

October 12, 2012

To Whom This May Concern,

Hello, my name is Diane Field. I reside at 29 Olcott St. Fond du Lac, WI 54935. I am writing this letter as to ask for all, or partial reimbursment for the costs I endured as to an incident that happened on Saturday, October 6, 2012 on Highway 41, Winnebago County, due to debris on the roadway. The following is my statement on the event that occurred.

My daughter and I were heading home to Fond du Lac following a day of shopping in Appleton. We were heading southbound on Highway 41, at an approximate speed of 68-70 mph. About a quarter mile north the the Winchester exit I noticed a large rock in the middle of the middle lane ahead, which is the lane I was in. I reduced my speed to 60 mph as not to impede the traffic behind me as the traffic was heavy at the time, 3:15pm. I was unable to move into either lane as there were vehicles in both lanes. I moved to the left as much as I could, as I did not want the rock to go under my car and cause damage underneath. Unfortunately the rock hit my car and a loud noise began. I managed to veer to the right shoulder to check the damage as soon as I could, about 10-15 yards. This happened right around the Winchester exit.

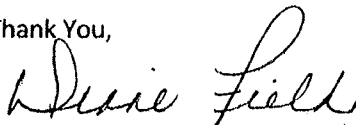

Once off the highway, onto the shoulder, my daughter proceeded to get out and assess the damage. The front passenger tire was indeed flat and there was a major dent in the rim. She saw that the rock did not go under the car and was not lodged in the car. She continued to make calls to get in touch with the Winnebago County Sheriff to see if they could assist us with changing the tire. They could not. They did call a towing company in which a young gentleman came and put our spare tire on.

Once off the highway and on the shoulder we were 1 3/4 miles north of the Breezewood exit. (Cannot remember the exit north of that). Just before signage of reduced speed to 55 mph as to road construction.

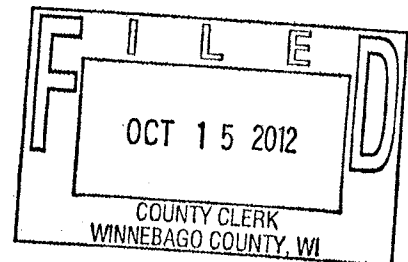

Also it is to be noted that as soon as we managed to pull over there was another car pulled over on the left shoulder. Came to find out that driver also hit the rock that we had just hit. She also had a flat tire, front passenger.

Please see attachments of receipts of damages/repairs.

Thank You,

Diane Field
