Winnebago County Health Department Monkeypox Data Summary

September 2, 2022

Monkeypox Snapshot

Data updated on Wednesday, August 31

Winnebago
County:

2

+0 cases
since 8/24/22

Wisconsin:

59

+3 cases
since 8/23/22

United States:

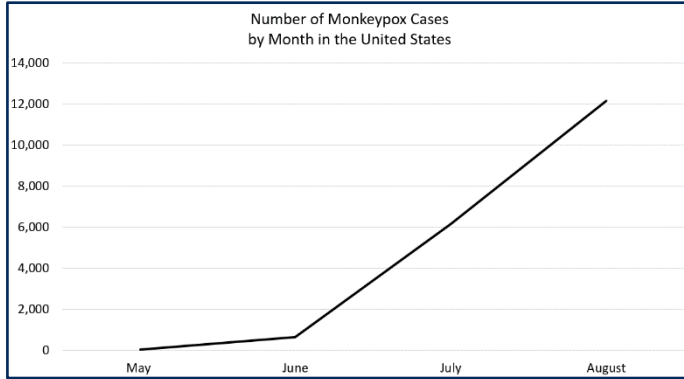

18,989

+3,080 cases
Since 8/24/22

Key Points:

- Monkeypox does not spread easily to others, and the risk of monkeypox spreading widely throughout our community remains low.
- Getting [vaccinated](#) (if eligible), asking your healthcare provider [to test you](#) if you have [a rash](#) consistent with monkeypox, and [isolating](#) if infected continue to be important tools in reducing spread of the virus.
- Winnebago County Health Department is currently offering the JYNNEOS monkeypox vaccine, by appointment only, to individuals at the highest risk of infection based on the [Wisconsin Department of Health Services](#) prioritization. To make an appointment or see if you are eligible, call 920-232-3026 or email wchd.cd@winnebagocountywi.gov.
- For questions or concerns regarding Monkeypox, visit the Winnebago County Health Department website or call the Health Department Hotline at 920-232-3026.

Monthly Case Counts in the United States

12,182
Cases in August

6,169
Cases in July
