XX. A substitute shall be open to amendment the same as the original proposition; but when adopted, shall not be subject to amendment. If an amendment or substitute is lost, another substantially the same shall not be entertained.

XXI. When a motion or question has once been determined, any member voting with the majority may move a reconsideration of the vote, but such motion shall be made and acted on at the same or next succeeding meeting, and shall not thereafter be made except by unanimous consent.

XXII. The previous question may be moved by any member, and the chairman shall then say: "It requiring five members to second this motion, those in favor of sustaining the motion will rise." If five or more members then rise, the previous question shall thereby be seconded and an opportunity then be given to any two members opposed thereto to briefly state their objections. The question shall then be: "Shall the question be now put?" which, if carried by a vote of two-thirds of the members present upon a call of the ayes and nays, the Board shall immediately proceed to vote upon the pending amendment, if any, and upon the main question.

XXIII. In filling blanks, the largest sum and the longest time shall be first put.

XXIV. These rules shall not be changed, amended or repealed, unless the proposition or amendment is introduced in writing and the same laid over to some subsequent meeting of the Board, not less than five days intervening, and then only with the concurrence of two-thirds of the members present.

XXV. Any of these rules may be suspended upon any pending measure by unanimous consent or by two-thirds of the members present.

XXVI. These rules and all amendments or additions thereto which may hereafter be made shall govern the Board until altered or repealed, as herein provided.

XXVII. The rules of parliamentary practice comprised in "Jefferson's Manual," so far as they remain in common use and are practicable and applicable and not inconsistent herewith, shall govern the Board.

XXVIII. Whenever the Board shall have gone into a committee of the whole and shall have arisen, the Board shall at once be in session for the receiving and acting upon the report of the committee of the whole, and for the transaction of any and all other business of every kind.

## REPORT OF ROAD AND BRIDGE COMMITTEE RELATING TO FUNDS FOR COMPLETION OF OSHKOSH-FISK AND FREMONT-ZITTAU-WINCHESTER ROADS.

Supervisor Hoppe offered the following Report No. 1:

To the Honorable Board of Supervisors of Winnebago County, Wisconsin:

Your committee on roads and bridges beg leave to report as follows:

We report that owing to the causes hereinafter named the moneys appropriated heretofore by the County Board to be used in road construction for the current season have been inadequate and that it is necessary that money be provided by transfer from the general fund or otherwise, if the road program for the present season is to be completed.

In relation to the Oshkosh-Fisk road we report that we have had difficulty in getting stone, which has necessitated purchasing stone from other sources from those originally depended upon at an extra cost. We also used reinforcing steel, which is costing more than originally provided, and these items will necessitate an additional \$18,000 in order to complete the said road to Oshkosh city limits.

In relation to the Fremont-Zittau-Winchester road, we beg leave to report that the construction of this road has involved an extra expense owing to the fact that the Rehfeldt hill was found to be composed of rock, necessitating blasting for a considerable distance and to a depth of four or five feet, which has been expensive, and in addition, the reinforcing steel, together with the stone obtained in that locality, have cost more than anticipated, which necessitates providing \$32,000 to complete this work.

ERNEST RADDATZ,  
M. F. WHITE,  
WM. H. HOPPE,  
F. STANLEY,  
WM. GRIMES,  
County Road and Bridge Committee.

On motion accepted.

### **TRANSFER OF FUNDS TO FREMONT-ZITTAU-WINCHESTER AND OSHKOSH-FISK ROAD FUNDS.**

Supervisor Hoppe offered the following Resolution No. 1:

Resolved by the Board of Supervisors of Winnebago County:

That the county treasurer be and is hereby authorized and directed to transfer forthwith from the general fund of the county the following amounts to the separate funds hereinafter designated:

From the general fund to the Fremont-Zittau-Winchester fund the sum of \$22,000.

From the general fund to the Oshkosh-Fisk road fund the sum of \$18,000.

And be it further resolved that \$10,000 be borrowed from the Waukau-Berlin road fund, same to be returned out of next year's appropriations. This \$10,000 to be put in the Fremont-Zittau-Winchester road fund. All of the above amounts are for the purpose of completing the construction of said roads this year.

Dated Sept. 10, 1923.

WM. H. HOPPE.

Remarks by Supervisors O'Donnell, Jourdain, Spore, Defnet, Martin and Mr. Ernest Raddatz.

On motion made a special order of business at 2 o'clock p. m.

### **IMPROVEMENT ON COUNTY HIGHWAY C. TO BE DEFERRED.**

Supervisor Hoppe offered the following Report No. 2:

To the Honorable County Board of Supervisors of Winnebago County, Wisconsin:

Your committee on roads and bridges beg leave to report as follows:

In relation to the Oshkosh-Waukau-Berlin road, known as County Highway C., and more particularly that portion extending from Deyoe's Corners to Waukau and thence north about half way through the village of Waukau, we find it is possible this road will be placed on the state trunk highway system by the state highway commission and the legislative committee, and in case that is done, we are of the opinion that this stretch of road will be abandoned and in lieu thereof the road will be built from Deyoe's Corners across to the center of the village of Waukau on a highway now existing, and for that reason we deem it advisable for the county not to improve the said road from Deyoe's Corners east to Waukau and thence north to the place mentioned in the village of Waukau, at this time.

Respectfully submitted,

ERNEST RADDATZ,  
M. F. WHITE,  
F. W. STANLEY,  
WM. H. HOPPE,  
WM. GRIMES,  
County Road and Bridge Committee.

On motion adopted.

That, if this session of the County Board of Supervisors votes another bond issue or appropriation or both for road work, the road and bridge committee be instructed to expend 25% of the amount so voted for graveled and additional patrolling of such gravel roads as in the discretion of the county road and bridge committee most need improving.

At Christmas time the Elks bought an artificial eye for a country school boy. Within a few weeks this eye was accidentally broken, due to a drooping of the lower lid. A short time ago I made arrangements to have the boy's eye operated on, thus drawing up the lid, and as soon as all soreness and inflammation has disappeared, we will get him another artificial eye through some relief organization.

Miss Winsey worked until Jan. 15, 1923, and I started my work on that date. Following is my report from that time to Nov. 1:

In submitting this report, it may be well to dwell a few moments on the public health program:

We realize that it is the right of every child to be well when born, and it is the duty of every citizen in a community to maintain that right. We all realize that the foundation stone for a public health program is with the children for this reason—a great part of a nurse's time is spent in the school and making home calls in regard to the children.

Number of home calls made ..... 370

This was in regard to 583 babies, school children, expectant mothers, tuberculosis cases, and crippled children.

Shortly after I came to the county the state reeducational board held a bone clinic or clinic for crippled cases, with Dr. Gaenslen of Milwaukee as the examining physician. I was able to locate only three crippled children in the rural and village districts at that time, and two of these attended the clinic. The other one was ill at the time, so was unable to go.

One of these cases was a boy about sixteen years of age, who had his hand amputated in an accident. Since he had had only fifth grade work, his future as an independent, self-supporting citizen was not very promising. At present he is attending a village school, taking up manual training, arithmetic and a few other subjects. Then it is the plan of the state board of reeducation for the handicapped to teach him a trade or job that he can become efficient at with one hand, and thus be an independent, self-supporting citizen.

When roads opened up in the spring so I was able to get into the rural schools, I made a list of all crippled or handicapped people. I located nineteen crippled cases and two cleft palate and hair lip, and seven serious eye cases which were in need of attention.

One of the bone cases was a girl thirteen years of age who was unable to walk on her heel. Her toes would touch the floor, so it was rather difficult and tiresome for her to walk any great distance. I called on her parents and they promised that they would take her to a physician to see if any correction could be made. They responded and as usual I made a second call within a few weeks to do some more urging, and when I called the second time, the correction had been made. The girl walks on her heel. I interviewed the doctor and we have shown the teacher, the girl and the parents how she should exercise, so as to reduce the stiffness in the ankle, as you all realize that after ten or eleven years of no use of the ankle, that it would be rather stiff, but she walks with but very little stiffness.

Two of the other crippled children are waiting their turn to enter the hospital for corrective work; also one cleft palate case is to go soon.

I do not secure consent from parents to have bone defects corrected the first time I make a home call. It takes a great many calls, but believing in the old adage, "If you don't first succeed, try, try again," I am still following up the other fourteen cases.

One little boy I found in school, rather lame, and the teacher reported that he had become more lame during the year. A home call was made, urging medical care, and arrangements had been made for a physician to see the boy on the following Monday, and on the Saturday before the father brought the boy in to me, to see if I could get medical help for him, as they could not afford the care that he should have. I called Dr. Lockhart and he very willingly examined the boy and we found that an old wound he had, had recently opened up. Upon taking an X-ray we found a tuberculous condition of the bone. Drs. Lockhart and Clark operated on the boy free of charge, and the hospital made the bill reasonable, so the father was able to pay that part. As soon as the boy was able to leave the hospital we had him admitted to the sanatorium.

I could enumerate to you many very interesting cases, and I know that every township or village has among its citizens some person, possibly more than one, who is blind, crippled, has tuberculosis or some other serious physical defect that could be corrected if noted in time.

A chest clinic was held in Oshkosh in February, of which the people in the rural districts might take advantage, but due to one of the numerous blizzards, only two people from the county attended. They were both diagnosed as suspicious tuberculosis. Both immediately received instructions from their family physician. I have kept in touch with them since.

In August a chest clinic was held at Omro and Winneconne, one day each place, and sixty-seven people were examined. The findings were:

Four presumptive or active tuberculosis.

Five suspicious tuberculosis.

Four healed or inactive cases.

Besides these many other defects were found and recommendations were made for corrective work.

I have followed up these tuberculosis cases and found the results are very satisfactory. All but one have consulted their family physician, and all are taking proper precautions to prevent the spread and to effect a cure. These two clinics were financed by the Red Cross in both communities.

When I make a call on a tuberculosis patient, I teach them how to take their temperature if the doctor recommends that. We usually obtain a specimen of sputum. I give the patient and family instructions as to proper care of the patient and also how to protect other members of the family, emphasis being made as to rest, food, fresh air, and to the disposal of the sputum. According to case records on file in the office, I find twenty-four reported cases of tuberculosis and none of that number are healed or inactive cases which once were active cases.

Of course we all know that many cases of tuberculosis are not found until quite advanced, and one big feature of health work is urging yearly physical examination, so early signs of lung, heart and kidney trouble can be found.

The available figures for tuberculosis death rate have been reduced from 2,509 in 1908 to 1,809 in 1922. If the death rate had not been cut down during those years, we would have lost 1,100 people more from tuberculosis in the year 1922 than we did.

During the school year 1922-1923 all schools were visited and all pupils present were inspected, weighed and measured.

An eye clinic was held at Winneconne on June 23, with two eye specialists and a corps of workers assisting. One hundred twenty-seven were examined. Of this number, 100 received recommendations of some sort in regard to their eyes. Three school children were found to be in a rather seri-

ous condition, and they were urged to have corrective work very soon, as there was a possibility of their losing their eyesight. They have had their corrections made, but I still keep in touch with them.

A girl who attended the clinic had strabismus or cross eyes. It was hard for her in school. After the clinic we had her eyes straightened and she now has resumed her school work.

Three children of school age were at the clinic who were practically blind. One of these was referred to the school nurse of the city in which she lives; one is to have his operation at Christmas time, and I am still hoping that the parents will consent to have the other child's eyes taken care of.

Many calls come from the teachers to visit their schools because some child is at home ill or some child's eyes are poor, and I have endeavored to answer these calls at once, as it is only through early recognition of a disease that we are able to reduce illness and mortality and loss of school attendance.

No health work was carried on at the county fair, as Mrs. Smith, a member of the public health committee, and I went to the fair grounds and we felt that the space available for the work was inadequate and unsuitable. We hope that next year a change may be made in the ladies' rest room, making it more private and quiet, and having chairs and cots there, so some work while health program can be carried out.

Several groups of women have sent in petitions asking for the child welfare special for next year, and I believe we will secure this for our county for at least two weeks' work some time during the summer. As you know, this child welfare special will come to our county without any additional expense, and it carries a physician and nurse with it. They examine all pre-school children, giving instructions to the parents.

You may wonder if there is need of that form of work here. In compiling statistics we find that the death rate of babies under one year is such that 67 babies die out of every 1,000 live births. This is only under one year of age, and is not including our three cities. Should we not do something?

A county health officers' meeting was held early in August. Nine of the township health officers attended and considerable interest was shown in health rules and regulations. I hope to have another meeting this coming year.

I hope to be able to visit all rural schools within the next few months, then to inspect the two village schools and to put across some definite health work in every school; also to make home calls in regard to children having marked physical defects.

This year I have left a communicable disease chart, rules and regulations of contagious diseases, and rules and regulations of skin diseases with each teacher as I visit the school, which they can refer to, also urging each one to call me in case of illness, so that follow-up work can be carried on.

A great deal of credit is due the teachers and parents in aiding in health work, as it is only through co-operation that results can be obtained.

I hope to have closer co-operation in the future. Then our results will be greater.

### SUPERVISING TEACHERS' REPORT.

Elizabeth King offered the following Report No. 16:  
To the Honorable County Board of Supervisors of Winnebago County, Wisconsin.

Gentlemen: The year for the supervising teacher begins in August and consists of ten months, ending some time in June. The work of this teacher is under the direction of the county superintendent of schools and consists of several lines. First in importance is visiting schools to find out in regard to buildings, equipment and supplies; to assist and advise the teachers in regard to school organization, classification of pupils, course of study, meth-

ods of teaching, and care of buildings and materials. Members of school boards and school patrons are visited to confer on matters of interest of the school. All teachers' meetings and institutes held in the county are attended, and such assistance rendered there as the county superintendent may direct. Evening meetings in school houses, such as school programs and community gatherings, are participated in when possible.

Once each year the state superintendent of public instruction calls a conference of supervising teachers at Madison for one week. There directions for the work and plans and suggestions are given by the members of the state department.

In addition to this, the supervising teachers of the state have a separate organization of their own, the purpose of which is to help better the supervision of rural schools. Three times a year this organization issues an Exchange, a paper devoted to rural school supervision.

No figures were available to show exactly how many visits were made in 1922-23, but it may be of interest to know how the first three months of 1923-24 have been spent.

The supervising teacher went on duty Aug. 16, 1923. Since that time all Saturdays have been spent in conferences with the superintendent and rural teachers at the office. One week was spent at Madison at the state conference; three days at the state fair in charge of the girl who won in the county spelling and arithmetic contests and was therefore sent to the state contest.

Two days were given to assisting at the county institute, Aug. 31 and Sept. 1; two days to arranging and caring for the county school exhibit and two to judging a school exhibit at the county fair.

Since schools opened Sept. 3 nearly all school days have been used in visiting rural schools. In nearly every case the visit is for one-half day of school and as much more time as may be needed for conferences with teacher, board, and patrons.

| Calls on board members and patrons .....                       | 10  |
| Number of days spent at teachers' meetings and institutes..... | 4   |

After each visit made, the county superintendent sends to the clerk of the district and to the teacher a copy of the report of that visit with such suggestions as he may deem necessary in regard to building; equipment, or the work of the teacher.

In regard to the financial support:

Between the first and the tenth days of July each year the county superintendent must file with the state superintendent a report of the salary and expense of the supervising teacher, after which the county is reimbursed from the state treasury for all money paid out for such salary and expenses.

It might appear that since under the present law all teachers must have training before they may begin to teach, it should not be necessary to give them more supervision than the county superintendent can do. But such is not the case. Every employer of labor knows that every employee needs constant supervision. The city schools have long had thorough supervision of their teachers, but the rural schools have had much less, for it is not possible for one person to do much with more than 100 schools located miles apart. The work is not entirely satisfactory when he has one assistant, for as can be seen she cannot visit each teacher oftener than once in three or four months. The younger and less experienced teachers receive the earliest and most frequent attention, but even at best every supervising teacher feels that the real need is for more and still more supervision of rural schools.

 ELIZABETH M. KING.

Oshkosh, Wis., Nov. 15, 1923.

To the Honorable, the Board of Supervisors of Winnebago County, State of Wisconsin.

Gentlemen: Your committee on county fair makes the following report and recommendations:

- 1—That the report of the secretary of the Winnebago County Fair Association be received and placed on file.
- 2—That \$1,000 be paid on the contract with Nevitt Brothers.
- 3—That \$2,000 be appropriated for the maintenance of the county fair.
- 4—That the sum of \$3,000 be appropriated for the permanent improvements on the county fair grounds, such improvements to be located on the land belonging to the county or contracted for by the county.

under the head of county fair, and the county fair make the adjustment of funds with the poultry associations.

Be it further resolved that the above mentioned sums be placed in the county budget for 1924, to be paid out on the order of the county clerk upon written recommendation of the county fair committee, and chairman of the County Board.

### AFTERNOON SESSION—1:30 P. M. REPORT NO. 19—ANNUAL REPORT OF COUNTY AGRICULTURAL AGENT:

To the Honorable County Board of Supervisors of Winnebago County, Wisconsin.

Gentlemen: I herewith submit the annual report of the county agricultural agent for the year ending Oct. 31, 1923, in the form of a brief summary of the most important lines of work carried on and results accomplished.

GUSTAV SELL,

County Agricultural Agent.

#### 1. Greater Use of Pure Bred Sires—

Your agricultural agent held seven pure bred bull sales in co-operation with the three county breeders' associations. Eighty animals were sold. Some went to men that never had a pure bred before.

Agricultural statistics collected by our assessors as of May 1 this year show over 1,000 farmers using pure bred sires. As this part of the form was new, we doubt that this is the full number. Yet it is greater by nearly 300 than the number of farmers reporting last year as owning a pure bred sire.

#### 2. Dairy Cattle Marketing—

As reported last year, most of this work has been gradually done more and more through the various breeders' associations. But instead of narrowing our field of service, this development widens it very greatly, for we have a number of trained, reliable men now to take buyers around and make satisfied customers. Through this system more cattle have been sold out of the county with less time and travel expense on the part of your county agricultural agent.

#### 3. Cow Testing Associations—

Assistance was given in reorganizing two of our three cow testing associations, and other services rendered. All three associations are doing nicely. The Wolf River association last year ranked sixth in average butterfat production among all cow testing associations of Wisconsin, 126 in number. Some preliminary work has been done towards starting another association before snow flies.

#### 4. T. B. Clean-up—

A drive was made last winter to secure names on petitions for a county area test. Good progress was made, over 1,000 signatures of cattle owners secured, when closing of roads and difficulty of getting petitions circulated in certain sections halted this work. Plans now in the making contemplate more educational work and another drive to get the required 60% of cattle owners on these petitions to favor the county wide test of cattle. When last year T. B. was found in 86 of the 270 herds tested, it seems high time to give serious thought and effort towards concerted action to stamp out or at least reduce this prevalence of this disease.

#### 5. Swine Improvement—

One project of pigs self fed on pasture was carried on with results that were very gratifying in showing the economy of this method.

A "ton litter" contest was conducted by the county agent with the help of a swine specialist and the co-operation of the county fair. The latter offered good premiums for the best litters. This encouraged trying to save pigs, raise large litters, and to feed for rapid gains because they are the cheapest gains. Considerable interest was taken in this contest, and prom-

ises are of much greater interest another year.

#### 6. Poultry Culling—

Seven demonstrations in this were given this current year. Average attendance was from fifteen to twenty. As a result of such demonstrations the last few years, hundreds of Winnebago county farmers have learned how to cull their hens, and their flocks are showing improvement. The demand for this work is such that perhaps nearly twenty demonstrations will be held this fall yet.

#### 7. More Alfalfa—

Our acreage in this queen of dairy hays made another marked increase, going from 4,709 to 7,240 acres. This is no doubt due in part to the seed order pool conducted by the Farm Bureau and in which the county agent co-operated. The pool combined the orders of most of the co-operative groups as well as individuals, gave them all the benefit of a quantity price, and assured them of good seed. Orders for about 30,000 pounds of alfalfa seed were pooled, and the seed handled by local agencies.

#### 8. Emergency Hay Crops—

There was no occasion for a great drive on emergency hays last spring. A few farmers, however, whose clover and alfalfa killed out, found soy beans and Sudan grass, alone or mixed, a practical substitute. But next spring, on account of the poor clover catch this summer, there undoubtedly will be lots of places for these two crops to help out in the emergency and supply our dairymen with some legume hay.

#### 9. Orchard Improvement—

Seven pruning demonstrations were held in early spring with the assistance of an orchard expert. Two spray rings were formed with twenty-one orchards. It was quite fully demonstrated that the average farm orchard can produce good, clean fruit for home use and for sale at a profit. Here are the facts on the Clemansville spray ring:

|                                 |         |

| Average number of trees .....   | 31      |

| Average value fruit sold .....  | \$35.00 |
| Average cost of spraying .....  | 8.45    |

Three apple grading demonstrations were held in season to get this fruit in right shape for market. And as a wind-up an apple grading exhibit was put on at the fair. This attracted a great deal of attention and no doubt will start more home orchard owners on the way to getting good, clean fruit instead of the "apple worm hash" they have mostly been getting.

#### 10. Drainage—

Tiling systems were laid out and complete surveys made therefor on six farms; about 23,000 feet of tile was put in there.

On other places preliminary surveys were made.

A number of miscellaneous leveling jobs were done, such as laying out cellar drains, open ditches, etc.

#### 11. Home Grounds Beautifying Demonstrations—

Three demonstrations have been carried on in this for some four years under F. A. Aust, professor of landscape design at the "U." More plantings were made this year. Another season we can likely hold demonstration meetings at these places.

#### 12. Women's Clothing Groups—

Four classes or groups of women were organized this fall for practical instruction in clothing work by a home economics specialist from the "U." The work includes testing of materials, making of dress forms, using patterns, making over clothes, etc. These classes are now meeting, and beginning to carry the ideas back to their friends. If there is anyone that deserves a little encouragement in their work, and some help in planning to do it the easiest possible way, it certainly is the overworked farm women.

13. Perhaps the most valuable piece of work done all year was the organization of the Fox River Valley Co-operative Storage Company for the purpose of handling cheese to be sold co-operatively through the Wisconsin Cheese Producers' Federation. The Farm Bureau had initiated the movement, and a county-wide committee had charge of the work. The county agent was called into more direct participation last spring on the final drive and helped the committee make plans, arrangements, meetings and drives. Enough cheese has been signed up to make for economical operation of the warehouse at Neenah; over \$10,000 worth of stock has been sold in the warehouse company. Contracts have been let; and the building is going up right now. It is our hope, and that of the far-sighted farmers behind this movement, that by co-operative marketing we may improve not only marketing

conditions, but also the quality of the product, and thereby merit somewhat better returns for the producer.

The work in connection with the rural communities has been most interesting both from the point of view of education as well as from the social phase. Since the last County Board meeting many improvements have been made in the equipment of the schools.

#### Improvements.

Many of the schools have the new single steel adjustable seats and desks, adjusted for the comfort of the child. The office is urging that more of these seats be provided. Lighting and heating as well as ventilation of a number of schools have been greatly improved. There are only a few schools left to be supplied with playground apparatus. Outbuildings, though not satisfactory in every instance, have been repaired and placed in a sanitary condition. Reference books, supplementary readers and suitable seat work have been supplied.

#### New Nekimi School.

In the town of Nekimi, what is known as the Jackson School is nearing completion. The building is supplied with the proper lighting, heating and toilet facilities. The district merits a great deal of credit for having erected one of the most modern rural school buildings in Wisconsin.

#### Consolidation.

There is a great tendency to accept the progress of consolidation as a

fair measure of the progress of rural school education. The cost of consolidation is not unreasonable, which is governed largely by local conditions. Meetings were held during the year to discuss the feasibility of consolidation, and we find many people in favor of it. There is in Wisconsin, however, a movement which is quite as important and effective. That is the gradual development of one room rural schools into graded schools. There are now more than 600 of these graded schools, about two-thirds of which have two teachers, the rest three or more.

Only 20% of our rural teachers are graduates of normal schools. On the other hand, 35% of the state graded school teachers are normal school graduates. The state graded school places itself under more careful inspection and direction by the state.

The training of the teaching force of our one-room rural schools is still far from satisfactory. No one can teach who has not had at least one year of teacher training. This training may be superimposed, until 1925, upon two years of work beyond the grades; after that until 1927 upon three years of work beyond the grades; after that upon four years of work beyond the grades.

Only 7% of the total cost of maintaining our elementary and high schools is state aid. In five states the percentage of state aid is about 40. In Texas, the state aid is 54%.

The benefits of consolidation may be summed up as follows: The graduates, at least between eighty and ninety per cent, would receive their training at home, under home influences. The cost is relieved somewhat because of state aid. Courses of study could be provided which are specially adapted to their needs. Children as citizens of the state have a moral right to the same educational opportunities.

#### **County Nurse.**

Social health surveys tell of a distressing absence of health education and of inadequate enforcement of health laws. They reveal much parental ignorance and lack of control, and a record of youthful lives stunted because of undernourishment and disease. The county nurse is very competent and is accomplishing gratifying results. We feel that more can be done if she has the hearty co-operation of every parent and patron in the county.

#### **Parents Visit School.**

It is recommended that parents visit school at least once a year. Every parent who is vitally interested in the welfare of his or her child, should make it a point to visit school. Complaints are only justified after a visit has been made.

#### **Warm School Lunches.**

The idea of warm school lunches has been fostered for a number of years. About one-third of the schools were active in this regard last year. The teachers are willing to take charge without additional pay. I am in hopes that all of the schools will have warm lunches this winter.

#### **Salaries.**

In many counties the teachers have demanded minimum wages based on training and experience. It would be fairer to base the salary on local conditions. The office is only too willing to keep school boards informed as to possible candidates.

#### **County Fair.**

Interest is developing in the educational department for the Winnebago County Fair. A revised premium list will be published soon. It is hoped that every school will be represented at the fair next year, with at least a few educational exhibits if not a school exhibit. Our biggest handicap in showing an exhibit of any size is lack of space. The most desirable arrangement would be to have a separate educational building so as to take in Omro, Winneconne, Neenah and Menasha. We ask the co-operation of the citizens and especially the County Board in this regard.

#### **Committee on Common Schools.**

I am truly sorry to learn that the committee on common schools has been done away with. There should be an active committee in the county for the superintendent to rely upon. I am informed that there is an educational committee of the County Board. I shall be very glad to co-operate with them in regard to educational matters.

#### **Teachers' Meetings.**

Several teachers' meetings were held the past year. A two day institute was held Friday and Saturday before the opening of school, at which

the plans for the year were outlined and methods of teaching discussed. Some arrangement should be made so that the teachers could attend either the Northeastern Teachers' Association of the State Convention, or both. If the teacher attends both, the school board should allow her expenses.

#### Traveling Library.

There are at the present time about fifty boxes of books which are each year sent out to the various villages and schools and may be exchanged at the end of the year. We find that many schools have had a set of books for a longer period than is desired. The state is also making it possible for the schools to have a set of twenty-four well graded books for a period of six weeks for the small sum of 25c. We feel sure that the Oshkosh Public Library is open to the service of the public at any and all times.

#### Certification of Teachers.

It is to be noted under the present statutes that the superintendent of the county in which a training school or department is located must grant a certificate to those who complete the rural teacher-training course. A superintendent may establish for his county, subject to the approval of the state superintendent, a standard of attainment in each branch of study which must be reached by each applicant before receiving a certificate. This makes it possible to fix seventy-two different standards of attainment in the state.

If it is the function of the state to train public school teachers, then it is also a state function to certify them.

I believe that the recommendations made by Mr. Anderson, assistant state superintendent, would help to solve the above difficulty.

1. All teachers' certificates should be issued by the state superintendent upon recommendation of the state board of examiners.

2. All such certificates issued should be valid throughout the entire state.

3. The subjects required for certification should be fixed by the state superintendent and not specified by statute. (This would make possible the reorganization of rural teacher training curricula without legislative enactment)

4. The minimum educational and professional qualifications for rural teachers should be fixed by statute. The state superintendent of public instruction should be authorized to issue regulations from time to time raising these qualifications as the visible supply of teachers makes it possible.

### COMMITTEE REPORT ON RESOLUTION NO. 3.

Supervisor Young offered the following Report No. 27:

To the Honorable County Board of Supervisors of Winnebago County.

Gentlemen: Your poor committee, to which was referred Resolution No. 3, providing for an extra nurse at the county poor farm, beg leave to report as follows:

Your committee has given the matter consideration and has been in conference with the superintendent of the county home. We believe that the purpose of the resolution is to permit and encourage sending persons to the county poor farm who are ill with contagious and infectious diseases and whose presence at the county poor farm would menace the health and safety of other inmates.

We report further that in our opinion the expense to the different municipalities of maintaining the patients there under the care of a nurse would approximate the cost of sending such patients to a hospital where they would have even better care.

We therefore report that in our opinion it would not be to the best interests of the county home and the inmates thereof to provide a nurse and permit the presence there of sick persons, many of whom might be in a condition to spread disease among the inmates.

Dated Nov. 15, 1923.

Respectfully submitted,

GEO. B. YOUNG.

On motion received and placed on file.

**ILLEGAL TAX CERTIFICATES.**

Carroll H. Larrabee offered the following Petition No. 10:

To the Honorable Board of Supervisors of Winnebago County, Wisconsin:

Your petitioner, Carroll H. Larrabee, respectfully represents that he, on behalf of Winnebago county, is the lawful owner and holder of tax certificate No. 46, of the sale of 1920, which said certificate was sold to Winnebago county on the 8th day of June, 1920, for unpaid tax of 1919. The property described in said tax certificate is as follows: Oshkosh, The Orchards, Lot 44, which tax certificate is hereto attached and made a part of this petition. The petitioner further represents that said tax of 1919 was paid to the treasurer of the Town of Oshkosh by Mrs. P. Kelsch, Feb. 21, 1920, receipt No. 439. The said tax certificate is therefore illegal and your petitioner prays that the amount paid by your petitioner for said tax certificate, being three dollars and twenty-six cents (\$3.26), be refunded to said petitioner with interest at the rate of 7% per annum from the date of sale, and the amount refunded be charged back to the Town of Oshkosh. Also:

Your petitioner, Carroll H. Larrabee, respectfully represents that he, on behalf of Winnebago county, is the lawful owner and holder of tax certificate No. 860, of the sale of 1923, tax of 1921. The property described in said tax certificate is as follows: City of Oshkosh, First Ward, W. W. Wright's Third Addition. W 17 ft. of lot 7, and w 17 ft. of n 64 ft. of lot 26, and canal 29 ft. by 154 ft. n and s, block 301, which said tax certificate is hereto attached and made a part of this petition. The said tax certificate is erroneous and void for the reason that the lots described are located in Fletcher's Subdivision of lots 6 and 50 instead of W. W. Wright's Third Addition. Your petitioner prays that the amount paid by your petitioner for said tax certificate, being one hundred sixty dollars and ninety-four cents (\$160.94), be refunded to said petitioner with interest at the rate of 7% per annum from the date of sale and the amount refunded be charged back to the City of Oshkosh. Also:

Your petitioner, Carroll H. Larrabee, respectfully represents that he, on behalf of Winnebago county, is the lawful owner and holder of tax certificate No. 391, of the tax sale of 1923, tax of 1922. The property described in said tax certificate is as follows: City of Neenah, Third Ward, Jones' Plat of the Island, 40 ft. east of Mrs. Mary Runde, lot 7, block 9, which said tax certificate is hereto attached and made a part of this petition. The said tax certificate is erroneous and void for the reason that the property described therein is indefinite. Your petitioner prays that the amount paid by your petitioner for said tax certificate, being one hundred three dollars and ninety-nine cents (\$103.99), be refunded to said petitioner with interest at the rate of 7% per annum from the date of sale, and the amount refunded be charged back to the City of Neenah.

Dated Nov. 17, 1923.

CARROLL H. LARRABEE, County Treasurer.

State of Wisconsin, Winnebago County, ss.

Carroll H. Larrabee, being duly sworn, on oath says that he, on behalf of the county, is the petitioner above named, and that he has read the above and foregoing petition, and knows the contents thereof, and that the same is true to the best of his knowledge and belief.

#### MATTER OF SNOW REMOVAL.

Supervisor Hoppe offered the following Report No. 39:

To the Board of Supervisors of Winnebago County, Wisconsin.

Gentlemen: Your county road and bridge committee, which has had under consideration the matter of snow removal for the ensuing winter, beg leave to report as follows:

1. We report that there is a persistent and ever growing demand that snow be removed from the concrete highways of the county, and that your committee feels that reasonable effort should be made to keep these highways passable so far as possible, by removing the snow therefrom.

Your committee reports, however, that the county is not equipped with machinery large enough or strong enough to successfully remove snow and that the county should acquire a 10-ton tractor to be used in removing snow and for scarifying work and other work in the summer, the fact being that the county is short of heavy machinery for scarifying work also.

The committee feels that in order that machinery may be acquired which can remove the snow successfully and be used for other purposes during the remainder of the season the sum of \$15,000.00 should be appropriated by the county for these purposes.

### ILLEGAL ASSESSMENTS.

Supervisor Korotev offered the following Report No. 42:

To the County Board of Supervisors of Winnebago County, Wisconsin.

Gentlemen: The committee on illegal assessments, to which was referred the claim of the City of Oshkosh for \$612.10 as a refund of a part of the penalties charged by the county against the City of Oshkosh on the delinquent personal property tax of the Molle Typewriter Company for the year 1920 and paid by the City of Oshkosh, beg leave to report as follows:

We find that the Molle Typewriter Company since the collection of said tax and penalty has gone into bankruptcy. That the tax assessed by the City of Oshkosh was found excessive and incorrect by the referee in bankruptcy, causing a loss of a considerable amount to the City of Oshkosh by reason of the excessive tax collected from said company. We therefore think that in justice to the city the said claim should be allowed. It already has the approval of the district attorney and the county treasurer.

#### II.

With reference to the petition of the City of Neenah relative to the tax on its dumping grounds, located in the Town of Menasha, we are of the opinion that said lands are exempt from taxation by the Town of Menasha and that said assessment is illegal, and we recommend the granting of the petition of the City of Neenah.

#### III.

With reference to the petition of the Oshkosh Council of Boy Scouts relative to the taxes for 1922 on the Boy Scout hut in the Town of Black Wolf, it is our opinion that said property comes under Section 70.11 of the Statutes and should be exempt from tax, and we recommend that the petition be granted.

IV.

With reference to the petition of Leon Block for the refund of an income tax paid twice by him through error, we recommend that the petition be granted.

V.

With reference to the Methodist Episcopal Church of Omro to have cancelled and set aside certain tax certificates issued against the property located in the Village of Winneconne for the sale of 1921, we find that at the time said taxes were assessed and taxed that the lands in the Village of Winneconne were owned by the Omro church and used wholly for religious purposes and were exempt from taxation. We recommend that the petition be allowed.

Your committee reports further with respect to the tax on the property of the Wisconsin Central Railway in the Fourth ward, City of Menasha, being subdivision of lot 15, of block 55, the abandoned right of way across lot 17 except the north 66 feet of lot 17, block 55, and also subdivision of lots 14, 15 and 16, block 55, the 100 feet north and south next south of the north 66 feet of lot 16, on the abandoned right of way of lot 16, block 55, that the said property appears to be in the name of the Wisconsin Central Railway Company and is therefore not subject to a regular local tax, and that the tax should be cancelled and the amount thereof charged back to the City of Menasha in which said property lies.

With reference to the petition of the City of Neenah for payment to it of the penalties and interest accrued on the taxes on the Brokaw property, the committee reports that the failure to pay such interest and penalties was not in any way the fault of the City of Neenah, and we recommend that such interest and penalties be repaid to said city.

RHINE GRUNSKA,  
CHARLES HAASE,  
GEORGE SPORE,  
EDWARD ZENTNER.

**PETITION—U. S. TRACTOR AND MACHINERY CO.**

Chairman Loescher read the following Petition No. 13:

To the Honorable, the County Board of Supervisors of Winnebago County, Wisconsin:

The petition of the Wisconsin Automotive Corporation, formerly the U. S. Tractor and Machinery Company, of Menasha, Wis., respectfully alleges and shows as follows:

1. That your petitioner is indebted for personal property tax, interest and penalties for the years 1921 and 1922 in the sum of \$3,554.19, and for its real estate tax for said time with penalties and interest in the sum of \$2,846.09, making a total of \$6,400.28.

2. That during said years the property of your petitioner was over-assessed and the said tax so levied was far more than was equitable, just and lawful.

3. That upon a proper showing before the city council of the City of Menasha during the summer of 1923, the said city voted to remit to your petitioner \$2,000.000 of its said tax on the ground that said tax was unreasonable, unjust and too high.

4. That your petitioner is not able to raise the money with which to pay the full amount of said tax, but if permitted to do so it can raise the money to pay all of said tax except the interest and penalties thereon.

Wherefore, your petitioner prays that your honorable body remit the interest and penalties on said tax and that your petitioner be permitted to pay the said tax after deducting the interest and penalties.

Signed, WISCONSIN AUTOMOTIVE CORPORATION,

By A. F. Reinecke, Manager and Assistant Secretary.

**ILLEGAL ASSESSMENTS.**

Supervisor Korotey offered the following Report No. 56:

To the Honorable, the County Board of Supervisors of Winnebago County, Wisconsin.

Gentlemen: Your committee on illegal assessments beg leave to report that we have had under consideration the petition of Carroll H. Larrabee, county treasurer, for the cancellation of tax certificates, which reads as follows, viz:

To the Honorable Board of Supervisors of Winnebago County, Wisconsin:  
Your petitioner, Carroll H. Larrabee, respectfully represents that he,

on behalf of Winnebago county, is the lawful owner and holder of tax certificate No. 46, of the sale of 1920, which said certificate was sold to Winnebago county on the 8th day of June, 1920, for unpaid tax of 1919. The property described in said tax certificate is as follows: Oshkosh, The Orchards, Lot 44, which tax certificate is hereto attached and made a part of this petition. The petitioner further represents that said tax of 1919 was paid to the treasurer of the Town of Oshkosh by Mrs. P. Kelsch, Feb. 21, 1920, receipt No. 439. The said tax certificate is therefore illegal and your petitioner prays that the amount paid by your petitioner for said tax certificate, being three dollars and twenty-six cents (\$3.26), be refunded to said petitioner with interest at the rate of 7% per annum from the date of sale and the amount so refunded be charged back to the Town of Oshkosh.

Also: Your petitioner, Carroll H. Larrabee, respectfully represents that he, on behalf of Winnebago county, is the lawful owner and holder of tax certificate No. 860, of the sale of 1923, tax of 1921. The property described in said tax certificate is as follows: City of Oshkosh, First Ward, W. W. Wright's Third Addition, W 17 ft. of lot 7, and w 17 ft. of n 65 ft of lot 26, and canal 29 ft. by 154 ft. n and s, block 301, which said tax certificate is hereto attached and made a part of this petition. The said tax certificate is erroneous and void for the reason that the lots described are located in Fletcher's Subdivision of Lots 6 and 50, instead of W. W. Wright's Third Addition. Your petitioner prays that the amount paid by your petitioner for said tax certificate, being one hundred sixty dollars and nine-four cents (\$160.94), be refunded to said petitioner with interest at the rate of 7% per annum from the date of sale, and the amount refunded be charged back to the City of Oshkosh.

Also: Your petitioner, Carroll H. Larrabee, respectfully represents that he, on behalf of Winnebago county, is the lawful owner and holder of tax certificate No. 391, of the tax sale of 1923, tax of 1922. The property described in said tax certificate is as follows: City of Neenah, Third Ward, Jones' Plat of the Island, 40 ft. east of Mrs. Mary Runde, lot 7, block 9, which said tax certificate is hereto attached and made a part of this petition. The said tax certificate is erroneous and void for the reason that the property described therein is indefinite. Your petitioner prays that the amount paid by your petitioner for tax certificate, being one hundred three dollars and nine-nine cents (\$103.99), be refunded to said petitioner with interest at the rate of 7% per annum from the date of sale, and the amount refunded be charged back to the City of Neenah.

Dated Nov. 17, 1923.

CARROLL H. LARRABEE,  
County Treasurer.

State of Wisconsin, Winnebago County, ss.

Carroll H. Larrabee, being duly sworn, on oath says that he, on behalf of the county, is the petitioner above named, and that he has read the above and foregoing petition and knows the contents thereof and that the same is true to the best of his knowledge and belief.

CARROLL H. LARRABEE.

City of Neenah, Wisconsin.

### ILLEGAL ASSESSMENTS.

Supervisor Korotev offered the following Report No. 12 and accompanying resolution.

To the Honorable, the Board of Supervisors of Winnebago County, Wisconsin.

Gentlemen: Your committee on illegal assessments, after reconsidering Report No. 58, adopted by the board at its November, 1923, session, find that a portion of its said report relating to the refund of income tax to Leon Block, was erroneous. It finds that instead of the said tax having been paid twice, that the receipts cover taxes paid for two different, distinct years, 1919 and 1920, appearing on the tax rolls of 1920 and 1921. Your committee therefore recommends that that portion of Report No. 58 of the November, 1923, session relating to the refund of Leon Block be withdrawn and said claim be not allowed.

Gentlemen: Your committee on uniform accounting would respectfully report that the books have been installed in the office of the highway commission at a cost of \$608.54, of which \$71.58 was for blanks, etc., and \$536.96 was for the installation and closing of the books. In the office of the county clerk and treasurer, the installation cost was \$3,829.88, which includes books, vouchers, checks, etc. at \$301.50, and the installation and closing cost of \$3,528.38. This makes a total cost of the installation and closing of the books in the offices of the highway commissioner, county clerk and treasurer the sum of \$4,438.42.

Your committee also reports that the system is working out very satisfactorily, the sum of \$1,089.17 already having been paid into the county treasury as costs for change of venue, which under the old system would have escaped the notice of the county officers. Under the new system all

bills receivable are entered on the books, and bills are sent out from time to time on all outstanding accounts, thus keeping a complete record of all moneys due the county. In the segregation of the various accounts, it is easier to give information concerning the various county funds and affairs, and the information is more complete than it has ever been able to give heretofore.

To the County Board of Winnebago County, Wisconsin:

Gentlemen: Your committee on roads and bridges to which was referred the memorial of the city of Menasha relative to the condemnation of a portion of the Lynch farm in the construction of a highway on Route 15 to Cherry street, city of Appleton, respectfully beg leave to report as follows:

Your committee is advised that it is possible that a certain amount of federal aid may become available later for use in the construction of the proposed relocation and for that reason your committee recommends that not more than the preliminary work be done on said project and that your committee be authorized to have the survey made and estimates of the proposed cost of said construction and relocation made and that it be permitted to report all of the details of the same to this board at or before its November session so that when the federal aid becomes available the county will be in a position to get the same.

It is also the opinion of your committee that said relocation is desirable and should be made at the proper time in order to relieve the congestion of traffic into the city of Appleton and to do away with the dangers to which traffic on Route 15 is subject in the city of Appleton.

### BRIDGE OVER THE FOX RIVER, CITY OF NEENAH.

Supervisor Hoppe offered the following Report No. 20.

To the County Board of Winnebago County, Wisconsin.

Gentlemen: Your committee on roads and bridges to which was referred the matter of the bridge over the Fox river in the city of Neenah beg leave to report as follows:

It is the opinion of your committee that the bridge in question should be built pursuant to the term of Section 1321A of the Wisconsin statutes for 1921 as amended and supplemented by the laws of 1923.

Said law provides that the city may build the said bridge and that it may petition the state highway commission setting forth the necessity of building the bridge and other necessary facts required by law.

If the commission upon hearing finds that the bridge is necessary it shall locate the same and if after locating the same the bridge will be more than 475 feet long, then the commission may determine the character and kind of bridge estimated and the cost thereof and the bridge may then be built.

The expenses of the same shall be apportioned in three parts, the city in which the bridge lies to pay one-third, the county in which the city lies to pay one-third and the state of Wisconsin to pay one-third.

The law provides however that not more than six such bridges shall be constructed in any one year and it is the understanding of the committee that at the present time sufficient petitions have been filed with the highway commission so that the Neenah bridge will have to await its turn before aid could be had from the state.

Your committee therefore recommend that the matter be permitted to take its course before the state highway commission pursuant to the provision of said section of the statutes.

Dated March 5, 1924.

Brokaw paid to the county of Winnebago and city of Neenah taxes upon said property at an agreed and assessed valuation of seventeen thousand dollars (\$17,000.00) in place and instead of the assessed valuation of twenty thousand dollars (\$20,000.00), appearing upon the books of the treasurer, and

Whereas, N. W. Brokaw has paid all of the taxes due to the county on said assessment and under said stipulation settling said action, and

Whereas, in the computation of the taxes to be rebated there was an error made in which a tax of \$29.41 was omitted and which tax now still
