ASSESSMENT OF RADIOS

The following Resolution No. 8 was presented:

Whereas, the laws of Wisconsin prescribe that all real and personal property not specifically exempt from taxation be valued by the assessor for taxation purposes, and

Whereas, Winnebago county is vitally interested in having a correct and legal assessment of all real and personal property subject to taxation within the county, and

Whereas, the intentional omission by the assessor of personal property subject to taxation constitutes a fraud upon the statutes as made and provided, and

Whereas, tax delinquencies have increased to an alarming extent, and that in addition to the burden of delinquent taxes, Winnebago county should not be expected to incur the risk of having any assessment within the county be declared illegal because of non-observance of the laws by the various assessors, and

Whereas, it is commonly known that the majority of assessors in and for Winnebago county did not in 1932, and do not propose during 1933 to assess radios, and

Whereas, radios are subject to taxation, and the non-assessment of radios constitutes a loss of a very material portion of such taxable property within the county, and operates to increase the tax burden of other taxable property, now therefore be it

Resolved, that it is the sense of this board that the District Attorney be, and he is hereby directed to warn all assessors in and for Winnebago county to scrupulously observe the statutes as regards the assessment of radios and all other property not specifically exempt from taxation.

PROCEEDINGS OF THE COUNTY BOARD

The following bid was presented:

Chairman of The Printing Committee,
Winnebago County Board
Oshkosh, Wisconsin.

Dear Sir:

We will print the proceedings of the County Board in The Daily Northwestern immediately after each session for one year, price \$1015.00. This price covers the printing of the proceedings in The Daily Northwestern of the different sessions during the year.

If we are awarded the contract for printing the proceedings in The Daily Northwestern we will print the proceedings in pamphlet form after each session, seventy-five copies, and at the end of the year consolidate all the sessions during the year and put same in one pamphlet. The price for this work is \$185.00.

The price for printing the proceedings in The Daily Northwestern and putting same in pamphlet form as stated above will be \$1,200.00.

The price we are quoting for the pamphlets is the amount we pay the job printer for doing this work for us. We make no charge for the type that already is set and used in the newspaper. This type is held by us for the entire year and the pamphlets printed, avoiding the expense of resetting the type. It would not be possible for us to make this price for the pamphlets if the type had to be reset for this work. As we said before, we make no charge for the type to the job printer doing the work. We deliver this type to the job printer and he figures only on printing the proceedings and putting the job in pamphlet form.

The Northwestern is the only newspaper in Winnebago county that has a general circulation. Our coverage in the county is in the neighborhood of ninety-four per cent. We cover every portion of Winnebago county and the larger townships and cities.

We shall be pleased to again enter into contract with the County Board to print the proceedings the same as last year at the figures stated above. If there are any questions the committee would like to discuss

with us about this work we shall be pleased to meet with the committee and give them any information they desire.

Very truly yours,

THE DAILY NORTHWESTERN
O. J. Hardy, Publisher.

Referred to committee on printing.

WIRING AT COUNTY JAIL

The following Report No. 1 was presented:

To the Board of Supervisors of Winnebago county:

Gentlemen:

I wish to call your attention to the condition of the electrical wiring at the county jail. There appears to be some defect in the wiring, due to the fact that the light bulbs are constantly blowing out and need continual replacement. As purchasing agent, I have cooperated with the chairman of the building committee to try to ascertain the cause of this. We have found that it is not due to the quality of the bulbs, for we have experimented with both the cheaper and the better qualities, nor does the voltage seem to be the cause. Mr. Weisheipl had the Wisconsin Public Service corporation test out the voltage and the voltmeter recorded a constant voltage, varying but a few degrees. We have had the City of Oshkosh electrical inspector who approved the wiring at the time of its installation less than two years ago, check up on this condition, but he is unable to ascertain the cause. Mr. Weisheipl has had one of the electrical contractors checking up to see which circuit was causing the trouble, but with no results. We find that a majority of the bulbs are blown out at the end of two months of service. As this is an expensive replacement, and shows that something is wrong, I believe it should be brought to the attention of the board, for I do not wish to continue the purchase of light bulbs for a defective wiring system.

Respectfully submitted,

IRENE C. EGGERSGLUESS, Purchasing Agent.

Gentlemen:

Your Highway Committee to whom was referred communication from Mr. George F. Oaks, Mayor of the City of Oshkosh in regard to the straightening of U. S. Number of court orders entered for return to place of legal settlement	35
Number of cases held open	3
Number of families no longer receiving aid	77
Amount of bills allowed from Feb. 20 to July 5, 1933.

Burials	270.00
Miscellaneous (board-room, etc.)	43.40

TOTAL

Number of families who have received food

Number of families who had separate milk orders

Number of orders for rent for families

Number who received fuel

Number who received clothing

Doctors, Drugs and Hospital care

Number of families allowed gas and light

Number of families allowed water service

Transportation for families

Burials

Miscellaneous aid (room, board, etc.)

Owing to the fact that the present system of records differs from those of former years, it is practically impossible to make a fair comparison with any previous record.

At the present time some of the families who are not receiving aid are temporarily employed, and although there is seemingly a trend toward better economic conditions, we still continue to have new applications for aid. The Soldiers' and Sailors' Relief fund has been exhausted, and the government has in many cases discontinued their pensions, so they are being turned back to the municipalities and the county for care.

Respectfully submitted,
L. J. HOWMAN

On motion accepted.

PROTEST AGAINST CERTAIN ARTICLES IN NATIONAL RECOVERY ACT

The following resolution No. 1 was presented.

Whereas the proposed code of fair competition and business practices between crushed stone, sand and gravel industries, formulated in accordance with the requirements of the Emergency Promotion of Industrial Recovery Act of Wisconsin, contains at least two clauses which would seriously hinder and impair the activities of the Highway Committee of Winnebago County, Wisconsin, now therefore,

Be it resolved by the members of the County Board of Winnebago County, Wisconsin, that we are not in favor of and hereby enter our protest against Article Six and Section Fourteen of Article Seven, of the said code, which articles are as follow; to-wit;

Article VI. Limitations on Plant Capacity and New Production. Section 1 No new plant may be established or the producing capacity of an existing plant increased or a plant moved from one producing site to another without notice of such intent being given to and permission being granted by the regional committee of the region in which the new production capacities are proposed to be located. Upon receipt of such notice, the regional committee shall collect complete information concerning the existing producing capacity in that area. If this data discloses that such new production will result in further increasing the problems of over-production in such area, the regional committee shall refuse to permit the increasing of capacity of any existing plant, or the construction of a new plant, or the movement of one plant to another

producing site. In the event that it may become necessary to do so, the regional committee shall take such steps as may be necessary to enforce the decision.

Section 14. Article VII. No county municipality or other divisions of government including the state shall produce stone, sand or gravel, either for their own use or otherwise.

Be it further resolved, that the Highway Commissioner for Winnebago County, be and he hereby is authorized and directed to wire a protest to said Article VI and Section 14. of Article VII. to General Hugh S. Whereas, under the provisions of subsection (4) section 34.06 of the Statutes each public depositor suffering such a loss is required to assign its claim against such bank to the Board of Deposits of Wisconsin within 60 days or forfeit all right of claim against the state deposit fund,

Now therefore be it resolved that in compliance with the statutes the above named municipality hereby sells, assigns, conveys and sets over to the Board of Deposits of Wisconsin its interest in the aforementioned claim against said bank, and

The report of the Highway committee on Resolution No. 4, relative to the cancellation of the money owing for the rental of machinery, in the sum of \$745.45 by the Town of Algoma, to Winnebago county, is as follows:

It is the opinion of the Highway committee of Winnebago county, that inasmuch as the contract for the rental of the machinery from Winnebago county to the Town of Algoma was fair, just and equitable, at the time said contract was made, and every consideration was given to the Town of Algoma at that time, providing for the rental of the said machinery, at a reasonable rate, we the said committee do not recommend to the Board of Supervisors of Winnebago county that said money owing by the Town of Algoma to Winnebago county, be cancelled. PETITION FOR STOP LIGHT ON HIGHWAY 41

The following petition No. 1 was presented.

To the Honorable Members of the County Board of Supervisors of Winnebago County.

Gentlemen:

It has come to my notice upon my visits at Sunnyview Sanatorium that the intersection of the cross road leading from the Sanatorium with National and State Arterial Highway 41, the eminent danger of entering the intersection especially at night, and for strangers or people not driving that road very often and inasmuch as the visiting friends of the patients of Sunnyview make up a large proportion of such travelers, as do those who have business relations there and at the County Farm located on the same road.

Therefore as a safety measure, I respectfully petition your honorable body to install a danger light signal against anyone coming from that road into Highway 41 which may be the means of preventing injury to life and limb and the saving of lives.

To the County Board of Winnebago County:

The undersigned hereby petitions your honorable body that it take over as a county highway that portion of the town highway located in the town of Algoma running in a generally northerly and southerly direction between State Highway No. 21, known as the Oshkosh-Omro road, and Lake Butte des Morts, which said highway is also known as the Oakwood road.

Petitioner respectfully represents that it is the owner of property adjoining said town highway, that said town highway was improved in the year 1931 by the laying of a black top surface thereon at an expense of \$6,336.96, which said expense was borne in its entirety by the persons living on said highway and others living near the same and using said highway.

That in 1933 said highway was further improved by additional re-surfacing and repairs at a total expense of \$2,250.00, said expense being borne, except for \$100.00 paid by the town of Algoma, by the same persons; that said highway is now a fine hard surfaced, all weather highway in good state of repair and would be a credit to the county of Winnebago if taken over by it as a part of its county highway system.

TRAFFIC LIGHTS ON HIGHWAY 41, TOWN OF MENASHA

The following resolution No 1 was presented:

Whereas, a serious traffic hazard exists in the Town of Menasha, Winnebago County, caused by the junction at an acute angle of the County Trunk Highway commonly known as the Cemetery Road with United States Highway Number Forty-one (41), and

Whereas, it appears that the present arterial stop sign is insufficient to protect traffic at this point, inasmuch as said arterial stop sign is frequently ignored by motorists, and

Whereas, both the Cemetery Road and the United States Highway Number Forty-one (41) are accommodating heavy traffic throughout the year and there having been already a number of accidents involving automobiles at this point, and

Whereas, Winnebago County has placed and maintains automatic traffic signals at other important highway intersections throughout Winnebago County resulting in a marked reduction of traffic hazards

at such intersections, now therefore, be it

Resolved, by the Winnebago County Board of Supervisors, that the Winnebago County Highway Committee be, and it is hereby instructed to cause to be placed at the intersection of the Winnebago County Trunk Highway commonly known as the Cemetery Road with United States Highway Number Forty-one (41), automatic traffic signal lights of the Stop and Go principle, said traffic signal lights to be of the sort that operate on the time principle rather than those operated by passing traffic.

(Later substitute Resolution No. 1 was presented.)

CONSTRUCTION OF NEW COURTHOUSE

The following Resolution No. 2 was presented.

A RESOLUTION

Whereas, it is generally agreed that Winnebago County needs a new Courthouse, and

Whereas, because of favorable prices for both materials and labor it appears that the present would be the most practical time to build said Courthouse, and

Whereas, the present Courthouse site is owned by Winnebago County, and is in all practical respects suitable to the building of a new Courthouse, and has from time to time received the endorsement of the Winnebago County Board of Supervisors and the approval of the citizens of Oshkosh and Winnebago county whenever such Board and citizens have had an opportunity to give expression to their opinions, and

Whereas, Winnebago County has in its special building fund the sum of approximately one hundred eighty thousand dollars (\$180,000) which has been specially intended for the purpose of being applied towards the cost of erection of a new Courthouse building for Winnebago County, and

Whereas, the aforesaid special building fund of approximately one hundred eighty thousand dollars (\$180,000), if held out of use can not contribute in any way towards the amelioration or easement of the present serious emergency that exists within Winnebago County because of the unemployment situation, and

Whereas, it has been generally recognized by most Government authorities, including the Congress and Government of the United States, that a Public Works Program designed to create employment for those who are now unemployed, is a desirable method of coping with and ameliorating the depression that our people have suffered from for several years past, and

Whereas, because of its present favorable financial condition Winnebago County should experience no difficulty in financing the building of a new Courthouse, now therefore, be it

Resolved, by the Board of Supervisors of Winnebago County, that Winnebago County build a new Courthouse upon the present site of the Winnebago County Courthouse, to the North of the present Courthouse building, at a cost not to exceed three hundred fifty thousand dollars (\$350,000). Be it further

Resolved, that the sum of one thousand dollars (\$1,000) be transferred from the fund known as the special building fund, to a fund to be designated as the Preliminary Courthouse Expense Fund, and that said Preliminary Courthouse Expense Fund be placed at the disposal of the Committee on Public Buildings for the purposes hereinafter designated; and be it further

Resolved, that the Committee on Public Buildings be and they are hereby instructed to at once proceed to secure from responsible sources, plans and specification, for the erection of a new Courthouse on the site hereinbefore specified in this resolution and at a cost of not in excess of the amount stipulated in this resolution as the cost of the proposed new Courthouse; and that the Committee on Public Buildings be, and it is hereby empowered to defray out of the thousand dollar fund herein designated as the Preliminary Courthouse Expense Fund, up to the limit of such fund, any expense necessary for the procurement of the plans and specifications for the aforesaid new Courthouse.

Be it further resolved, that it being the sense of the Board of Supervisors of Winnebago County that any building program undertaken by

Winnebago County at this time, is done almost solely with a view of alleviating the present serious unemployment situation within Winnebago County, and as a means to that end, be it

Resolved, that the Committee on Public Buildings, or any committee acting on behalf of the Winnebago County Board in the matter of the construction of a new Courthouse for Winnebago County, shall require all plans and specifications that are submitted to such committee for its consideration be based upon the contemplation that all materials entering into the construction of such proposed new Courthouse for Winnebago County, be obtained within Winnebago County if such materials are to be had within Winnebago County, and that all labor, skilled and unskilled, and of whatever description entering into the construction of such proposed new Winnebago County Courthouse, be obtained from among the real estate tax paying, and of not less than one year's residence within Winnebago County, residents of Winnebago County. Amount due state, agency and trust accounts	155,735.15	241,274.43

Deficit of cash required for trust funds Nov. 1, 1933 \$48,867.85

The above comparative statement shows not only is the full amount of cash on hand Nov. 1, 1933 required for payment of the agency and trust accounts listed above, but that a further sum of \$48,867.85 is need-

ed. It indicates, too, that at the present time the operation of the county is financed by the agency and trust accounts.

Respectfully submitted,

REPORT OF PROBATION OFFICER 1933

The following Report No. 8 was presented:

To the Honorable County Board of Supervisors, Winnebago County:

Gentlemen: The report of your probation officer for the past year, covering the period from Nov. 1, 1932 to Nov. 1, 1933, will be made as brief as possible while bringing to you the chief outstanding facts.

The juvenile work covers cases of dependent, neglected and delinquent children, investigation of foster boarding home applicants, supervision of foster boarding homes, cases of illegitimacy and cases of the mentally defective. Also local investigations for juvenile courts in other cities, which are not frequent but take considerable time when called for.

The report upon the foster boarding homes will be given you by the county children's board so I will only briefly touch upon this. Our program for boarding children instead of institutionalizing them should be enlarged. Home life, whenever possible, is better for the child and cheaper for the taxpayer.

The investigation and supervision of cases of dependent children covers the greatest portion of the probation officer's work. This is often called an expensive form of aid but if this aid were compared with the expense if these children were institutionalized, which would be necessary if they were not cared for in their homes, we would find it much less and a smaller burden upon the taxpayer when they are kept in the home by means of the children's aid. Even when not considered from the financial point of view, doubtless, you will all agree that home atmosphere and the keeping of brothers and sisters together in the family circle is preferable.

From Nov. 1, 1932 to Nov. 1, 1933 we have had a total of families listed each month of from 160 to 219. As many of these aid families remain on the list from month to month it brings the total of all cases for the year to 346. We are glad to be able to report that, even in this time of depression when work is very scarce, a few have become independent. Many more would have become independent if the older members of the families could have secured work. Several of our aid families have been turned over to the city relief departments. Children's aid can be granted only for those below 16 years of age. Wherever the number of children of 16 years and above do not have work to supplement the aid and a larger allowance is needed because they are in the home the family has been placed with the city relief agencies. This has also been done in cases where there is but one child and the entire needs of a home must be provided.

May your attention be drawn to the fact that the term "mother's pension" should be dropped. Your help is needed on this matter which is more important than it seems. Mothers and others often think this aid is a pension and belongs to them whether their financial condition calls for it or not. We need also to remember that the amount a mother is granted by the court does not depend upon the number of children under 16 years but upon the family income. In other words it is granted by budget and the budget is balanced with the income.

The government reforestation work has been a great help in several of our families. Two families, through the work it has furnished, have become independent.

From Nov. 1, 1932 to Nov. 1, 1933 there have been a total of 172 active aid cases including 397 children. These children will cost Winnebago County, including all medical, surgical and hospital care given, about \$45,000 for the entire year. Please bear in mind, that if the homes had been broken up because of the death of the father and the mother's inability to care for the children without help, and the children had been sent to our state institution at Sparta it would have cost our county

\$82,576, and an equal amount from the state, or a total of \$165,152. We are sometimes troubled over the amount we are spending in this relief but from these figures you will see it is really a more economical form than relief through the institution.

The aid cases are supposed to be reinvestigated and have their hearings before the judge once a year. For the past year cases have been reheard frequently for changes in the allowance to keep the demand upon our fund as low as possible. Fuel allowances have been taken out of the budgets for the summer months and whenever a change of income has taken place the mother has been brought in for a reduction. This with the monthly reports that must be checked each month with the receipts for the expenditures and the consultations with the mothers in advising how their money should be spent takes a great deal of time.

The coming year prices probably will be much higher and the low budget of the past year will not meet the family needs. Allowances will necessarily be increased accordingly.

The social status of the families was as follows:

Widows	102
Divorced	31
Deserted	8
Fathers incapacitated	23
Fathers serving prison terms	4
Orphan families (including one child)	1
Illegitimate children	3

The monthly reports show the following works done:

Visits and calls made	1639
Letters sent out	1580
Letters received	1211
Telephone calls to and from, a large number of which are unrecorded	2113
Consultations	1770
Aid hearings before judge	204
Meetings of County Children's Board attended	9
Meetings of County Advisory Committee	7
Special meeting of County Children's Board	1

During part of the period of illness of the probation officer a trained field worker has been employed and paid by probation officer from her salary

Hospital, medical, surgical and dental work has been provided for our mothers, incapacitated fathers and their children. Glasses have also been purchased when needed. Special rates have been secured from the physicians, surgeons and hospitals and very fine cooperation has been received.

Hospital care has been given eight mothers and 10 children; surgical care has been given five mothers, 13 children; X-ray care has been given one mother, two children; medical care has been given 50 mothers, 92 children, dental care has been given 11 mothers, 13 children; dental care has been given Oshkosh children at the school dental clinic; medical care has been given seven incapacitated fathers; glasses have been furnished one mother, eight children.

The amount spent for such care totaled \$1,802.80. One child had a bad case of deformity of her teeth. This corrective work extends over a period of three or four years and is very expensive. If the work is not done the child's health is impaired, also the appearance which would prevent occupying a position in future life that might be filled if cared for. A specialist kindly offered to do this work covering a period four years for the cost of the materials giving his service and private organizations and the county children's board are assisting in the expense of materials used.

The aid cases have been distributed in the county as follows:

The City of Oshkosh	115
The City of Neenah	15
The City of Menasha	19
The Village of Omro	4
The Village of Winneconne	3
Town of Oshkosh	3
Town of Neenah	1
Town of Menasha	2
Town of Black Wolf	1

Town of Winchester	1
Town of Nekimi	1
Town of Rushford	2
Town of Algoma	3
Town of Omro	1
Town of Nepeuskun	1

The cooperation of the members of the County Board is much appreciated by both Juvenile Judge and Probation Officer. It has often helped in making decisions and working out difficulties.

Respectfully submitted,

MARGARET A. THORN,
Probation Officer.

Accepted and placed on file.

ANNUAL REPORT OF COUNTY PUBLIC HEALTH NURSE'S

Work From Nov. 1st, 1932 to Nov. 1st, 1933

Gentlemen:

The scope of work outlined by the County Nurse's law is so large and varied that it is almost impossible to give an accurate report of this office, especially since the depression. It has brought new problems meeting up with the difficulties of finding a solution. In planning our program our aim has been to reach the largest number of persons possible in the limited amount of work which can be done by one worker.

Our records show this year that more time has been spent in making home visits than in any other phase of the work. There is an increase of 43 visits made to maternity cases, of 72 visits to infants, 202 visits to cases of suspected communicable diseases due to the measles epidemic and 44 to social service cases. Many families report illness asking the nurse to call and when the visit is made they wish to make application for aid. Teachers report to our office children who might be in need of aid and an investigation is made. Cooperation has been given to the Red Cross in assisting them to give clothing to needy people. It is not the policy of a Public Health Nurse's office to do social service work but the times require someone to investigate homes when problems arise and we are glad to do "our part." Many supervisors have called on us for this service. This accounts for the increase of visits for social service.

It is being demonstrated now that malnutrition and its effects in lowering resistance of an individual is the underlying cause of disease, and the cost of illness is usually great. Tuberculosis is preventable and it is a disease that may develop from malnutrition or improper living. It is our aim to teach people how to live in order to maintain their health. Cases of tuberculosis who are dismissed from a sanatorium are visited their living condition noted and general advice is given.

Total cases

Total expenditure (this includes medical and dental care) \$1,237.37.

It was necessary for me to take a 4 months leave of absence this year due to illness and a substitute was provided in the person of Harriet Baker. It was very difficult for another nurse to come in and take over the work at a moment's notice but Miss Baker carried on in an efficient and painstaking manner while here.

We have had splendid cooperation and assistance from the County Superintendent of Schools, the Supervising Teacher, all teachers, school boards and health officers. Our work in the schools could not be carried out without this help in epidemics or the control of communicable diseases.

COUNTY SUPERINTENDENT OF SCHOOLS REPORT

The following report No. 15 was presented.

ANNUAL REPORT OF THE COUNTY SUPERINTENDENT OF SCHOOLS, WINNEBAGO COUNTY, 1932-1933

To the Honorable County Board of Supervisors of Winnebago County, State of Wisconsin:

Gentlemen: To comply with that part of the Statutes of the State of Wisconsin as set forth by Section 39.07, enumerating the duties of the County Superintendent of Schools and more specifically, subsection (E) which states, "Reports to the County Board: He shall annually report to the County Board the condition of the schools under his supervision." I hereby submit this report for the year ending June 30, 1933. The statistical part of this report is based on the annual report to the State Superintendent of Public Instruction and embodies the work of the past school year carried on under the superintendency of my predecessor, Mrs. Anna Ryss Ostrem, during which time I served as Supervising Teacher.

The following tables of statistics give some idea of the extent of the school system under the jurisdiction of the County Superintendent:

Number of rural schools in the county	88
Number of state graded schools	4
Number of village grades	2
Number of high schools	2
Number of teachers in the county	124
Number of parochial schools	1

The previous tabulations have contained statistical data concerning our school system. These, together with the following summary of activities engaged in by the patrons, school boards, teachers, and pupils in cooperation with this office may serve in a measure to show the scope of the school endeavor of this county. However, no report can reflect that spirit of cooperation and desire for improvement and progress which is the inspiration of those of us privileged to work constantly with teachers and pupils.

Physical Conditions and Equipment

The modern school building in the Pingry District, No. 5 Jt., Town of Winneconne, represents the only new building erected during the year 1932-33. However, improvements in enlarging rooms to accommodate increased enrollments have been made, electric lights have been installed fences around grounds of schools located on hazardous highways have been built improved heating and ventilating systems have been installed, correct seating arrangements made, free textbooks adopted in additional districts, etc.

It is gratifying to be able to state that most of our schools are sanitary and comfortable and that an effort is being made in most districts to make the school home an ideal place for boys and girls to develop through study. However, we do have schools which are striking exceptions to this general rule and it has been and shall continue to be our constant effort to raise the standards of these schools to a higher level. Most school boards respond carefully but splendidly to our requests which are as conservative as we can make them without sacrificing efficiency and the welfare of the children whose education must be carried on even in times such as these. We do take into consideration the economic situation, but we are not willing to let that become an actual handicap to school progress. Nor are school districts in most cases willing to let their boys and girls make the sacrifice, for this year has marked as many improvements in physical features of our schools as previous years.

Quite frequently we find a school whose greatest handicap is in not having equipment in the form of reference books, maps, construction material, seatwork, etc. These are inexpensive as compared with other items of expense but school boards do not always realize the great need for them and feel that expenses are being curtailed by not making such purchases.

Our State Superintendent, Mr. John Callahan, in a letter to school officials entitled "Will the Schools Do Their Part?" in support of the N. R. A. says in part: "The depression has cut down severely, often stopped entirely, school buying. . . . Some districts, I know, are not in a position to buy the needed books and supplies. For no group is it more important that the N. R. A. shall be a success than it is for the young people now in the schools. In the years ahead, they will be called upon to pay the debts we are making now. While conditions now do not offer much, if any, opportunity for school boards to restore departments, to increase pay or shorten hours, they should wherever possible, join the manufacturers, the merchants and all other classes in that necessary part of the Recovery Drive: The buying campaign. Wherever possible the schools should do their part."

The Testing Program

The testing program of the county consists of the Standard Tests for all grades and the final examinations for seventh and eighth grades.

The Standard Tests are given to all grades at the close of the twelfth week of school in some one or two subjects to determine by comparison with thousands of other children the actual progress made by the pupils. This eliminates the determination of progress in such subjects being based wholly on the judgment of the one teacher in the school and gives that teacher an insight into the needs of her pupils. A standard achievement test is given to the sixth grade in the spring to determine their ability for promotion. If a pupil is found to be weak in his work and the repetition of a grade is deemed advisable, the foundation work should be strengthened before the pupil is promoted to the seventh grade. This plan has proven its success by reducing the number of eighth grade failures to a marked degree.

The final examinations for seventh grade in two subjects and for eighth grade in all subjects required for a diploma from the state graded and rural schools are required by law to be given by the office of the county superintendent. Graduates for the year 1932-33 numbered 222 from the rural schools and 34 in the state graded.

A County Commencement for these 256 Eighth Grade Graduates was held at the Strand Theater on Wednesday, June 7, 1933, with Dr. Silas Evans of Ripon College as Commencement speaker.

Achievement, Health and Play Day

A very successful All County Day was held in the Recreational Building, Oshkosh, Saturday P. M., May 20, 1933, when the Winnebago County Teachers' Association again sponsored a program based on the extra-curricular activities regularly carried out in the schools of the county. Achievement awards were presented to the winners of contests held in the forenoon in spelling, arithmetic, and general achievement. Each town either alone or in conjunction with other towns co-operated in the affair by giving a number on the program. Parents and teachers displayed a splendid spirit in making this day enjoyable for the school children.

The Supervising Teacher

The training of teachers in service is everywhere recognized as being of major importance. It is being more and more admitted that the help given by supervision in the school room is the most valuable help the teacher can receive. With this in mind and with a background of supervisory experience giving me intimate knowledge of the problems involved in the field, I made the appointment of Miss Addell McKenney as Supervising Teacher for Winnebago County schools.

The selection of Miss McKenney for this position was based on her qualifications in training, her varied teaching experience and her decided success as Supervising Teacher in Waukesha County for a period of eight years as testified to by the schools of Waukesha County, and by members of the State Department of Public Instruction who had observed her work over a period of years. Miss McKenney began her

work in the county on Aug. 15, 1933 and after her three months on duty in the office and in our schools, I feel assured that there will continue to be constant improvement in the quality of work done by our teachers and pupils.

The supervisory objectives are accomplished through:

1. Class room visitation.

For the year 1932-33 the 111 teachers in the rural, state graded and village grades of the county received 351 visits from me as supervising teacher and 285 visits and calls by Mrs. Anna Ryss Ostrem, as County Superintendent. Up to date this year every school has been visited once and some twice by either Miss McKenney, the Supervising Teacher, or me.

2. Outlines and helps sent out from the office.

3. Institutes and Group Meetings.

An institute was held before school opened to set forth in part the aims and plans of this office for the year's work and to give out such materials, outlines, and plans which are made available through the office. Thirteen group meetings were held during the year with an approximate attendance of 350 teachers. Professional reading and improvement in instruction were topics of discussion.

The law governing Supervising Teachers was changed by the last legislature in the following manner:

Section 39 14 (7)

"STATE REIMBURSE COUNTY. On receipt of such report, and it appearing from an actual inspection by direction of the State Superintendent that the work of such Supervising Teacher has been efficient, and that she has devoted her time exclusively to the duties of the position, the State Superintendent shall certify in favor of the county which employed her, the amount of the salary paid, but not to exceed an amount to which such teacher shall be entitled under a salary schedule for Supervising Teachers to be adopted and promulgated by the State Superintendent of Public Instruction which shall provide for a salary range of from eleven hundred to fifteen hundred dollars per year, varying with length of service and professional training. The county shall also be entitled to reimbursement for the . . . actual and necessary expenses paid to her in the year preceding, and file it with the secretary of state, whereupon he shall draw his warrant for the amount of the certificate and in favor of the proper County Treasurer."

In accordance with the above requirement the State Superintendent of Public Instruction drew up the following schedule:

Prof. Training Experience	2-Years	3 Years	4 Years (degree)
0	\$1100	\$1150	\$1200
1	1150	1225	1300
2	1200	1300	1400
3	1250	1375	1500
4	1300	1450	1500
5	1350	1500	1500
6	1400	1500	1500
7	1450	1500	1500
8	1500	1500	1500

There are many other agencies in Winnebago county which contribute materially to a successful educational program and should be given due credit. The Health Work carried out under the untiring efforts of Miss Sena C. Peterson, in cooperation with the dental hygienist, Miss Grace Meyer, is a valuable asset to any program.

The County Library renders a very fine service handled in a very satisfactory manner by supplying reference material in school subjects as well as providing for leisure reading.

Reading Circle work. The data below gives some indication of the extent of reading done by our teachers and pupils:

Total number who earned teachers' reading circle diplomas or seals.	97
Total number who earned young people's reading circle diplomas or seals	2257
Pupils in rural schools	1772
Pupils in state graded schools	239
Pupils in grades below high school	196

The 4-H Club work, the school board convention, Parent-Teacher

and Community clubs, School Credit Work, the Reading Plan, testing of first and sixth grade pupils, the teaching of safety and humane treatment of animals, and many other agencies have an important place in the county school program, but can only be mentioned here.

Miss Jane Hurlbutt, our secretary, deserves meritorious mention for the efficient service she is rendering in the handling of the routine work of the office. Demands of various types increase from year to year the amount of work involved in this position.

This report would not be complete without giving recognition to the services of Mrs. Anna Ryss Ostrem, who for six years as supervising teacher and two years as county superintendent worked so faithfully and unsparingly in the interests of the boys and girls of our schools. To her is due in large measure the high standards of work done and the wholesome cooperative attitude in evidence among the teachers, pupils, school boards, and patrons of the schools. It is my aim and desire to carry on the work in the same efficient manner.

In conclusion, may I ask for the same interest and courtesy that has been accorded the office of the county superintendent in the past by the members of the County Board of Winnebago county.

Respectfully submitted,
EVA C. MONSON,
County Superintendent of Schools.

4-H CLUB LEADER'S REPORT

The following Report No. 19 was presented.

Oshkosh, Wisconsin, November 13, 1933.

To the Honorable County Board of Supervisors, Winnebago county, Wis.:
Gentlemen:

Pursuant to the terms of my contract, I am presenting the annual report of my work during the past year with 4-H clubs and Home Demonstration clubs. It is your Honorable body that has intelligently seen the value of such work and thus made it available to the rural residents of Winnebago county.

The growth of 4-H club work as shown in this report expresses, I believe, the gradual increase of interest in this project and in behalf of those who have given much of their time and efforts to the 4-H program, I thank the Honorable County Board of Supervisors for making this worthy organization available to the youth of Winnebago county.

The city with its dazzling lights no longer holds a fascination for the boys and girls from the country, for the many opportunities there have become decidedly limited in the last few years. The present influx is "back to the farm" and now it is the duty of our educational systems to prepare these young folks to the best advantage for their careers.

How many of your children or the children of your neighborhood find their life work on the farm? A surprisingly high percentage will remain in the country and become the farmers and homemakers in your place in a few years.

Because these young people do not know their own needs too few of them are preparing themselves for their life work. There would be a far more satisfied group of farm people if these boys and girls were taught to clothe and feed a family cheaply, and yet keep them healthy and happy, and to produce farm products in an efficient manner. Too often the dairy ration is given more consideration than the family menu or the school lunch.

There is a comparatively new organization in the United States and in 17 foreign countries which already has an enrollment of nearly 1,000,000 boys and girls in this country alone.

It is not based on spectacular, new fangled ideas, but on good old-fashioned principles which have been in existence for many years—the child and his parents in relation to the home, community and country.

These old-fashioned ideas were formulated at the beginning of this century into the 4-H club organization, and it has had the advantage of combining the good points of Boy and Girl Scouts, Girl Reserves, Camp-fire Girls and other youth organizations.

4-H Club Work deals with the natural life of the rural boy and girl. It is a system of education that places the responsibility of learning on the boys and girls themselves. They learn by the "doing" process and this is not easily forgotten.

The county is made up of local clubs of 5, 10 or 15 young people of common purpose and goal who would naturally work or play together.

Each member must select and complete a project which is centered around living, growing plants and animals or concerned with the active processes of home making, farm accounting and other matters directly related to the daily life of the farm and farm home.

To quote one writer: "We are all a part of what we meet, do, say and hear. The experiences that our farm boys and girls are having are fast becoming the fabric of their lives." In other words, they grow like the people and things with which they associate.

Remembering this, we would expect to find garments carelessly made by a girl who was trained in an untidy, dirty, poorly cared for home and likewise expect to find lousy ideas in a boy's head when we find lice on his pigs. According to one boys' and girls' worker: "More boys have become runty men because their dads gave them runty pigs than for any other reason."

So it is not enough to have something to work at—it must be something worth while. The 4-H project must offer a challenge so that the child will grow with his work.

The study of books is incidental and supplemental to the actual planting, growing, harvesting, and marketing of a crop, the canning of fruits and vegetables raised on the farm for the winter months, cutting, fitting and making of a garment, or the use of dairy products in the diet.

To quote one of our 4-H girls from the Clairville Club, "I have begun to feel that I am capable of assuming a large amount of responsibility in the work at home. I feel as though I am helping to earn the family bread. I am vitally interested in what goes on at our farm."

The 4-H work tends to adjust farm boys and girls to the rural mode of living and thus make them better citizens. One 4-H club boy from the northern part of the county writes: "4-H club work has helped me and my community as a whole by making our neighborhood a more sociable and a better place to live, as well as more cooperative."

We like to see each child make a profit in his project; however, there is no place in the 4-H program for those who see only the monetary side of it. We have far higher ideals for we try to build boys and girls who will do a piece of work to their best ability for the pride and satisfaction that they find in the finished article.

I have spoken only of the boy and girl but no less important are the leaders of the 4-H clubs. Men, like Rockefeller, Ford, and Carnegie, have given large sums of money for hospitals, memorials, museums, churches and parks, but there are many who are equally as public spirited in our own community who are not financially situated to donate money. There are 49 unpaid local leaders in Winnebago County, who have given their time and efforts to building of boys and girls. This is entirely voluntary work which they are doing for the joy and satisfaction it holds for them, and at the same time they are becoming better citizens, and doing a real service to their community.

In the spring of the year I organized ten 4-H clubs and reorganized all of the old clubs. By June 1st I had enrolled 444 boys and girls in 29 clubs in 15 different townships.

I had a leaders' meeting in March to make plans for the year's work and another meeting in June to organize the leaders as I felt they would work more effectively as an organized group.

In June four one-act plays were given in a county tournament and the winning group was sent to the state meet in Madison. This is the first year that the 4-H clubs have entered the drama work, but judging from the number of inquiries that I have had concerning the work many more clubs will enter next year. I am sure that the merits of the drama work are clearly seen by all.

The county "round-up" at Menominee Park in July was a fete which represented the work of the boys and girls themselves. Over 1,200 people attended the all-day educational program.

Thirteen girls' demonstration teams and six boys' teams competed and the winners of each group went to the State Fair (A 4-H club demonstration is the presentation of a good farm or home practice by club members who have learned the process in their club project, and who can show and explain at the same time the method in detail.)

A demonstration is a difficult thing to give and yet it is one of the most valuable practices we have in 4-H club work for it teaches the boy and girl to appear before an audience and speak in a clear, concise and convincing manner. Think of the many adults that regret that they did not have the opportunity of receiving this training.

The program of music and other stunts on the afternoon program of the round-up were arranged and presented by the club members.

A refreshment stand to help defray expenses was taken care of by club leaders.

Professors Humphrey and Mosely and Mrs. Nellie Kedzie Jones of

the university all contributed to this educational program.

The girls' demonstration team which demonstrated on "Canning Tomatoes the 4-H Way" won third place in the State Contest at the State Fair, and the boys' team on "Setting the Table for the Laying Hen" won first place in the poultry group and third place against all agriculture teams.

The booth which was put up at the State Fair on canning received first place and the garden booth third place.

Prizes won on pig projects at the State Fair by Winnebago County 4-H club boys were five first places and thirty-five other placings.

Because of the growing public interest in 4-H exhibits a large space in the farm crop building was given over to 4-H club booths this year at the County Fair. There were 15 booths which displayed agricultural and Home Economics projects. The members spent a great deal of time and effort in putting up the booths and yet it was well worth while.

Standards are built by comparison—the opportunity the fair offers helps greatly in improving the work done in the local clubs. One club girl writes in her report: "I can rate myself by comparing my accomplishments with others."

An agricultural judging contest was held which 28 boys entered. They judged pigs, cows and poultry.

Fifteen girls entered the Home Economics judging contest in which sewing and baking was judged. The value of boys and girls judging cannot be overestimated.

Fifteen girls entered the dress revue contest in which the girls modeled the dresses they made.

Four teams demonstrated at the County Fair. In the open classes 4-H club boys won four Junior Champions and two grand champions, and 12 first places on their swine. 4-H club calves received eight first placings in the open class and the best aged bull exhibited from Winnebago County was a 4-H club calf.

The 4-H parade of livestock, club members and floats was one-third of a mile long.

Sixteen out of twenty-nine of the clubs held local fairs in their own communities. I judged at seven of these, as many as could be arranged, and found the parents unusually interested in hearing comments on the work. In most cases the parents must be convinced before we can expect the children to adopt club standards.

Demonstrations, judging, dress revues, talks and musical selections were common at these fairs.

The Achievement Program in the 4-H club work can be compared with graduation in High School. The 4-H members are awarded pins if they complete their projects, exhibit and keep a record.

About 500 people attended the program which consisted of inspirational talks, a club folk dance, club songs, initiation service, and readings by club members, 62% of the members or an increase of 5% over last year, completed and were awarded pins. Seven clubs were awarded 100% certificates.

George B. Young, chairman of the county board, presented pins to the local 4-H club leaders. Prizes were awarded to the three best agricultural record books and the 3 best home economics books. The outstanding canning girl was presented with a 12 quart pressure cooker given by the National Pressure Cooker company.

We were fortunate this year to be able to send one of our club boys to the National 4-H Club Congress in Chicago.

Another boy from this county received Honorary Recognition from the State Department for his outstanding record book.

The 4-H clubs are planning to continue through the winter months engaging in music, dramatics, etc. I have organized the Hot School Lunch Project in 10 schools. This project is carried from November to April. In these times we can less afford to be ill than ever before.

Home Demonstration Groups

In the capacity of a part time Home Demonstration Agent a definite project on clothing has been carried with the County Home Demonstration Clubs.

It has been stated that agriculture is the backbone of the nation and in these terms the Home is the spinal cord. The mother is the one who guides the activities of the entire family.

The women of the county have been glad to receive help with their homemaking problems.

I believe an extremely worthwhile piece of work was handled by these clubs when they made up Red Cross material for the needy. In the town of Oshkosh, members of the Home Demonstration club, gathered in the basement of the Nordheim school and helped the poor relief people to cut their garments. They brought patterns from their own homes and by cutting the clothing in this way we found that a great deal of material could be saved.

I gave one lesson to these clubs on "Making New Garments from Old." I handed out to the women patterns from mittens; children's dresses, toys, coats, snow suits, and tams; aprons, dresses; collar and cuff sets; and many others. This is a great saving to the homemaker.

Ideas for inexpensive, home made Christmas suggestions, as well as demonstrations on sandwiches and salads were given at other meetings.

The last two meetings with the clubs in the spring were demonstrations on teaching the women to make patterns at home for any member of the family.

Although the profit was small, we may consider ourselves lucky to keep out of the "red." This year's Fair required very careful budgeting in order to give the people of this community a good exhibition and still come out without a loss, especially when we consider that the Fair Board reduced this year's admission to 25 cents. There were no free passes given out to anyone. This rule was rigidly enforced and generally accepted by all as being a very good regulation, especially with the admission of a quarter.

The Fair this year was well balanced and good in every department which shows that enough of our people will support a fair on a 25-cent admission charge, to put it across.

T. G. BROWN, Secretary.

WINNEBAGO COUNTY LIBRARY SEVENTH ANNUAL REPORT — (1933)

The following Report No. 21 was presented:

To the Board of Supervisors of the Winnebago:

In this Seventh Annual Report of the Winnebago County Library I wish to show you what use has been made of the books owned by the County for its rural citizens. As Secretary of the Interior, Mr. Harold L. Ickes maintains "An intelligent government and an intelligent citizenship do not grow spontaneously. They must be fashioned by carefully fabricated, highly tempered intellectual tools. To be great and free, America must be educated." Winnebago County not only educates youth, but can continue this education throughout its reading life by means of its County Library. And this at a ridiculously low sum.

County Library Book Stock — 1933

Number of books owned by the County, November, 1932	9,701
Added during the year 1933: (Purchase, 1,789; gifts, 178)	1,967
Withdrawn: (Scarlet fever, 10; fire, 2 farm homes in county, 90; worn out, 225)	325
Total of books owned by County Nov. 1, 1933	11,343

Mending and binding have kept the books in condition to withstand the heavy use made of them, but unfortunately the N. R. A. has given binding a higher price.

1933 Budget

Balance on hand Nov. 1, 1932	\$ 609.83

*Custodian at Waukau	100.08
Custodian at Winneconne	71.80

Books	1,896.86
Magazines	82.75
Binding of books	54.00

Total expenses\$3,167.02

Balance for November and December expenses\$ 531.92

*Custodians are paid one cent for each circulation between 2,500 and 10,000 of adult and juvenile books. Rule of 1929. Except for Omro where a local ruling holds.

Expenses can be kept at such a minimum because the Trustees of the Oshkosh Public Library give the Winnebago County Library the use of room with heat, light and janitor service free of charge. Also the County Librarian receives no stipend for her services to the County Library. All this means that the money which otherwise would be needed for upkeep goes to buying the necessary books.

Since it is not possible to ask for even a small increase in our budget for this next year, we submit the following:

Books	\$1,650.00
Magazines	50.00
Freight	5.00
Supplies and equipment	85.00
Rent	60.00
Salaries	950.00
Binding	150.00
Miscellaneous	15.00
Cash for postage	35.00

\$3,000.00

The advance in prices will make it a matter of most careful expenditure to get the books most wanted to the people. The fact that the teachers and the custodians call and return their collections of books makes it possible to buy many books that the postage would naturally take.

Total Circulation of Books for Year		90,267

*Books for Adults and Children; †Books for Summer.

Gain of 16,084 over the previous years. From these figures is seen that the County Library is penetrating into all parts of the County and that the adults are making use of their spare time to read in order to keep abreast of the changes in modern life, and also to take advantage of excellent recreation. We also see from these figures that some communities are not yet fully awake to the resources at their command. Books on all subjects can be requested and in so far as the small budget permits we will see that the community gets the kind of books they are interested in and want to read. Mrs. Anderson is on part-time duty only, and is kept busy getting the books ready and to the people. This fall the difficulty has been in having enough books to fill the school requests but collections are changed frequently which permits the books to be in constant use.

The picture collection for the school course of study showed a circulation of 2,918 in the schools of the County.

The magazines were circulated in Pickett 340 times; Winneconne 180 times; Winchester 1,239 and Waukau did not report separately on magazine circulation, but constant use is made of them.

For the past seven years the following circulation and books in the County Library were:

192712,853 books loaned	3,267 books owned
192832,530 books loaned	4,823 books owned
192929,947 books loaned	5,798 books owned
193040,885 books loaned	6,881 books owned
193162,118 books loaned	8,277 books owned
193274,183 books loaned	9,701 books owned
193390,267 books loaned	11,343 books owned

COOPERATION has been excellent from many County departments and with the teachers. Especially in the projects made by the schools which are displayed from time to time in the County Library so that the other teachers can see what is being done by their colleagues. Also the County Nurse, Miss Peterson, the Four-H Club Leader, Miss McFarlane, and the school office through Miss Monson and Miss McKenney are interested in seeing that their groups get the books which will help in their work, as well as, mean the most to the rural citizens. The splendid newspaper articles written by Mr. Raymond Peterson helped us tell the County what we were doing during the year.

ACTIVITIES. Mrs. Anderson, the County Assistant, spoke at the Teachers' Institute on Aug. 24th to explain the County Library to the new teachers. At the display in connection with the Four-H Achievement Day, Oct. 11th, Mr. McNeel, Assistant Four-H Club Leader of the State, expressed much interest and asked for a list of books which we furnish the Four-H Clubs. In two successive Saturday radio broadcasts from Madison he specifically mentioned our Library and what it is offering the Four-H leaders. An exhibit was shown at the Annual County School Board Convention in October and most of the sessions were attended by the County Assistant. We also furnished a display for the County Supervising Teacher which she used at group meetings. Many of the Granges and Community Clubs come to us for program material throughout the year. As has been the custom we had our Booth at the County Fair. The main decoration beside the books was furnished by the Widmer School. It was a miniature farm.

There can be no denying that the Winnebago County Library is helping to provide "generous opportunities to all for richer understanding of contemporary life, for mastery of circumstance, and for greater social and civic usefulness" because according to Governor Lehman of New York "libraries are essential to a democratic state because reading and study promote continual growth in mental power, character, and civic spirit." Most judges will say—provide good educational and reading facilities for the people or more than the money needed for them and give it to crime correction. As Mrs. Jennie Steele wrote to us in her report on the Waukau Branch, "The work this year while more, has simply been delightfully interesting."

Respectfully submitted,

NATALIE T. HUHNS,
County Librarian.

REPORT OF THE WINNEBAGO COUNTY CHILDREN'S BOARD 1933

The following report No. 22 was presented:

To the Honorable Board of Supervisors, Winnebago county:

Gentlemen: The Winnebago County Children's Board was established by the order of the Board of Supervisors four years ago. The members at present are: Mr George B. Young, Oshkosh; Miss Mary O'Keefe, Oshkosh; Mrs. C. B. Clark, Neenah; Mrs. J. F. Shea, Pickett; and Elizabeth M. King, Omro

In the three and one-half years since its organization was completed the board has held forty-two meetings. The work has been under the supervision and at the suggestion of the Juvenile Department of the State Board of Control. The scope of the work undertaken has been constantly enlarging and the number of cases under consideration constantly increasing.

During the past year the work with foster homes has been continued. The homes have been investigated and supervised and recommended

for license to the State Board of Control. Studies have been of the histories of the children in the homes. In one case a parent has been persuaded to take his child from the foster home and care for him in his own home.

Except in two cases, in both of which the foster mother after years of service was unable to continue the work, all the children are now in the same homes in which they were first placed. We believe this to be important as the child should have the feeling of belonging which can only come with living uninterruptedly in one home and under the care of one foster mother.

Due to the help given the needy by the distribution of clothing through the Red Cross, fewer calls for clothing have come to the board, yet in some cases various articles of clothing have been purchased in order to keep certain children comfortable and able to attend school. Twenty have had needed medical and dental care.

Judge Spengler has called upon members of the board to assist in investigating surroundings and supervising five cases of children and young persons brought before the Juvenile Court for delinquency, all of whom were placed by him in the custody of members of the board.

The great problem of the year has been that of the unmarried mothers. The Children's Board has made a survey of all cases reported in the county and in many cases has made a careful study of all the factors involved, especially of conditions contributing to the delinquency. An increasing number of the mothers are keeping their babes instead of sending them to institutions, and in an increasing number of the cases paternity has been established and a financial settlement made by the father. Following is a summary of the survey of all cases handled except those handled by Catholic agencies:

Number cases of illegitimacy reported from Nov. 1, 1932 to Nov. 1, 1933	74
Number cases passed upon by the court	40
Number cases in which paternity was established	30
Number cases in which cash settlement was made	5
Amount in cash settlements	\$2,325
Range of monthly payments	\$7.50 to \$15.00
Total amount of these 20 settlements if paid for 16 years will be	\$23,960

On April 26, 1933 the report of this board from the State Board of Control was of 86 cases from this county on their files, a large number of which were cases left over from former years.

Miss O'Keefe, Mrs. Clark, and Mrs. Shea attended the Conference of Children's Boards held at Fond du Lac, October 5th. At this meeting the functions of children's boards and questions of child welfare and of illegitimacy were discussed. Expenses \$3.00.

The following is taken from the statistical report required sent to the State Board of Control:

Resolved, by the Winnebago County Board of Supervisors, that the State Highway Commission be requested to install automatic traffic signal lights at the intersection of said Cemetery Road and U. S. 41 in Winnebago county, as soon as possible, and be it further

Resolved, that a copy of this resolution be sent to the State Highway Commission, Madison, Wis.

In accordance with the resolution passed by the County Board, we have endeavored to establish the legal settlement of all non-resident poor. Consequently 54 cases have been brought into court, and of this number, court orders have been entered for 424 families to return to their place of legal settlement. Court decision is pending in three cases, and court orders have been obtained by their home county in two cases. We have tried as much as possible to persuade all non-resident poor to return to their own municipalities without the necessity of court proceedings. In many cases they have agreed to do so, and the transportation costs listed above, are for these cases and for some of those whom the court ordered returned.

Number of relief cases who have left the county	57
Number of cases turned over to other municipalities for care in accordance with court decision	9
Number of applicants refused aid after investigation	8
Number of cases where applicants are employed and self- supporting at the present time	32
Number of families receiving aid Nov. 1, 1933	76

Through the co-operation of the County Highway Commission, a number of our relief applicants have been given employment at various times during the summer. This has been a help in reducing our expenses. Others have been fortunate in securing reasonably steady employment and have not received aid for several months. However, new applications are being received daily and those who have had only temporary employment during the summer are again in need of aid.

We have also been fortunate in having the splendid co-operation of the Red Cross, who materially aid in the contribution of clothing and flour.

The committee composed of members of the Medical and Dental Associations and County Board Member to audit all county medical and dental bills, has been meeting regularly and the plan seems to be working out very satisfactorily.

The following is a schedule of the work done:

Number of calls to Nov. 1, 1933	1,181
Number of court hearings attended	59
Number of committee and other meetings attended	25
Number of miles traveled	11,659

A great many calls not listed in the above schedule, were made in the general interest of the work, and not related to any particular case.

I wish to thank the members of the County Board and County Officials for the co-operation and help given me in this work.

Respectfully submitted,

L. J. HOWMAN,
Supt. of Outdoor Relief,
Winnebago County.

AGRICULTURAL AGENT'S REPORT

The following Report No. 27 was presented:

Oshkosh, Wisconsin, Nov. 11, 1933.

To the Honorable County Board of Supervisors,
Winnebago County, Wisconsin.

Gentlemen: In presenting my fifth annual report I have no alibi or apology to offer, as the realizations of our work have been beyond our expectations. For the benefit of someone who might read this report in the future I wish to say that under normal conditions I would have an entirely different report to offer

As you know, our job is education and research in agriculture. We have tried to adhere as closely as possible to our position, but on account of the emergency measures that have been enacted during the past two years, much of our time has been given to personal service rather than general education.

Fortunately, many of our projects that were started three and four years ago have been carried on with little assistance.

We have had some direct opposition given to our work, but I would like this Honorable Board of Supervisors to know that there has been more indirect opposition than most of you realize. The direct opposition has been easy to meet but the indirect opposition has been more difficult. As a whole the opposition of any kind has not been a serious handicap. In organizing 4-H clubs in the spring we encountered a little difficulty because of neighborhood differences. With this exception, I am of the opinion that the opposition we have met with, if it has not been, it will be a help to our work. A thorough analysis of it resulted in finding that gain for personal or group compensation has been at the bottom of it all.

Regardless of what the effect of it will be on this Honorable Board of Supervisors I feel justly proud of it.

Two years ago when I signed my contract I sold to Winnebago County my services and my judgment and I can only say that at no time have I delivered anything else.

A year ago the Agricultural Committee and my District Supervisor from the College of Agriculture, outlined a program of work for me as follows:

I. Major Project.

1.4-H Club Work with a goal of 600 members.

II. Minor Projects.

1. Live Stock Improvement

2. Soil Improvement.

3. Miscellaneous.

(a) Orchard Improvement.

(b) Cooperative Marketing.

(c) Poultry Improvement.

4-H CLUB WORK

4-H Club Work was made my major project and it is deserving of that place in my County Agent Program. After all, boys and girls are our principle crop. The future of civilization will depend on what they make it—and what they make it will depend largely on what we do for them. In other words, we will tend to mold the future with the same hand that we direct the development of our boys and girls. The thought brought out in the verse composed by Ella Wheeler Wilcox is always appropriate in club work.

"One ship drives East and one drives West

By the self same wind that blows,

It is the set of the sails and not the gales

Which determines the way it goes."

Regardless of the depression or anything else, we have had the most successful year in club work than ever before. The greatest development has been in the girls' work. This is due to the fact that we now have had a full time club leader this year.

I have not given the time to club work that I had planned a year ago, because we have had so much extra work this year; the fact that we have had on the average 171 office calls a month during the months of April, May, June, July and August, the months we should be working on club work, is largely responsible for my not devoting more time on this major project—nevertheless we have had exceptionally good results.

The County Fair is the show window of our club work. Not all the members exhibit at the Fair but a good many of them do, and it gives the public a good idea of the work carried on. Livestock members exhibited 82 calves, 85 hogs, 72 chickens, ducks and geese, 4 lambs and 10 rabbits. In the open class this year the club members won more than ever before at the Fair, showing that they are improving the quality of their livestock.

In the Cattle Department about one-third of the entire cattle show where 4-H club animals. In the Swine Department 80% of the animals shown were 4-H club hogs. In the Farm Crops Building one entire side of the building was taken up by 4-H club booths.

The prize money at all the Fairs was cut down a great deal and many classes were entirely eliminated, so that the total cash earnings this year were not as large as last year. A total of \$1,276 was won by the boys and girls at the Fairs this year. If we had had the same amount of money to compete for that we had three years ago we should have had no trouble winning over \$2,000 which would amount to about three times the prize money that was won four years ago. This is a very good indication of the progress we have made in club work.

In this work we not only aim to train the boys and girls in better livestock practices but we also aim to improve the livestock in Winnebago county.

I believe our exhibit at the National Swine Show this year will prove that we are accomplishing our aim in that direction. A pen of Winnebago County hogs sired by a 4-H club pig won first in the heavy class and RESERVE GRAND CHAMPION of the entire show. In that show there were 365 fat hogs exhibited from 10 states, so you can see that the competition was keen.

If space would permit much more could be said about 4-H club work, but Miss Jean McFarlane, County 4-H Club Leader and Home Demonstration Agent, will discuss this subject more thoroughly in her report.

Livestock Improvement

About 88% of the entire income of Winnebago County farmers is from livestock and livestock products, so that live stock improvement should take a prominent part in our program. We have in this county about 35,000 cows and heifers milking. If we can raise the efficiency of the dairy cow in this county one pound of butter per cow per year, figuring butterfat at 40c a pound, it will make a net income or net earning to Winnebago County farmers of approximately \$14,000. Each year there are produced in Winnebago county about 26,000 pigs. If we can raise the efficiency of our hogs 25c per cwt. it would mean a net earning or value of about \$13,000. The foregoing facts are what we have in mind when we carry on livestock improvement work.

The most important project we are carrying on in this work is culling dairy cattle by the Dairy Herd Improvement associations. Right now I wish to remind you again that we have the only Pure Bred Testing association that has operated successfully for four years and started its 5th. It is the only one of its kind in Wisconsin and perhaps in the United States.

In the two associations that we have been operating, we are culling what is equal to 29 average herds of pure bred cattle. In this movement we are eliminating a large number of low producing pure bred cattle and building herds of high producing animals, also enabling farmers to secure bulls from ancestors of known production.

We conducted three bull sales during the year at the Winneconne Sales Pavilion. At these sales we supplied the farmers with catalogs, which they could read and understand and these were made in our office. At these sales we talked selecting and testing, primarily to interest our farmers in more efficient production. At the last sale we held last month 12 animals sold for an average of \$64.90 a head, all except two of them remained in the county.

It is difficult for us to say how many bulls from tested dams we have enabled farmers from Winnebago County to secure. In a good many cases they come to the office and inquire where they can buy an animal, but we have no way of determining whether they buy or not. I think I am safe in saying that in the past year this office has assisted farmers to secure not less than 90 bulls and 75 hogs for breeding purposes.

SWINE IMPROVEMENT

In the Swine Improvement work we selected breeding stock, assisted breeders to exhibit their live stock at the National, State and County shows. During the year we hold four killing tests, three at a local market and one at Milwaukee. For these tests we had farmers bring in different types of hogs and have them slaughtered. We then cut the carcasses for retail trade and at that point figured out the values of the different types of animals.

One of the most important educational features in our Swine Improvement work this year was the Fat Barrow Show at the County Fair. There were 113 hogs exhibited, different breeds and types, by 18 farmers. The animals were placed by a packer buyer. After the show they were shipped to the Plankinton Company, Milwaukee, where each lot was killed separately and again judged on the rail. From the table which we derived on this cutting test, which appears on the next page, it is easily seen that the type of hog we are promoting in Winnebago County is what should meet the demands of the buying public and the feeders.

Bangs Disease Control

For the last two years we have been carrying on a Bangs Disease Control Program in the county in cooperation with the Department of Markets, Dr. V. S. Larsen supervising.

We are demonstrating under practical farm conditions what can be done to control this disease by isolating the infected animals.

We are also demonstrating what cannot be done without isolating the diseased animals.

Seven herds were selected for this work. The infection in these herds ran all the way from 10 to 75 per cent.

In every case where the diseased animals were isolated, we were able to clean up the herd the first year; where they were left in the herd, in every case we had a spread of this disease.

Poultry

We have assisted the people of the county in this work by giving out bulletins on poultry raising, disease control, poultry house construction, etc. Disease control work has been and no doubt will be a principle factor in poultry raising. Each year we are being called on for more help in this line.

Poultry sanitation will be one of the principal lessons taught through extension work from now on.

A large number of birds were sent to Madison for medical examination.

Soil Improvement

At the request of our extension supervisor, we decided to discontinue our fertilizer test plot work which we have carried on for a period of three years. As a result of the work we have carried on in the past, we have had an increase in the number of calls in regard to soil improvement work. Without putting out any notices that we would test soil or hold a soil school, people in the cities as well as in the country brought in soil to be tested every month of the year.

Our crop loan service has increased our soil improvement work as it brought in a large number of people. In most cases, people who applied for a seed loan were people who should be interested in soil improvement work. We found that when these people learned of the services they could get through this office they became frequent callers.

About the usual amount of service has been offered in drainage work. We surveyed for tile on 13 farms and ditches on three roads.

Orchard Improvement Work

During the winter with the cooperation of Prof. C. L. Kuehner of the College of Agriculture, we held orchard schools throughout the county and also at Farmers Institutes. The farmers were interested in the scientific methods of orchard improvement. Last summer we held an orchard tour to show the results of proper orchard improvement. We found that where farmers had taken care of their orchards properly, about 90% of the fruit was clean and saleable, and orchards that were not properly taken care of, not more than 10% of the fruit was fit to be used.

With the help of Mr. Kuehner, Fruit Specialist, we put up a booth at the County Fair in the Farm Products Building, displaying sprayed and unsprayed apples.

Cooperative Marketing

Although Cooperative Marketing was not made a major project we have spent considerable time in this line of work. The Larsen Shipping association called for our service in reorganizing their association. This association was organized and has been shipping since the first of May. I think that it has not been a success so far, because the volume of business is not large enough but, we are hoping, that it will increase in the future.

We assisted the Oshkosh Fluid Milk Producers in setting up their organization and up to the present time it is working very satisfactorily. We have heard very many favorable comments on the work, especially from those who opposed this movement in the beginning.

We spent three days in soliciting members for the Wisconsin Wool Pool. At this time we do not know just how successful we have been in this undertaking, as the wool is not all sold, but we do know that during the time we were working on this project, wool was being bought in the county for about 13c a pound and at the present time it is selling for about 33c a pound. We have been unable to get a definite account on the wool that has been marketed through the pool as a great deal of it was taken down to Milwaukee by the farmers themselves, some of it coming from Fond du Lac and some from Green Lake counties, but I would estimate that about 10,000 lbs. was shipped from Winnebago county to the pool.

I would say off-hand that the farmers will receive an increase in price of about 15c a pound which will net them a profit of approximately \$1,500.

Farm Crops

Farm crop work has again played a very important part in our year's activities. We have encouraged the use of sudan grass for pasture, soy beans for emergency hay crop and sweet clover for green manure. As a permanent crop we have placed alfalfa first in our program. Sweet clover as a soil building crop and alfalfa as a forage crop stand out alone. We can maintain nitrogen in the soil and produce feed more efficiently with these crops than we can with any other crops.

You have been told that we are over-producing—at the same time there is a market for every ton of good alfalfa that we have for sale in Winnebago county at about \$10 a ton clear. Another fact that we can bear in mind at this time—during the year 1929 there was \$436,000 spent for feed in Winnebago county. This over production talk and those figures do not agree.

We have encouraged the use of No. 38 barley and I am sure that Winnebago county farmers have listened to us because of comparatively large percentage of the barley now grown in this county is the No. 38 variety. Over a period of four years since it has been introduced, I can safely say that it has out-yielded all other varieties at least 10 bushels to the acre.

There was produced in Winnebago county in 1933 about 13,000 acres of barley. If one out of 13 sowed No. 38 seed the increase would be 10,000 bushels on the 1000 acres, figuring 60c a bushel as the market price, the net earnings would be \$6,000.

Emergency

There has been more time spent on emergency work such as crop and federal farm loans than any two projects we have had. In the spring of the year we made out 34 crop loan applications. During the summer we made out 40 applications for the federal farm loan. It takes about 2 hours time to make out such an application. It was not only the applications that took our time but it was the people who came in for information regarding such a loan and this took considerable time. In many cases when people learned what they had to offer for security they did not consider it. At the same time it took time to explain the system.

During the season a large percentage of the people who filed crop loan applications came into the office to have us take care of their crop reports and payments.

We were assigned the wheat allotment work but few people grow enough wheat in this county to pay them to sign up so we did not spend much time on it. At a county wide meeting held in this office only six contracts were signed.

RELATING TO MILK STRIKES

The following Resolution No. 31 was presented.

Resolved by the Board of Supervisors of Winnebago county, Wis.:

Whereas, certain farmers of the State of Wisconsin, and more particularly of the Fox River Valley have been engaged at different times during the present year in a so-called milk strike which is ill advised and with which it is impossible to secure any beneficial lasting results for farmers by way of increased prices or otherwise, and

Whereas the effect of said strikes has been to create ill feeling and enmity among the farmers themselves and between the farmers and other classes of people, which has been injurious to the cause of farming, and

Whereas, said strikes so conducted have resulted in the unjustified destruction of property and the disobedience of law, and the indiscriminate use of dynamite and other unlawful means of carrying out the purpose of such strikes.

Whereas, the continuation of such strikes has resulted in losses to the farmers themselves amounting to large sums through the permanent loss of market, through the dumping of milk and destruction of other property, and

Whereas, the said strikes so continued have resulted in a heavy increase in taxes levied upon all classes for the preservation of law and order, now be it

Resolved: That it is the sense of this Board that it condemns such unlawful acts as have been committed by the members of the Milk

Pool and similar organizations that were instrumental in causing these strikes, and that this Board go on record as upholding law and order, and that this Board go on record as approving the acts of the District Attorney and Sheriff of Winnebago county in enforcing the law as to such strikes, and that this Board extend to said officers its unqualified support and that it require of them the highest degree of diligence in the full enforcement of the law, and that this board go on record as deprecating the acts of the leaders of said milk strike in misleading the farmers of the state and in causing them the loss of money and markets with no possible chance of reaping any benefits from such strikes.

NEW COURT HOUSE BUILDING FUND

The following Resolution No. 35 was presented.

Whereas, by the vote of the County Board of Supervisors of Winnebago County, Wisconsin, it apparently is a settled proposition that the opinion of the Board at this time is not in favor of the building of a Court House, and

Whereas, because of the depressed financial condition and situation of the farmers and people, generally, of Winnebago county, Wisconsin, making it impossible for many of them to carry the tax burden that is already levied against them, and

Whereas, it is the desire and duty of all municipal bodies to cut down taxes and curtail expenses as far as possible in the administration of their respective governments, and

Whereas, Winnebago County, Wisconsin, has accumulated a fund of approximately \$193,186.28, known as the Court House Building Fund, which fund is apparently not to be used for the purposes that it was originally specified, now, therefore,

Be It Resolved, by the County Board of Supervisors of Winnebago county, Wisconsin, that the entire fund as set up and known as the Court House Building Fund, be, and the same is hereby dissolved, as provided in this resolution, and

Be It Further Resolved that a committee be appointed by the chairman of the County Board as provided under Chapter 59.75 Wisconsin Statutes for 1931, to be known as Committee on Deposits and Investments, whose duty it shall be to work with the County Treasurer in carrying out the provisions of this resolution, and

Be It Further Resolved, that the Treasurer of Winnebago county and the Committee on Deposits and Investments, be and they are directed and instructed to dispose of the Government Bonds in the Court House Building Fund, as the needs of the county require and the entire proceeds of the liquidation of said fund be transferred to the General Fund and to be used as an offset to apply against Winnebago county's budget for the year, 1934, and the taxes of Winnebago county be reduced by that amount.

To the Board of Supervisors of Winnebago county, Wis.:

Whereas, the supervisor of outdoor relief of this county, during the past year was required to use his own car and pay for all gas, oil and repairs thereon in the performance of his duties, the expense averaging \$50.00 per month, leaving him only \$75.00 per month as a salary, and

Whereas it is evident that the more the supervisor travels in the performance of his duties, the harder he works, the less salary he receives, which is not only unfair but might also have a tendency to discourage proper investigation of cases coming under his supervision, and

Whereas the county provides automobiles for other officers of the county whose duties require a great deal of traveling, such as the probation officer, county nurse and highway commissioner, and provide the necessary oil, gas, repairs and insurance thereon, therefore be it

Resolved that the committee on poor be and they are hereby authorized and instructed to purchase an automobile for the use of the supervisor of outdoor relief at a cost not to exceed \$400.00, said sum to be included in the budget of the finance committee and be it further resolved that said supervisor of outdoor relief be allowed all expenses necessary in the use of said car, all bills therefore to be submitted monthly, with receipts therefor attached, to the committee on poor, which is hereby instructed to approve such bills before their payment by the county. All expenses incident to the use of said automobile are to be included in the amount appropriated by the board for salary and expenses for supervision of poor.

REPORT ON PETITION NO. 2, JULY 1933 SESSION

The following Report No. 64 was presented.

To the Honorable, the Board of Supervisors of Winnebago county, Wis.: Gentlemen:

Your committee on Illegal Assessments have had under consideration the petition of Ed. Crowley, Chairman of the Town of Poygan, asking cancellation of tax assessed against J. J. Mongan Estate, property described as the SE $\frac{1}{4}$ of the NE $\frac{1}{4}$ and NE $\frac{1}{4}$ of the SW $\frac{1}{4}$, Section 24, Town 19, Range 14, E. on the tax roll for 1926.

Your Committee finds as follows; Mr. Otto Leader purchased forty acres of the land assessed to the J. J. Mongan Estate and Greenlaw Thomas purchased the remaining forty acres. Mr. Leader filed an affidavit with the Town Treasurer, showing his portion of the tax on the entire description to be 3-7 of the full tax and thereupon paid to the Town Treasurer 3-7 of the tax. It developed later that the original description as entered on said tax roll did not cover the property purchased by Mr. Leader and the affidavit as drawn for Mr. Leader as a consequence did not cover the property purchased by Mr. Leader. The tax paid by Mr. Leader covered the property purchased by Greenlaw Thomas.

The affidavit made out by Mr. Leader was based on records of the tax roll as made out by the officers of the Town of Poygan. The records plainly show that the mistake was made by the officers of the Town

in placing the description on the tax roll on the Town of Poygan, prior to the time the books were turned over to the County Treasurer and that no error of any kind was made by the officers of Winnebago county, Wisconsin.

Inasmuch as there has been no error on the part of Winnebago county, your Committee on Illegal Assessments recommends that Mr. Crowley's request to have the tax paid by Winnebago County be denied, and the County Clerk is hereby requested to send a copy of this report to the Town Clerk of the Town of Poygan, Winnebago county, Wisconsin.

I Earl E. Fuller, County Treasurer, hereby request your honorable body to give consideration to contracting for insurance which would cover for burglary and robbery on the two safes in the treasurer's office and also cover the treasurer for holdup or robbery while acting as

messenger for the county in carrying cash and negotiable paper to and from county depository banks. At the present time the county carries coverage for \$1,000.00 on one of the safes in the office for burglary and robbery at a cost of \$28.22 for a three year period. I have been advised that the cost for coverage as outlined above would be \$103.88 for a three year period, which would give protection up to \$3,000.00. As the situation now stands I could be held personally liable for any loss of cash or securities by holdup or robbery in going to and from the bank. Your careful consideration of this situation will be appreciated.
 Dated March 3rd, 1934.

EARL E. FULLER,
 County Treasurer.

PETITION FOR LIVING QUARTERS.

The following Petition No. 3 was presented.
 To the Board of Supervisors of Winnebago County, Wisconsin:
 Gentlemen:

The petition of the undersigned respectfully represents as follows:
 That for a period of over twenty years the living quarters in the courthouse were reserved for the use of the janitor and his family, the use of said rooms being considered as part of the salary of the janitor. That on or about the first of December an emergency arose when the county was requested to provide office rooms for the county Civil Works Administration. That as there were no office rooms available, five of the seven rooms reserved for the use of the janitor as living quarters were given over for the C. W. A. office. That the two rooms now occupied by the petitioner are not adequate or suitable as living quarters. Your petitioner therefore respectfully requests that provision be made by this board to provide him with suitable and comfortable living quarters.

U. S. GOVERNMENT BONDS

The following Resolution No. 17 was presented.

To the Honorable, the County Board of Supervisors of Winnebago County, Wisconsin:

Gentlemen:

Your Committee on Investments and Deposits beg leave to report as follows: A meeting was held in the County Treasurer's office January 23, 1934, with Mr. White of the First Investment Company of Wisconsin. Careful consideration was given to the question of sale of government bonds in the Court House Building Fund and as to the re-investment of the funds derived from such sale. It was determined to withhold action until the meeting of the County Board in March. At a meeting of the Committee today different phases of government financing were discussed and it was thought best not to do anything at present with the sale of the bonds now in the fund, or purchase of new bonds. Therefore your committee submits the following resolution:

BE IT RESOLVED by the Winnebago County Board that the County Treasurer be authorized and directed to purchase U. S. Government Bonds at such time as it will work to the best advantage of the County, keeping in mind that the Court House Building Fund should be kept as liquid as possible and that the interest yield should be as high as possible.

REPORT OF COMMITTEE ON BONDS AND SALARIES.

The following Report No. 16 was presented:

To the Board of Supervisors of Winnebago County, Wisconsin:
Gentlemen:

Your committee in bonds and salaries wishes to report that they have investigated the separate fee received by officers and find as follows:

Sheriff:

Salary\$3,200.00

Fees 3,691.55

\$6,891.55—1 year period.

County Clerk:

Salary\$2,160.00

Fees 651.00

\$2,811.00 for 3 year period.

Clerk of Courts:

Salary\$1,350.00

Fees 2,216.00

\$3,566.00 for 3 year period.

Register of Probate:

Salary\$2,160.00
 Fees 200.00 \$2,360.00 for 3 year average.

We wish to call your attention to the fact that the sheriff's report covers only one year, the others being an average for three years. Due to the fact that the sheriff's report is only for one year, and that so many items enter into the setting of a flat salary for this office, your committee recommends that this office be excluded from the program of setting a flat salary for county officials.

Regarding the other officers, your committee does not feel that it should recommend any salaries, believing that the board as a whole should hear each officer affected and then make their decision.
