

## Winnebago County Safe Streets Drug Court Mission Statement

The primary purpose of the Winnebago County Safe Streets Initiative is community safety. We are seeking a balance between punishment and rehabilitation by providing alternatives to incarceration.

Our focus will include treatment and programs to instill accountability in citizens involved in drug and alcohol-related offenses against our community. Our intent is to effectively use both government and community-based programs. The goal is to have a more productive citizen upon completion of these programs, thereby lowering the rate of recidivism.
