Winnebago County Health Department Monkeypox Data Summary

September 30, 2022

Monkeypox Snapshot

Data updated on Wednesday, September 28

Winnebago County:

2

+0 cases
since 8/24/22

Wisconsin:

75

+7 cases
since 9/14/22

United States:

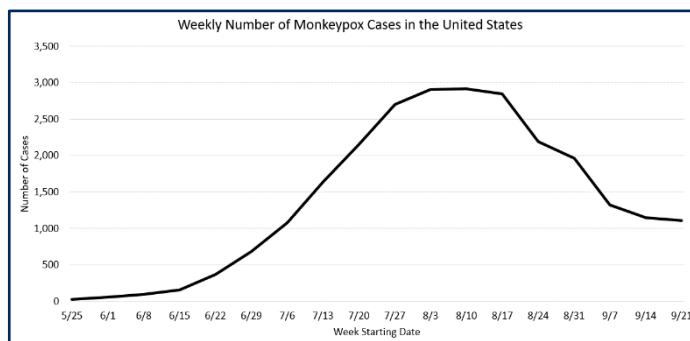

25,509

+2,735 cases
Since 9/14/22

Key Points:

- Monkeypox does not spread easily to others, and the risk of monkeypox spreading widely throughout our community remains low.
- Getting [vaccinated](#) (if eligible), asking your healthcare provider [to test you](#) if you have [a rash](#) consistent with monkeypox, and [isolating](#) if infected continue to be important tools in reducing spread of the virus.
- Winnebago County Health Department is currently offering the JYNNEOS monkeypox vaccine, by appointment only, to individuals at the highest risk of infection based on the [Wisconsin Department of Health Services](#) prioritization. To make an appointment or see if you are eligible, call 920-232-3026 or email wchd.cd@winnebagocountywi.gov.
- For questions or concerns regarding Monkeypox, visit the [Winnebago County Health Department website](#) or call the Health Department Hotline at 920-232-3026.

Weekly Case Counts in the United States

1,109
Cases from
9/21-9/27

1,151
Cases from
9/14-9/20
