# Winnebago County Health Department Monkeypox Data Summary

November 11, 2022

## Monkeypox Snapshot

Data updated on Wednesday, November 9

### Winnebago County:

**2**

+0 cases  
since 8/24/22

### Wisconsin:

**87**

+1 cases  
since 10/28/22

### United States:

**28,797**

+1,775 cases  
Since 10/28/22

### Key Points:

- Monkeypox does not spread easily to others, and the risk of monkeypox spreading widely throughout our community remains low.
- Getting [vaccinated](#) (if eligible), asking your healthcare provider [to test you](#) if you have [a rash](#) consistent with monkeypox, and [isolating](#) if infected continue to be important tools in reducing spread of the virus.
- Winnebago County Health Department is currently offering the JYNNEOS monkeypox vaccine, by appointment only, to individuals at risk of infection based on the [Wisconsin Department of Health Services](#) prioritization. To make an appointment or see if you are eligible, call 920-232-3026 or email [wchd.cd@winnebagoctywi.gov](mailto:wchd.cd@winnebagoctywi.gov).
- For questions or concerns regarding Monkeypox, visit the [Winnebago County Health Department website](#) or call the Health Department Hotline at 920-232-3026.

# Weekly Case Counts in the United States

**168**  
Cases from  
11/2-11/8

**268**  
Cases from  
10/26-11/1
