April 20, 3:00-6:00PM

Town of Menasha Fire Department
1000 Valley Road, (Hwy P), Menasha
April 21, 9:00 AM - Noon

Why participate in this event?

While household hazardous wastes make up only a small percentage of household waste, they are still considered a serious problem. When disposed of improperly, household hazardous wastes can threaten the quality of our drinking water, increase the threat of algae bloom, and threaten the safety of sanitation workers. In addition, household hazardous wastes left around the house and garage pose an accidental poison risk to children and pets. Help the environment and keep your home safe by participating!

This special Clean Sweep Program is sponsored by:

Calumet County
UW Extension

2012 Household Hazardous Waste
Clean Sweep Program
April 20, 9-11 AM, Clayton
April 20, 3-6 PM, Appleton
April 21, 9 AM-Noon, Menasha

FOR RESIDENTS OF THE:

CITIES OF APPLETON AND NEENAH
CITY AND TOWN OF MENASHA
TOWNS OF CLAYTON, HARRISON & BUCHANAN

What are household hazardous wastes?

Just a small sampling of hazardous household items.

Hazardous wastes are typically found in your basement, garage, under the kitchen sink, craft area, or workshop. They are used to do things like clean, repair,

paint, or kill pests. Any such product that is out of date or not being used is a hazardous waste. Look for these indicator words on the label:

**CAUTION ● WARNING ● DANGER ●
POISON ● FLAMMABLE ●
COMBUSTIBLE ● CORROSIVE**

When is this program offered?

Residents of the Cities of Appleton and Neenah, the City and Town of Menasha, and the Towns of Clayton, Harrison and Buchanan are able to dispose of these items for **free** with an appointment during the special Household Hazardous Waste Clean Sweep. These programs will be held

- **April 20, 9-11 AM** at the Town of Clayton Public Works Department, 8348 County Road T, Larsen
- **April 20, 3-6 PM** at the City of Appleton Municipal Service Building, 2625 E. Glendale Ave., Appleton
- **April 21, 9 AM-Noon** at the Town of Menasha Fire Department, 1000 Valley Road (HWY P), Menasha.

What are the rules for participating?

- Live in the City of Appleton, Menasha, or Neenah, or the Town of Buchanan, Clayton, Harrison or Menasha.
- Keep individual materials in their separate containers. **DO NOT MIX!**
- Containers must be **5 gallons** in size or less.
- When transporting to the collection site, place materials in a cardboard box. **Materials must be brought in containers that can be left at the site.**
- **Schedule an appointment by calling 920 -832-5277 and selecting option #3.**

Hazardous items disposed of properly during a Clean Sweep.

What if I can't make these dates or don't live in the service area?

If you are unable to attend this event, or do not live in the service area, other options exist! Outagamie and Winnebago Counties hold ongoing programs for all county residents throughout the year, and Calumet County has a countywide program in May. Visit your county website or contact your county for more information about these options.

Clean Sweep for Businesses

Qualifying businesses are eligible to participate in the Clean Sweep program. Please inquire with your county office listed on the back of this brochure.

Acceptable Materials

See the front of this brochure for a listing of the types of household hazardous waste that can be disposed of at a Clean Sweep in containers 5 gallons in size or less.

If the items you wish to dispose are not listed on the front of this brochure or if you are unsure if the items are hazardous or dangerous, please call your county office listed on the back of this brochure.

Unacceptable Materials

The following items require special handling and **WILL NOT** be accepted at Clean Sweep. For proper disposal, please contact your county.

- **Latex Paint**
- **Electronics**
- **CFL and fluorescent light bulbs**
- **Propane Cylinders and Gas Tanks**
- **Explosives and ammunition**
- **Radioactive Material** (smoke detectors)

There are numerous facilities in the service area to safely recycle computer components, monitors, televisions, fluorescent bulbs, and CFL bulbs for little or no cost. For a facility list, please inquire with your county office listed on the back of this brochure.

What about latex paint?

Latex paint **WILL NOT** be accepted. It is not a hazardous waste, so disposal of leftover latex paint through a household hazardous waste program is an unnecessary expense that takes disposal funds away from materials that ARE hazardous. Dried latex paint can be disposed with the regular trash. For information on how to properly dry and dispose of latex paint, visit your county's website listed on the reverse side.
