#### TAXATION COMMITTEE—SCHMITT ABSTRACT CO.—RENTAL

The following Report No. 5 was read:

TO THE BOARD OF SUPERVISORS OF WINNEBAGO COUNTY, WIS.

Gentlemen:

Your Taxation Committee has thoroughly investigated the request of the Harry M. Schmitt Abstract Company to provide space in the Courthouse for installation of a small photostat machine, and we find as follows:

That a machine, such as Mr. Schmitt has purchased, will undoubtedly tend to speed up abstract work, which is, of course, very desirable. That there is sufficient and suitable room in the Register of Deeds' vault for a small machine of the type being purchased, and that water and sewer connections can very easily be made.

Mr. Schmitt has guaranteed that he will under no circumstances use his photostat machine except for his own work, so no conflict can develop as between his operations and those of the county.

However, we believe that the rental figure mentioned is too low and that a fair rental for the facilities would be \$25.00 per month.

THEREFORE, we recommend the passage of the following resolution:

BE IT RESOLVED by the Board of Supervisors of Winnebago County, Wisconsin, that the Public Buildings Committee be authorized to enter into a contract with the Harry M. Schmitt Abstract Company for rental of the space under consideration, for the sum of \$25.00 per month, with thirty days' cancellation clause for either party, and with the understanding that all costs of moving equipment now in room to be provided be borne by Mr. Schmitt, together with all costs of installation of his equipment. It is understood that water, sewerage, light and heat are to be provided by the county. It is also understood that said contract should embody proper provision for liability insurance to be carried by Harry M. Schmitt to indemnify the county against injury on the premises to his employees.

BE IT FURTHER RESOLVED that the Public Buildings Committee also enter into a suitable like contract with the Home Abstract Company, for such facilities as they are using, at a rental of \$10.00 per month.

Dated April 15th, 1947.

#### TAX COMMITTEE—CHARGE FOR PHOTOSTAT WORK

The following Report No. 6 was read:

TO THE BOARD OF SUPERVISORS OF WINNEBAGO COUNTY, WIS.  
Gentlemen:

Your Taxation Committee, to whom was referred the problem of recommending a scale of charges for photostatic work done, both for the various departments of the county and the outside public, begs leave to report as follows:

That in their opinion no charge, other than actual cost of materials and labor used for producing such copies, should be charged to other county departments, but that for work done for outside interests, a fee be charged sufficient to cover all expenses, and with a profit sufficient to help take care of depreciation and amortization of the equipment.

We therefore recommend passage of the following resolution:

BE IT RESOLVED by the Board of Supervisors of Winnebago County, Wisconsin, that a suitable system of accounting and keeping of records be devised by the County Clerk and the Register of Deeds, whereby all work be listed daily and periodically charged to the various county departments, and

BE IT FURTHER RESOLVED, that in addition to the above a system of billing be devised for private work, such system to be in keeping with good business practice as to invoicing and collection.

RESOLVED, also, that the charge to be made for such outside work shall be 50 cents per sheet of legal size, or smaller.

We also wish to report that the committee was deadlocked on any proposal to increase the salaries of elective officials and, therefore, bring this to the board without recommendation

The County Board of Supervisors of the County of Winnebago, do ordain as follows:

### SECTION ONE

### SECTION TWO

#### DEFINITIONS.

(2) **MOTOR VEHICLE.** Every vehicle as herein defined which is self propelled.

(3) **OPERATOR.** Any person who is in actual physical control of a vehicle.

(4) **HIGHWAY.** A highway is every way or place of whatever nature open to the use of the public as a matter of right for the purposes of vehicular travel. The term "highway" shall not be deemed to include a roadway or driveway upon grounds owned by private persons, colleges, universities or other institutions.

### SECTION THREE

#### LIGHTING EQUIPMENT ON VEHICLES

(1) No motor vehicle shall be operated upon or occupy any public highway unless such vehicle is provided with sufficient lights, as required by this section, or as designated by the Motor Vehicle Department of the State of Wisconsin. All headlights, tail lights, clearance lights and lights on road

machinery required by this section shall be kept lighted from one-half hour after sunset until one-half hour before sunrise.

(2) **LIGHTS REQUIRED.** (a) **Headlights.** Every motor vehicle in use on the public highways except motor driven cycles shall be equipped with at least 2 headlights in good working order. Such headlights shall display a white light of sufficient illuminating power under normal atmospheric conditions to reveal any persons, vehicles, or substantial objects 200 feet ahead of the headlights. Motor driven cycles and motor bicycles shall be equipped with at least one such headlight. Power driven cycles shall be equipped with an electric headlight, tail light and current source. The headlight shall illuminate an object 50 feet ahead of the vehicle; the lens shall be of the diffusing type; the bulb or bulbs shall be of the prefocused type, or permit ready focusing; the headlight shall be so designed and attached to the machine that the height of the beam from the road may be readily adjusted; there shall be either 2 bulbs or a bifocal bulb. The tail light, when illuminated, must be visible on a dark, clear night for a minimum of 500 feet from the rear or either side; there shall be either 2 bulbs or a bifocal bulb. The current source shall be one of 3 types: by means of a wet battery and current generating source; or by means of a generator connected to motor direct, or by gears, chain, or belt; or, by means of a light coil incorporated into the magneto.

(b) Every motor vehicle, including a motor-driven cycle, when in use or parked upon, or immediately adjacent to, the traveled portion of the highway, shall display on the rear at least one lamp so constructed and placed as to show a red light from the rear plainly visible under normal atmospheric conditions from a distance of 500 feet to the rear of such vehicle. Reflective signals approved by the motor vehicle department may be used in lieu of tail lights on trucks, trailers, and semi-trailers non electrically equipped, or power-driven cycles, and on parked vehicles, except as provided in paragraph (d) of this sub-section.

(c) **Clearance Lights.** Every motor vehicle having a width at any part in excess of eighty inches shall carry two clearance signal lights on the left side of such vehicle, one located at the front and the other located at the rear of the vehicle. Such lights shall show a green, blue or amber light to the front and a red light to the rear. Reflective signals approved by the motor vehicle department may be used in lieu of rear clearance signal lights but the center of such signals shall not be more than forty-eight inches above the roadway. The foregoing requirements for clearance lights shall not be applicable to tractors, motor trucks, road machinery and equipment engaged in and used for maintaining public highways where such vehicles or equipment is lighted in accordance with the applicable standards promul-

gated by the motor vehicle department.

(d) Lights to protect against stationary vehicles. No person shall, during any period of time from one-half hour after sunset to one-half hour before sunrise, permit a motor truck, truck tractor, trailer or semitrailer to stand upon any traveled portion of a highway outside of the corporate limits of any incorporated city or village, unless such vehicle is protected by a burning fusee or flare placed on the extreme left side of the vehicle and by lights placed approximately one hundred twenty-five feet to the front and rear of the vehicle, to clearly indicate the presence of such vehicle. Such flares or lights shall be kept burning the entire time such vehicle is left standing. Every such vehicle operated on the highways shall be provided at all times with flares or other lights required to comply with this subsection.

(e) Auxiliary lights. If any vehicle is equipped with any auxiliary lights in addition to headlights, except a tail light, such lights shall be subject to all the restrictions governing the use of lights and, except in the case of emergency vehicles or road machinery, shall not show a red light to the front of the vehicle.

(f) Spot lights. No spot light shall be used as an auxiliary driving light on any motor vehicle operated on the highways of this state except when such spot light is set or adjusted so that the rays of light shall be projected directly on the road surface at a distance not exceeding one hundred feet directly in front of the motor vehicle using such spot light and to the right of the center of the traveled way.

(g) Road machinery; lights required. No tractor, motor truck, road grader, road drag or other piece of road machinery used in road construction or maintenance shall be used upon any public highway in this state which is open to traffic by the public unless such machinery shall carry at least two red danger signals in the daytime and at least two red signal lanterns or lights in the nighttime. Such signals and lights shall be so displayed as to give adequate warning of the presence of such machinery and to show safe clearances for passing vehicles. In lieu of such signals, lanterns or lights, such vehicles, machinery and equipment may be marked, designated and lighted in accordance with the standard method of marking and lighting such vehicles as promulgated by the motor vehicle department.

(h) Depressing headlights to avoid blinding drivers. Every person operating or driving a motor vehicle on the public highways shall, when approaching, and about to pass, any other person operating or driving a motor vehicle and traveling in the opposite direction, dim, depress or tilt the front headlights on his motor vehicle, so that the rays projected therefrom will not blind the person whom such driver is approaching and about to pass. Sufficient light to see objects for seventy-

five feet ahead of the vehicle shall be maintained. This paragraph does not apply to vehicles equipped with acetylene or similar gas lights.

(i) Lights on nonmotor vehicles. From thirty minutes after sunset until thirty minutes before sunrise, no vehicle, other than a motor vehicle, shall be driven upon or occupy any public highway unless a light, or in lieu thereof a reflective signal approved by the motor vehicle department, is displayed on or from such vehicle so that it may be readily and distinctly seen from behind such vehicle.

(j) Lights on bicycles. Every bicycle, operated upon a public highway during any of the time between one-half hour after sunset until one-half hour before sunrise, shall be equipped with a lamp on the front exhibiting a white light visible from a distance of at least five hundred feet to the front and with a lamp on the rear exhibiting a red light visible from a distance of five hundred feet to the rear, except that a red reflector approved by the motor vehicle department may be used in lieu of a rear light.

(k) CABIN TRAILER LIGHTS. Cabin trailers shall be equipped with a combination tail light and stop light, controlled and operated from the driver's seat of the propelling vehicle.

The provisions of this Ordinance regulating the movement, parking and standing of vehicles shall not apply to authorized emergency vehicles while the operator of such vehicle is operating the same in an emergency in the necessary performance of public duties. This exemption shall not, however, protect the operator of any such vehicle from the consequence of a reckless disregard of the safety of others.

(6) PERSONS PROPELLING PUSH CARTS OR RIDING BICYCLES OR ANIMALS TO OBEY TRAFFIC REGULATIONS. Every person propelling any push cart, bicycle, or riding a bicycle or animal, or driving or leading any animal upon a roadway shall be subject to the provisions of this Ordinance, applicable to the operator of any vehicle, except those provisions with reference to the equipment of vehicles and except those provisions which by their very nature would have no application.

## REPORT NO. 2

Financial report of County Fair Secretary was read. On motion report accepted and placed on file. (On file in the County Clerk's office.)

## REPORT OF WELFARE COM.—CO. DEPT. OF PUBLIC WELFARE

The following Report No. 3 was read:

Your Welfare Committee has held regular meetings in connection with the duties and responsibilities assigned to the Committee by the County Board of Supervisors, and has very carefully kept in touch with all phases of the welfare problems affecting Winnebago County in any way.

At the 1947 session of the Legislature changes were made in the Wisconsin Statutes which would make possible an increase in revenues by Winnebago County for Aid to Dependent Children in foster homes and for administrative expenses. In order to fully realize these increased revenues as well as other benefits provided by this newly-enacted legislation it will be necessary for the County Board to make certain changes in the organization of the present county pension department and the present county probation department.

The 1947 session of the Legislature enacted a law changing the Statutes with respect to the administration of foster home care in Wisconsin, and providing for state reimbursement of 33½ per cent of the cost of care for children in foster homes providing they have been placed there by a county agency and providing further that the foster home is under permit Chapter 526, Laws of 1947, creates section 49.19 (10) of the Wisconsin Statutes and makes the change above referred to. This law also provides the administration of this aid shall be the responsibility of the county agency administering Aid to Dependent Children. Up to the present time in Winnebago County arrangements for and payment of foster home care of children has been handled by the county probation department.

In order to fully realize all the advantages of the revised statutes it would appear desirable to consolidate the functions, duties and responsibilities of the present county pension department and the present county probation department into a single agency to be known as the county department of public welfare. A recently-enacted statute makes organization of such a county department possible and desirable.

This whole question of organization and the relative merits and advantages so far as Winnebago County and the county agencies and children involved are concerned has been very carefully considered and has been discussed by your Welfare Committee with the County Children's Board, as well as with representatives of the various state departments who are interested. At a joint meeting of the County Children's Board and the Welfare Committee on October 22 the County Children's Board voted unanimously to recommend to the Winnebago County Board of Supervisors that a single consolidated county department of public welfare be set up and that the county children's board be disestablished. A letter from the county children's board confirming this action is attached. Your Welfare Committee is making the same recommendation after very careful and thorough study of all factors involved. We've been in contact with the Division of Child Welfare of the State Department of Public Welfare and with the Division of Public Assistance of the State Department of Public Welfare, and the change is recommended by all persons who are concerned and who are informed as to what is involved. A copy of a letter from the State Department of Public Welfare to the County Children's Board on this point is also attached.

We are therefore recommending that Winnebago County organize a county department of public welfare as provided for in sections 46.30 to 46.36 of the 1947 Wisconsin Statutes amended by the 1947 session of the Legislature. Organizing in this fashion will have many advantages both financially as well as in an improvement in service available to

the courts, other agencies, and the needy in Winnebago County. In addition to permitting the county to realize the full advantage of reimbursement for children in foster homes the county will also receive two other financial advantages: (1) Reimbursement of at least 25 per cent paid for the salaries of the county child welfare workers. These salaries are at present paid 100 per cent by the county since these workers are employes of the county probation department. (2) Reimbursement of approximately 70 per cent of the per diem and travel of the members of the county board of public welfare (now referred to as the Welfare Committee).

Since all factors involved point to the desirability of organizing a county department of public welfare, your Welfare Committee is introducing an ordinance to effect this change in organization and is recommending its adoption by the county board of supervisors.

### PUBLIC BUILDINGS COMMITTEE—HOME ABSTRACT CO. RENTAL

The following Report No. 13 was read:  
TO THE BOARD OF SUPERVISORS OF WINNEBAGO COUNTY, WIS.  
Gentlemen:

Your Public Buildings Committee has had under consideration a communication by the Home Abstract Company for permission to continue to use Room 14 in the Winnebago County Courthouse for abstract purposes.

In the past four years taxpayers of Winnebago County, and other individuals, have had to wait almost a year for continuation of abstracts.

We believe that the the Home Abstract Company should be allowed to use the said room for an indefinite period of time so that they will have close proximity to the records in the Winnebago County Courthouse in order to facilitate the extension of abstracts. That said room be rented at the sum of \$50.00 per month, said rental figure to include, heat, light, and water, and that the Public Buildings Committee be authorized to enter into a contract with the Home Abstract Company for the use of said room, on the terms outlined herein.

Dated November 4th, 1947.

#### **PUBLIC BUILDINGS COMMITTEE—ADDRESSOGRAPH**

The following Report No. 14 was read:  
TO THE BOARD OF SUPERVISORS OF WINNEBAGO COUNTY, WIS.  
Gentlemen:

Your Public Buildings Committee begs leave to report that for some little time there has been a great deal of discussion in regard to the Addressograph Machine in use at the County Courthouse, and, in a recent communication referred to said Committee, the agent of the Addressograph Company has stated that our machine is obsolete and parts are not being manufactured and kept in stock so that said machine could be properly serviced, and the agent recommends that a new machine be purchased.

Your Public Buildings Committee made a trip to Madison and inspected the Elliott Addressing Machines in use at the Courthouse there. We found one Elliott machine, 15 years old, which was still in a good state of repair, and another Elliott machine, 10 years old, in use at said Courthouse, has had only \$48.00 worth of repairs in said length of time. Said machine does the tax work for three counties, Dane, Sauk, and Green, and there are over 93,000 pieces of property listed for said counties.

We also find, in our investigation, that an Addressograph machine which is 10 years older than the one in use at the Winnebago County Courthouse, is able to get repairs out of the Milwaukee department without any trouble.

The Elliott Addressing Machine Company will sell us a complete outfit, including cabinets and the stencil-cutting typewriter, for \$2,662.00, and will make an allowance of \$500.00 for the old equipment.

We believe that Winnebago County could get better service out of an Elliott machine than an Addressograph machine, and therefore put the matter up to the County Board of Supervisors for further discussion by the board.

Gentlemen:

Your Taxation Committee to whom was referred a communication from the Marathon Map Company represented by Mr. William Dahlke, relative to completing plat maps remaining unfinished under the WPA project of several years ago, beg leave to report they have held two meetings at which Mr. Dahlke was present, and after carefully considering this matter recommend the passage of the following resolution:

BE IT RESOLVED by the Winnebago County Board of Supervisors that the Taxation Committee and County Treasurer be and they are hereby authorized and directed to enter into a contract with the Marathon Map Company whereby said company would furnish to Winnebago County 243 sectional map drawings in the seven townships, namely Towns of Clayton, Nekimi, Nepeuskun, Omro, Vinland, Winneconne and Wolf River, at a cost of two dollars (\$2.00) per section, the work to be done along the same line as was used by the WPA and it being understood that this would not involve drawing into the maps the detailed descriptions of individual parcels, but which would form a basis for eventual completion of maps comparable to those completed by the WPA, said Marathon Map Company to furnish original and two copies of each section, the copies at a cost of 25c each.

BE IT FURTHER RESOLVED that there is hereby appropriated the sum of \$607.50 to be paid to the Marathon Map Company upon fulfilling the contract.

#### **AVIATION COMMITTEE—NEENAH-MENASHA AIRPORT**

The following Report No. 21 was read:

**TO THE HONORABLE BOARD OF SUPERVISORS  
 OF WINNEBAGO COUNTY, WISCONSIN:**

Gentlemen:

Your Aviation Committee, to which was referred the matter of a study of the advisability of Winnebago County taking over the Valley Airways, an airport adjacent to Neenah and Menasha, begs leave to report as follows:

The request came to the County Board at the July 15th, 1947, meeting, when Don Colburn, Secretary of the Neenah-Menasha Chamber of Commerce, and John Catlin, Chairman of the Aviation Committee of the Neenah-Menasha Chamber of Commerce, appeared before the Board and explained their proposal for an airport to serve the northern part of the county. At that time a copy of their program, describing the project, and containing a description of the premises involved, and estimate on cost of purchase, was left with each member of the County Board. The matter of acquisition of this airport was thereafter referred to the Aviation Committee.

The Committee made a written request to the Civil Aeronautics and State Aeronautics Commission for a survey of aviation facilities in the northern part of Winnebago County, with particular emphasis on this Valley Airways Airport. Up to this time the Committee has received no reply from the Civil Aeronautics Administration relative to the desirability or necessity of an airport in the northern end of the county.

Your Committee reports that Mr. Don Colburn, Secretary of the Neenah-Menasha Chamber of Commerce, has turned over to the Com-

mittee a letter from the Executive Secretary of the State Aeronautics Commission, stating that the Commission will not take any action, or state the results of the survey, until the petition is filed under Chapter 548 of the Laws of 1947, stating that a municipality wishes to develop an airport, and asking for a hearing on said matter. The Commission apparently is disinclined to advance an informal opinion relative to any particular site.

Your Committee has concluded that it does not have sufficient information available to enable it to reach a sound decision in this matter.

### AVIATION COMMITTEE REPORT

The following Report No. 26 was read:

TO THE WINNEBAGO COUNTY BOARD OF SUPERVISORS:

Gentlemen:

Our last report of March 4th, 1947, informed you that we had contracted for a ten place T hanger — that we were keeping in touch with the "Bell" interests — and that \$20,000.00 Federal aid had been allotted to Winnebago County.

As to the T hangers, it was not until late in the summer that enough material had arrived to permit taking a chance on advertising for bids for erection. The committee also had been working on plans for another operator's building, to take care of the interests of Calvin Mace and Ed. Wickman, who were the finalists, in what was previously known as the "Bell" interests. About the time we reached an agreement with them, whereby a suitable building could be erected and satisfactory terms completed, most of the T hanger material had arrived. The committee then called for bids on the erection of the T hanger and construction of operator's building, each separate from the other. The erection of the T hanger was awarded to E. A. Precour, for the sum of \$3,488.00, and the construction of the operator's building was awarded to Ben B. Ganther Co., for the sum of \$17,960.00. The T hanger job is about complete, and it is estimated that the operator's building will be finished about January of next year.

Referring to the hanger contract again — The Committee and engineer deliberated long on this. The bid of \$3,488.00 was pretty much out of line with the rest of them, and none had the answer as to why. It was not until about ten days after the contractor had been on the job that the reason why showed up. The foreman on the job was having difficulty finding a place for all the material on the site. The matter was taken up with the inspecting engineer, and while each was looking at his prints, it was discovered that the contractor's prints showed no wall partitions, and about fifty less cement abutments. By some unknown happening, a wrong print had gotten into the contractor's hands, from which he had figured his bid. Mr. Precour was very agreeable in handling the situation, however. He showed the engineer how he had arrived at his bid figure, and agreed to do the extra work at the same rate schedule, making the total cost \$5,812.13. The next lowest bid was \$6,783.00. With an estimated amount of \$150.00 to be paid by the Luria Co., from whom the hangers were purchased, for extra work done by the contractor, the cost of erection will be about \$1,100.00 under the next lowest bidder.

The contract with Mace and Wickman is on the basis of \$125.00 per month, on a ten year lease, or \$1,500.00 a year, which will pay for the building at the time the lease runs out. To show their good faith in this venture, and as a guarantee, they pay 40% of the cost of the building, from which a part of their monthly rental fee is taken, as follows: \$17,960.00 is the bid price of the building. The advance 40% of this, or \$7,200.00. Each month, for the first year, \$100.00 is taken from this advanced sum of \$7,200, and they pay \$25.00 in addition. The second year, \$85.00 per month is taken from the advanced sum, and they pay \$40.00 in addition. The third year \$70.00 is taken from the advanced sum, and they pay \$55.00 additional. The fourth year \$65.00 is taken from the advanced sum, and they pay \$60.00 additional. The next six years \$55.00 per month is taken from the advanced sum, and they pay \$70.00 additional, at the end of which time their lease will have run out.

Loss of the \$20,000 Federal aid was talked about at a former meet-

ing. So that all are informed on this matter, we would like to repeat it. Somewhere along the line of C.A.A. officials, it was discovered that one of our runways was about two hundred feet longer than permissible for a Class 3 port, so our port was placed in Class 4. This automatically took away from us our Federal aid, as only Congress could give aid to a Class 4 airport. We were told that we would have to wait until after July 1st for further consideration. After that along comes State legislation that holds up progress again. We were given verbal assurance that we would get State and Federal aid for our projects next Spring. Incidents such as this have caused the delay of the several projects of interest to you on our port, and note the carelessness or lack of knowledge of anyone. Those who have had experience with State or Federal aid know that you cannot get it until they are ready to dish it out to you. All necessary steps are being taken to hurry our much needed projects.

Maintenance on the port has been to the extent of resurfacing the roof of the Wittman hanger, and renewing the lettering, at a cost of \$140.00. Repairing the roadway, and covering the parking area around Wittman hanger, \$533.00. Grass cutting and snow removal, \$1,306.25, a total of \$1,979.25.

Before CAA left our field last summer, they seeded all the land that they had graded, with rye and grass, one hundred twenty seven and sixty three one hundredths (127.63) acres. A contract was given to harvest the rye, bale the straw, and deliver the rye to the place of storage for \$15.00 an acre. Cost of harvesting the rye, \$1,914.45. The yield of rye was 1,735 bushels, which were sold at a price of \$2.33 per bushel, a total of \$4,042.05 78.75 tons of rye (baled) straw, were to net a price of \$11.00 per ton, but in the end we received \$10.00 per ton for it, or \$787.50.

#### CITY OF OMRO BRIDGE

The following Petition No. 3 was presented:  
TO THE HONORABLE, THE BOARD OF SUPERVISORS  
OF WINNEBAGO COUNTY::

Gentlemen:

Pursuant to Chapter 83.03 of the Wisconsin Statutes, which reads as follows: "The County Board may construct or improve or repair or aid in constructing or improving or repairing any highway or bridge in the county," your undersigned supervisors of the City of Omro, Winnebago County, Wisconsin, hereby petition your honorable body to aid in the construction of a bridge in the northeast part of the City of Omro, on what is known as the River Road. The estimated cost of said bridge is \$1,200.00, therefore your supervisors from the City of Omro, would request that the County aid to the extent of ½ the cost of the bridge, said half of estimate being \$600.00 and that this amount be placed in the November budget of the County Board. Said sum to be set up in the Highway Department Funds, expenditure of which to be directed by the County Highway Committee.

Dated Nov. 14, 1947.

#### REPORT OF SPECIAL ASYLUM BUILDING COMMITTEE

The following Report No. 43 was read:  
TO THE BOARD OF SUPERVISORS OF WINNEBAGO COUNTY, WIS.  
Gentlemen:

Your Special Asylum Building Committee begs leave to report that inasmuch as the County Board, in the March session, did not see fit to authorize the preparation of plans and specifications for the proposed new County Asylum, due to the substantial increase in estimated cost of the project, any further action by your committee was naturally curtailed.

Your Committee, however, in order to ascertain for itself the future economic financial outlook, called a meeting on October 2nd, 1947, and invited a number of industrial leaders of the county. Present at this meeting were Mr. Witte of the Oshkosh Building Loan & Savings Association, Mr. C. Steiger of the Deltox Rug Company, Oshkosh; Mr. Clifford of the Kimberly-Clark Corp., Neenah, and Mr. A. R. Hedlund of Bergstrom Paper Company, Menasha. All of these men expressed the belief that, while it is difficult to determine the future economic trend with any degree of accuracy, the question as to whether or not to build should be determined by the need of the building. The general con-

sensus of opinion, however, was that until such time when actual construction is begun, a substantial amount be appropriated annually to build up the fund, and that plans and specifications be completed in order to be ready to ask for bids when the opportune time arrives.

Your Committee desires to report that it concurs in these opinions, and recommends the passage of its resolution calling for an appropriation of \$150,000.00 to augment the present Asylum Building Fund of \$208,067.33, and the resolution authorizing the completion of plans and specifications.

In our report of November, 1946, we stated that your Committee would investigate the possibility of obtaining a Federal grant in connection with our asylum building program. Upon investigation we find that the Federal Government, in order to assist the states in the construction of public and other non-profit hospitals, Public Law 725, the Federal Act authorized an annual appropriation of \$75,000,000, starting with the fiscal year ending June 30, 1947, and for each succeeding fiscal year. Wisconsin's share will be \$1,622,000 annually. Under this Act, it becomes necessary for each state to adopt enabling legislation, whereby it would match  $\frac{1}{2}$  of each project against the Federal Government's  $\frac{1}{2}$ . On August 1st, 1947, in a communication from Vincent F. Otis, Director of Hospital Survey and Construction, we were informed that the State Plan should be completed and publicized before the end of this year. The communication also stated that because the amount of Federal Funds will be limited, and since the Federal law requires that the funds be used for the most urgent projects it is, therefore, doubtful that Federal grants-in-aid will be available for mental hospitals, at least during the early years of the program. Under the circumstances, therefore, any assistance from this source seems very doubtful.

### INSTITUTIONS COMMITTEE REPORT

The following Report No. 44 was read:  
TO THE BOARD OF SUPERVISORS OF WINNEBAGO COUNTY, WIS.  
Gentlemen:

Your Committee on Institutions herewith submits its report for the past year, during which time six (6) meetings were held, aside from those held during board sessions for the sole purpose of auditing the usual bills for examination of the insane.

Since the Annual Budget Session of the board was advanced to an earlier date this year, it has not been possible to analyze operating expenses of either Sunnyview Sanatorium or the County Asylum. We find, however, that the per capita cost of Sunnyview for the fiscal year ending June 30, 1947, is \$31.82 as against \$24.12 for the prior fiscal year, an increase of \$7.70. This increase is due to increased salaries and labor, subsistence as well as increases in general. As a result of this increase in costs Sunnyview Sanatorium finds itself confronted with a cash deficiency of \$36,000.00, which the trustees feel should be met by a direct appropriation of \$18,000.00 by both Fond du Lac and Winnebago Counties to create a reserve working fund to meet this condition.

**ADDITIONAL WATER SUPPLY FOR COUNTY ASYLUM.** Under Resolution No. 38, dated November 27th, 1946, the amount of \$5,000.00 was appropriated for the purpose of conducting a test of an old well on the County Asylum premises for the purpose of determining its capacity and provide for the necessary repairs to obtain desired results. After considerable effort we were able to obtain the services of the George L. Smith & Co. and the Nelson Machine Co., who have succeeded in increasing the well's capacity from 65 to 130 gallons per minute by removing a 3¼-inch pipe from within the 6-inch outer casing and replacing a 1-inch air line with a 1¼-inch air line. It has been further recommended that a new 180-pound compression tank be installed to replace the one now in use and make certain repairs to the pump proper, as well as to the electrical controls. These costs have not been ascertained as of this date, but we feel confident that the entire cost will not exceed \$1,000.00.

**RESPIRATORY CHAMBER.** The Respiratory Chamber, for which an appropriation was made in the 1947 budget, was placed in operation on April 4th, 1947. The excellent results obtained prompted the trustees to order a second chamber, subject to the approval of the County Board of Supervisors. This chamber was placed in operation in July, 1947. Dr. Bellis is of the opinion that with the use of these chambers the period of individual confinement in the institution could be reduced by 60%. Your Committee is wholeheartedly in account with any up-to-date means in treating tuberculosis and recommends the passage of the resolution to be presented authorizing the purchase of this second chamber.

**SEWAGE PUMPING STATION AND FORCED MAIN.** Information has been received by Dr. Byron Hughes from Charles A. Halbert, State Engineer, that bids on the sanitary sewer system for the State and County Institutions will be taken within the next two weeks. Consultation with the City Clerk of the City of Oshkosh revealed that the City of Oshkosh has erected the pumping station at Murdock and Bowen Streets, and that all facilities to receive State and County Institutions sewage at that point will be in readiness sometime in February.

**GRANARY AND MACHINE SHOP.** On July 15th, 1947, a resolution calling for an appropriation to cover plans and specifications designed to utilize a portion of the County Home Building wrecked by fire for a Granary and Machine Shop was referred back to your Committee for further information and data. Your Committee is not as yet prepared to give a comprehensive report in this matter.

Your Committee further reports that Chapter 268 of the laws of 1947 amends Section 46.19, and provides that the County Board shall set the salaries of the Superintendent, Visiting Physician, and all necessary additional officers and employes of the County Institutions. Herebefore the Trustees have set said salaries but under the statute the Board will now be required to set up said salary schedule.

#### FEDERAL AGREEMENT—AIRPORT

Resolution Adopting and Approving the Execution of the Sponsor's Assurance Agreement to Be Submitted to the Administrator of Civil Aeronautics, U. S. Department of Commerce, to Obtain Federal Aid in the Development of Winnebago County Airport.

The following Resolution No. 40 was presented:

BE IT RESOLVED by the Board of Supervisors of Winnebago County, Wisconsin:

SECTION 1. That Winnebago County shall enter into a Sponsor's Assurance Agreement for the purpose of obtaining Federal aid in the development of the Winnebago County Airport and that such agreement shall be as set forth hereinbelow.

SECTION 2. That the Chairman of the County Board, J. F. Shea, is hereby authorized and directed to execute said Sponsor's Assurance Agreement in sextuplet on behalf of Winnebago County and the County Clerk, A. E. Hedke, is hereby authorized and directed to impress the official seal of Winnebago County and to attest said execution.

SECTION 3. That the Sponsor's Assurance Agreement referred to hereinabove shall be as follows:

#### SPONSOR'S ASSURANCE AGREEMENT

##### Section I

1. For and in consideration of the execution by the United States of a Grant Agreement obligating the United States to pay a portion of the allowable project costs of a project for development of the Winnebago County Airport under the provisions of the Federal Airport Act,

and the Regulations promulgated thereunder, the Winnebago County, Wisconsin, hereinafter called the "sponsor," for itself, its successors, or assigns does hereby covenant and agree with the United States as follows:

a. All terms used in this Agreement which are defined in the Federal Airport Act, and the Regulations promulgated thereunder, shall have the meaning given to them in such Act and Regulations.

b. Insofar as legally possible, the sponsor will maintain a master plan of the airport, including building areas, approach areas, and landing areas indicating present and future proposed development commensurate with the airport and with current approval of the Administrator; and in establishing additional improvements, the sponsor will conform to such master plan or approved changes thereto.

c. During the term of this agreement, the airport will be operated continuously as such and for no other purpose and will at all times be operated for the use and benefit of the public, on fair and reasonable terms and without unjust discrimination.

d. The sponsor will not hereafter use or permit the use of the airport exclusively for air carrier operations, unless there are other public airport facilities in the area adequate to serve other types of users; it will not grant, exercise, or permit the exercise of any exclusive right for use of the airport by one air carrier operator, or for rental of aircraft to the public, for conducting charter flights, or for operating a flying school, and that, after the date of this agreement, it will not grant or authorize the grant of exclusive right at the airport for selling aircraft, aircraft parts or equipment, or for repairing aircraft and engines, or for carrying on other airport services or fixed base operations of an aeronautical nature. Nothing contained herein shall be construed to waive or abrogate the requirements of Section 303 of the Civil Aeronautics Act of 1938. In the interest of safety, the Administrator may waive in writing compliance with any or all the provisions of this subsection.

e. Except as provided in d, above, the sponsor will permit all qualified operators, on reasonable terms and without unjust discrimination, to use the airport for any aeronautical business or operation up to the capacity of the airport.

f. The sponsor will not hereafter grant to any one an exclusive right to sell aviation gasoline or oil.

g. During the term of this agreement the sponsor will continuously maintain in good and serviceable condition and repair the entire airport and all buildings and other improvements, facilities, and equipment, other than facilities or equipment owned or controlled by the United States; provided, however, in meeting this requirement the airport is not expected to be operated and maintained for aeronautical uses during temporary periods when climatic or flood conditions interfere substantially with operation and maintenance during such periods. Essential facilities, including night lighting systems, when installed, will be operated in such a manner as to assure their availability to all users of the airport.

h. The sponsor will replace and repair all buildings, structures, and facilities developed under the project if such are destroyed or damaged, replacing or restoring them to a condition comparable to that preceding the destruction or damage.

i. If the land or improvements thereon, acquired or developed under the project, are sold, condemned, or otherwise disposed of, wholly or in part, the United States will be reimbursed in proportion to its original investment in the property so disposed of, but not exceeding its original share in the portions so disposed of, except that if the proceeds are used by the sponsor for airport purposes within two years or if a transfer is made pursuant to this agreement to another public agency or agencies for operation as an airport, there shall be no reimbursement to the United States.

j. Insofar as is within its powers and reasonably possible the sponsor will prevent the use of any land either within or outside the boundaries of the airport, including the construction, erection, alteration, or growth of any structure or other object thereon, which would be a hazard to the landing, taking-off, and maneuvering of aircraft at the airport, or otherwise limits its usefulness as an airport. With respect to land outside the boundaries of the airport, the sponsor will remove or cause to be removed any growth, structure, or other object thereon which would be a hazard to the landing, taking-off, or maneuvering of aircraft at the

airport, or when such is not feasible, it will mark or light such growth, structure, or other object. The airport approach standards to be followed in this connection shall be those established by the Administrator in Office of Airport Drawing No. 672 dated September 1, 1946, unless otherwise authorized by the Administrator. Insofar as legally possible, the sponsor will adopt and enforce zoning ordinances and regulations to safeguard aircraft flight operations within the airport hazard areas as defined in the above mentioned drawing, prohibiting the creation, establishment, erection, and construction of hazards to air navigation; or insofar as reasonably possible, will acquire such easements or other interests in lands and air space as may be necessary to perform the covenants of this paragraph.

k. All facilities of the airport developed with Federal aid and all those usable for the landing and taking-off of aircraft will be available to the United States at all times without charge for use by military and naval aircraft in common with other aircraft, except, if the use by military and naval aircraft shall be substantial, a reasonable share, proportional to such use, of the cost of operating and maintaining facilities so used, may be charged.

l. The sponsor will furnish to any civil agency of the United States, without charge (except for light, heat, janitor service, and similar facilities and services at the reasonable cost thereof), such space in airport buildings as may be reasonably adequate for use in connection with any airport traffic control activities, weather-reporting activities and communications activities related to airport air traffic control, which are necessary to the safe and efficient operation of the airport and which such agency may deem necessary to establish and maintain at the airport.

m. The sponsor will maintain a current system of airport accounts and records, using a system of its own choice, sufficient to provide annual statements of income and expense, balance sheet and affiliated fiscal reporting. It shall, upon reasonable request, furnish the Administrator with annual or special financial and operations reports. Such reports may be submitted to the Administrator on forms furnished by him, or may be submitted in such other manner as the sponsor elects, provided the essential data is furnished. The airport and all airport accounts and records will be available for inspection at any time, upon reasonable request, by the regional Superintendent of Airports or his authorized representatives.

n. The sponsor will not enter into any transaction which would operate to deprive it of any of the rights and powers necessary to perform any or all of the covenants made herein, unless by such transaction the obligation to perform all such covenants is assumed by another public agency eligible under the Regulations issued pursuant to the Federal Airport Act, to assume such obligations and having the power, authority, and financial resources to carry out all such obligations. If the management and operation of the airport is relinquished wholly or in part, the sponsor agrees that it will reserve sufficient powers and authority to insure that the airport will be operated and maintained in accordance with the Act and the Regulations.

o. The sponsor will furnish to the Administrator through the District Airport Engineer within ten days after their execution or adoption, three copies of all deeds, leases, operation or management agreements, laws, ordinances, rules and regulations, or other instruments affecting the aeronautical use of the airport. All leases, operation or management agreements, or other instruments affecting the aeronautical use of the airport shall contain a provision that such documents shall be subordinate and subject to the provisions of this agreement.

p. The sponsor will acquire prior to the commencement of construction the following property interests as shown on the outline survey attached hereto as Exhibit "A": NONE.

The sponsor will acquire prior to \_\_\_\_\_ the following property interests as shown on Exhibit "A": NONE.

#### Section II

**TAXATION COMMITTEE — ABSTRACT DEPT.**

The following Report No. 61 was read:

**TO THE BOARD OF SUPERVISORS OF WINNEBAGO COUNTY, WIS. Gentlemen:**

Your Taxation Committee, to whom was referred various matters pertaining to the Abstract Department, has made a thorough investigation of the subject, having had meetings with various abstractors, attorneys, and other people interested in records kept by the County. We had a public hearing, to which such interested parties were invited, and it was the consensus of opinion at this meeting that inasmuch as there are now three Abstract Companies in the county that Winnebago County should be interested only in keeping its records up to date as to Tract Index, thus making them equally available to those in the abstract business and persons who have occasion to check real estate transactions.

The matter of renting space to private individuals or corporations within the Court House building was also taken up in committee sessions, and it was the unanimous opinion of the committee that this practice should be discontinued. However, we feel that in order to expedite the making of abstracts that desk space at a nominal rental fee should be provided for each of the abstract companies, and we so recommend.

Your Committee feels, also, that Report No. 55, presented to the Board on December 4th, 1946, pointed out the situation that has now

come about, and we believe the solution of the entire problem rests in adopting the following resolution:

**BE IT RESOLVED** by the Board of Supervisors of Winnebago County, Wisconsin, that the County Abstract Department be discontinued and that the Tract Index department is hereby placed under the supervision of the Tax Description Supervisor. That said department shall take care of all matters pertaining to the descriptions and cross-indexing of records formerly handled by the County Abstractor.

**BE IT FURTHER RESOLVED**, that Carl Mailahn, the present Tax Description Supervisor, be retained in his present position and in addition shall be given the duty and responsibility of keeping the Tract Index, and that the classification for this department be in the \$200.00 to \$240.00 salary range.

**BE IT FURTHER RESOLVED**, that another employee be provided for this department, preferably under the G. I. Training Program.

**BE IT FURTHER RESOLVED**, that there be and there is hereby added to the County Treasurer's budget for the year 1948 the sum of \$2,000.00 for the added salaries and expense of said department for the year 1948.

Dated November 18, 1947.

#### WELFARE COMMITTEE—OLD AGE ASSISTANCE FUNERALS

The following Report No. 5 was read:

TO THE WINNEBAGO COUNTY BOARD OF SUPERVISORS:  
Gentlemen:

Your Welfare Committee begs leave to report that they have met with the Funeral Directors of Winnebago County, pursuant to their requests and have discussed the matter of burial of indigent persons under the jurisdiction of the Winnebago County Pension Department.

That they have been advised by said Funeral Directors that due to the increasing costs of labor, the increased costs of material, the increased cost of hearses and the discontinuance of the making of the two cheaper grades of caskets, plus the fact that they are not permitted to use wooden rough boxes in many places, that they are unable to provide a proper and suitable burial for such indigent persons at the present rate of \$100.00.

That there is a general feeling of dissatisfaction among some people that in certain instances the burial of indigent persons in the past has not been satisfactory, and that some more appropriate burials should be given such persons.

That pursuant to a change in the law made and provided for by the 1947 Legislature, the amount that may be allowed for burial of Old Age Pensioners has been raised from \$100.00 to \$150.00. That your undertakers have agreed that they will provide the same type of burial for dependent children, blind and other indigent persons not receiving old age assistance for \$100.00 as would be given Old Age Pensioners for \$150.00 because of the few cases of that type.

That your funeral directors have exhibited a picture of a casket which will be used for burials under the proposed \$150.00 burial, and will also be used for the other cases hereinbefore mentioned for \$100.00, which picture is on file in the Pension Director's Office.

That your Welfare Committee desires an expression from the County Board as to what action they deem proper for them to take in the matter.

Dated March 9, 1948.

**AVIATION COMMITTEE—AIRPORT LIGHTING**

The following Report No. 6 was read:

TO THE BOARD OF SUPERVISORS OF WINNEBAGO COUNTY, WIS.  
Gentlemen:

Your Aviation Committee wishes to make the following report in connection with the status of lighting of the Winnebago County Airport.

The anticipated cost of installation of runway lights, sewer, water, and power to administration area is approximately \$60,000.00. Of this cost one-half will be forthcoming in the form of a Federal grant, and the sum of approximately \$11,000.00 will be in the form of State aid, and the balance of approximately \$19,000.00 will be paid for out of county funds. The State and Federal grants will not be made until the removal of certain obstructions, consisting principally of a high line on the Soo Line Railway being lowered or removed. The railroad has indicated to the committee that it will remove one high line completely, and is agreeable to lowering another, which are in the vicinity of Northeast, Southwest, East, and West runways. The Chief Engineer of the railroad has indicated that it would reduce this representation to writing for filing with the application, and the committee is hopeful that the grant will thereupon be approved.

The committee contemplates purchasing and installing lights approximately 27 to 36 inches high, 200 feet apart, and placed 10 feet on either side of the runway. The committee has concluded, from investigation, that any other type of lighting is now obsolete, and that the proposed installation is the most modern and efficient procurable.

## \$5,000.00 OLD COURTHOUSE RESTORATION

The following Resolution No. 7 was presented:  
TO THE HONORABLE BOARD OF SUPERVISORS,  
WINNEBAGO COUNTY, WISCONSIN:

Gentlemen:

WHEREAS, the Winnebago County Historical Society requested an appropriation of \$3,500 at the time of our annual meeting for the purpose of restoring the original courthouse, and

WHEREAS, Winnebago County Board of Supervisors did not see fit to include this item in their 1948 Budget, and

WHEREAS, a number of supervisors were opposed to this appropriation because there were certain questions as to whether or not the amount requested was sufficient to complete the job, and because there were a number of questions regarding the future of this venture, and

WHEREAS, since the November meeting there has been considerable interest shown by the citizens of Winnebago County in this project, particularly because of the centennial program,

NOW, THEREFORE, BE IT RESOLVED by the Winnebago County Board of Supervisors that there is hereby appropriated the sum of \$5,000 from the contingent fund for the purpose of restoring the original courthouse, and

BE IT FURTHER RESOLVED, that the above appropriation is contingent upon the fact that the city of Oshkosh will deed to Winnebago County a parcel of land of sufficient size and at a location suitable to a special committee to be appointed by the chairman under the provisions of this resolution, and

BE IT FURTHER RESOLVED, that the County Chairman appoint a committee of five (the County Chairman to be one member of this committee) from the membership of this County Centennial Committee and the County Board, which committee shall be empowered to act in behalf of the County Board along with the Winnebago County Historical Society in completing the arrangements as to location and restoration of the original courthouse, and

BE IT FURTHER RESOLVED that since we are fortunate enough to be able to restore the original courthouse, which is approximately 100 years old and the only one of two left in Wisconsin, that this project be started immediately to the end that it may be completed by mid-summer in order to be rededicated as part of our centennial celebration.

BE IT FURTHER RESOLVED that the above committee so named shall be entitled to the usual per diem mileage.

BE IT FURTHER RESOLVED that when so restored this building shall become the property of Winnebago County and its development and maintenance shall be the responsibility of the county board with the Winnebago County Historical Society acting as an advisory group for its promotion.

BE IT FURTHER RESOLVED that it is the intention of the Winnebago County Board of Supervisors that if at some later date when sufficient items of interest are placed in this building by the Winnebago County Historical Society to warrant the opening of this building to the public, that an attendant be placed there for the summer months only and the expense of such attendant to be born by the county. This latter item must again, of course, be placed before the county board when such a program is originated and each succeeding year thereafter to include an item to cover same in the budget.
