Description of Proposed Use:

Surrounding Zoning:
North: R-1;I-2
South: A-2
East: A-2
West: A-2

THE FOLLOWING INFORMATION HAS BEEN PROVIDED BY THE OWNER / APPLICANT

Describe the Proposed Use:

I am proposing to build approximately (4) storage buildings on the property. A retention pond will be required to properly disperse run off. The retention pond is proposed to be located at the northeast corner of the property (based on elevation and current drainage pattern). This location will be determined and/or proven by an engineering assessment following variance approval. The setback at the east, west and south property lines will be approximately 30-40 feet. Again, this will be based on retention pond location, size and what makes the most sense based on the engineering assessment. I would like to plant trees along the east and west lot lines to eliminate issues with crosswind and to make the property more esthetically pleasing. All buildings will be matching in color and as esthetically pleasing as possible.

Describe How the Proposed Use Will Not Have Any Adverse Effects on Surrounding Property:

All buildings and associated property will be well kept and maintained. Tree lines will be planted to eliminate view of the property by owners on east and west sides.

SECTION REFERENCE AND BASIS OF DECISION

23.7-114 Basis of decision

The town board and town plan commission of the town in which the proposed conditional use is located in making their recommendation and Planning and Zoning Committee in making its decision shall consider the following factors:

- (1) the size of the parcel on which the proposed use will occur;
- (2) the presence of and compatibility with other uses on the subject property;
- (3) the location of the proposed use on the subject property (e.g., proximity of the proposed use to other existing or potential land uses);
- (4) effects of the proposed use on traffic safety and efficiency and pedestrian circulation, both on-site and off-site;

- (5) the suitability of the subject property for the proposed use;
- (6) effects of the proposed use on the natural environment;
- (7) effects of the proposed use on surrounding properties, including operational considerations relating to hours of operation and creation of potential nuisances;
- (8) effects of the proposed use on the normal and orderly development and improvement of the surrounding property for uses permitted in the zoning district and adjoining districts; and
- (9) any other factor that relates to the purposes of this chapter as set forth in s. 23.1-5 and other sections as may apply.

In the event the conditional use being proposed is an adult-oriented establishment, the above-named decision-making bodies shall not consider the nature of expressive conduct protected by the U.S. Constitution with regard to any of the above-mentioned criteria.

(b) **Zoning map amendment initiated by a property owner.** If a proposed zoning map amendment is initiated by a property owner and would change the zoning classification of a parcel not classified as A-1, the Planning and Zoning Committee in making its recommendation and the Board of County Supervisors in making its decision shall consider the following factors:

If a proposed zoning map amendment is initiated by a property owner and would change the zoning classification of land classified as A-1, the Planning and Zoning Committee shall only recommend approval and the Board of County Supervisors shall only approve the proposed amendment when all of the following findings can be made:

- (1) Such land is better suited for a use not otherwise allowed in the A-1 district.
- (2) The amendment is consistent with the county's comprehensive plan.
- (3) The amendment is substantially consistent with the county's farmland preservation plan as certified by the Wisconsin Department of Agriculture, Trade and Consumer Protection.
- (4) The amendment will not substantially impair or limit current or future agricultural use of other protected farmland in the area.

The special requirements stated above relating to the rezoning of land in a A-1 district do not apply to a map amendment that (1) is certified by the Wisconsin Department of Agriculture, Trade and Consumer Protection under ch. 91, Wis. Stats., or (2) makes the zoning map more consistent with county's farmland preservation plan map, certified under ch. 91, Wis. Stats., which is in effect at the time of the amendment.

(c) Zoning map amendment initiated by the county. If a proposed zoning map amendment is initiated by the county, the Planning and Zoning Committee in making its recommendation and the Board of County Supervisors in making its decision shall consider the following factors:

- (1) whether the amendment is consistent with the county's comprehensive plan, including any future land use maps or similar maps;
- (2) whether the amendment is consistent with other planning documents adopted by the Board of County Supervisors; and
- (3) any other factor not specifically or generally listed, but deemed appropriate by the committee or board given the particular circumstances.
