

Nutrition and Winnebago County High School Students

What are the issues?

- **46.0%** of students reported that they were trying to lose weight.
- **40.0%** of students reported that they ate fruit one or more times per day during the past seven days.
- **35.6%** of students reported that they ate vegetables (other than carrots, green salad, and potatoes) one or more times per day during the past seven days.
- **19.6%** of students reported that they drank a can, bottle, or glass of soda or pop (that is not diet) one or more times per day during the past seven days.
- **39.7%** of students reported eating breakfast every day for the past 7 days

What are the solutions?

K-12 skill-based health education

Parent and family involvement

Trained staff

Comprehensive school wellness policies

Using Wisconsin education standards for health and nutrition

What are some resources to help address the problem?

- Wisconsin Department of Health Services – Nutrition and Physical Activity Program
<http://www.dhs.wisconsin.gov/physical-activity/>
- CDC - Fruits & Veggies-More Matters <http://www.fruitsandveggiesmatter.gov/>
- CDC - Division of Adolescent and School Health: Nutrition Resources
<http://www.cdc.gov/HealthyYouth/nutrition/index.htm>
- USDA: Healthier US School Challenge
<http://www.fns.usda.gov/tn/HealthierUS/index.html>

Wisconsin Department of Public Instruction
