something needs to be done in the near future.

Executive Harris spoke to the Board about Workforce Development. He explained that Workforce Development involves a coalition of counties that is put together by and are under a contract recommended by the

State of Wisconsin. The state has divided the authority between a Workforce Development Board and the Local Elected Officials (LEO) Board. The LEO Board is made up the senior elected official of several counties. Executive Harris explained that the county continues to “struggle” in the Workforce Development area, because even though they use Department of Labor money to operate, the county could still end up being responsible. He stated that if Workforce Development ends up owing money to the Dept. of Labor in an amount that exceeds their assets, the county could potentially be liable. Executive Harris stated that they are currently trying to put together a new management team at Workforce Development. He just wanted to make sure that the Board is aware that there are still issues involving Workforce Development.

Executive Harris then spoke to the Board about Wittman Regional Airport and the resolutions that are on the Board’s agenda for tonight’s meeting. He pointed out that over the last ten years, Wittman Regional Airport only consumed \$3,194,000 of the county’s levy. This is an extremely low amount. Executive Harris stated that the airport also produces a substantial amount of revenue for the county through hangar leases, take off/landing fees, etc.

Executive Harris explained that over the same time period, \$8.9 Million was spent at UW-Fox Valley. He stated that in both cases it’s, “money well spent”. He just wanted to make the point that the investment in the airport, “is relatively light of local tax dollars.” Executive Harris stated that he believes Wittman Regional Airport adds value to the whole community and that there is the potential for a large number of jobs for county residents.

Executive Harris pointed out that the funding being offered by the state and federal governments for projects at the airport, comes from the sales tax on airline tickets purchased by the public. If the county doesn’t use these funds, they won’t be returned to the purchasers of those tickets or held in reserve, it will be given to another airport project in Wisconsin.

Executive Harris stated that the proposed perimeter road would reduce vehicle traffic on the runways and the fencing project would prevent various types of intrusion on the airport grounds. He further stated that although risks from either of these situations are probably low, it is still in the county’s best interest to proceed with these projects now. Executive Harris said putting this project off could result in there being an accident at the airport that would jeopardize Winnebago County or that the county would be “compelled” to do the project with out any state or federal funding.

Executive Harris then spoke about Resolution No. 27-52012, “Adopt Revisions to the Winnebago County Administrative Salary Schedule.” He stated that these employees had their step raises frozen in 2005, causing “compression” between the salaries of supervisors and their employees.

Executive Harris then took questions from the Board.
