OSHKOSH, Wis. (August 20, 2021) – The Winnebago County Health Department, in partnership with the Oshkosh Public Library, will offer three free COVID-19 vaccination clinics at the Oshkosh Public Library (106 Washington Ave., Oshkosh, Wis.) on:

- Tuesday, August 24 from 9:30 a.m. to 12:30 p.m.
- Friday, August 27 from 8:30 a.m. to 12:00 p.m.
- Tuesday, August 31 from 9:30 a.m. to 12:30 p.m.

Appointments are NOT required. Vaccination is open to all individuals aged 12 and older. The clinic is offering both the Pfizer and Moderna vaccines. Both Pfizer and Moderna are a two-dose series vaccination. You will be considered fully vaccinated 14 days following the second dose of either your Pfizer or Moderna vaccination. Pfizer is the only vaccination available to children ages 12 to 17 at this time.

"As cases climb throughout Winnebago County, we are continuing our efforts to bring vaccination clinics closer to where our community members live and work," said Doug Gieryn, director/health officer for the Winnebago County Health Department. "We encourage everyone eligible to get vaccinated to help curb COVID-19 as we move into the next school year and back indoors this fall. We also recommend everyone, vaccinated and unvaccinated to wear a mask in indoor public settings and crowded outdoor venues."

Third doses for those eligible may not be available at this location. You can call the Winnebago County Health Department's COVID-19 Hotline at 920-232-3026 between 8 a.m. to 4 p.m., Monday through Friday, with any questions related to COVID-19 and vaccination.
