Health Department**

# Winnebago County Health Department COVID-19 Data by School District Geographic Boundary

November 5, 2020

## Summary

- **Stay at home.** There are thousands of people currently infected with COVID-19 in Winnebago County and thousands more that have been exposed and may develop the disease. Many do not know they are infected and others are knowingly breaking isolation and quarantine. **Assume that every public place you are in has a risk of exposure to you.** Wear a mask, keep your distance at all times in public, and minimize your time in any indoor environment outside your home. Assume household members that are active outside of the home can infect you. Group gatherings and a lack of physical distancing in indoor spaces remain the most important contributors to the pandemic in this area.
- When you seek goods and services, support businesses that engage in precautionary measures to keep our communities safe. If a business is not following safe practices, consider speaking with management or reporting your concern to the health department through this [form](#).
- Support local businesses. Use local curbside pickup and delivery to help support local service industries.
- **Deaths are on the rise.** One-quarter of the 61 confirmed COVID-19 deaths in our jurisdiction have occurred in the past 2 weeks.
- COVID-19 hospitalizations are at record levels across the state. In our region, **COVID-19 hospitalizations remain dangerously high.** As of 11/4/20, Fox Valley area hospitals had 154 COVID-19 patients hospitalized, an increase from the 146 patients last week. [The Wisconsin State Fair Park Alternate Care Facility](#) currently has 6 patients.
- The confirmed case rate over the past 2 weeks for our jurisdiction is 1,027.0 cases per 100,000, a decrease from the updated case rate of 1,032.2 per 100,000 for last week. The doubling time for our cases is 44.9 days. For all of Winnebago County, the case rate over the past 2 weeks is 1,176.9, and for the Fox Valley [HERC](#) region it is 1,277.1\*, putting both at a **very high burden level.**
- The number of cases in the first week of this 2-week timeframe was 768 and for this most recent week is 811. Cases are now generally distributed throughout all jurisdictions and adult age groups. Individuals aged 25-29 had the highest confirmed case rate of 1,431.1 per 100,000 over the past 2 weeks. Rates are lower in those under 18 (475 per 100,000) and among young adults aged 18-24 (722.2 per 100,000).
- With much lower case rates in children in our area, some school districts are modifying current attendance models. Winnebago County Health Department is supportive of hybrid attendance models that keep students physically distanced and allow for at least some in person instruction. We will continue to monitor case numbers to help ensure student and faculty safety. It is a balance we are learning more about as we go. Comments and concerns may be sent to [health@co.winnebago.wi.us](mailto:health@co.winnebago.wi.us).
- **Testing percent positivity is at 17.0%** for the past 2 weeks which is still far from our goal of remaining below 5% positivity. The [regional COVID-19 testing site](#) at Sunnyview Expo Center in Oshkosh has averaged performing 492 tests per day over the past 2 weeks. Regional testing capacity is increasing with additional National Guard sites open in other counties. If you have been tested, please stay home until you receive your test results and follow the guidance provided.
- **Contact tracing capacity is significantly strained.** We are still able to reach out to all people who tested positive within 24-48 hours of being reported to the health department. Despite adding nearly 30 full-time equivalent contact tracing positions to our health department, we are unable to provide contact tracing for all confirmed cases. If you have tested positive, please notify close contacts.
- **Older adults and people with underlying medical conditions** are most at risk. If you have cancer, chronic kidney disease, COPD, obesity, serious heart conditions, sickle cell disease, or diabetes, you should take these warnings very seriously and take extra precautions to stay safe.

## Background Information

This report provides *preliminary* data on the confirmed COVID-19 cases from October 21 – November 3, 2020 for school districts located within the Winnebago County Health Department (WCHD) jurisdiction. Dates utilized for all graphs and tables are based on test result date and may not represent final case counts. Data may be underreported for recent days because results can take multiple days to be reported to the health department. As this is a weekly report for the past 14 days, there will always be a week of overlap between reports.

Data by school district geographic boundary may differ from data provided by the respective school district. School district geographic boundaries are the geographic area from which children are **eligible** to attend a certain school district. Data by school district geographic boundary includes cases among all individuals that live within that boundary regardless of age or where they attend school. In this report, data for school age children (5-17) does not differentiate between where they actually attend school or if they are homeschooled.

### For school district specific COVID-19 information:

- [Neenah Joint School District](#)
- [Omro School District](#)
- [Oshkosh Area School District](#)
- [Winneconne Community School District](#)

\*The COVID-19 data provided in this report is specific to the Winnebago County Health Department (WCHD) jurisdiction (population: 153,748). It does not include the portions of the City of Menasha or City of Appleton that fall within Winnebago County as those areas fall within the jurisdiction of the [City of Menasha Health Department](#) and [City of Appleton Health Department](#). With the increased amount of testing occurring in correctional facilities, starting October 3, 2020, data reports from the Winnebago County Health Department will not include test results from those living in Wisconsin Department of Corrections facilities, which includes the Oshkosh Correctional Institute. You can find testing data for the Wisconsin Department of Corrections on [this website](#).

Data provided on the [Department of Health Services website](#) may be different than the information provided by WCHD because the state reports data for the entire county based on address, which includes those portions of Menasha and Appleton as well as the correctional facilities.

## Confirmed Cases by School District Geographic Boundary for the Past Two Weeks (October 21 – November 3)

There have been 1,492 new positive cases in the past two weeks within the geographic boundaries of the Neenah, Omro, Oshkosh, and Winneconne School Districts. An additional 87 cases were within the geographic boundaries of other school districts that only partially fall within our jurisdiction.

School District	Case Count for past 2 weeks	Case Rate (per 100,000)	Burden**	Population***
Neenah Joint School District Area	460	1,031.4	Very High	44,601
Omro School District Area	113	1,468.1	Very High	7,697
Oshkosh Area School District Area	817	1,016.1	Very High	80,408
Winneconne School District Area	102	1,051.4	Very High	9,701
Winnebago County Health Department Jurisdiction	1,579	1,027.0	Very High	153,748
Winnebago County	1,993	1,176.9	Very High	169,926
Wisconsin	61,315	1,060.6	Very High	

\*\*Burden is based off of the case rate per 100,000 people in the past two weeks. To be consistent with the state's burden status categories, we have renamed our 'critical' category to be labelled 'very high'. See table below for more information on Burden Status for our county. Visit the DHS website for more information on this indicator

<https://www.dhs.wisconsin.gov/covid-19/local.htm>

\*\*\*Population for school district was retrieved from <https://nces.ed.gov/programs/edge/TableViewer/acsProfile/2018>

Winnebago County Health Department Jurisdiction does not include the portions of the City of Menasha and the City of Appleton that fall within Winnebago County.

Burden Status	Case Rate per 100,000 residents in the past two weeks	Neenah SD Area	Omro SD Area	Oshkosh SD Area	Winneconne SD Area
Low	Case rate is less than or equal to 10.	Less than 4 cases.	Less than 1 case.	Less than 8 cases.	Less than 1 case.
Moderate	Case rate is greater than 10, but less than or equal to 50.	Greater than 4 cases, but less than or equal to 22 cases.	Greater than 1 case, but less than or equal to 4 cases.	Greater than 8 cases, but less than or equal to 40 cases.	Greater than 1 case, but less than or equal to 5 cases.
Moderately High	Case rate is greater than 50, but less than or equal to 100.	Greater than 22 cases, but less than or equal to 45 cases.	Greater than 4 cases, but less than or equal to 8 cases.	Greater than 40 cases, but less than or equal to 80 cases.	Greater than 5 cases, but less than or equal to 10 cases.
High	Case rate is greater than 100, but less than or equal to 350.	Greater than 45 cases, but less than or equal to 156 cases.	Greater than 8 cases, but less than or equal to 27 cases.	Greater than 80 cases, but less than or equal to 282 cases.	Greater than 10 cases, but less than or equal to 34 cases.
Very High	Case rate is greater than 350.	Greater than 156 cases.	Greater than 27 cases.	Greater than 282 cases.	Greater than 34 cases.

Number of cases for each Burden Status refers to the number of cases during a two-week time span.

To be consistent with the state's burden status categories, we have renamed our 'critical' category to be labelled 'very high'.

## Number of Confirmed Cases and Rate per 100,000 People by School District Geographic Boundary in the Past Two Weeks (October 21 – November 3)

The highlighted cells for Neenah and Oshkosh School District Geographic Boundaries are colors associated with the burden status. Please see the table above for more information on burden status. This information is not provided for Omro and Winneconne School District Geographic Boundaries due to the small population size.

	Neenah SD Area		Omro SD Area		Oshkosh SD Area		Winneconne SD Area	
Age Group	# of cases	Rate per 100,000	# of cases	Rate per 100,000	# of cases	Rate per 100,000	# of cases	Rate per 100,000
<5	7	250.5	0	0.0	12	291.3	0	0.0
5-9	12	433.4	5	929.4	13	323.9	1	203.7
10-14	19	582.6	9	1,388.9	23	590.5	4	610.7
15-17	9	525.1	4	982.8	15	565.2	5	1,453.5
18-19	8	1,017.8	2	1,005.0	19	528.5	1	588.2
20-24	18	760.5	5	1,381.2	69	677.0	7	1,758.8
25-34	80	1,392.8	15	1,955.7	154	1,372.3	11	1,258.6
35-44	69	1,212.4	21	2,183.0	110	1,194.2	16	1,588.9
45-54	80	1,341.8	12	1,073.3	145	1,369.1	18	1,132.1
55-64	76	1,094.0	24	2,441.5	135	1,459.0	18	1,000.6
65-74	39	974.0	10	1,042.8	74	1,295.7	13	1,110.2
75-84	26	1,350.6	4	1,298.7	31	748.3	8	1,478.7
85+	17	2,668.8	2	1,156.1	17	939.7	0	0.0

Rate is determined by # of new confirmed cases during the past two weeks divided by population in the school district geographic boundary multiplied by 100,000. Rates can fluctuate greatly with small population sizes like Omro and Winneconne making it difficult to call out high rates. **Small population data may be more effectively looked at in a trend wise fashion.**

## Age Group Trended Over Time

The tables below show the biweekly confirmed cases counts by school district geographic boundary across the past 3 months.

The graphs on the following pages show how case rates by age group have changed over time for Oshkosh and Neenah School District boundaries. The first graph on each page shows the biweekly confirmed case rates per 100,000 residents. The second graph shows the cumulative confirmed case rates. Cumulative case rates will always trend upward, it is the rate of increase in that trend that helps us understand what populations are being impacted the most. Omro and Winneconne do not have similar graphs due to small population size and small confirmed case counts in these geographic areas.

OMRO SCHOOL DISTRICT AREA				
Biweekly Confirmed Case Counts for Select Age Groups in the Omro School District Boundary				
Week	<5	5-9	10-14	15-17
8/5-8/18	0	0	0	0
8/12-8/25	0	0	0	0
8/19-9/1	0	0	0	0
8/26-9/8	0	0	0	0
9/2-9/15	0	0	0	0
9/9-9/22	1	3	3	0
9/16-9/29	2	3	6	2
9/23-10/6	2	0	5	4
9/30-10/13	1	5	3	4
10/7-10/20	1	8	7	2
10/14-10/27	1	5	9	1
10/21-11/3	0	5	9	4

WINNECONNE COMMUNITY SCHOOL DISTRICT AREA				
Biweekly Confirmed Case Counts for Select Age Groups in the Winneconne School District Boundary				
Week	<5	5-9	10-14	15-17
8/5-8/18	0	0	1	0
8/12-8/25	0	0	1	0
8/19-9/1	0	0	0	0
8/26-9/8	0	0	0	0
9/2-9/15	0	0	0	0
9/9-9/22	1	0	0	1
9/16-9/29	1	1	1	3
9/23-10/6	0	2	2	5
9/30-10/13	2	4	4	7
10/7-10/20	2	6	5	7
10/14-10/27	0	4	5	7
10/21-11/3	0	1	4	5

OSHKOSH AREA SCHOOL DISTRICT AREA				
Biweekly Confirmed Case Counts for Select Age Groups in the Oshkosh School District Boundary				
Week	<5	5-9	10-14	15-17
8/5-8/18	0	4	0	4
8/12-8/25	0	2	2	2
8/19-9/1	0	1	4	1
8/26-9/8	0	2	2	2
9/2-9/15	1	1	4	6
9/9-9/22	3	4	8	12
9/16-9/29	6	9	12	20
9/23-10/6	7	11	18	23
9/30-10/13	3	13	21	18
10/7-10/20	3	11	17	18
10/14-10/27	11	13	19	15
10/21-11/3	12	13	23	15

NEENAH JOINT SCHOOL DISTRICT AREA				
Biweekly Confirmed Case Counts for Select Age Groups in the Neenah School District Boundary				
Week	<5	5-9	10-14	15-17
8/5-8/18	1	2	1	0
8/12-8/25	2	1	1	1
