2023 Net Library Budget: The 2024 library tax levy is based on the 2023 net budget. The formula is always based on the past year budget because the municipalities do not prepare their library budgets for the next year until after the County has completed it's budget process.

<u>Percent of County Users/Usage</u>: The formula is set to allocate the County share of the library budget based on actual usage by County residents. This percent is based on the number of users outside of the municipality responsible for the library divided by the total of all usage of the facility.

Special Project Grant: The libraries are submitting one special project request this year, divided into three parts:

The first request is for \$20,000 which will go towards the purchase of eBooks and eAudiobooks. These titles will be added to the Winnefox Advantage Collection. Winnefox patrons will have access to this titles through the Libby App.

The second request is for \$30,000 which will go towards the individual libraries collection of electronic resources. Out of their operating budgets, libraries have to pay for additional electronic resources, like Hoopla, Kanopy, and others. This financial resource will help offset the growing demands of these services, whose budget increases each year.

Both of these requests reflect the increasing demand for electronic titles. While print title circulations have remained steady in recent years, the demand and use of eBooks, eAudiobooks, and streaming video continues to increase and library operational budgets are stretched to meet the demands.

The final \$32,474 will go towards programming at the five libraries in Winnebago County. Programming numbers continue to increase, but those numbers are not reflected in the county reimbursement formula. Despite this, the libraries see large numbers of program use by County rural patrons.
