### **REPORT ON JOINT OWNERSHIP OF THE COUNTY SANATORIUM OF SPECIAL COMMITTEE.**

Chairman Loescher offered the following report, No. 1:

To the County Board of Winnebago County, Wisconsin.

Gentlemen: Your committee, who was appointed to investigate the matter of the joint ownership and operation of a Tri-County Tuberculosis Sanatorium by the counties of Fond du Lac, Waushara and Winnebago, beg leave to report as follows:

We report that various meetings of committees representing the three

counties interested have been held and the matter of a tri-county institution has been carefully investigated and gone into and the following information obtained and the following conclusions arrived at:

1. The County of Winnebago is the owner of its tuberculosis sanatorium, known as Sunnyview Sanatorium, located approximately three and one-half miles north of the City of Oshkosh and approximately three-fourths of a mile from the Soo Line and Northwestern Line stations at Winnebago. This institution has been built by Winnebago County at a cost of \$122,138.55, and should be valued for the purpose of joint ownership and operation by the interested counties at \$100,000.00.

2. That the present assessed valuation of the three counties interested is as follows: Fond du Lac County, \$103,271,789.00; Winnebago County, \$102,104,204.00, and Waushara County, \$24,145,057.00; and it is the sense of your committee that as a basis of purchase of said property the percentages of value for the three counties should be as follows: Fond du Lac County, 45%, Winnebago County, 44% and Waushara County, 11%.

3. We report further that there is land available for purchase for the use of said sanatorium for building additional buildings, owned by Winnebago County, which, if located north, west or south of said institution, can be purchased for \$200.00 per acre, and if located east of said institution for \$300.00 an acre, from Winnebago County. We report further that there is need at said institution for the erection of a building to be used as a nurses' home, and that there is available for said purpose the sum of \$25,000, which Winnebago County may use for constructing such a building, and that the same should be built by Winnebago County and maintained by the counties interested, and that Winnebago County is willing to construct such building.

4. We report further than in case of the purchase of an interest in said Sunnyview Sanatorium by Fond du Lac County and Waushara County, that payments therefor be made in five equal installments, the first payment to be made April 1, 1923, and succeeding payments to be made annually thereafter with interest at 5% per annum after July 1, 1922, on all unpaid sums of the purchase price.

5. That upon the operation of said institution by the three counties, the state shall pay in accordance with the state law, \$7.00 per week. The balance of the per capita cost for indigent patients shall be borne by the counties from which such patients come, provided that not less than \$14.00 per week shall be charged for each patient per week; that the matter of maintaining the institution shall follow the provisions of Section 46.20-6-b of the Wisconsin Statutes.

## SALARIES.

Supervisor Burgner offered the following, Report, No. 1.

To the Honorable County Board of Supervisors of Winnebago County, Wisconsin.

Gentlemen: Your Committee on Bonds and Salaries, to which was referred the petition relative to the change in the salary of county officers for Winnebago County, respectfully report as follows:

We report that the salary of the County Judge has been fixed for a term which does not expire for four years and cannot be changed at this time; that the salary of the Municipal Judge has likewise been fixed for his present term and cannot be changed at this time, and the salary of the Clerk of the Municipal Court likewise cannot be changed; that the salary of the Superintendent of Schools can be changed only at the last annual meeting preceding the spring election and cannot be changed at this time; that the salary of the Agricultural Agent has been fixed for two years and cannot be changed; that the register of Probate is under contract to do certain work for the County at \$2,400 a year; that to change his salary would result in a breach of contract between him and the County and would leave him free to charge the sum of \$10.00 a day for Court reporting, which, in our opinion, would tend to increase his salary rather than lower it, and we therefore recommend that it be not changed.

Whereas said plan will be highly beneficial to the rural districts of Winnebago County by giving them the use of the essential books, equipment and facilities of the Oshkosh Public Library, now, therefore,

Resolved that there be and there is hereby appropriated out of the general fund of Winnebago County the sum of \$5,250.00, the same to constitute a fund known as the Winnebago County library fund, and to be paid out by the county treasurer upon orders signed by the chairman of the County Board and the county clerk, and to be used for the establishment and maintenance of the Winnebago County Library service.

In spite of the fact that during the last year or two the income of the average farmer has greatly declined, yet the general feeling in rural communities seems to be that the rural schools must be maintained in as efficient a condition as possible. In accordance with this sentiment as expressed at the annual school meetings many improvements have been made in the equipment of the schools.

### Many Improvements.

Nearly all the schools have now discarded the wood or plaster blackboards and replaced them with slate. Many old seats and desks which caused little children to sit with their feet dangling in the air and to write on surfaces which had been carved by many a jack-knife have been replaced by new single steel adjustable seats and desks, adjusted for the comfort of each child. Many outbuildings have been repaired and placed in a sanitary condition. The lighting and heating of a number of schools have been greatly improved. Playground equipment has been supplied so that now there are few schools without some such apparatus. Supplementary readers, history texts, and reference books have been supplied as well.

### New Nekimi School.

In the town of Nekimi one of the most modern rural school buildings in the state of Wisconsin is being erected. It is supplied with lighting from the left and rear of the pupils, plenty of blackboard space, an excellent heating and ventilating system, indoor chemical closets, a light, airy basement, where community socials and gatherings may be held, a library, teacher's closet, dinner pail and rubber closets set into the walls, and a number of other desirable features. It would be difficult to imagine a one room school that would be better planned or more modern.

### One Room Schools Are a Poor Investment.

In spite of the improvements that have been made in the one room rural schools the form of their organization makes it impossible for them to equal the work being done in the graded schools of the villages and cities. Here the teachers, instead of having eight grades and class periods of only ten or fifteen minutes, have but one or two grades and class periods several times as long. During the past few years there has been developing a feeling of dissatisfaction with what rural schools can offer in the way of an education and a feeling that just because a child lives in the country he should not be condemned to a poor school. From all parts of the county questions have come as to the consolidation of schools, how it is carried out, what difficulties are to be overcome, and whether or not the cost of such schools is excessive.

### Elk Mound Consolidated School.

Last spring the farmers of the one town raised money to send several of their number to visit a consolidated school at Elk Mound, near St. Paul. The men went with the idea of finding out not only the desirable, but any possible undesirable facts about the consolidated school. They rode out in the busses on the transportation routes, talked with the parents of children living near the ends of the routes as well as those living near the school, visited the classes in the grades as well as in the high school, and talked with the officers of the consolidated school district. The class work being done was excellent. The people of the district and the school officers, after having their consolidated school in operation for two years, seemed to be almost unanimous in their belief that the consolidated school was a great improvement over the rural schools, that the cost was not unreasonable and that the children were getting much more out of their school work than would have been possible with the former one room schools.

### Attendance.

In this district where the snow was very deep last winter, particularly in February, the attendance record of the children in the consolidated school was over 95% while at nine one room rural schools near the consolidated school the attendance fell to between 40% and 60%, several schools being closed entirely for two or three weeks. During the entire time each of the seven busses made its trip on time without injury or hardship to any of the children. It is a peculiar fact that while some people who are unacquainted with transportation fear it a great deal, yet those who are sending their children to school in this way are most decided in their approval of the plan.

### Cost of a Consolidated School for Nekimi.

Last spring in response to a number of requests from residents of the town of Nekimi, figures were collected as to the cost of the present one room schools and careful estimates were made with the aid of the State Department of Education of the cost of a consolidated school with a high school and transportation.

It was found that the present one room schools were costing the town on an average of 3.4 mills. A careful estimate of the cost of a consolidated school showed that the maintenance would cost 3.9 mills, or an increase of  $\frac{1}{2}$  mill, that the cost of building would be 1.6 mills for a period

of fifteen years, making a total cost during that time of 5.5 mills, or \$55 on a farm valued at \$10,000.

#### **Reason for Low Cost.**

The reason for this low cost is the fact that the state offers considerable aid to a consolidated school. There would also be the amounts at present raised for the payment of high school tuition to the cities. The income from these sources cut down the cost of a consolidated school materially and makes it possible for a group of eight or ten rural schools to join in a consolidated school at a cost that is not unreasonably high and in fact but little above the cost of the present one room schools.

#### **High School Students.**

Between eighty and ninety percent of the graduates of rural schools of this county are attending high schools, all of which are located in the villages or cities. It is necessary for some of the pupils to drive long distances or to room and board in town. It is decidedly unfortunate for parents to have to send boys and girls away from home influences just when they are awakening to the greater facts of life. In some cases it has meant the development of wrong interests and points of view. At best it has tended to make them out of sympathy with rural life.

#### **Advantages of a Rural High School**

A rural high school would be within easy distance from each home in the town, would enable the pupils to be at home under the best of influences; would not deprive the home of their assistance and would provide courses of study specially adapted to their needs. When the city high schools refuse to admit pupils from rural districts, which is likely to happen sooner than we imagine, unless some rural high schools are being provided the situation will be serious. For all of the above reasons it is essential that the various towns begin to look into this matter before it is too late.

#### **Present School Organization Unfair.**

For many years people who have given any study to the question of financial support of rural schools have felt that the present system of local support is imperfect and unsatisfactory. The reason for this feeling is because the school districts vary so greatly in size and valuation. In one district there may be a relatively high tax and yet a poor school, while in the next district there may be a low school tax, but an excellent school because of the difference in valuation. These contrasts are not uncommon and mean that the child who happens to live in a relatively small or poor district has not the educational opportunity he would have in an adjoining school district.

#### **The Rights of the Children.**

Children are citizens of the state, not of the school district, town or county, and as citizens of the state they all have a moral right to the same educational opportunity. No school district has a right to condemn a child to a meager education, though this is sometimes the result because of limited financial resources. Education is a function of the state; it is not a local matter like whether there shall be lamp posts or a wider street. It is the business of the state to see that every child has a fair and equal opportunity for a good education.

#### **Education Not An Individual Matter.**

Years ago it was thought that education was for the advantage of the individual rather than a national necessity. It was considered an accomplishment which few could afford. This idea has long been discredited. Today we recognize education as not only a necessity for each child but also for the perpetuation of our form of government. In spite of this fact, however, children do not have the same educational advantages in the school districts of any county of the state. The reason why California has good schools not only in the valleys and near the cities, but in the mountains and on the edge of the desert is because the schools are supported largely by state tax.

#### **Great Difference in Valuations.**

In some rural districts there is not enough property behind each child to run a decent school. In such communities the buildings are shameful to see, the school officers are almost compelled to seek the cheaper teachers, to get along with the poorest equipment, and in every possible way to keep down the cost of the schools. While there are few extreme cases of this kind in Winnebago County, yet there is a great deal of inequality in the valuations of the various school districts. The cities abandoned the idea of separate districts years ago, Appleton being the only city in the state that still has the old form of organization.

### Too Many School Officers.

Another reason why many small districts are at a disadvantage is because of the great number of school officers they make necessary. Winnebago County, with about 100 teachers, has about 300 school officers. If Oshkosh were organized on the same plan instead of seven school officers it would have 600 and Milwaukee would have 7500 instead of five. It is a tremendous waste of time, energy, and money to have a fully organized school board for every school. The frequent change of school officers makes it necessary to educating new officers to an appreciation of the necessities of a good school. This takes time and means that such schools are apt to be more or less inefficient in the meantime. There is a growing conviction that the county is a more suitable unit for taxation and administration, even for the present one room rural schools. This would mean an equalization of taxation between the various districts, but still more important, that every child in the county would have the opportunity to attend an equally good school.

### Larger State and County Tax.

Economists who have given the question a great deal of study believe that a state tax supplemented by a county tax should provide for much the greater share of the cost of the schools. They believe that it will never be possible to equalize the burdens nor the educational opportunities under the present form of district organization. Of course, no system of taxation alone, will solve the problem because under all forms of organized taxation the people are the final source of power, as they should be, but a larger county tax supplemented by a larger state tax and a corresponding decrease in the local tax would without question be fairer to taxpayers and more important still, to the children for whom the schools are provided.

Some school districts provide a good school, a capable teacher, sufficient equipment, and then allow the children to be irregular in their attendance or to remain out of school for trivial reasons. Such a policy makes the school a very poor investment because the district is securing about one-fourth or one-third less training than the school should give.

Imagine a class of five pupils. Two of them stay out for a couple of weeks and then return. Before the teacher can get them up to grade, one or two others drop out for a few days, or a week or two. About the time they return, possibly the remaining child is absent. The result is that any child in the class that does remain in school is discouraged because it is necessary for the teacher to continually be going back over the old work so that those who have been absent can catch up. Little wonder that such a class fails to make much progress and at the end of the year has completed much less than a class where the children have been regular in attendance throughout the year.

### Illiteracy.

The records of the bureau of education show that there are seven million illiterate people in the United States, that is, people over ten years of age who cannot read nor write in any language. In Germany there is less than one illiterate in every ten thousand of the population because in that country as well as in many other European countries parents are severely punished for failure to keep their children in school. In Winnebago County the yearly loss from absence runs up to thousands of dollars, a great deal of which could be avoided if all parents would co-operate with the schools in keeping children regular in their attendance. Some of the older children who now dislike school and would prefer to be at work, if kept in school by the foresight of their parents will in years to come thank their parents for their greater wisdom. Parents should realize that children are not capable of judging for themselves. Most parents desire to leave a good heritage to their children. Nothing in the way of farms and stock will ever take the place of a good education. This is a heritage which no matter what disaster may come can never be lost. For this reason parents should make every effort to keep their children regularly in school.

### Parents Do Not Visit Schools Enough.

Many parents have not been in school during the time for regular work since they left the school as pupils. All of their information about the school is second hand and therefore unreliable. This condition should not exist because the schools belong to the people. They will be just as good as the parents desire or just as poor as they will tolerate.

### Series of Health Talks.

During the past few years epidemics of contagious disease have spread over various school districts with alarming rapidity. In some cases they

have seemed to break out spontaneously in various sections. Last summer the State Board of Health offered to send a physician to discuss the prevention and control of contagious disease. We accordingly arranged for a week's series of talks on health by Dr. V. A. Gudex, starting Monday, October 9th. Dr. Gudex gave five talks in rural schools each day and one each evening to groups from several schools. He discussed the various so-called common diseases, outlined their symptoms and the methods of prevention. His talks were well received and I have no doubt but what they will help to improve the health situation during the coming year.

#### **Warm School Lunches.**

For a number of years we have been encouraging the idea of having a hot dish prepared at each rural school at noon, to be eaten in connection with the regular lunch brought from home. Cocoa, soup, rice, creamed potatoes, and various other warm dishes have been prepared in about one-third of the schools during the past year or two. By carefully organizing the work the teachers have been able to provide this warm dish without hardship to pupils or themselves. No argument is necessary to convince anyone who has had occasion to eat cold lunches that a warm dish is decidedly worth while and that school children who have this advantage are undoubtedly much better able to do their school work. About thirty-five or forty of the teachers have each year carried on these lunches without additional pay from the district, but because they believed it was worth while. As soon as the parents of the children in the fifty or sixty schools not having these lunches realize their value to the children they will demand that when the teacher is engaged there be an understanding that this work shall be carried on.

#### **County Nurse.**

The work of the nurses in Winnebago County has, as a whole, been productive of valuable results. They have found many children with physical defects which have been reported to the parents. We have been pleased at the large number of cases in which the parents have had these defects remedied. In many cases if no medical attention had been given these defects would have developed seriously and have rendered the children much less capable physically than would otherwise have been the case. Miss Wenonah Winsey, the present nurse, has visited nearly half of the schools already this year and is getting splendid results in her work.

#### **Co-operation of Parents.**

Regardless of how effective the work of the county nurse and teachers may be to keep the children in good health so that they are able to do their school work effectively, this will not be possible without the assistance of the parents. There is little use of sending a child to school whose eye-sight is so poor that he cannot see the blackboard or who is so under-nourished that he hasn't the energy to study. The schools have a right to demand that children shall be put to bed at 8 o'clock at night so that they will not be coming to school sleepy the next day and with their nervous systems in such condition that they cannot work and that they shall be gotten up in the morning in time so that they can have their breakfasts before coming to school. On the other hand, the schools have no right to injure the health of the children, to make them bent backed by poor seats and desks, or to subject them to dust, dirt, lack of air, and light, to such an extent as to injure their health. It is only by the co-operation of the school and home that the best physical conditions for the children can be maintained.

#### **Abnormal Children.**

Quite a number of the schools in this county have one or more feeble minded children among their number, one school having as many as six. It is unnecessary to say that these children are a big drag on the progress of the classes and should not be allowed in the ordinary school. The cities are making provision for these children in special schools and the time is coming when it will be realized that such children in the country must also be given special care.

#### **Teachers.**

It is a fact well known to everyone that during the past few years the supply of teachers has been short. During this time a considerable number of high school graduates have been teaching on special permits. Last year we had something less than a dozen in this county. This year there isn't a single teacher who is not legally qualified. While not all legally qualified teachers are capable, yet the probabilities are in their favor. There are undoubtedly fewer poorly taught schools than when it was necessary to have so many special permit teachers.

### Salaries.

The question of teachers' salaries is an important one to teachers and school districts alike. During the war any teacher who could secure a license or permit could, because of the scarcity of teachers, get a position paying a good salary. However, this condition no longer exists and the incapable, indifferent teachers are gradually being weeded out of the teaching force. In many of the counties and cities the teachers have demanded minimum wages based on training and experience. While on casual examination this plan seems fair, yet when we stop to think of the fact that some teachers with much training and experience are very incapable while others with little training and experience are very efficient, we see that the plan is unfair to school districts and teachers alike.

### A Fairer Plan.

I believe the question of salary should be determined between the school district and the teacher on the basis of her individual success as a teacher, and the size of the school. Under this plan schools pay capable teachers good salaries and incapable teachers are not able to secure high salaries merely because they have taught for a considerable length of time. This office stands ready to give school officers the facts with regard to a teacher's success so that no district need engage a teacher blindly only to be disappointed later on.

### Teachers' Meetings.

During the past year a number of teachers' meetings and institutes have been held. Last March a meeting was held at the Oshkosh Normal. This fall a two-day institute was held before the beginning of the schools at which the plans for the year were outlined and methods of teaching discussed. On November 3rd the teachers of the county visited at the Normal school where special classes were taught by skilled teachers for the observation of the teachers of the county. The recitation periods were limited to fifteen minutes and other conditions made as nearly like those which rural teachers meet as possible. Many of the teachers stated that the demonstrations were even more helpful to them than the discussions that are commonly given.

### Uniform Textbooks.

Four years ago the school officers of this county voted to adopt uniform textbooks throughout the county in place of the different kinds of books used in the schools, many of which were out of date. Contracts were made with the textbook companies so that the county would secure these books at a lower cost than in counties where such a plan had not been adopted. As a result we have been securing our textbooks in this county for less than cost during the past few years with the exception of the books published by one company, which refused to abide by its contract. The law provides that these books shall be used for five years, at the end of which time the County Textbook Committee must make a re-adoption. The committee will meet in January and it is likely that most of the books now in use will be re-adopted.

### County Library Service.

About twenty years ago Winnebago County provided for county traveling libraries. At present there are about fifty boxes of books which are each year sent out to the various villages and schools and may be exchanged at the end of the year. While this service has been very meager, yet it was better than nothing and has been appreciated by many of the people. The time has now come, however, when the people are asking for better opportunities to secure definite reading material.

During the past few years the Oshkosh Public Library has been allowing residents of the towns and villages to borrow books. The number of borrowers has increased to about one thousand. The library board feels that it cannot allow this condition to go on longer unless the county will provide for at least a portion of the expense. The city has offered to open up its entire library to the use of the people of the towns and villages, place branch libraries in many of the villages and small towns, as well as allow any individual from the county to secure books by parcel post or in person at the Oshkosh Public Library. This offer of the city is a very fair-minded one and if accepted by the county will give a splendid opportunity to people from the rural districts to secure the reading they desire.

Respectfully submitted,

REGINALD E. SANDERS

Supervisor O'Donnell offered the following Resolution No. 25.

### Special Work.

From the records left by Miss Jones I find this report of special work.

In March a milk week was held and a milk survey was made. The school children wrote milk essays and made milk posters and from all reports considerable interest was shown.

The report of the milk survey was as follows:

A total survey of 1935 pupils.

Of these

515 drink milk occasionally.

1102 drink milk every day.

227 drink no milk.

963 drink tea or coffee.

114 eat no butter.

In one school with an enrollment of 36 pupils so much interest and cooperation was aroused that 32 gallons of milk were consumed by the children in that week.

During the winter one adult class and two high school classes in home nursing were conducted.

A chest clinic was held in June

During the month of September there was no county nurse. In October I took charge of the work. Since October 1st I have attempted to get to as many of the schools in the out-lying districts as possible and practically all of the time up to the present date has been spent in inspecting school children and giving them health talks.

It is encouraging to note that in the schools where the nurse has been working recently the defects among the children are neither so numerous nor so marked as those among the children in the schools that have not been visited recently.

In one school I found a child who is deaf and is having much difficulty in progressing in her school work because of her deafness. In another school there is a child who is very deficient mentally and who is harmful to the smaller children in the school. Both of these children should be placed in institutions where they can have the kind of attention they need. Further investigation is necessary and if possible these conditions will be remedied.

Recently six cases of scarlet fever have come to my knowledge and all have been reported in the health department. There are also several cases of chicken pox. These are being cared for properly and the children in the nearby schools instructed in recognizing early symptoms and in preventative measures.

In several schools there have been epidemics of pink-eye. I have endeavored to check the spread of this disagreeable condition by telling the children how to take care of their eyes.

About half of the 47 schools I have visited this fall are equipped for serving hot lunches. In most cases the hot lunches have proven to be very satisfactory and will be served again this year. Circulars giving teachers instructions as to equipment and menus are being sent to each school.

Also I am sending circulars containing important information about the most common diseases to which school children are subject.

In most instances I have met with hearty co-operation from both the teachers and children. Youngsters are very interested in being strong, healthy individuals. I firmly believe in the statement so often made—that "health is primarily education—then habit."

If we can instill into the boys and girls the importance of being strong and healthy and teach them the fundamental habits of health, then we shall be laying the foundation upon which the success and good citizenship

of the men and women of tomorrow will depend.

Respectfully submitted, WENONAH WINSEY.

During the last five years it has been necessary to refuse from ten to fifteen requests for library collections each year because of lack of books. For the same reason it has not been possible to grant requests for certain titles or material on specified topics. When teachers who wanted class room libraries for schools requested only juvenile books which would directly help them in their work with the children, because of limited resources it has been possible to send them only general collections of books about one-third of which were for children, and two-thirds of which were for adults.

More than 15 library collections were returned from rural schools this year with no record of the issue of books. The method of making the record is very simple but if none is made none can be counted. Presumably the 750 books in these collections would have circulated at least 5 times each and if the record had been kept the circulation for the year would have been increased to 8490 with a gain over the previous year of 2435. This estimate is not allowable since it is only an estimate and not an accurate record and therefore the loss must be reported.

Respectfully submitted, EDITH K. VAN EMAN.

Supervising Librarian.

On motion accepted and placed on file.

### ILLEGAL ASSESSMENTS.

Supervisor Schneller offered the following Report No. 55.

To the Honorable, the County Board of Supervisors of  
Winnebago County, Wisconsin:

Gentlemen: Your Committee on Illegal Assessments, beg leave to report that we have had under consideration the petition of Carroll H. Larrabee, county treasurer of Winnebago county, Wisconsin, for the cancellation of the tax certificate which reads as follows, to-wit:

I.

To the Honorable, the County Board of Supervisors of  
Winnebago County, Wisconsin:

Gentlemen: The undersigned, your petitioner, respectfully represents that he, on behalf of Winnebago county, is the lawful owner and holder of the tax certificates hereinafter described, hereto attached and made a part of this petition, which said tax certificates are illegal and void for the reasons hereinafter stated.

Tax certificate No. 3, sale of 1920, amount, \$2.12, covering "Town of Algoma, Johnson's plat of Melrose park, lot 33, section 16, town 18, range 16, is illegal and void for the reason that the property intended to be described is located in Melrose Park plat and not in Johnson's plat of Melrose park."

Tax certificate No. 4, sale of 1920, amount, \$1.88, covering town of Algoma, Johnson's plat of Melrose park, lot 84, section 16, town 18, range 16, is illegal and void for the reason that the property which is intended to be described is located in Melrose Park plat, and not in Johnson's plat of Melrose park.

Tax certificate No. 5, sale of 1920, amount, \$1.88, covering town of Algoma, Johnson's plat of Melrose park, lot 186, section 16, town 18, range 16, is illegal and void for the reason that lot 186 is located in replat of lot 107 in original plat of Melrose park.

Tax certificate No. 5, sale of 1921, amount, \$1.81, covering "town of Algoma, Melrose park, Johnson's plat, lot 133, section 16, town 18, range 16," is illegal and void for the reason that this was paid to the town treasurer on January 29th, 1921, by receipt No. 455.

Tax certificate No. 8, sale of 1921, amount, \$1.81, covering "town of Algoma, Melrose park, Johnson's plat, lot 164, section 16, town 18, range 16," is illegal and void for the reason that lot 164 is located in replat of lot 107 in original plat of Melrose park.

Tax certificate No. 9, sale of 1921, amount, \$1.81, covering "town of Algoma, Melrose park, Johnson's plat, lot 165, section 16 town 18, range 16," is illegal and void for the reason that lot 165 is located in replat of lot 107 in original plat of Melrose park.

Tax certificate No. 343, sale of 1922, amount, \$1,274.20, covering "machinery only." Land assessed to E. H. Smith, lot 17, block 20, L. M. Miller's first addition, Eighth ward, city of Oshkosh, is illegal and void for the same reason that tax certificate No. 260, sale of 1921, covering the same property and described in the same manner, was illegal and void, and was cancelled by the County Board on March 10, 1922.

Tax certificate No. 11, sale of 1921, amount, \$1.62, covering "town of Algoma, Melrose park, Johnson's plat, lot 188, section 16, town 18, range 16," is illegal and void for the reason that lot 188 is located in replat of lot 107 in original plat of Melrose park.

Tax certificate No. 33, sale of 1921, amount, \$16.70, covering "Omro village, Western addition, a piece of land in southeast corner, 16 feet east and west and 23 feet north and south, lot 34," is illegal and void for the reason that it is indefinite and is included in another description covering part of lot 34.

Tax certificate No. 136, sale of 1922, amount, \$940.10, covering "city of Menasha, Second ward, Menasha Wood Split Pulley company, subdivision of lot 5, Darling's addition, beginning at the intersection of the east line of Walbrum street with the north line of Sixth street, thence east along the north line of Sixth street to right of way of Chicago, Milwaukee & St. Paul railway, thence north along west line of said right of way to north line of lot 8, thence west to the east line of Walbrum street, thence south along east line of Walbrum street to the place of beginning, block 5," is illegal and void for the reason that this property is not located in Menasha

Wood Split Pulley company subdivision of lot 5, Darling's addition, but should be lots 6, 7 and 8, Darling's addition.

Tax certificate No. 145, sale of 1922, amount, \$6.98, covering "city of Menasha, Fourth ward, subdivision of lots 22 and 23, block 55, James' addition, subdivision block 'D,' the west 60 feet of lot 24, block 55," is illegal and void for the reason that this property is located in the Fourth ward, original plat.

Tax certificate No. 147, sale of 1922, amount, \$9.43, covering "city of Menasha, Fourth ward, Reed's subdivision of part of lot 1 of the southeast ¼ of section 14, township 20, north of range 17 east, beginning at northwest corner of southwest ¼ of northeast ¼, thence south 16 rods, west 18 rods, north 16 rods, east 18 rods to beginning, lot 14," is illegal and void for the reason that this should describe section 14 instead of lot 14.

The certificates described are hereto attached and made a part of this petition.

Your petitioner therefore prays that said tax certificates be cancelled and that the amount so paid for said tax certificates be refunded to petitioner with interest at the rate of seven percent per annum until paid.

Respectfully submitted,

CARROLL H LARRABEE, County Treasurer.

State of Wisconsin, Winnebago County, ss.

Carroll H. Larrabee, county treasurer, being duly sworn on oath says that he, on behalf of Winnebago county, is the petitioner above named, and that he has read the above and foregoing petition and knows the contents thereof, and that the same is true to the best of his knowledge and belief.

### ILLEGAL ASSESSMENTS.

Supervisor Schneller offered the following Report No. 56.  
 To the Honorable Board of Supervisors of  
 Winnebago County, Wisconsin.

Gentlemen: Your Committee on Illegal Assessments to which was referred the petition of J. L. Clark Manufacturing company (which petition is hereto attached) for a rebate of taxes paid through error, beg leave to report as follows:

1. That under section 74.64 of the statutes, any tax improperly assessed or paid by mistake may be repaid by the county treasurer if claim therefor is made within two years after the payment by mistake, this to apply to county and state tax only.

2. We further report that the tax for the year 1919 set forth in said petition was paid by said company March 3, 1920, and that more than two years have elapsed since the payment of said tax by them and for that reason they have lost all further remedy under the statutes for a refund of said tax for the year 1919.

3. We report further that the J. L. Clark Manufacturing company through mistake over-paid its taxes for the year 1920 and 1921 and that it is entitled to have repaid to it the state and county tax so over-paid by mistake.

We report further that the amount of state and county tax so paid by mistake by said company for the said two years amounts to \$66.97.

We therefore recommend the repayment of said amount.

And that the amount so paid be charged back to the city of Oshkosh.

In reference to assessments made on various cottages where the land on which the cottages are situated is not particularly described, would say that we have looked up the Wisconsin Statutes in reference to this matter and from such examination it is our opinion that the cottages described on the list submitted to me by the county treasurer are insufficient, certainly to comply with the statutes.

Section 70.17 of the Statutes provides that all buildings on lands under lease or permit, including buildings located on railroad right of way, or on other lands not subject to local assessment, shall be assessed as real estate to the owners of such buildings, if known. The tax thereon may be enforced in the same manner as other real estate taxes or by action of debt as prescribed by Section 60.12 for the collection of taxes on personal property.

Section 70.25 provides that in all assessments and tax rolls and in all advertisements, certificates, papers, conveyances or proceedings for the assessment and collection of taxes and proceedings founded thereon, as well heretofore as hereafter, any description of land which shall indicate the land intended with ordinary and reasonable certainty and which would be sufficient between grantor and grantee in an ordinary conveyance, shall be sufficient.

In the assessment in question, the description is "Cottage on Section 3," etc. This, in our opinion, does not comply with Section 70.25, as it does not describe the land with ordinary and reasonable certainty. Describing a cottage on Section 3 does not locate any particular land on which the cottage may be located. There may be a dozen different cottages on Section 3, so the description in question would be so indefinite that it would be impossible to locate the particular land on which the cottage was assessed.

Our opinion is that these cottages should be assessed to the owner thereof, or if he is unknown, to the occupant, and should describe with ordinary and reasonable certainty the particular land on which they are situated.

From the foregoing, our opinion is that all of the assessments in question are void for the reason that the land on which they are situated is not described with such ordinary and reasonable certainty as provided for in Section 70.35.

#### ILLEGAL ASSESSMENTS.

Supervisor Schneller offered the following Report No. 58.

To the Honorable, the County Board of Supervisors of Winnebago County: Gentlemen: Your Committee on Illegal Assessments beg leave to report that we have had under consideration the petition of W. J. Durham Lumber Company, for the cancellation of tax certificate which reads as follows, to-wit: Certificate No. 165, Sale—1922.

To the County Board of Winnebago County, Wisconsin:

The undersigned, W. J. Durham Lumber Company, a Wisconsin Corporation is the occupant and lessee of lots eleven (11) and ten (10) of block

three (3), Jones plat of the Island, City of Neenah, Winnebago County, Wisconsin.

That the record title to said property is in the name of John Strange, trustee, and the undersigned occupies said property as the lessee of said John Strange, trustee.

That heretofore the Community Milling company, a Wisconsin corporation occupied said premises as lessee of said John Strange, trustee and while said lessee installed certain machinery in said building on said property and after said lease was determined the said Community Milling company sold the said machinery to the said W. J. Durham Lumber company.

That during the year 1921 the assessors of the City of Neenah placed said lots ten (10) and eleven (11) upon the tax roll of the City of Neenah and also placed against said property a tax on the said machinery as a real estate tax, amounting to \$189.00.

That by the term of the lease under which the W. J. Durham Lumber company hold and occupies said premises, it is the duty and obligation of said W. J. Durham Lumber company to pay all taxes assessed against said property.

That the tax of \$189.00 assessed against said property for the year 1921 as a real estate tax upon the machinery situated thereon is invalid, illegal and void and not a proper real estate tax.

That the undersigned paid to the city treasurer of the City of Neenah, Wisconsin, the sum of \$216.12 the legal tax levied against said property but refused to pay the tax of \$189.00 levied on said property on said machinery. That the said tax of \$189.00 levied on said property has been returned to the county treasurer of said county as delinquent and the county treasurer has sold said property to satisfy said illegal tax. That one year has not elapsed since the sale of said property.

Wherefore, your petitioner prays that your honorable body declare said tax certificate to be void and of no effect.

W. J. DURHAM LUMBER CO.

State of Wisconsin, Winnebago County, ss:

Frank S. Durham being first duly sworn on oath says that he is one of the officers, to-wit: the secretary and treasurer of the W. J. Durham Lumber company, the petitioner above named; that he has read the foregoing petition, knows the contents of same and that the same is true to his own knowledge.

FRANK S. DURHAM.

Subscribed and sworn to before me this 31st day of October, 1922.

GEO. H. KELLY.

Notary Public, Wisconsin.

Your committee finds that the tax against said machinery wrongfully levied; that the machinery belonging to the owner of the real estate should have been separately assessed as personal property, when in fact it was assessed as real estate.

The tax is therefore illegal and we recommend that the certificate issued thereon be cancelled and declared void and that the amount of said tax be charged back to the City of Neenah, as follows:

Certificate No. 165 Sale of 1922.....	\$204.62
Interest .....	7.16

Whereas great damage has resulted to property interests in the Fox River Valley due to the high water maintained in Lake Winnebago on account of the way the government works and improvements are maintained and operated along these water ways.

And whereas it is believed that property owners along these water courses may be relieved of much damage by a lowering of the lake level of Lake Winnebago, be it therefore resolved, that the County Board of Winnebago county, Wisconsin, respectfully petition the secretary of war and congress that proper steps be taken to do away with the great damage now yearly sustained by property holders bordering upon said navigable waterways without doing any unnecessary damage to the waterpower interests now maintained therein.

That we recognize the valuable services performed by the Association for Relief of High Water in gathering data and in calling attention to the urgent need of some measure for early relief.

#### TO CHANGE LAW GOVERNING COUNTY NURSE.

Supervisor Jensen offered the following Resolution No. 53:  
To the Honorable Chairman and County Board of Supervisors of Winnebago County, Wisconsin, in annual session assembled.

Whereas the present economic condition demands a material reduction in taxes, and

Whereas to bring about such a change requires curtailment of expenditure in various governmental activities and,

Whereas it is the opinion of the County Board of Winnebago County, that the employment of a county nurse can be dispensed with as one of such governmental activities and,

Whereas the employment of a county nurse is at present compulsory under the law,

Now Therefore, Be it resolved by the County Board of Winnebago

County in annual session assembled that we request Geo. Jones, Chas. Rahr, assemblymen of Winnebago county and State Senator Merritt F. White, of the 19th senatorial district at the next session of the legislature, to work for and vote for a change in the present law governing the employment of a county nurse, to amend that law as to make it optional with each County Board in the state of Wisconsin as to whether a county nurse shall be longer employed by each county.

Be It Further Resolved, That a copy of this resolution upon the passage be immediately mailed by the county clerk of Winnebago county, Wisconsin, to Charles Rahr and George Jones, Oshkosh, Wisconsin, assemblymen elect of Winnebago county, and a copy mailed to state senator-elect, Merritt F. Name	Nature of Account	Claimed	Allowed
City of Oshkosh,	street sprinkling in front of Court house and jail on Otter, Ceape and Court streets	\$21.60	21.60

Gentlemen: Your Committee on Public Buildings beg leave to report that owing to the fact that we have a material saving of funds on the improvements made by us to the Court house and County jail, namely on steel equipment, which was estimated at \$2,320.00, and by the efforts of your committee, we have succeeded in getting figures from eight firms, and closed the contract with the Watson Mfg. Co., of Jamestown, N. Y., for \$1,467.00 and the work was done to the entire satisfaction of the committee. We have also a substantial balance on our plumbing estimate for our County jail, the exact amount cannot be ascertained at this time as the work is not yet completed, owing to a series of delays.

We believe we have sufficient monies in our fund to carry out our needs for the ensuing year, and need not ask for any appropriation at this time.

And your committee would recommend the passage of the following resolution:

Be It Resolved by the Board of Supervisors of Winnebago County, Wisconsin, that the above and foregoing bills, in the amounts above set forth, which have been allowed by the Committee on Public Buildings, be and the same are hereby ordered paid.

## REPORT ON PAINTING AT SUNNYVIEW SANATORIUM.

Supervisor Jourdain offered the following Report No. 69:  
 To the Honorable, the Board of Supervisors of Winnebago County.  
 Gentlemen: Your special committee, to which was referred the matter of investigating the cost of painting Sunnyview Sanatorium beg leave to report as follows:

We find that the work of painting the Sanatorium was done by a contractor of the City of Oshkosh, and that the cost of painting the building, exclusive of paint and materials, was \$398.00, which involved a charge of \$1.10 an hour to the contractor or each man employed there.

We find further that a bid was made on the same work by a party from Menasha who agreed to do the work for \$325.00 and furnish all paints and materials and paint the building two coats.

We report further that the Oshkosh contractor painted the sanatorium only one coat upon order from Trustees Faber and Pinkerton, but the sanatorium committee informs us that this was to be a two coat job, including paint and all materials.

We have been unable to learn the cost of the paint used by the Oshkosh contractor on the building in question, but we are positive that the cost to the county for painting the building one coat was far in excess of the bid of the Menasha party to paint it two coats and furnish all paint and materials.

Respectfully submitted,

### **TO ISSUE BONDS AT AN EARLIER DATE.**

Supervisor Hoppe offered the following Report No. 1:

To the Honorable the County Board of Supervisors of Winnebago County, Wisconsin.

Gentlemen: Your committee on roads and bridges beg leave to report

as follows with reference to the Neenah-Winchester-Zittau-Fremont road.

There has been available for work on said road up to July 1, 1923, from all sources, approximately \$80,000.00, not including the issue of bonds provided for and to be sold on July 1, 1923.

There has been spent during the winter for sand, stone, materials and labor approximately \$56,000.00, and the amount remaining available for work on said road is not enough to enable your committee to take advantage of the cement market or to accomplish much road building before the first of July of this coming summer. Your committee believes that if it had more money available for use in this present season that good progress could be made and money saved for the county. The November session of your honorable body provided that bonds be sold July 1, 1923, so as to make available for use on this road \$67,000.00, and it is the belief of this committee that if the date for the issuance of these bonds can be moved ahead to May 1, 1923, that the money thus made available can be used for the best advantage and a material saving made for the county.

We therefore recommend the passage of the attached resolution.

Dated March 7, 1923.

Respectfully submitted,

WM. H. HOPPE, Secretary Road and Bridge Committee.

On motion laid over until Thursday, March 8.

#### COMMITTEE ON BONDS AND SALARIES.

Supervisor Burgener offered the following Report No. 2:

To the Honorable Board of Supervisors of Winnebago County.

Gentlemen: The committee on bonds and salaries have had under consideration the application of the clerk of the municipal court for the county of Winnebago and city of Oshkosh for additional help and in relation thereto we beg leave to report as follows:

1. We find that the records of the said municipal court are not at this time kept up to date and that it would probably not be possible for the present clerk to do the current work and bring these records to date.

2. We have examined the act of the legislature establishing the said municipal court and find no authority therein for the employing of a permanent clerk.

3. We, however, believe that the county board under its general powers has authority to have temporary help to bring the said records to date.

4. It is our opinion that the clerk could be hired for \$75.00 per month, who in two months would clean up the back work and bring it to date.

5. It is not our opinion that there should be a permanent clerk of the municipal court, as we believe that when this work is once brought to date one clerk ought to be able to do the work alone.

6. The judge of the said court, as well as the clerk, are paid two-thirds by the county and one-third by the city of Oshkosh, and we therefore recommend the adoption of the accompanying resolution providing the sum of \$100.00 to be used with \$50.00 to be appropriated by the city of Oshkosh for the purpose of hiring a clerk for two months to aid in bringing said court records to date.

Dated March 7, 1923.

Respectfully submitted,

AL BURGNER,  
GEO. E. SANDE,  
G. A. LOESCHER.

That there be and there is hereby appropriated the sum of \$100.00 for said purpose to be used with such amount as the city of Oshkosh may appropriate for the purpose of paying for said helper, the same to be paid out of the general fund by the county treasurer upon orders signed by the chairman of the County Board and county clerk as other county officials are paid.

The petitioner represents that he is the lawful owner and holder of said tax certificates; that said tax certificates are illegal and void for the reason that Palmer's map of the Fourth ward, city of Neenah, does not show or indicate any lot in block 17, numbered 4.

Your committee find the facts set forth in said petition are true and recommend that said certificates be cancelled for the reasons given in said petition, and the amount of same be refunded to petitioner together with interest at the rate of seven percent per annum from the dates of said certificates, as follows:

A strip of land 32 rods e. and w., 42 ft. n. and s., on n. end of lots 1-8, according to government survey, section 8, town 18, range 15, .50 acres. The petitioner represents that he is the lawful owner and holder of said certificates; that said certificates are illegal and void for the reason that the government survey of section 8.

town 18, range 15 does not indicate or show a fractional lot marked lot 8.

Your committee find the facts set forth in said petition are true and recommend that said certificates be cancelled for the reasons given in said petition, and the amount of same be refunded to petitioner together with interest at the rate of seven percent per annum from the dates of said certificates, as follows:

Certificate 25, sale of 1917, face .....	\$1.58

The petitioner represents that he is the lawful owner and holder of said certificate; that said certificate is illegal and void for the reason that it is indennite, and does not indicate or show what part of ne $\frac{1}{4}$  of se $\frac{1}{4}$  of section 3, town 18, range 15, said 20 acres is supposed to cover.

Your committee finds the facts set forth in said petition are true and recommend that said certificate be cancelled for the reason stated above, and the amount so paid be refunded to said petitioner together with interest at the rate of seven percent per annum from the date of said certificate, as follows:

<b>Total.....</b>	<b>\$3.89</b>

Your committee has had under consideration the petition of Frederick J. Eaton, corporation counsel of the city of Oshkosh, for the cancellation of certificate No. 41, sale of 1922, upon the following described real estate, to-wit: Town of Oshkosh, commencing at a point in the Winneconne H. W. 232.3 ft., running northwesterly along center line from s. line of sec. 11, thence e. 489.4 ft., thence n. 86.45 ft., thence w. 517.7 ft. to center of said H. W., thence southeasterly along center of said H. W. 91.37 ft., to place of beginning, containing 1 acre, being part of s $\frac{1}{2}$  of sw $\frac{1}{4}$  of section 11, town 18, range 16. The petitioner represents that on Aug. 9, 1920, the city of Oshkosh purchased the above described property, and that said property is used in connection with Riverside cemetery and consists of a house, a barn and land, and is used by the city of Oshkosh as a place to keep its machinery used in connection with the cemetery, and also the horses that are used in connection with the cemetery; that said house is occupied by a custodian who works at the cemetery and whose business it is to take charge of the property above described, and in the absence of the sexton, to oversee the cemetery property. Said petitioner further represents that since the purchase of said property, the city of Oshkosh has been the owner and holder of said property; and said petitioner further represents that said property has been taxed by the town of Oshkosh for 1921; that tax certificate No. 41, sale of 1922, was issued for the said tax of 1921; that said certificate is illegal and void for the reason that the property is exempt from taxes under the statutes for the reason that it is property belonging to the city of Oshkosh.

Your committee finds that the facts set forth in said petition are true and recommend that said certificate be cancelled for the reason stated above, and upon the presentation of said certificate, that the amount of the face of the certificate be refunded to the purchaser with interest at the rate of seven percent per annum from the date of said certificate, as follows:

Certificate 41, sale of 1922, face.....	\$48.46
Interest from June 13, 1922.....	2.51
<b>Total.....</b>	<b>\$50.97</b>
