

Alzheimer's disease is bad. Ignorance of the disease is worse.

Former Governor Marty Schreiber

10 lucky attendees will take home a signed copy of Marty's book!

Learning, Coping & Surviving As An Alzheimer's Caregiver

Join former Wisconsin Governor Martin J. Schreiber as he shares lessons from his journey as a caregiver for his late wife, Elaine, who lived with Alzheimer's disease. Governor Schreiber will candidly describe his challenges and missteps, and highlight how compassion and humor provide comfort to both caregiver and the person with dementia. His raw honesty and practical advice will inspire other caregivers to find the patience, courage and love as they climb the Alzheimer's mountain.

Learn what you can do to fight the disease in your community.

Following Governor Schreiber's presentation, there will be a chance to learn about resources offered by the Alzheimer's Association and ways to get involved in this year's Walk to End Alzheimer's. After the presentation, please join us for a 30-minute meet & greet with Governor Schreiber.
