Memorial Tree Program

Sesquicentennial Tree Grove at J.P. Coughlin Center

One hundred fifty years ago, the Oak Savannah Plant Community dominated the Winnebago County landscape. Eventually, these large

tracts diminished to a point where few now remain. In an effort to restore a piece of Wisconsin's Heritage the Winnebago County Sesquicentennial Committee created this grove. The names of individuals for whom each tree is planted will appear on plaques permanently located inside the J.P.

Winnebago County Community Park EAB Restoration

The Emerald Ash Borer was discovered in Winnebago County in 2013. With this discovery all species of ash within the County were threatened. The Winnebago County Community Park has over 500 ash trees. In an attempt to preserve the tree canopy within the Park for future generations new trees will need to be planted as the infected Ash trees will certainly die over time. A future plaque with donors names will be installed within the Community Park.

The Road Not Taken

Two roads diverged in a yellow wood,
And sorry I could not travel both
And be one traveler, long I stood
And looked down one as far as I could
To where it bent in the undergrowth;

Then took the other, as just as fair,
And having perhaps the better claim
Because it was grassy and wanted wear,
Though as for that the passing there
Had worn them really about the same,

And both that morning equally lay
In leaves no step had trodden black.
Oh, I kept the first for another day!
Yet knowing how way leads on to way
I doubted if I should ever come back.

I shall be telling this with a sigh
Somewhere ages and ages hence:
Two roads diverged in a wood, and I,
I took the one less traveled by,
And that has made all the
difference.
